Absolute Perfection in Baking!

—AND ALL— MEATS ROASTED IN THEIR OWN JUICES —BY USING THE— Wire-Gauze-Oven-Door FOUND EXCLUSIVELY ON THE

Marvelous - Results!

LOSS OF SHRINKAGE IN MEATS.

VERY few people know that the Shrinkage of Meats roasted in a close oven is from thirty-five to forty per cent. All Meat contains seventy-five per cent. of water and only twenty-five per cent. of solid matter, and the loss that is made in the roasting is made in the evaporation of the Juice, which is the VITAL PART OF MEAT.

Effect of the SOLID OVEN Door.

A TEN pound Sirloin, medium or well done, will be REDUCED to SIX pounds and four ounces of Roasted meat, showing a loss of FIFTY PER CENT. OF THE JUICE.

Effect of WIRE GAUZE OVEN DOOR

A TEN pound Sirloin, medium or well done, will be REDUCED to SIX pounds and eight ounces of Roasted meat, showing a loss of eight ounces of juice. While this loss is five per cent. of the total weight, it shows the VERY SMALL LOSS OF BUT SEVEN PER CENT OF JUICE.

WASHINGTON NEWS.

Various Matters Transpiring in the Nation's Capital.

WASHINGTON, Dec. 3.—The Senate committee on privileges and elections had under consideration today the resolution introduced yesterday by Hoar, providing for classification of Senators from the new States. It met with unanimous approval and will be reported to the Senate probably tomorrow.

The comptroller of currency has authorized the First National Bank of Southern Oregon at Grant's Pass, Oregon, to begin business. Capital, $50,000.

The *Galena* and *Kearsarge* left New York this morning for Hayti. The *Dolphin* will join them.

A meeting of the republican senatorial caucus this afternoon on reorganization of committees decided to continue the caucus committee of the last session.

THE SECRETARY OF THE TREASURY

today denied the current report that the new naval cruisers are extravagant "coal consumers," and expressed a desire to have the facts published.

"The representation that these vessels are heavy consumers of coal is based upon their utmost consumption while under forced draught, and war ships are seldom under forced draught, except on trial trips, when it is used to test their utmost capacity for speed. They are never again likely to be placed under forced draught, except possibly in event of pursuit of or flight from the enemy. I don't suppose that in the entire life of a warship she will be run under forced draught more than half a dozen times. As a matter of fact, the average consumption of new cruisers in making their ordinary speed of from eight to ten knots an hour is from twenty-five to thirty tons per day of twenty-four hours. As an illustration, the *Boston* on her last cruise steamed 200 miles per day for twenty-five days, and consumed only twenty-five tons of coal each day. This shows the average consumption of these vessels under ordinary conditions, and it is the only proper test of their coal consumption."

REVENUES AND EXPENDITURES.

The clerks of the committees on appropriations of the Senate and House have prepared comparative statements of estimates of appropriations and expenditures for the maintenance of the government for the fiscal years 1890 and 1891, from which it appears that the increase of estimates for 1891 over those for the current year is $80,887,168, and that the increase of estimates for next year over the appropriations for this year is $38,062,112. The total estimates for regular and permanent annual appropriations for the next fiscal year are $406,643,315, while the total revenues are estimated at $450,614,327, showing an excess in estimates of revenues over the estimated appropriations for next year of $43,571,022.

The net surplus for the present year is placed at $53,832,541, or $9,961,489 more than the estimated surplus for the next fiscal year. This prospective decrease in surplus is stated, to be without reference to the possibility of the enactment of a river and harbor bill, for in the estimates submitted by the Secretary of the Treasury there is a notable omission of the ordinary provision for river and harbor improvement. For the preservation of existing works the sum of $22?,000 is asked, while the report of the chief of engineers says $38,533,350 can be profitably expended next year in these improvements.

The statement above quoted differs materially from that prepared by the Treasury department and exhibited in the book of estimates just issued, for the reason that the postal receipts and revenues are differently treated by the Treasury and the appropriation committees.

THE NEW STATES.

