BEARS CONTROL STOCK MARKET.

Trading Was Heavy and Prices Were Much Lower.

DALY-WEST BROKE BADLY.

Stock Sold at $18.60, but Rallied With Strong Support—May Day And Yankee Weaker.

This morning's sesion on the mining exchange was a series of slumps in stock values. The business recorded involved 79,310 shares and $26,055.50 and was entirely of a speculative nature.

Interest centered in Daly West, Carisa, Ben Butler and Uncle Sam, all of which closed lower than at the opening.

Daly West traded around 18.25 to the extent of 810 shares with much offered at 19.00. Now that in all probability a long fight is on with the Quincy, there is evidence that many stockholders are becoming discouraged and trying to get out. Good support was given the stock this morning and may be continued. May Day slumped to 46¾, a rumor that the management is having trouble with the superintendent at the property being spread. President Hunt and other officers are now in Tintic and it is said are arrangeing to increase the output of the mine.

Uncle Sam took the toboggan at 33 and closed about 2 cents lower while Ben Butler was traded in to the extent of 20,000 shares at prices between 8 and 7½.

Weakness was shown by Yankee and Martha Washington, the latter selling at 5 cents.

At the close the following quotations were recorded on the board:

SHALE OIL EXTRACTOR.

Experimental Plant Will Soon be in Readiness for Tests.

A plant for the extraction and refining of oil from the oil-bearing shale in southern Utah is being erected by the Acme Mining Machinery company for the Utah Shale Oil company, which owns a large tract of oil lands in Uintah county. This plant, which if successful will enable Utah oil owners to operate their properties with profit, will be completed within the next two weeks. In construction it is similar to an oil shale extractor successfully operated in Australia, but whereas, the plant there can only be run intermittently, this plant it is expected may be operated continuously.

The process is a simple one say those having the construction work in hand. The oil shale is pulverized to 20 mesh fineness and run continuously into the extractor where by a heat process the oil is diverted into refining chambers. The tailings come out of the extractor in the form of white sand. The gasses from the oil are piped to burners underneath the extractor and used as fuel. The Utah Shale Oil company is now seeking patents for the apparatus which it is claimed will be able to operate on 25 tons of oil shale every 24 hours.

SAMSON BRINGS SUIT.

Charges United Mining Company With Loss of $13,013.70.

Suit has been commenced in the Federal court by Henry F. Samson against the United States Mining company. The plaintiff alleges that in May, 1901, while he was in peaceable possession of the Neptune-Kempton Mining claims as lessee, and was extracting ores, the defendant with intent to injure said plaintiff and to prevent the extraction of said ores, blew up and destroyed portions of the Neptune tunnel through which it was necessary to haul the ores from the said mining claims. It is further alleged that the tunnel was twice blown out and destroyed by the defendant. The plaintiff claims $13,013.70 damages representing the value of the ore he would have extracted before the expiration of his lease had he not been molested. Judge Ogden Hiles and Lindsay Rogers are counsel for the plaintiff.

Century Affairs.

P. W. Madsen of the Century Mining company stated last evening that Pat Lynch, the mill foreman who successfully operated the three stamp mill at the Century when from $5,000 to $6,000 per month was taken out, has been engaged to take charge of the new mill and together they will go to Park Valley some day this week. Mr. Madsen states that the mill will not be started before April 1st as some repairing is necessary. The winze on the main vein has shown up well and though not so wide at a depth of 40 feet was at 10 feet in ore assaying $34 in gold.

Work at Emerald.

J. E. Oglesby, secretary and treasurer of the Emerald Mining company, stated that the property is looking better than ever before. Drifting to the north and to the south of the shaft is being prosecuted on the 700 foot level. The north drift is being run in a quartz which, it is believed, indicates the near proximity of rich ore. The indications are similar to those found in some of the big producers of that district. Mr. Oglesby says that high grade ore may be struck on any shift.

MINING NOTES.

The Silver Island of Tacoma has a car of ore on the market.

Two cars of May Day concentrates will be on the market tomorrow.

One car of concentrates from the Queen Mill at Bingham is on today's market.

Ore and bullion settlements in this city yesterday amounted to $84,900. T. R. Jones & Co., $27,000; McCornick & Co., $57,900.

M. J. Murphy, formerly superintendent of the Dalton & Lark has accepted a similar position with the Bullion-Beck.

The Taylor and Brunton sampler today reported the receipt of two cars of concentrates from Tintic and two from Bingham and one car of ore from Nevada.

The trail from Three Forks to the middle fork of the Salmon river will be open in a week. The road is now open to Three Forks, so that it will not be long before entrance is easy to Thunder Mountain district.

