

CLASS OF 90 JOINS ALUMNI

Interesting High School Graduating Exercises Are Held in Salt Lake Theater.

CAPT. MORETON'S ADDRESS.

Leader of Cadet Corps Holds That Men Are Too Greedy for Money.

Today the youngsters who entered the high school four years ago are listed among its alumni, and as young men and women have the seal of their institution's approval on their course so far, and its best wishes for the future.

The graduating exercises for the class of 1907 were held last night in the Salt Lake theater. There were enough young people to graduate to fill the stage, and enough of their friends present to pack the rest of the house. The program by which they bade goodbye to their alma mater was one which impressed the occasion on the minds of all present, made it the red letter day of all their high school experiences. Musical numbers predominated, and broke the monotony by separating the speech making with lively intervals. As an opening number the High School orchestra rendered Offenbach's "Orpheus in der Unterwelt," and this was followed by a class chorus. The singing made a decided impression, and it was followed during the evening by a girl's chorus "Hilfer Färlies," a boy's chorus "Trump, Trump, Trump," a class chorus, "Kiss, Kiss, Kiss," and a farewell song "Friends."

The speeches were an address of welcome by Roy D. Coates, class president, an address by Phil Hesselberg, valedictorian, and a presentation of diplomas by Mathew Thomas of the board of education.

An interesting event was the wand drill by 30 girls whose movements with the wands were in excellent rhythm, and precise in execution. The music was catchy and full of snap.

FOR LARGER HIGH SCHOOL.

Roy Coates, the president of the class of 1907, gave an address of welcome to the audience and detailed the interesting career of the class, humorously alluding to merits and minor defects. Coates made a plea for larger high school accommodations as the present buildings are becoming rather cramped for the increasing school attendance. Miss T. Hesselberg, the only girl speaker, she referred to the typical High School girl as a representative American girl, and a natural leader. Another attractive feature of the evening was the presentation by the class of three silver cups to be awarded for among the class, one for football, one for baseball and one for track. J. R. Whittemore made the presentation speech, and Darwin Richardson, president of the Athletic Association, formally accepted the gift.

THE VALEDICTORY.

The valedictory was pronounced by Capt. Lester of the cadet corps whose effort was a most excellent one. He said in part:

If I were to represent truly the feelings of our class tonight I could not be to say that "Today our education ends and tomorrow life begins," for I am sure we all realize that the process of education in the school is continuous. It never ends, perhaps not even with the grave. Moreover, we all feel that we need not so much a valedictory as we need a benediction from you to help us carry out this grand idea that "life is real, life is earnest," and "the grave is not its goal."

Some people say that the higher education, of which high school is the foundation, leads to dreamy idealism which unfits the student for the practical world. Perhaps all the branches taught at high school do not bring ready returns in dollars and cents and the world's material goods. But the higher education does give to one a certain impress in mind and character which the standards of the school have created and which will avail in more important life than the bare facts he has learned. If a school develops character and strengthens individuality it has become a public benefactor, but if it fails to do this surely its real purpose and object have not been accomplished. It is a well-known maxim in sociology and in ethics that the community should train its members for the proper use of freedom as a means of public service, instead of allowing them to believe that the purpose of education is to get a man's life to get all that he can out of his fellow man.

MATERIAL GREED.

The world's standard of success, I am sorry to say, is based on what a man gets out of the public, be it wealth, votes, or social position. The man who gives it in return. The degree of success which a man attains is too often measured by the number of old round dollars he has gathered together. His material greed, rather than by the value of the man himself to mankind.

It will be generally conceded that the high school age is the period in one's life in which he either extends his range of view and begins to grasp the true meaning of things, or continues to live along in the same beaten path made by others.

Yet if our last four years have taught us not many new things, but have improved the prejudices brought up from the very cradle, and broadened the narrowness of childhood, the high school has accomplished its mission.

WHAT TO STUDY.