Assistant Attorney - General Suiedis of the Interior Department has given the Secretary of the Interior an opinion as to the effect of the seventeenth section of the act admitting the new States, which refers to the act of 1842, the original pre-emption act, and repeals the same as to the new States. He holds that in taking of whole sections together the intent was not to repeal the pre-emption laws, but to make a grant of lands in lieu of the eighth section of the act of 1841, generally known as the internal improvement grant, and to repeal that section as to the new States; that the act of 1841 was carried into the Revised Statutes and repealed in 1863; that if Congress had intended to repeal the pre-emption laws it could have done so by repealing the sections of the Revised Statutes appertaining thereto, or by applying the words so declaring and not by repeal of the old act of 1841, and that the pre-emption laws so contained in the Revised Statutes, except as to the internal improvement grants, are still in force in the new States.

AN OLD TROUBLE REVIVED.

Secretary Windom today appointed Special Agents Spaulding, Montgomery and Chance a commission to investigate the charges made by Boston merchants against Dr. Edward Sherer, the chemist of the sugar laboratory at the New York custom House. The charges against Sherer affect his integrity and also his competency.

Senate.

WASHINGTON, Dec. 3.—A message from the House was presented, announcing the organization of that body.

Edmunds, on the part of the joint committee to wait on the President, reported it had performed its duty, and had been informed by the President he would communicate with the two houses by message immediately, whereupon the message from the President was presented and the Secretary of the Senate proceeded to read it.

The reading of the message was concluded at half-past one, and was listened to with apparently close attention by the Senators on both sides of the chamber. As one of the paragraphs touching taxation was read, a republican senator remarked in a whisper it sounded very like Cleveland. On motion of Sherman, it was laid on the table and ordered printed. Adjourned till tomorrow.

House.

WASHINGTON, Dec. 3.—The committee appointed to wait on the President to inform him the House was organized and ready to proceed to business, appeared through its chairman, Mr. McKinley, and informed the House it had performed its duty, and the President would communicate with the House in writing forthwith. One of the President's secretaries then delivered the message which was immediately read.

Little attention was paid to the reading of the message. It was ordered printed and referred to committee of the whole.

Under the authority given by the last sundry civil appropriation bill, the Speaker appointed Blaine, Hitt, Carter, Catherson of Texas and Cummings a committee on the centennial celebration.

Adjourned until Thursday.

The Cronin Inquiry.

CHICAGO, Dec. 3.—Judge Wing concluded his address to the Cronin jury this morning, devoting most of his attention to argument that it was not shown that the wounds on Cronin's head were necessarily fatal, and that it was impossible to decide whether the specimens of blood and hair examined by experts were of a man or not. He was followed by Ingham on behalf of the prosecution.

Mr. Ingham spoke at length of the killing of Cronin, disposal of the body, and defined and illustrated the application of the law of conspiracy. The circumstances, from the time of the meeting in Camp 20 to the finding of the clothes of Cronin in the sewer, showed an intelligent human design. It had its origin in hate, its foundation in the charge that Cronin was a spy, and its end in the butchery in the Carlson cottage and burial in the sewer.

He proceeded to analyze the evidence, and getting down to the Carlson cottage said:

Why did Burke rent the cottage and hold possession of it uninterrupted? He was a day laborer. Where were the brothers and sick sister who were to occupy the cottage with him? Why did they not appear and testify in his behalf? Four or five people were to live in this cottage, yet it did not contain a single article of kitchen furniture. It was to attend one of O'Sullivan's men that the doctor was called. The cottage was close to O'Sullivan's house. Burke told O'Sullivan about it as soon as he rented it. Subsequently O'Sullivan vouched for him.

The speaker dwelt at length on the suspicious character of the iceman's contract for Cronin's services; the hiring of the white horse; Coughlin's suspicious actions, etc. He went over the ground of the ride to the cottage, the murder, subsequent bestowal of the body in the catch basin, and Burke's flight. All this connecting chain of evidence, he said, was undisputed. He touched upon the alibi testimony and showed it was all by friends of the accused, while the inculpating evidence was by impartial witnesses. Ingham then proceeded to trace the connection between Coughlin, Kunze and O'Sullivan. He reviewed the fight between Cronin and the "triangle" as the leading cause of the murder, and closed with an appeal for conviction.

