## NOTICE.

All advertisements for the EVENING NEWS must be handed in to this office not later than one o'clock on the day on which advertisers wish them inserted.

## LOCAL AND OTHER MATTERS.

**BAD FOR LEVAN.**—Brother James Wilson, of Levan, Juab County, writes on the 7th instant:

"The hoppers have taken all the grain here. I do not think that 200 bushels will be raised. This is the fourth year they have eaten us out, how many more years we can stand the pests is a question. This is the driest season we have had for six years, the grass is all dried up. Our water is decreasing very fast. We have too much land and too little water here to do much good at farming."

**FOURTH IN THE SETTLEMENTS.**—We have received accounts of the celebration of the Fourth of July, from Mantle and Mount Pleasant, Sanpete county, Richmond, Smithfield, and Hyrum, Cache county; Cedar City, Iron county, Harrisburg, Washington county, and Grantsville, Tooele county. The festivities in every place were of the most imposing, enthusiastic and patriotic character, and were conducted in a manner becoming Latter-day Saints, enthusiasm and joy in no instances running into riot or licence, but good order, harmony and propriety were strictly observed.

**PLEASURE PARTY.**—A large pleasure party of ladies and gentlemen from St. Louis, are now at the Townsend House, among whom is James B. Eads, Esq., chief engineer of the great bridge across the Missouri river at St. Louis, erected at a cost of \$2,000,000.

**CALLER.**—We had a pleasant visit to-day from R. Benedict, Esq., of the firm of M. D. Wells & Co., and J. F. Hatch, Esq., agent for the firms of Philip Wadsworth & Co., and Knice Brown & Co., of Chicago. These gentlemen have visited this city on previous occasions and express themselves pleased to again renew the associations which they formerly formed here.

**GONE EAST.**—T. W. Cooke, Esq., the General Agent of the U. P. R. R. Co., has gone East for a few weeks, on a visit. In the meantime the business of the Company at Ogden will be transacted by Joseph Musgrave, Esq., Traveling Auditor, at which place he will be pleased to see parties who have claims against the Company, for damages arising from right of way.

**STRAW MANUFACTURE.**—The town of Washington, Washington county, in this Territory, gives promise of becoming a noted place for the production of articles made of straw. Sister Adolphus Whitehead has called upon us and exhibited specimens of straw ornaments for ladies' hats and bonnets made in that town, which compare favorably with the finest work of the kind that we ever saw. Her mother, sister George Goddard, was with her, and had on a bonnet trimmed with these materials, which we thought very elegant. The ladies who manufacture these trimmings display remarkable skill and good taste, and if the business be properly managed, a thriving, remunerative branch of industry can be fostered, which will be of great advantage to those who follow it as well as to the entire community. There is not only the home demand, and that is very considerable, but there are the markets around to be supplied. Well made hats, with such trimmings as this we refer to, might be sold in considerable numbers to ladies who visit this country, many of whom are desirous of carrying away with them some article made here as a souvenir of their visit to this Territory. Sister Whitehead expressed her intention of calling upon some of the ladies connected with the Female Relief Societies in town, to show them what the ladies of Washington are doing in the line of home manufacture. We trust they will not slacken their diligence; but will build up an extensive and stable branch of industry.

**FROM THE SOUTH.**—We were pleased to meet Bro. John Bennion, on Saturday, who is up from the Dixie mission. He has a favorable report to make of matters in that southern country, and speaks encouragingly of the prospects of the missionaries there. Bro. Bennion has located at Panaca, Meadow Valley, and has charge of the co-operative sheep herd of that mission, which during the past winter and spring has been kept on the range east of Meadow Valley. The flock at present numbers about 1,700 sheep; the range is good and the sheep are doing well. The herd was only established last fall and a great many lambs came in the winter, several weeks earlier than they ought to, on account of which there was some loss attendant; but with careful management in the future, Bro. Bennion says, this may be avoided, and the enterprise be made a success. Another sheep herd is about to be established on the same principle, as also another co-operative cattle herd, to be composed of the stock owned in the western settlements of the mission, which facts show that the people of those parts are progressing.

**THAT CANOE.**—The first canoe ever launched on the Great Salt Lake by a white man—the one used by Fremont's exploring party—is on exhibition at the Museum; it was found and contributed by Bryant Stringham, Esq. It is rather a rude looking affair, consisting of a huge log, hollowed out, and although somewhat broken by hard usage, the wood is still in a state of good preservation. Among other late additions to the stock of the institution are one each of two varieties of the monkey tribe, and a macaw and cockatoo, lately imported from San Francisco, all of which are added to the "Happy Family," and a specimen of the turtle, found in the 19th Ward of this city—the first, we believe, ever known to have been found here.

**"GOOD HEALTH."**—We have received the July number of *Good Health*, a journal devoted to physical and mental culture, published by Alexander Moore, 11 Bromfield street, Boston. This journal is the very best devoted to the science of health and life that has come under our notice. It contains a fund of valuable information upon the subjects of which it makes specialties, and all interested in the art of preserving and restoring health and prolonging life, who can spare two dollars a year, the subscription price, could hardly spend it better than by taking *Good Health*. Its articles are free from technicalities, and are written in a pleasing and simple style, so that all can understand them. When necessary they are illustrated, thus elucidating intricacies more clearly than could be done by letter press alone. We cordially recommend *Good Health* to our readers.

## NOTICE!

## MINERS &amp; BUILDERS

LUMBER will be sold cheap at the New Mill, 8 miles up Little Cottonwood, or at M. T. MUMFORD'S 14th Ward. Orders promptly filled.
