About It.

EVERYTHING PREARRANGED.

Under Sharp Questioning Admitted That He Knew Death Valley Scott.

Forced to Acknowledge He Made Evasive Answer to Newspaper Man to Question.

Chicago, Oct. 30 .- Albert M. Johnson, head of the National Life insurance company, in a hearing before Master in Chancery Zeisler yesterday told how a \$1,000,000 check was manipulated by him and his associates at the time they acquired the charter of the company. Mr. Johnson revealed the facts while undergoing cross-examination by Atty. D. K. Tone in the action which has been brought to restrain Gustav Myers, life insurance underwriter, from circuhte insurance underwitter, from circu-lating a pamphlet attacting the com-pany's financial standh. The deal whereby A. C. Frost, prinoter of the bankrupt Chicago & Min aukee Elec-tric company, obtained \$92,000 of the insurance company's funds on security alleged to be inadequate for the protection of the stockholders and policyholders, was subject to further inquiry.

THE TRANSACTION.

"How much did the present company, that you are now operating under a charter from the state of Illinois, pay in 1902 or at any time for the assets and business of the National Life Insurance company of the United States of Amer-ica, the corporation chartered by Con-gress for Jay Cooke in 1868?" asked Mr. Tone Tone

"Just \$1,000,000 was the price," answered Johnson. "Was the payment made by check or

"Was the payment made by check or cash?" "By check on the Federal Trust & Savings bank." "Is it not a fact that you, as an off-cer of one insurance company, drew a check for \$1,000,000 to be paid to your-self, and that the payment of \$1,000,000 was made by the ruse of arranging with the Federal Trust & Savings bank for the nominal use of this \$1,000,000 for a few hours?" asked Atty, Tone. "Well, the check was signed probably by me and by one other officer of each company." Mr. Johnson answered. "But, as a matter of fact, no money ever passed in the so-called payment?" the lawyer persisted. "The plan was to buy up the old company with this \$1,000,000 payment, which \$1,000,000 was to be turned over to the old company as a dividend." "Was that done?" "Yes."

I do, how-ever, support the general Republican position on the tairff and the currency. I have always been a Republican. "Do you know whether or not there are roulette whells and faro lagouts operating over the Occidental saloon on East First south street and over Mulvey's place on East Second south street?

The question was asked George A. Sheets, chief of detectives of the Salt Lake police force this morning, His reply was: "I couldn't say. I don't know whether games are running there or

not because I haven't been there a see." That there are two or more gambl-

ing devices of the kind named in operation in this city, and that there are more than 39 poker games going day and night in the business center of this city, there is no doubt whatever. If the police don't know whatever. If the police don't know it, it is because they don't want to. That the big games have been runn-ing steadily is doubted, but that they have been running recently as last night is quite certain. The "American" party of course wants to stand in with the gambling element, and to do so the little pas-time of "bucking the tiger" is winked at. At the outset he stat-ed that he had just completed a tour of southern than and expressed him-self as surprised at the wonderful growth and prosperity of the state since his fast visit to than and stated that if the present measure of pros-perty kent up her different word realperity kept up her citizens would real-iez in the very near future them most sanguine expectation. Senator Carey then launched into a

comparison of candidates reciting the record of Mr. Tait and referred in par-ticular to his great work in the Phil-ippines and said: "The Democrats have been unable to find a man with a record for the position of chief ex-ecutive of the nation." He said that the only record and only qualification. Mr. Bryan had behind him was his famous speech at the Chicago conven-tion. He characterized Mr. Bryan as tion. He characterized Mi, Bryan as an "accident," stating that inasmuch as the Democrats were at sea and at a loss to find a man and his eloquence carried the convention off its feet and he had been given the nomination. Reverting to the tariff question, the speaker brought up the administration of the late president Cleveland whom he characterized a great and good may and sincere in all that he did but said and-sincere in all that he did but said that his greatest achievement was the veto of the Wilson-Gorman bill. He then took up the injunction matter and drew a striking illustration of its ben-efit to the poor classes, reciting the remedy provided by that act to protect property-owners against maurading corporations and asked if it were not better for the wonerty-owners to go better for the property-owners to go into court and secure an injunction to prevent a despoilation of his property until the matter could be adjudicated

Senator Carey then discussed the beet industry and set out the many potent reasons why the people of Utah should support the Republican ticket as granting to them the protec-tion offered by the Dingley bill pro-tecting the beet sugar raiser against the foreign producer. He said that he could not understand why any one in the west could do anything else than support the Republican party and did not believe that they would and pre-dicted the election of Mr. Taft next Tuesday. The meeting was called to order by Chairman Madson of the County Central committee who intro-duced Samuel G. Dye, candidate for county clerk, as chairman of the even-ing. E. M. Of a Law for that Purpose. New York, Oct. 30 .-- That President Roosevelt has agreed to recommend to Congress in his next message the passage of a law to conserve the health of the public, similar to the one proposed by the American Medical association, was the statement made last night in an address before the New York academy of medicine by Charles A. L. Reed of Cincinnati, O., chairman of the association's committee on national medical legislation. In speak-ing on the campaign for national health laws, Dr. Reed said: "On the heels of the various steps forward, I am gratified to be able to assure you that the president has au-thorized the statement that he will formulate definite proposals and transmit them with his endorsement to the next Congress. It now devolves upon the 13,000 doctors in the United States not only to back the president in his work but to anticipate those actions by a persistent campaign in behalf of this fundamental feature of the public welfare." Speaking of the pollution of streams, Dr. Reed referred to the Ohio water shed as a "thousand miles of river and a thousand miles of typhoid." Ove 60,000 persons die every year of cancer he said, and the death rate from that cause is increasing by leaps bounds. and If only one half of the persons who die or are incapacitated as the result of that disease were saved, Dr. Reed declared that it would mean a sav-ing in money sufficient to maintain a "national board of health, pay for the army and navy, fortify our coasts, du-plicate our armament on our seas, deepen our internal waterways and in 10 years would pay for the Panama canal, and wipe out our national debt."

