XLVIII CONGRESS.

SENATE.

WASHINGTON, 1.—Cockrell, from the committee on military affairs, reported favorably with amendment the House bill relieving from the charge of desertion soldiers who served until the expiration of their term, and are improperly charged with desertion. The bill as passed requires that the application for pardon shall be made within five years from the passage of the act.

The House bill passed granting a pension of $50 per month to the widow of Gen. Jas. B. Steedman.

The joint resolution introduced yesterday by Cameron, of Pennsylvania, directing the Secretary of the Treasury to redeem ten million dollars worth of trade dollars at their face value was laid before the Senate.

Morrill moved to refer the resolution to the committee on finance. Agreed to, yeas 36, nays 20.

Butler called up his resolution directing an investigation into the condition of the New York banks.

Morrell moved the reference of the resolution to the committee on finance. Agreed to, yeas 39, nays 16. Consideration of the river and harbor bill was resumed.

Dolph moved to increase the amount for the Columbia River from $150,000 to $250,000; not agreed to.

The motion was not agreed to, and after a long debate the bill passed as it was originally passed by the House. It appropriated $12,986,000. The Senate committee added $1,208,000, and the Senate itself made a further addition of $230,500, making the amount of the bill as it now stands, $18,584,700.

Allison, from the committee on appropriations, reported the Sunday civil bill, and gave notice he would call it up early to-morrow, and added if Congress was to adjourn this week, which was desirable, the bill would have to be completed to-morrow. There would then only be the fortification bill to be considered.

Executive session.

Adjourned.

HOUSE.

WASHINGTON, 1.—Randall submitted the report of the conference committee on the naval appropriation bill, announcing their inability to agree. The chief items of disagreement are the appropriations for the new cruisers and the continuation of work upon the double turreted monitors. Randall said nothing but an instruction from the House would cause the conference to yield on these two points, (applause on democratic side), because they had not that confidence in the manner of construction of these cruisers that warranted a further expenditure of the public money in order to duplicate them. Besides there was not thrown around these propositions that safeguard in the expenditure of money, which the present circumstances known to the country warranted, and which should be thrown around the Department which was now the subject of investigation. As he said before, there was nothing to induce the present conferees to yield on these two points, except a direct vote of the House, and when that was given he trusted the House would select some other conferee than him. (Applause on democratic side).

Calkins said the question was whether the building of a navy should be delayed another year, and whether after expending millions of dollars on the monitors, work should close. The investigation in the Navy Department had nothing to do with the cruisers or monitors.

Randall admitted that was so, but asserted it should have its effects upon members in appropriating money for a department where there had been maladministration.

Calkins moved that the House recede from its disagreement to the steel cruisers amendment. Lost—yeas 90, nays, 147.

The following democrats voted with the republicans in the affirmative: Belmont, Dorsheimer, Finerty, Morse, O'Neil of Missouri and Sumner of California.

A similar motion in regard to the monitors clause was also lost—yeas 85, nays, 139.

The House further insisted on its disagreement, and Randall, Hohman and Calkins were appointed conferees.

The House receded from its disagreement to the postoffice appropriation bill, and then went into committee of the whole on the fortification appropriation bill.

Hewitt of New York preferred the minority report. He thought the majority bill unnecessarily liberal for the wants of the people.

Ellis advocated the majority bill. He had heard more errors stated in the course of this discussion than he had ever before in debate. Many who had spoken had showed their utter and absolute ignorance of the subject. The defenceless condition of the country was conceded. Did the gentleman from Pennsylvania (Randall) deny it? There is but one other thing more defenceless, and that is the Treasury of the United States.

Elliot—The Treasury is amply defended so long as the gentleman from Pennsylvania insists that the taxation shall not be reduced at one end, and that nothing shall be spent at the other end. One-fourth of the entire wealth of the nation is absolutely at the mercy of any little insignificant power that happens to have an armed vessel. If we would preserve peace, let us be prepared for war. If we would resume the spirit of our forefathers, let us make every city by the sea and every harbor which floats our commerce safe and secure.

The clerk then proceeded to read the bill by paragraphs.

Randall offered the bill reported by the minority as a substitute for the majority bill and it was agreed that the substitute should be reported to the House and the vote be taken on it to-morrow morning. Adjourned.

AMERICAN.

POLITICAL.

The Democratic Convention—Cleveland, Tilden and Tammany.