What have we acquired and what should we have acquired are the paramount questions. Modern education authorities agree that in our modern age an extensive knowledge is necessary, a wide knowledge, not a deep one, for it would be impossible to specialize in all branches. A person should have enough English to be able to write and speak fluently. A fair knowledge of Latin is desirable. Not only for the mental discipline derived therefrom, but also for the language itself, and its intimate relation to our tongue. Mathematics is usually the branch by which pupils are graded. It has been truly said that the subject is a study of the quantitative relations of life. A person who has studied mathematics has trained his mind and improved his judgment. He is more capable of making proper decisions and his powers of discrimination and analysis are greatly improved. In the last century science has made marvelous advances and it is perhaps the greatest factor in the development of modern education. In this day a man must have a fair knowledge of the leading natural sciences, for by far the highest point in learning can only be reached by a study of nature and the understanding of how nature works. Indeed many a man has been well content to devote his entire time to the congenial atmosphere of scientific research, often spending his whole life in the endeavor to get before the public some new theory by which the great world acts. And the philosopher at the age of three scores and ten regrets that he has to depart when he has only begun to understand the rules of the universe.

I have only mentioned the material

part of nature which is of little importance when compared with its true mission. A man may not stir from the home of his childhood, and yet not to cross a continent, nor sail the wide seas to study nature, and if he does it with augmented force that the greatness of the universal laws are revealed.

Now that we have our partial education, what shall we do with it? The people, who are not the owners of the high school, they feel not the inspiration for better things which it has engendered in the hearts of all its students. They feel not the weighty influence of our teachers. The people see only the product of the high school, the so-called graduate, who is only beginning to step into the school of life and it is by the graduate that the school is judged. Since the merit of our high school will be determined by the character of its graduates, it behooves all of us, non nobis solum, but for the sake of our alma mater to do our best.

If it be our desire to be educated in the full sense of the term do not think that we shall find the best there is in education hidden between the covers of a book. My classmates, if we wish to be truly educated we can only accomplish this from a study of life in its entirety. Every man has something to contribute. The teacher, the traveler, the manufacturer, the soldier. All should be heard from. Any, but above all, we should hear from ourselves.

Our instruction in the school of life will be numbered. Perhaps our successes will be numbered, while our so-called failures will be common occurrences, but failures are often the things from which greatest good is derived in the school of experience. We deal with things as they are, not as we would have them; often our greatest joy comes from overcoming difficulties.

These things, which we deal with, are the board of education then presented Thomas Chamberlain of the graduating class with the Mayo gold medal for having the highest record in science in the school; and after a well delivered address to the audience and young graduates, distributed the diplomas. These were received by the members of the class in a well executed march, and Principal Eaton then read the following list of graduates:

Classical Course—Ada Bradford, Iva Ensign, Esther Hart, Julie Hesselberg, Leona Malt, Lorraine Miles, Margaret Parsons, Hazel Reed, Mary Storey, Emera Walker, Mary W. Little Waples, Dorothy Weber, Pauli White, Frank Bokrud, Vincent Sadler, Thomas Chamberlain, Roy Coates, Benere Grant, William Jones, Tarrill, Hoyt, Joe Johnson, Scott Kimball, John Leobour, Harold Martin, Hazel Knowles, Leon Moreton, Lester Moreton, Ralph Parmalee, Joseph Samuels, Russell Smith, J. R. Whittemore, Benjamin Wolff, Esther Young.

English Course—Florence Alt, Mildred Bancroft, Rosa Callison, Nellie Carter, Carrie Christensen, Ruth Corum, Elsie De Groot, Ivy Evans, Lilla Farrell, May Galtbreth, Lucy Quinn, Lily Relsner, Catherine Sneigrove, Grace Tompest, Elise Yates.

English Commercial—Violet Joynt.

Normal Preparatory—Rachel Benoni, Emma Dymann, Margaret Harrison, Myrtle Kolsey, Lolla Schuler, Maude Smith, Florence Smith, Lilla Tufts, Ethel Hayward.

