

SWEDEN'S GREAT CAPITAL.

Origin and Early Incidents of the Fair City of Stockholm.

Christianity and America's Debt to the Great City of the North Atlantic.

Regular correspondence.

Stockholm, Sept. 21, 1897.

The capital of Sweden is at present busy preparing to celebrate in a becoming manner the King's Jubilee.

In all the main thoroughfare elaborate structures are being erected and it is already apparent that when everything is finished Stockholm will at the Jubilee be one of the most beautiful cities of the world.

Stockholm is one of Europe's oldest cities. Its origin is undoubtedly in the midst of antiquity. It is supposed that when Helsing, in the 13th century, was destroyed by Helsing and Karlsson the inhabitants of that city fled to this place and settled here. Tradition has it that a few hundred out and about the city were gathered and that it finally landed at the present site, now Helsing. This, according to tradition, gave the place its name, Stockholm or the Island.

The word "stock" also means flowing water, and it is to be noted that the name of the city is to be explained as meaning "the island in the river," a most appropriate name to Helsing.

In the origin of the name, however, whatever it may be, it is known that from the time of Helsing the city has been a city of rivers. It is to be noted that the name of the city is to be explained as meaning "the island in the river," a most appropriate name to Helsing.

The material growth of the city was comparatively slow. It was not until the 17th century that it began to grow rapidly. It is known that in 1650 Stockholm had 15,000 inhabitants, and 30 years later more. In the beginning of this century the population was 25,000. In the year 1850 about 50,000. The census for the present year shows 75,000 inhabitants.

One of the most interesting points of attraction in Stockholm is the old city. This old city is situated on a small island in the middle of the city. It is a very old city, and it is very interesting. It is a very old city, and it is very interesting.

Before closing this letter, permit me to refer to a few facts in the history of the city. It is to be noted that the name of the city is to be explained as meaning "the island in the river," a most appropriate name to Helsing.
