GEORGE M. CANNON CO., Rooms 512-513 Templeton Building. 'Phone Bell 57,

week this property has shipped two lots of ore, the returns from which will .25 .49 .02 .48 insure operations at the mine for an-other two months even though another pound of ore is never mined. There is other two months even though another pound of ore is never mined. There is on the company's ground at the mine; a first class and well equipped hoisting works and machinery; there is no water in the mine; all work is paying for it-self and still the stock sells down to 14 or 15 cents right along, and the bet-ter the mine looks the lower the price of the stock goes. The New York has a near neighbor; it also is capitalized for 300,000 shares of the par value of \$1 per share, just as is the New York; for years, good enterprising men have promoted its development but up until very recently it was never even claimed for drive and changed hands at from \$4 of a cent up to \$3 and \$4 a share. Now it is said that there is ore in the property in question; maybe there is, none has ever been shipped out, but nevertheless stock is holding strong at from sixbits to \$0 cents per share. Will some one kindly tell us why a shipping property in Park City is valued at less by far, and always has been, than an adjoining property which never heid claim to being anything more than a prospect. 103 ... 2.25 3.00 .08 .10 .07 .49 1.90 .47 .58 .51 1.921/2 .48 .54 .07 2.35 2.321/2 .08 .181/2 .14 5.00 4.00 .01 .051/2 .04% .34% 2545 70 30 .69.2812 $\begin{array}{r}

Consolidation of Tintic Mines to Be

A special meeting of shareholders of the Swansea Mining company has been called for June 1, on which date the matter of consolidation with the South Swansea Mining company will be dis-cussed and, no doubt, duly authorized. It is proposed to organize what is to be known as the Swansea Consolidated Mining company with a capitalization of 1,000,000 shares of the par value of \$1 each. On the same date sharehold-ers of the South Swansea Mining com-pany will hold a special meeting for a like purpose. A special meeting of shareholders of

Effected on June 1.

Shareholders of the old companies will receive the same number of shares that they now hold in the consolidated company, and 400,000 shares will be left in the treasury to be at the disposi-tion of the board of directors. There are 6,000 shares of unissued stock in the treasury of the Swansen company which will likely be distributed as a stock dividend.