Christensen, Rose Hogan, Lucy Krebs, Lucy Nichols, Albra Sperry, Nora Vanless, Margaret Werner, Bessie Woodruff, Harold Woodruff, John Claes, Earl Farnsworth, Eliebert Shores, W. Q. Van Cott, Harry Wellington, Lynn W. Wilcox, John Williamson, Mervin Whitner.

A Wonderful Tonic

HORSFORD'S ACID PHOSPHATE

Cooling, refreshing and invigorating. Builds up the system and feeling during spring and summer.

AGED FOLK COMMITTED.

Richard D. Booker and Mrs. Bettridge Sent to the Mental Hospital.

Judge Armstrong yesterday afternoon committed Richard D. Booker, aged 60 years, and Mrs. Hannah Bettridge, aged 74 years, to the state mental hospital at Provo. The couple were examined by County Physician Caldwellwood and his assistant, Dr. Raley. Booker's examination was commenced several days ago and was completed yesterday. He testified that he had wanted to get rid of him and that he was not insane. Testimony of witnesses convinced the court that the man needed some treatment, and he was committed to the county infirmary for several years, and of late has shown suicidal tendencies. That he had wanted to jump out of a second-story window at the infirmary. The complaint charging her with insanity was sworn to by Supt. Cottle of the infirmary.

ANCIENT ROME

is now merely a memory of the past. Ballard's Snow Linsmen is the family history of the twentieth century. A positive cure for Rheumatism, Burns, Cuts, Sprains, Neuralgia, etc. Mr. C. H. Runyon, Stambury, Mo., writes: "I have used your substance for Rheumatism and pain. I can't say enough in its praise." For sale by C. M. M. Drug Dept., 112 and 114 South Main Street.

WILL BE A SQUARE DEAL.

Denver Conference Will Be Wide Open And Free Discussion.

The Public Lands convention in Denver, June 18, 19, and 20, will be a square deal to the administration, notwithstanding fears expressed from Washington to the contrary. The convention was called by authority of a resolution adopted by a Republican legislature. It was called by a Republican governor and has been approved by the legislature of 12 public land states in the west. President Roosevelt has been invited and has promised to send one or two members of his cabinet and a number of department heads. The questions to be discussed have been openly announced and the discussion will be full and free and open. There is no question but that the present policy of the government in relation to the public lands will be attacked, but the administration will have every opportunity to defend it and the action resulting from the discussion will represent the best judgment of the western people.

Reports indicate that there will be between 500 and 1,000 delegates in attendance. Several industrial organizations in the states west of the Missouri river, is entitled to be represented with five delegates.

The government of each state appoints to delegates and all members of Congress and United States senators are delegates ex-officio. The railroads announce low fares for those attending and there is the greatest interest in the matter.

FOOD CURE!

Most diseases are caused by improper food.

EAT Grape-Nuts

To be well.

"There's a Reason."

SCHOOL BOOKS SELECTED AT LAST

Board of Education Concludes Its Work of Choosing Vehicles Of Study.

CONTRACTS ARE TO BE SIGNED

List of Companies Which Will Provide The Necessary Text Books for Ensuing Terms.

The board of education has concluded its work in connection with the selection of text books to be used in the city schools and the contracts with the various companies will be signed up at once by the proper officers of the board. The books selected are as follows:

Mathematics—Wentworth's Plane Trigonometry, Ginn & Co.

Milne's Plane and Solid Geometry, American Book Co.

Essentials of Algebra, Stone and Mills, Sanborn Co.

Elements of German, Becker, J. J. Heath & Co.

Myer's Medieval and Modern History (Revised Edition), Ginn & Co.

West's Modern History, Allyn & Bacon.

Larned's History of England, Houghton, Mifflin & Co.

Goatard's The Orient and Greece, Macmillan Co.

Boisford's History of Rome, Macmillan Co.

Channing's Student's History of the United States, Macmillan Co.

Hart's Essentials of American History, American Book Co.

James and Sanford's Government in State and Nation, Charles Scribner's Sons.

Walker's Essentials in English History, American Book Co.

MacLaughlin's American Nation, D. Appleton & Co.