James W. Neill, the mining expert, is making a thorough examination of the Yankee Con. property, at Tintic and is preparing a report which will be submitted to the listing committee of the Boston exchange.

W. H. Childs received a letter this morning from Foreman Woolcott of the Sheba which states that there is no change in the face of the old Sheba tunnel, which has been driven in about 15 feet. Work in the Jones stope has advanced three feet and good ore continues to be mined from it. Tunnel Lode No. 2 has been advanced five feet and is in ore containing good values. The "Iron" tunnel on the surface has been cleaned out and advanced two feet.

WILD WEST SHOW.

Redskins, Bison, Cowboys and Rough Riders for Elks' Meeting.

At the meeting of the executive committee of the Elks last night it was agreed that among the other attractions which will be forthcoming for the entertainment of the visiting Elks next August will be a genuine Wild West show with a herd of buffaloes, cowboys, roughriders and Indians galore. Efforts will be made to bring in a number of chiefs from the Uintah, Bannock, Sioux, Lemhi, Crow, Flathead and Navajo reservations. Some of the survivors of the Custer massacre will also be secured if possible, and it is proposed to make the event similar in many respects to the fiesta which is an annual feature at Phoenix, Ariz.

Before the meeting adjourned Chairman Leary appointed Lester Freed chairman of the finance committee. The balance of the committee consisting of 15 men from Salt Lake, four members of the Ogden lodge, three from Park City and a like number from Eureka, will be named at an early date.

Unique posters in colors will be ordered at an early date and distributed throughout the country for the purpose of advertising the convention. The committee is receiving word almost daily of delegations which are coming to Salt Lake next August.

MARKET TONE MUCH BETTER.

London Support of Americans Strengthened Stocks.

RAILROADS DIDN'T RESPOND

Transfer of Gold to San Francisco to Consummate Street Railway Deal, Starts Selling Movement.

New York, March 11.—The support extended to American stocks in the London market had a strengthening effect on the local dealings at the opening and there was no trace of yesterday's late selling movement. International stocks showed fractional improvements. Large buying orders were distributed in some of the low priced specialties and when they bounded up strongly many high priced stocks sympathized. Standard railroad stocks, however, did not respond to any extent and there was some pressure against Missouri Pacific and the coalers which kept the generally active list within narrow limits. Advances elsewhere reached from 1 to 2½, including Colorado & Southern. The announcement that $1,250,000 gold would be transferred to San Francisco through the subtreasury to finance the street railway deal started a general selling movement which cancelled or largely reduced the gains. The usual market leaders all yielded below yesterday's close and Missouri Pacific lost a point. Business was very active on the decline. Toward noon the selling decreased and there were some fitful rallies. Amalgamated Copper was lifted a point over last night. The market became very dull at the rally. Bonds were steady.

American Cotton Oil gained 1½ and the preferred 2. Mexican Central rose a point. There was a drop of 3½ in Minneapolis, St. Paul & Sault Ste Marie preferred.

Largest Sailing Vessel in World.

New York, March 11.—There anchored off quarantine last night the second largest sailing vessel in the world, the four-masted steel bark Daylight, which has just completed a very stormy maiden voyage of 51 days from Greenock, Scotland. The Daylight is a first class steel vessel with a gross tonnage of 3,765 tons, about hundred tons less than the five-masted bark Potosi, the largest sailing vessel in the world. The Daylight has a carrying capacity of 7,000 tons and was built especially for carrying case oil. She was launched at Port Glasgow in December last, and is owned by the Anglo-American Oil company of London. Her dimensions are:

Length 352 feet; beam 50 feet and depth 32 feet.

Capt. James Reade, who commanded the last of the sailing ships of the White Star line, commands the new Daylight. His crew consists of 41 men.

Wells, Fargo & Co's Semi Centennial

Houston, Tex., March 11.—The semi-centennial or fiftieth anniversary of Wells, Fargo & Co. occurs on March 15. To appropriately commemerate the event, every employe of the company, who has been in the service one year, will be remembered with a silver medal, portraying the methods of carrying express, past and present.

Indian Runs Amuck.

Vancouver, B. C., March 11.—On last Friday, while crazed by liquor, Johnny Tackum, an Indian, ran amuck at Toblao inlet, about 150 miles up the coast, beat his squaw to death with an oar, and shot J. Card and F. Hussey, who attempted to prevent the murder, Card, who was seriously wounded, has just reached here and been placed in a hospital.

Pope Urges Conciliation.

New York, March 11.—When the pope received Mgr. Sbaretti on Mondoy before the departure of the latter for the Philippines, he urged him to make every effort to work with and conciliate the Americans from whom, including President Roosevelt, himself, says the Rome corespondent of The Tribune, the papal government had received such evident marks of friendliness.

