TINTIC'S WEEKLY RECORD. Ships 148 Cars-Work Started on Beck Eureka, March 29.-The output of ore from the Tintle district for the week ending with yesterday amounted to 148 cars divided among the different mines as follows:

Bullion Beck entennjal Eureka Centennial Fureka Eureka Hill Eagle and Blue Bell Grand Central Godiva (concentrates) La Clede Mammoth Ridge & Valley cranton

This week the work of grading for the new shaft house for the Beck Tun-nel mine was started. It will take a few weeks to do the necessary grading and then the work of sinking the shaft will commence. The new shaft will be located on the line of the proposed new railroad which Jesse Knight and asso-ciates contemplate building, and when the road is in aneration the one from

In a letter from its Bhyolite corre-spondent the Goldfield News received among other bits of news the follow-ing paragraph: Southern Nevada min-ing men are incensed over the attacks that are continually being made upon that are continually being made upon the district by the Los Angeles Times, and while Dr Phillips of Beaty, John Largent, and other men of big Nerada deals are looking toward Los Angelés as a supply point for the country there are many merchants who are barring the Low types are conducts and turning the Los Angeles products and turning to Salt Lake, San Francisco and Den-ver for their supplies. The reason for the bitterness said to be felt towards

At a meeting of the directors of the Balakiala Copper company held in New York on Friday last, Clarence K. McCornick of Salt Lake City was elect-ed president of the company. Walter Fitch of Salt Lake City has been appointed superintendent of the Calu-met & Hecla conper mines to take appointed superintentiate of the calter met & Hecla copper mines, to take effect April 1. Mr. Fitch was former-ly manager of the Champion Iron company of Marquette county, Michi-gan, and of the United States propergan, and of the U ties at Salt Lake.

RHYOLITE EXCHANGE OPEN.

If you wish to buy or to build a home, join now. If your wife wishes to put away from it to 325 per month, join now. If your daughter, join now. If your daughter, join now. If you want to have your boy save a few dollars a month, join now. No better way to save money ex-fats. Ista, No safer way to save money can

No safer way to save money can be found. No quicker way in which money safely invested can be had if unex-pectedly needed has been devised. As the best and surest means of saving each month part of what you can, the Deseret Building So-clety (or its sister society, the Zion's offers the best plan yet found. Apply to Company's Office, No. is Far.

orge Ph Comon

company was about determined to get enough water in spite of any cost or la-bor. One plan was to pipe water from Soldier Creek canyon. This plan meant the expenditure of over \$50,000 and the company hesitated. It was decided to make a last attempt to find water hy singling further in the shaft water by sinking further in the shaft. This plan has been fruitful, for at a depth of 1.125 feet a good flow of wa-ter has been struck. Superintendent Thomas Galigher has ordered the equipment for raising the capacity of the mill.

MAMMOTH HAS SHIPMENT.

MAMMOTH HAS SHIPMENT. The Mammoth of Tintic came through with a consignment of ore yesterday. This constituted the first shipment of the stuff found by the recent strike on the 2.250. This depth is the greatest recorded for copper dis-coveries in this state, and the Mam-moth is the deepest mine in this state. The ore carries 11 per cent copper and some gold and sliver. (Wth its depth in view the dry condition of its work-ings are somewhat surprising. Ex-perts contend that the Mammoth is going to improve wonderfully when it reaches greater depths.

TROUBLE AT AN END.

Great Falls Mill and Smeltermen Sign Five Year Labor Agreement.

Butte, March 30.—Great Falls mill and smeltermen, operating in the big electrolytic plants of the Boston & Manitana company of the Amaigamated Copper company, vot the Amargamat-ed Copper company, voted today to ac-cept the five-year wage agreement in line with the action of the Anaconda and Butte smellermen and the Anacs and stationary engineers of Butte. This and stationary engineers of Butte. This action of the unions insures industrial peace in Montana for years to come. Extensive improvements which were halted at the Great Falls smelter when labor troubles threatened will be re-sumed with all vigor. All of the Butte mines are recruiting their crews up to full strength. The mine owners now have a five-year agreement with all the various labor organizations.

RHYOLITE EXCHANGE OPEN.
First Day Marks Brisk Trading and Promises Prosperous Future.
Special Correspondence.
Rhyolite, March 26.—Rhyolite's new mining stock exchange had its first call yesterday afternoon and proved a hummer from the word go.
The gentlemen back of this enter-prise are of standing and responsibility and the success of the organization does not admit of doubt. Two calls are held daily, the first at 2:30 and the second at 7:30 p.m.
Yesterday's tirst call resulted in the sale of 75.009 shares, although not one quotation was received from any outside point owing to the wires be: an experienced lladelphis, has dirations there.

Lawton is plaintiff and judgment is rendered in his favor for the total sum of \$23,444.19 and an order of sale of the property of defendant was entered. The action was brought to recover on a promissory note and on assigned claims for money advanced to the commany. SAL Fa The other indement is in favor of Eleck F. Hall and against the com-pany and Owen Sheridan. The amount of the judgment is \$9,475.30 principal. Man Mar Mar of the judgment is \$9,475.30 principle, \$700 as attorney's fees and \$11.90 costs. The action was brought to fore-close a mortgage on the mining claims owned by defendants located in the Spring Creek district, Juab Mar Mar Mar T In Cl 964.4 NO EASTERN MARKETS. # 964.1. Annie Laurie of Gold Mountain to be Sold at Auction.