Physiology—Carhart and Chute's (Revised Edition), Allyn & Bacon.

Physiology in High Schools, Macy, American Book Co.

Physiology—Fairbank's Practical Physiology, Allyn & Bacon.

Commercial Geography, Redway, Charles Scribner's Sons.

Modern Commercial Arithmetic, Power & Lyons.

Commercial Geography, Redway, Charles Scribner's Sons.

Modern Commercial Arithmetic, Power & Lyons.

Elementary Composition, Syker, Scott and Denney, Allyn & Bacon.

Rhetoric and English Composition, Carpenter, Macmillan Co.

A First View of English Literature, Moody and Lovett, Scribner's Sons.

Hyde's School Speakers and Readers, Ginn & Co.

Clark's Handbook of Best Readings, Scribner's Sons.

Essentials in English Grammar, Scott and Buck, Scott, Foresman Co.

The English Sentence, Kimball, American Book Co.

Modern English Grammar, Beunier, Newson & Co.

Commercial Correspondence, Altmaier, Macmillan Co.

Practical Spelling, Practical Text Book Co.

French—A Practical Course with the French Language, Louis Langueiller and H. M. Monsario.

Geology—LeConte's Geology.

By unanimous vote the board decided to eliminate from the high school courses Spherical Trigonometry and Psychology.

Physiology—Krohn's Graded Lessons in Hygiene, D. Appleton & Co.

History—American Leaders and Heroes, Charles Scribner's Sons.

A History of the United States, Gordy, Charles Scribner's Sons.

History of the United States, Doub, Day & Co.

Piske's History of the United States, Houghton, Mifflin & Co.

Geography—First, third and fourth parts of Tarr, McMurtry's Geographies, five-book series, Macmillan Co.

Dodge's Geographical Series, Rand, McNally & Co.

Arithmetic—Primary Arithmetic, David Eugene Smith, Ginn & Co.

Southworth-Stone Arithmetic, Books I, II and III, Sanborn & Co.

Language and Grammar—Webster-Coolidge Language Series, Book I and Part I, Book Two, Houghton, Mifflin & Co.

Gordy-Mead Language Lessons and Gordy-Mead Grammar Lessons, Charles Scribner's Sons.

Scott-Southworth, Book One and Book Two, Sanborn company.

Jude's Book to English, Book One, Silver, Burdett & Ginn.

Spelling—Mayne's Sight Speller, Powers & Lyons.

Writing—The McManis System, Vertical Writing Company.

Practical Writing, American Book company.

O. P. Barnes System, O. P. Barnes company.

The Writing Hour, Maynard, Merrill & Company.

The Media Writing Book, Ginn & Company.

Reading—The Art Literature Primer, Atkinson, Menzies & Grover.

Arnold Primer, Silver, Burdett & Ginn.

Holton Primer, Rand, McNally.

Baker-Carpenter Language Reader, No. 1, Macmillan company.

The Jingle Primer, American Book company.

The Folk Lore Primer, Atkinson, Menzies & Grover.

Graded Literature, No. 1, Maynard, Merrill & Co.

Wheeler First Reader, W. H. Wheeler & Co.

Stepping Stones First Reader, Silver, Burdett & Co.

The Baker-Carpenter Language Reader, No. 2, Macmillan company.

The Folk Lore Reader, No. 1, Atkinson, Menzies & Grover.

Child Life First Reader, Macmillan company.

Graded Literature, No. 2, Maynard, Merrill & Co.

Wheeler Second Reader, W. H. Wheeler company.

Brooks Second Reader, American Book company.

Stepping Stones Second Reader, Silver, Burdett & Co.

Child Life Second Reader, Macmillan company.

The Blodgett Second Reader, Ginn & Co.

Graded Literature, Book 3, Maynard, Merrill & Co.

Baker-Carpenter Language Reader, No. 2, Macmillan company.

Stepping Stones Third Reader, Silver, Burdett & Co.

Baldwin Third Reader, American Book company.

Child Life Reader, Book 3, Macmillan company.