Gladstone Talks.

LONDON, Dec. 3.—At the Manchester meeting today Gladstone inspired great enthusiasm by his definite exposition of the liberal policy. He said Ireland is the leading question of the day, and that the tories would have been converted to the liberal view of the subject by this time but for the personal ambitions of some of the tories and their allies, who desired more to form a national party than to do political justice. He severely arraigned the unionist leaders on this point, and said the plan of campaign was a necessary consequence of the government's refusal to grant proper relief to Ireland. There was, he said, less crime in Ireland than in England. He was of the opinion the country had clearly expressed a desire there should be a change in the administration of Ireland, and liberals might look to the future with confidence.

Gladstone said the only reason for the existence of a dissenting party is the anti-Irish feeling. It was the course of their destiny that they were chained to a wheel. They must revolve or stop it, and could not determine things for themselves. If it behooves them to consider well their position in the light of knowledge that with the settlement of the Irish question will come their distinction as a party.

Threatened by "White Caps."

DYERSVILLE, Ia., Dec. 3.—Right Rev. Bishop Hennessy, in dedicating a large Catholic church today here in the presence of one hundred priests and 6000 people, read from the altar a letter which he had received, signed "White Caps," threatening his life if he appeared at the ceremonies. The Bishop denounced the authors of the letter. There are factions in the church, one of which is bitterly opposed to the priest appointed by the Bishop, and wish to select their favorite. Out of this trouble it is supposed the "White Cap" incident grew.

Influenza in Russia.

ST. PETERSBURG, Dec. 3.—There are 28,000 persons suffering from influenza in this city. The malady affects people more or less in all the towns of Russia.

Trouble in Crete.

LONDON, Dec. 3.—Advices from Crete state that skirmishes have taken place between the Turkish troops and the people. Three police and five soldiers were killed.

A Leadville Tragedy.

DENVER, Dec. 3.—A Leadville, Colorado, special gives an account of a tragedy which occurred there early this morning, resulting in one man's death and another will probably die before morning. Bailey Youngson, who has figured in several shooting scrapes, and is charged with killing Mart Dugan over a year ago, had some trouble with Frank Cole, and the men were looking for each other all yesterday armed for deadly battle. Early this morning, as Youngson was walking down Harrison Avenue accompanied by Bart Dunley, he met Cole and Clarence Wolverton. Cole and Youngson pulled their revolvers and began firing at each other. The other two men also drew guns and took part in the battle. Some twenty shots were fired. Dunley was shot through the breast and Cole mortally wounded. Youngson and Wolverton were arrested. The excitement over the affair is intense.

Murder.

SIOUX CITY, Dec. 3.—Jas. Shannon and Elmer Zimple were jailed this morning for the murder of Jas. Duggan near Sloan, this county. Bad blood had existed between them and last evening while Duggan and wife were driving along the highway Shannon and Zimple emerged from the road side and Shannon shot and killed Duggan. Zimple fired at Mrs. Duggan but missed her.

Alarm About Smallpox.

CHICAGO, Dec. 3.—Considerable excitement was caused this afternoon by a reported case of smallpox at the Cook County Poor House. The health officers said tonight they were unable to determine yet whether it was chicken-pox, varicloid or smallpox, but pending its development, the 600 inmates have been vaccinated. The insane asylum, which is crowded with patients, is located but a short distance from the poor house.

Mother and Child.

BLOOMINGTON, Dec. 3.—Mrs. John Slawbaugh, of Stanford, while temporarily deranged, jumped into a well, taking her 1-year-old child with her. Both were drowned.

Nicaragua's Admission.

MANAGUA, Nicaragua, Nov. 12.—President Sacasa has signed a treaty admitting Nicaragua into the Union of republics of Nicaragua, Costa Rica, Honduras, San Salvador and Guatemala, under the name of the United States of Central America, but it is believed that the Nicaragua congress will reject the measure. The plan of the Union provides that for the first ten years it will simply be an offensive and defensive alliance, and the President of the Union will have charge only of the diplomatic and foreign relations of the five republics. At the expiration of that period, the Union will be cemented by the adoption of a constitution, which will embrace all political, commercial and other relations between the five republics and foreign powers. A common monetary standard and common tariff laws will be adopted, but there will be free trade between the different republics. Honduras, Guatemala and San Salvador have already signed the treaty, and it is understood that Costa Rica will do the same.