NEW YORK, 1.—The county Democracy delegation to the National Democratic Convention at Chicago will number not less than 750, the badges to be distributed upon their arrival in Chicago. The county Democracy is unanimous for Cleveland since the retirement of Tilden. One prominent member says: "It is the whole field against Cleveland, should he be knocked out, then Judge Field of California will get some of his votes." The same person says of forcing the nomination upon Tilden, that no friend of Tilden has anything to do with that. It is the work of a crank aided by lesser cranks.

At a meeting of the Tammany committee to-night, it was stated that about 600 Tammanys would go to the Chicago convention. John Kelly made a speech urging the nomination of a man for the Presidency who could carry with him the masses of the people, the laboring class, and the conservative element of the Republican party, if a pure man was his nominee, he predicted a Democratic victory.

The representative labor organizations to-night present resolutions protesting against the nomination of Governor Cleveland for the Presidency and pledging themselves to oppose his election if nominated, by every means in their power. A committee was appointed to visit Chicago and protest to the democratic convention against the nomination of Cleveland.

San Francisco, 1.—A party numbering 30, representing 300 friends in this State of Judge Field, left this afternoon by special car to attend the Democratic National Convention at Chicago.

Chicago, 1.—The situation was rather more lively to-day in view of the near approach of the National Democratic Convention. Very few delegates have arrived, and no activity in the contest is expected before Friday or Saturday. In the convention hall there are evidences of great activity. Under the direction of Mr. Alder, the architect who planned the hall for the Republican Convention, chances are being made to suit the desires of the subcommittee. The hall will be completed by Sunday. Headquarters will be thrown open at the Grand Pacific Hotel by those interested in the candidates. General Butler is expected to arrive Saturday, and a committee of the labor organizations to welcome him is being perfected.

Indian Troubles.

MILES CITY, Mt., 1.—A committee appointed by the citizens of Eastern Montana, to-day telegraphed Secretary Teller, urging the immediate removal of the Northern Cheyenne Indians in Tongue and Rosebud agencies. There are now more than 900, without rations and starving, with nothing to subsist on except range cattle, which they are killing in large numbers. The stockmen will make armed resistance if not moved, and the result will be serious trouble with the Indians, who are independent and ugly. The Indians are renegades from Pine Ridge, and have no agency or agent here. The situation is serious.

Fires, Storms, Etc.

OTTAWA, 1.—A house of ill-repute on St. Magdalen Street was burned this evening. The fire was caused by the upsetting of a lamp during a drunken carousal, and a girl named Labrauche was burned to death.

New York, 1.—The schooner *Emerson*, from Cardenas, reports that on June 28, in lat. 38, long. 94, she spoke the yacht *Gypsey* from Panama, for New York. She had her deck swept June 27, and lost two men, her compass and sails.

Ithica, 1.—After an exceedingly hot day a rain and hail storm, terrific in force, and gathering all the afternoon, struck the village to-night. The water fell in sheets, flooding the streets. The principal streets are filled with fallen trees. There was great alarm. No lives lost.

Emporium, Pa., 1.—This morning some freight cars collided with a number of coal oil cars standing on a side track at Driftwood. The oil caught fire, and 15 buildings, mostly business places, were destroyed. Loss $55,000; insurance $20,000.

THE CATALOGUE OF CRIME.

Dias Convicted — Baby Farming — Outrage and Suicide.

KEY WEST, 1.—Diaz, the Cuban who returned in the schooner *Shavers*, was convicted to-day of violating the neutrality laws, by aiding in fitting an armed expedition against a friendly power. The jury was out only sufficiently long to take a good dinner. A curious feature of the Aguero matter has been made public to-day. Among the papers left here by him was a letter from a prominent and influential Spaniard, who had traveled with Aguero from New Orleans to Key West, and then proceeded to Havana, leaving Aguero here. During the voyage the matter of the complicated raid was discussed, the Spaniard endeavoring to dissuade Aguero on account of the disturbed condition of Cuba, and assuring him large sums of money would be contributed by Havanese for his benefit in which the government would probably join if he would desist from the purpose. The letter states that the writer had seen Captain General Castillo, who had said such matters were not so arranged that he could apparently have the happiness and prosperity of the country at heart, but if the statements were made through diplomatic channels and guarantees given, or some legalized method adopted of reaching the matter, it might be considered. Aguero replied, saying that simultaneous with the receipt of the letter he should be in Cuba, ready to continue the correspondence. The government officials were informed the vessel had left a northern port with a large quantity of ammunition on board. The plan is for the vessel to run into Hillborough inlet, and there be met by a small craft which will land the stores at Torch Key or on Sugar Loaf, where they propose to establish a secret magazine.