Wheeler Third Reader, W. H. Wheeler company.

Graded Literature, Book 4, Maynard, Merrill & Co.

Baker-Carpenter Language Reader, Book 4, Macmillan company.

Stepping Stones Fourth Reader, Silver, Burdett & Co.

Brooks Fourth Reader, American Book company.

Jones Reader, Book 4, Ginn & Co.

Child Life Fourth Reader, Macmillan company.

Lights to Literature, Books 5, 6, 7, 8, Rand, McNally & Co.

Baker-Carpenter Language Reader, Books 5 and 6, Macmillan company.

Curry's Literary Readings, Rand, McNally & Co.

New Educational Music Course, Ginn & Co.

SOCIAL AND PERSONAL.

Last night the wedding of Miss Beatrice Hyde and Rollin Wilbur Dole took place at the home of the bride's parents, Mr. and Mrs. George E. Hyde, the rooms being beautifully decorated with June roses and sprays, the bridal party standing in the bay window, which was a house of palms and flowers. The ceremony was performed by John Henry Smith, the bridesmaids were Miss Laura Dole and Miss Jeanette McKay, and Mr. Will McKee was best man. The bride wore a gown of white tulle with trimmings of Irish point and Valenciennes lace and carried a bouquet of white roses and lilies of the valley. Both bridesmaids wore in pink gowns and carried pink roses. A string orchestra played appropriate music during the evening and a number of intimate friends assisted in receiving and entertaining. Mr. and Mrs. Dole leave shortly for California, where they will make their home.

The engagement of Miss Jennie C. Dufrene and Harold Roy Free of Salt Lake is being announced, the wedding to take place June 13.

A large number of interesting bridal parties are set for today. Miss Daisy M. Nelson and J. Leo Hoffer were married at noon in the temple and a family dinner followed at the home of the bride's parents, Mr. and Mrs. Anthony Nelson. Tonight Miss Beatrice O'Brien and William M. McGee will be married at St. Paul's church, with Rev. E. Perkins officiating in the service. Mrs. W. C. Gendron and Mr. J. C. Gendron will be married at the home of the bride's parents, Mr. and Mrs. Howard R. Dole, at 8 o'clock, and Karl Scheid and M. J. Brines will be married.

Miss Lillian May Coulam and T. Alvin Hooper were married in the temple today. Miss Victoria Britton and Levi Edgar Young, Miss Florence Poulter and Joseph Walk, Miss Olive Cushing and Claude Eskine were also married, and receptions are to follow this evening, while a number of others will be solemnized in the temple.

A home wedding of tonight will be that of Miss Beatrice Davis and Dr. F. H. Raly with Rev. Benjamin Young performing the ceremony. Mrs. Alfred S. Peters acting as matron of honor, and Miss Helena Critzer as bridesmaid, while Mr. Howard Raly will be best man.

Miss Nellie Loback and William N. Evans were married last night at the home of the bride, which was beautifully decorated with flowers and vines. The occasion, Rev. E. L. Goshen performed the ceremony, and a number of friends assisted in receiving and serving.

Another of yesterday's weddings was that of Miss Alicia Giles and J. J. Caffrey, which took place at the home of the bride's parents with Bishop Maxwell officiating in the presence of the near relatives and friends. June roses were everywhere, and the affair a very pretty one.

Miss Jessie Lovejoy and J. Leroy West were married yesterday in the temple, the wedding taking place at the home of the bride's parents.

Mrs. Lawrence Hammett was guest of honor at an afternoon tea yesterday given by Mrs. Fred Schneider, the rooms being beautifully decorated in roses and sage lilies and about 70 guests being present.

Miss Evelyn Daly was guest of honor at a delicate bridge party given by the Misses Bess and Mildred McMillan. Today Mrs. Will Ellerbe and Miss Estelle Clinton give a luncheon at the country club in her honor, and tomorrow Misses Auraria and Marge Ellerbe entertain for her at luncheon at the Alta club.

Miss Lucy Gaby, another June bride, will be guest of honor today at a luncheon, her hostess being Miss Elsie Dickert.