The words of the pontiff are the more important since he recently received many warm petitions from the friars and their protectors urging him to maintain their moral and material supremacy in the Philippines and recommending especially to prevent their removal.

Several cardinals consider that if Washington insists the friars must ultimately be gradually withdrawn.

Peculiar Street Car Accident.

New York, March 11.—A Madison Ave. electric car on which were almost 100 persons has met with a peculiar accident. About 50 of the passengers were injured, none of them seriously. A new building is in course of erection at Forty-fourth street and Madison Ave., at which a portable hoisting engine is used, the engine being in the street. It stood close to the track. The motorman stopped the car as he approached and the engineer told him to wait until he could move the machine. The car conductor thought there was room to pass and ordered the motorman to proceed. This he did and the car shaved off a valve which extended from the boiler. The suddenly released steam broke the windows in the side of the car next to the engine and covered the passengers, scalding them on hands and faces. Others were bruised by being crushed and thrown to the ground during the ensuing panic.

Brazil's New President.

New York, March 11.—Senhor A. Fontoura Xavier, Brazilian consul general in this city, has received a private cable dispatch from Rio Janeiro announcing the election of Dr. Francisco do Paula Rodriguez Alves as president of Brazil.

Dr. Rodriguez Alves for many years has been a conspicuous figure in the politics of Brazil. He is in the state of Sao Paulo and is now governor of that progressive and rich state. He resigned a federal senatorship to become governor.

As a financier it is said by his friends that Dr. Alves has no superior in South America. Perisdent Moraes appointed him as secretary in his cabinet.

Dr. Alves is a lawyer and has occupied a prominent position at the bar. His election is considered a great triumph because of the prominence of his defeated opponent, Dr. Albine Albuna.

Dr. Vives will be inaugurated on Nov. 14, the anniversary of Brazil's independence. The tenure of the office is four years.

Gen. Hughes Continues Testifying.

Washington, March 11.—Gen. Hughes continued his testimony before the senate Philippine committee today. In reply to a question by Senator Patterson he said the death rate among Spanish prisoners was far beyond what it should have been. Investigation proved that the prisoners were so debilitated by reason of their long stay in the heat and by their military service that they were unable to rally from any illness which attacked them. He said he had urged the return of United States troops to this country after two years service.

GRAVEL CURED.

Mrs. Benjamin Hulse's Story, of MILL CREEK, UTAH.

Mrs. Hiram Yeager, of Arcadia, Salt Lake City, in writing of the great benefit her little boy had derived from the use of DR. DAVID KENNEDY'S FAVORITE REMEDY tells of a similar result obtained by the son of Mrs. Benjamin Hulse of Mill Creek, Utah, by the same means: "Mrs. Hulse's little boy of six years was very sick, lingering along under the doctor's care with no apparent improvement. He was suffering from gravel in the bladder.

"Dr. David Kennedy's Favorite Remedy was then given him and before he had taken a whole bottle he was up and about the house, the disease had been conquered and cured by Favorite Remedy; today he is as healthy a child as you would wish to see."

The best proof of the value of an article is the good it has done.

If you suffer from kidney, liver or bladder trouble in any form, diabetes, Bright's disease, rheumatism, dyspepsia, eczema or any form of blood disease, or, if a woman, from the sicknesses peculiar to your sex, and are not already convinced that Dr. David Kennedy's Favorite Remedy is the medicine you need, you may have a trial bottle, absolutely free, with a valuable medical pamphlet by sending your name, with postoffice address to Dr. David Kennedy Corporation, Rondout, N. Y., mentioning this paper.

Dr. David Kennedy's Favorite Remedy is for sale at all drug stores at $1 a bottle; six bottles for $5. Less than 1 cent a dose.

Powdered and Perfumed.
(PATENTED.)

The strongest and purest made. Unlike other Lyes, it is finely powdered, packed in a can having two lids, one easily cut and the other removable for constant use. It will make the best Perfumed Hard Soap in 20 minutes without boiling. It is the best for cleansing waste pipes, disinfecting sinks, closets, cleaning paints, bottles, barrels; washing trees and killing insects; for engineers and machinists' uses; for painters, to remove old paints, etc.

Burlington Route

What Constitutes Good Service.

What makes a train popular?
Good service.
What constitutes good service?
Good cars, good track, good meals, fast time, and civil employes.

The Burlington's Chicago Special is a striking illustration of the results of good service. It is by far the most popular train between Denver and Chicago—which is simply another way of saying that its service is better than that of any other train.

Leaves Denver 4 p. m.; arrives Omaha 6:45 a. m., Chicago 8:30 p. m. next day.

To St. Louis at 3 p. m. and 10 p. m.