An Elevator Company Fails.

CHATTANOOGA, Dec. 3. — The Central Elevator Company of this city, J. N. Check president, have assigned. Liabilities $169,?98, and assets about the same. It is reported tonight the warehouse receipts are duplicated in several instances, and there is some excitement in consequence.

Land Leaguers and Parnell.

DETROIT, Dec. 3.—Rev. Dr. Reilly and Colonel Atkinson, who left Detroit October 1 Ills, arrived home from England this morning. Dr. Reilly bears messages from President Parnell, of the Irish League, to President Fitzgerald, of the American League, which will probably be given to the press in a few days. Colonel Atkinson discredited the rumors that Parnell is missing under peculiar circumstances, and says he saw letters from Parnell written Nov. 22nd, from a small town at which he was resting.

$1,000,000 Dispute Settled.

YOUNGSTOWN, Ohio, Dec. 3.—The famous mining suit of Kimberly vs. Arms, involving over one million dollars, and which has been decided by the United States Supreme Court in favor of the plaintiff, was settled today. Arms, according to the agreement, transfers to Kimberly 1/4 terest in the mining stock and shares in the mines which have been in litigation, and also gave his check for $100,000, in consideration that the suits brought against Arms by Kimberly are to be dismissed.

Lewis, Cox & Co.'s Failure.

PHILADELPHIA, Dec. 3.—There were important developments today in the surprising failure of Lewis S. Cox & Co. The sheriff levied upon the residence and other personal property of Cox at the instance of William M. Singerly, whose only interest in the business was that of a large creditor. He went into court and secured a stay restraining the sale of the goods in the store, which were attached yesterday by other creditors. Singerly declared his claim exceeded all of Cox's other debts combined. On July 7th, 1880, Singerly purchased from Cox the business of the store at 1220 Chestnut street, together with the entire stock and trade, in consideration of the sum of about $147,000, which sum has been paid in full. He then took exclusive possession of the store, the name of Cox on the sign being retained for the advantage of business. The affidavit asserts that Lawyer Ledyard is and for many years past has been the regular counsel of Cox, and that his judgment note in favor of George Victor was drawn in his office. Singerly believes the proceedings were instigated by Cox himself, in combination with Victor, for the purpose of getting control of the goods.

Suicide.

LEAVENWORTH, Kas., Dec. 3.—Dr. Taylor, son of the late Major Taylor, U. S. A., and son-in-law of ex-U. S. Senator Caldwell, committed suicide tonight. Despondency over illness.

Catarrh

Is a constitutional and not a local disease, and therefore it cannot be cured by local applications. It requires a constitutional remedy like Hood's Sarsaparilla, which, working through the blood, eradicates the impurity which causes and promotes the disease, and

Catarrh

effects a permanent cure. Thousands of people testify to the success of Hood's Sarsaparilla as a remedy for catarrh when other preparations had failed. Hood's Sarsaparilla also builds up the whole system, and makes you feel renewed health and strength.

Catarrh

"For several years I have been troubled with that terribly disagreeable disease, catarrh. I took Hood's Sarsaparilla with the very best results. It cured me of that continual dropping in my throat, and stuffed-up feeling. It has also helped my mother, who has taken it for run down state of health and kidney trouble." MRS. S. D. HEATH, Putnam, Ct.

HOOD'S SARSAPARILLA

Sold by all druggists. $1; six for $5. Prepared only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

CHARTER OAK RANGES

OPINION OF AN EXPERT!

MRS. MARY B. WELCH, Teacher of Domestic Economy at State University of Iowa.

"My deliberate judgment is that the oven of the Range, as compared with others, is not only more equally heated in every part—front as well as rear—but as a result of its superior ventilation the food placed therein is better cooked, while retaining a sweeter flavor, and a larger proportion of its food values. I have found, also, that the consumption of fuel in this Range for a given amount of work, is much less than any other." MRS. MARY B. WELCH.