Miss Winifred Whitehead and W. C. Sullivan of Chicago were married yesterday by Bishop Scanlan, a family dinner following at the home of the bride's brother-in-law, Mr. Birrell. The bride has a teacher in the Bryant school here.

Mrs. C. J. Thomas left this morning for a month's visit to Boston, where she goes to attend the reunion of the Chase Family association, of which she is a member.

Mrs. Herman E. Campbell entertained about 30 guests at an afternoon tea yesterday in honor of Miss Rye Tuckfield, whose marriage takes place in the near future. The rooms were decorated in roses of various colors.

Make a note now to get Ely's Cream Balm if you are troubled with nasal catarrh, hay fever or cold in the head. It is purifying and soothing to the sensitive membrane that line the passages. It is made to cure the disease, not for the purpose of giving a short, deceptive relief. There is no cocaine nor mercury in it. Do not be talked into taking a substitute for Ely's Cream Balm. All druggists sell it. Price 50c. Mailed by Ely Bros. 55 Warren Street, New York.

Musical in our Grill Room every evening from 8 to 10—Royal Cafe.

INSTANTLY KILLED.

B. W. Nash Meets Death Under a Falling Freight Car.

B. W. Nash, a street car man, was instantly killed in the Rio Grande railroad yards last night, while sleeping beneath the roof of the sandhouse. The accident was caused by the falling of a freight car over the end of the coal chute, at the end of which the sandhouse stands. Nash was seen to enter the building early in the evening and when the car went over the chute, it crushed the roof of the sandhouse and killed the unfortunate man under the beams. A Japanese laborer carried the information to a number of railroad men nearby, with difficulty making them understand that a man had been killed by the falling car and the body extricated, but it was evident that death had been instantaneous. A card was found in the dead man's pocket showing that he was a member of Cleveland local 282, Amalgamated Association of Street and Electric Workers of America, and that his dues had been paid for the month of May, his burial when he had only begun to work without means and was making

his way through the country in search of work. Nash was apparently of about middle age.

The body was turned over to the county authorities, and Undertaker O'Donnell took charge of the remains. Local 282 of the Street Railway union was notified, and a telegram was at once dispatched to Cleveland for instructions as to disposition of the remains.

FOR A DETENTION HOME.

Judge Armstrong Believes One Should Be Established for Mentally Unsound.

The establishment of a detention home for mentally unsound persons who are not in such condition that they should be sent to the mental hospital at Provo, is a suggestion made by Judge Armstrong before when nearly all the insane cases are heard in this county. Judge Armstrong is of the opinion that in many cases a great injustice is done by committing some persons to the mental hospital when all they need is care, attention and rest for a month or so to restore them to their normal mental condition. But under present conditions it is necessary to send them to Provo in order to give them the required treatment and attention. They are thus declared incompetent when in fact in a great many cases they could be spared that condition of affairs by being sent to a suitable detention home and cared for about a month.

In view of the fact that a great many of insane commitments are from Salt Lake and Weber counties, Judge Armstrong suggests that such a detention home should be established somewhere between Salt Lake and Ogden. In many cases persons could be committed to the detention home and after a month's treatment there they did not recover they could then be sent to Provo. In many cases Judge Armstrong believes that a cure could be effected at the detention home.

THERE ARE FEW

people who know how to take care of themselves—the majority do not. The liver is a most important organ in the body. Herbine will keep it in condition and Stimpkin, Alta, Texas, writes: "I have used Herbine for Chills and Fever and find it the best medicine I ever used. I would not be without it. It is as good for children as for growing people, and I recommend it. It is for sale at C. M. M. Drug Dept., 112 and 114 South Main Street."

FEDERAL HEIGHTS.

\$75.00 is to be Spent in Improving the Property.

Contracts for grading Federal Heights, north of the state university grounds, were let last evening, by the Telluride company. The intention is to expend \$75,000 in improving the property, which will be worked, and handsome gateways located at the entrance. The heights will be cut up into 200 building lots.