New York, 1.—Another baby farming establishment has been discovered here. The deputy coroner made an investigation of the causes of the death of a child there, and it is said to be a genuine case of baby farming. St. Vincent de Paul Nursery is the name given. It is kept by a colored woman named Mary Josephine Ward. The child of Josephine Creeps was fearfully emaciated, almost to a skeleton. Mrs. Ward explained that the child had been born prematurely and that the mother of it seemed to be a victim of malpractice. She said the nursery was incorporated by the Legislature on December 1st, 1882, and has an advisory board of four white and one colored, ladies. Two doctors were advisers of the nursery, and another doctor was its president. Women went frequently to this nursery to be confined.

Miss Lizzy Kemp, while passing East Twenty-fourth street to-night about 10 o'clock, was seized by two colored men, dragged into a stable, gagged and outraged. She struggled and fought desperately, but in vain. The scoundrels were about to escape, when the girl tore the bandage from her mouth and raised an outcry which brought assistance. One of the men was captured. He gave his name as Chas. Hainson. The other escaped. Miss Kemp was taken to the hospital, where she lies in a critical condition.

Helena, Mt., 1.—G. W. Dean, of Omaha, suicided with morphine at the International Hotel this morning. He left a note saying nobody was to blame but himself. He was tired of living.

FOREIGN.

Newry, 1.—The Orangemen here to-day celebrated the 194th anniversary of the battle of the Boyne. On the hills bonfires blazed, also in various parts of the town. A procession preceded by brass bands, marched through the streets, carrying an effigy marked "The Traitor Lundy," which was afterward burned. The police dispersed the crowd of Nationalists.

The cholera is spreading to the villages in this vicinity and four deaths have occurred.

Marseilles, 1.—Vessels arriving from infected points are prohibited from landing passengers.

Deaths from cholera here to-day are four. The rush from the city continues.

Its business is furnishing facilities to members and making public and private sales of cotton produce, securities and other properties, and to aid merchants and others in the collection of their just demands. Chicago, 1.—Allan Pinkerton, the famous detective, died at 3.10 this afternoon. He has been gradually sinking from the effects of malarial fever, contracted some weeks ago while on a visit to the south. He was born in 1819, at Glasgow, Scotland, where his father was sergeant of police.

The Secretary of the Interior has received telegrams complaining that the Cherokee Stock Association, who have leased land in Indian Territory, have closed the trails with wire fences and offered armed resistance to the progress of cattle drives. The Secretary has instructed Inspector Benedict to go immediately to the region of the disturbance and take active measures to open and keep open established trails found closed.

The committee suggested that while it would be inconvenient for the City Council to attend the celebration in an official body, yet many of the members would, no doubt, do so individually as citizens. A MARVELOUS STORY

TOLD IN TWO LETTERS.

FROM THE SON: "38 Cedar St., New York, Oct. 28, 1882. "Gentlemen: My father resides at Glover, Vt. He has been a great sufferer from Scrofula, and the inclosed letter will tell you what a marvelous effect

Ayer's Sarsaparilla

has had in his case. I think his blood must have contained the humor for at least ten years; but it did not show, except in the form of a scrofulous sore on the wrist, until about five years ago. From a few spots which appeared at that time, it gradually spread so as to cover his entire body. I assure you he was terribly afflicted, and an object of pity, when he began using your medicine. Now, there are few men of his age who enjoy as good health as he has. I could easily name fifty persons who would testify to the facts in his case.

Yours truly, W. M. PHILLIPS."

FROM THE FATHER: "It is both a pleasure and a duty for me to state to you the benefit I have derived from the use of

Ayer's Sarsaparilla.

Six months ago I was completely covered with a terrible humor and scrofulous sores. The humor caused an incessant and intolerable itching, and the skin cracked so as to cause the blood to flow in many places whenever I moved. My sufferings were great, and my life a burden. I commenced the use of the SARSAPARILLA in April last, and have used it regularly since that time. My condition began to improve at once. The sores have all healed, and I feel perfectly well in every respect, being now able to do a good day's work, although 72 years of age. Many inquire what has wrought such a cure in my case, and I tell them, as I have here tried to tell you, AYER'S SARSAPARILLA. Glover, Vt., Oct. 21, 1882. Yours gratefully, HIRAM PHILLIPS."

AYER'S SARSAPARILLA cures Scrofula and All Scrofulous Complaints, Erysipelas, Eczema, Ringworm, Blotches, Sores, Boils, Tumors, and Eruptions of the Skin. It clears the blood of all impurities, aids digestion, stimulates the action of the kidneys, and thus restores vitality and strengthens the whole system.
