

EXCURSIONISTS PARADE TOMORROW

Idaho Pilgrims Will March Up
From the Depot on Their
Return Home

THEY ARE AT WEISER TODAY

Cross the Oregon State Line in
Journey to Far Western
Idaho Towns

Gov. Cutler Joins the Party Today and
A Big Program is the Feature

Salt Lakers will have an opportunity to see their Idaho pilgrims parade tomorrow night. They will march from the Brigham Young monument to the Club club, each making a separate straight line to the place that he can do it, except for a right angle turn at Second South street, and another at West Temple, with an oblique move ment at the club headquarters.

The reason is that the trip has been such a grand success the pilgrims are too proud to allow themselves to come back in the night, and steal softly away to bed. They will be seen to be played for Utah in every southern Idaho town must be given an opportunity to see the "new" Mormon Main street parade, while President Halloran of the board of governors, with Charles Quigley, chief of the worry committee, will lead the people through the excursion which came very nearly being abandoned at the eleventh hour because so few responded, has a successful affair, and a drench

TRAIN ARRIVES AT 6:30.

The decision to parade Salt Lake streets was arrived at just last night after a fifth successive day of Idaho journeying. The train is scheduled to go into Salt Lake at 10:36 o'clock Sunday night, but A. Reeves called the train crew into his private car yesterday, after the desire for a home coming parade has been expressed, and the trio figured out a new schedule. It is of the rapid order from Pocatello to Salt Lake and lands in the special at 6:30 o'clock, instead of 10:36 o'clock.

This morning wires were sent to D. J. Spencer, notifying him of the intention to come earlier, and requesting that he see that a supply of baggage wagons and street cars are provided to convey the party on Main street.

ONE LONG TRIUMPH.

Mr. Spencer was with the party on Friday, and he said today that its whole tour has been one long triumph, socially. In a business way, and from every other standpoint. "On the St. Anthony

This was evident at every town from Montpelier to Sugar City, and it was especially so at Rexburg, Rigby, S. Anthony, Idaho Falls, Shoshone, Burley, Blackfoot, and Twin Falls.

over the western Idaho line at Wells into Oregon. Coming back they will stop at way stations until they reach Boise, where a big time is in the making for tonight.

GOV. CUTLER AT BOISE.

Gov. Cutler is expected this afternoon.

noon, having left last night for Boise and a big program will be enjoyed, followed by a dance. After that the train will start home stopping at station between Boise and Pocatello, but not

between this point and Salt Lake where a record run will be made, if the train arrives at 6:30 as expected.

APPLE GROWERS.

Bureau of Plant Industry Doing What It Can to Aid Them.

Washington, May 25.—Appealing to the farmers and fruit growers in the

country to stimulate efforts to utilize the lower and less desirable grades of apples so as to yield a fair remuneration to the producer and remove the fruit from competition with the better grades in the market, the plant industry bureau of the department of agriculture

has issued a bulletin on "evaporation of apples," designed to encourage work along that line. It points out that a portion of a fruit crop which is of too low grade to market in the ordinary way can often be made to pay at least a large part of the expense of maintaining the orchard or fruit plantation if it is converted into some other form of product. It is handled in some other way than the way practised with the better grades. The

"While the recent tendency in the apple industry," said Chief Galloway,

the bureau, in the bulletin, "has apparently been to centralize fruit evaporation into distinct commercial establishments having considerable capacity and requiring capital to construct and equip, there still remain large regions in which there is con-

considerable surplus of fruit that is unsuitable for packing and shipping in a most every crop year. Encouragement of evaporating, canning, cider making and other methods of utilization appears desirable, and of these evaporating is the one that is most applicable at present to a wide range of conditions.

PEASANTS ATTACK ESTATE.
Kiev, Russia, May 25.—Bands of several hundred peasants, armed with

scythes, axes and shotguns attacked the estate of Count Shugart yesterday. After several hours of fighting they were dispersed by mounted Cossacks.

STILL NURSES PRINCE.
Madrid, May 25.—The statement the Queen Victoria has discontinued nursing her baby is incorrect. A wet nurse has been engaged, but only in case her son

yers should be needed when the queen resumes her royal duties. The queen and the prince are doing well. The queen was allowed to be up for two hours on Thursday.