"Before taking up another ques-tion," he said, "I want to say that we have had another favor granted us this morning. Mr. Carnegie has come out for Mr. Taft. Mr. Carnegie holds the largest block of steel bonds of any man in the United States. He comes out with Mr. Rockefeller, And it was that steel trust that went to the White House and got permission from the president to absorb a rival, and the steel trust is to-day support ing Mr. Taft as it helped to secure his nomination." New York, Oct. 20.—Charges were made today by Norman E. Mack,chair-man of the Démocratic National com-mittée, that the declaration of John D. Mr. Mack said: "The Standard Oil company has landed where everybody knew it would land. Mr. Rockefeller held back for a bargain and got what he wanted. His declaration for Taft is good for at least 100,000 votes in the doubtful states. It cannot speculate on the exact amount

Hence the election of Mr. Bryan is denounced by Mr. Carnegie as a tragedy." Chairman Mack declared that he had learned that the Republican national committee has a campaign fund of 33,000,000 and that of this sum, \$2,000-000 was being used for the purpose of coercion and bribery. The national chairman said further that \$200,000 of the Republican campaign fund had the Republican campaign fund had been sent into Ohio.

"There are several things about this statement that deserve attention. The first clause says if for no other rea-son, but there already is reason. He is for Mr. Taft because Mr. Taft is for him. Mr. Taft has been making speeches for many weeks and he has not yet dwelt upon the iniquities of the trusts or pointed out the injustice done to the

pointed out the injustice done to the American people by them. No wonder Mr. Rockefelled is for Mr. Taft. "Again Mr. Rockefeller says Mr. Taft's election will make for law and order. This is false. Mr. Rockefel-ler's corporation is the most notorious law breaker in the United States and he is for Mr. Taft because he does not want the law enforced. If he thought Mr. Taft would enforce the law against the Standard Oil company and favored the enactment of more stringent laws against the Standard Oil company, as I do, he would not be for Mr. Taft. Mr. Rockefeller also says that Mr. Taft. Solution of business. What kind for stability of business. What kind of business? Stability in the trust business is what he mans. He thinks that Mr. Taft's election will enable the trusts to get a tighter strangle grasp upon the American people and put their cxtortion upon a more permanent foundation. He says that Mr. Tart is not a man inclined to rash experi-ments. He might have omitted the word 'rash,' for Mr. Tart is not in favor of any kind of experiments in the way of remedial legislation. He does not propose remedies. He sim-ply glories in the past and wants to have conditions as they are. "Mr. Rockefeller says that Mr. Taft would not advocate measures subver-sive of industrial progress. But what is industrial progress? Is it right to allow one corporation to swallow up or barnukpt all of the other corpora-tions and then hold the country at its upon the American people and put their extortion upon a more permanent

tions and then hold the country at its mercy? Is it industrial progress to destroy competition and close the door of opportunity to the young men of the country? Is it industrial progress to destroy industrial independence and es-tablish a despotism of monopoly?

STEAMER ARRIVES WITH HER HOLD ON FIRE

A TOUR OF WISCONSIN

San Juan, Porto Rico, Oct. 30.-The steamer S. V. Luckenbach from New York for San Juan arrived here last night with the fire in her hold still burning. All her passengers and her crew, 31 in number, are well. The fire was discovered at 4 o'clock

in the morning of Oct. 26, when the vessel was 580 miles south of Sandy Hook. The passengers were at once awakened and the small boats were brought out, provisoned, and made ready to lower away in case it should ecome necessary to abandon the steamer.

At 6 o'clock in the morning of the 26th, the steamer Philadelphia of the Red D line, was sighted and the plight of the Luckenbach was signaled to her. The Philadelphia answered:

"I am coming alongside."

She drew near and acted as a con-voy until the Luckenbach reached here. Both vessels came into port together. The heat and smoke from the fire forced the passengers to withdraw from their cabins, and temporary cots and eating tables were placed on the pro-menade deck for them. The cause of the fire is not known. It was impossible to gain access to the hold. The officers did not darc to open the hatches to combat the fire in the fear that the draft thus created would fan the fiames. Holes were bored Sh drew near and acted as a con

would fan the flames. Holes were bored in the deck and gil the steam it was possible to spare from the engines was forced through them into the hold. Water also was pumped below. Severa members of the crew were overcome by the fumes during the work of put-ting these fire extinguishing plans in-to operation, but they were promptly revived.
