WHEN Col. Broadkead concluded his masterly argument before the Supreme Court of Utan, en the question of the appointment of a receiver to take charge of the property of the Church, on October 20th, prominent member of the bar, who had listened with ab- sorbed interest, expressed their admi- ration for the masterly foressic effort by exclamations of appreciation. Some of the most pronounced anti- "Mormons" alter bearing the logical reasoning and strong legal points of the speaker, asserted with- out reserve that the government had no case. The decision of the Court, published in our columns yesterday, was not of a nature to change the impression then made. Tals goes without saving, so far	 will have to answer for all the deeds done in the body. He bore his testi- mony to the truth of the Gospel as taught by the "Mormons," and that it is nothing more nor less than the Gos- pel of Jesus Christ restored to the earth. President Morgan then speke upon the organization of the Church in the days of Christ and His Apostles, and said we were to expect it now as it was then. The striking illustrations which the speaker used and the artis- tic way in which he presented them, had the effect of working the listeners up to the highest pitch of enthusiasm; when suddenly as with the power of God and the sword of truth RE SMOTE TO THE GROUND every religious organization in Chris- tendom; showing plainly that they were man-made and could not stand.