SALE IS ORDERED.

county

The Dally Mining Record says: "All Chicag of the Annie Laurie company's prop-erty on Gold mountain, Utah, is to be sold under an order of the United States circuit court for the district of sold under an order of the Onited States circuit court for the district of Utah, this being the only quick and practical way by which the affairs of the old Annie Laurie Mining com-pany could be wound up and the prop-erty go into the hands of a new con-cern which would be in a position to wipe out the present obligations and enter upon a new era of development. Two of the heavy interests of the present Annie 1 wits company are in-volved in estates in which several heirs are interested, and this is a serious handicap in carrying out improve-ments which have become necessary. To concentrate the interests again, a suit was brought some weeks ago by Mr. Buhl, another leading stockholder, for a receivership. A receiver was ap-pointed and it is under this situation that the sale has been ordered. It will be sold at public auction April 1." Omaha, March 30 .- Cattle-Receipts, 309; Omana, March 30. "TEX" AFTER DIAMONDS.

Bickard, Goldfield Fight and Mine Promoter, Buys Mine in California.

"Tex" Rickard, the well known Gold-field promoter, is going into the dia-mond mining business, says a dispatch

from San Francisco. Associated with him are F. H. Lang of Goldfield and H. Cooney from South

Africa. Rickard has just returned to the

Africa. Rickard has just returned to the Hotel St. Francis, and Lang is now in Reno, Nev., arranging for the filing of the articles of incorporation of what is to be known as the Cherokee Dia-mond Mining company of America. Rickard has just returned from a visit to Oroville, where he inspected the ground in the vicinity of the dia-mond finds that have been reported from that district. "I went up there," said Rickard last night, "and after looking over the ground bought 2,000 acres, the property formerly controlled by the old Chero-kee Hydraulie Mining company. There is plenty of Kimberlite, the gravish green earthly looking rock in which diamonds are found."

COPPER GLEANINGS.

Cream of the News Boiled Down by Pollock's Boston Correspondent.

James A. Pollock & Co., bankers and brokers, furnish the following, received over their private wire, this afternoon:

The Market-There is a much better tone along the line. The high grade copper shares are being bought for investment by people with ready

for investment by people with ready money. Amalgamated—Some local houses report the purchase of small jots of Amalgamated which will be taken out of the market. Anaconda—The action of the direc-tors in not increasing the dividend is much condemned. Allouez—There is some little de-mand for the stock on the report of outsiders. Atlantic—The company has money enough in the treasury to guarantee

Dispatches from Boston contain the most important features of the Utah Consolidated's annual report issued yesterday. A profit and loss surplus of \$2,451,228; the net profits for the year being \$2,855.009 against \$1.857,- 885 recorder for the previous year. Earnings for the year were \$9.45 per share net on a production of 18,500,- 000 pounds of copper. Sulphide ore in sight remains in the same amount as reported in the former report. Dur- ing the year 296.989 tons of ore under- went treatment, yielding 457,812 ounces of silver and 42,601 ounces of gold. The year also saw 10,172 feet of exploring and development done; 2,725 feet in ore. This development was done largely in the upper levels and has resulted in the opening of z80,000 tons of copper sulphides. WATER WAS WELCOME. Must Pay Judgments of \$23,444.19 and \$9,473.30 Besides All Costs.

Two judgments were rendered Judge Morse today against the Sb

that insiders are buying. A Greene Cananea—There has been steady buying of the shares from in-side sources. Mohawk—The management is evi-dently making strenuous endeavors to ret the production costs down. Shannon—The completion of the new furnace will be a big event in the history of the property. Boston News bureau says: Arizona commercial shares are selling at 21. This compares with 52, the highest price at which they ever sold. The decline from the high point has been fruit of steady improving conditions in every department of the company's work, and net earnings this month should be close to \$50,000. North Butte has large reserves of ore ahead and could start in a much advanced shipment of ore at any time the Wa-shoe smelter was ready to receive shipments. From every indication the Shannon company will have a re-cord breaking month. Production to the 21st of March was 1,000,000 pounds of copper, which indicates that the company will make at least 1,-500,000 pounds for the entire month. The management feels very much en-couraged over the showing that has been made to date, as it shows that the plant is easily able to make the 1,500,000 pounds of copper per month which had been claimed for it by those who had carefully investigated its possibilities.

CONCENTRATES.

Charles H. Scheu who has been operating extensively near Good Springs, Lynn county, Nev., will return to this city Monday.

L. A, Jeffs has returned from an ex-tended trip through California and Nevada mining camps. He reports them busy and prosperous. He, found Yerington especially lively.

Suit has been filed in the district court by George Prior, administrator of the estate of Samuel N. Davis, de-ceased, against the Utah Copper company to recover damages in the sum of \$10,000 for the death of Davis who was killed while employed in defend-ant's mine on Oct. 1, 1906.
