

"MORMONISM" ON THE ISLE  
OF MAN.

The Isle of Man Times and the Manx Herald, both published at Douglas, in the Isle of Man, contain accounts of a visit paid that city by Elders John Henry Smith and Joseph A. West and two other Elders from Utah. They engaged the Masonic Hall and addressed a congregation which crowded the building, on Sunday evening, May 20th. Elder West spoke on the first principles of the Gospel, and was interrupted in a most violent and impetuous manner by a mason named Kelly, who disgusted the people present so much that they threatened to throw him out of the hall.

It appeared that one Joseph Johnson, an auctioneer, had made arrangements for a disturbance, and he attempted to force the brethren to a discussion. This they declined on that occasion, as they had engaged the hall to preach in and would not be disturbed. Elder Smith related the history of the revelation of the Gospel, Book of Mormon and Priesthood to Joseph Smith, and firmly, but kindly, repelled all attempts to force a debate. But as he had to leave to fill other appointments, he arranged for Elder West to meet Mr. Johnson in a discussion on the principles of the Church of Jesus Christ of Latter-day Saints, on the following Sunday.

Subsequently the lines were drawn on which the debate was to be had, but the Hall could not be obtained for the purpose, nor for a lecture on the other side, and the meeting was postponed for another week, the prospects being very doubtful as to securing a proper place in which to hold it. Intense excitement was created by the meeting, and it formed the popular subject of conversation in Douglas for some time. No personal violence was done to the Elders, but it is evident from the papers that many of the Manxmen would have liked to use harsher weapons than strong words against the "Mormon" missionaries, while others were very desirous of hearing our side of the question.

The press devote much space to the occasion and speak very favorably of the personal appearance, manners, scriptural knowledge and oratorical gifts of the speakers, and we hope to hear of good resulting from the latest attempt to warn the inhabitants of that little island of the sea, which has produced several firm, staunch and able advocates of the latter-day gospel.

MEAN AND CONTEMPTIBLE  
SLANDER.

The gross and untruthful statements made to a St. Louis Republican reporter and copied into the News of Tuesday evening, have aroused a storm of indignation. There is no community on this continent except the "turbulent Mormons," where such atrocious libels on the fair fame of the daughters of the people would be suffered without condign punishment. But the people of this Territory have endured so quietly the abuse which has been heaped upon them by foul-mouthed and dirty-minded slanders, that it is thought perfectly safe to smite the cheeks of their character again and again. Patiently and without reply they have borne such vituperation and defamation as sneaking traitors or open enemies chose to utter and publish. And therefore the vilest things are alleged against them and their wives and daughters and sisters with perfect impunity.

But this is not all. Persons who have made it their business to tell disgusting falsehoods about the "Mormon" people or repeat abominable libels for the purpose of prejudicing public men and infusing prejudice into the minds of the very people they have helped to traduce. Talk about kissing the rod that smites them, the "Mormons" have nourished and fattened the vipers which have crawled among them to sting and destroy them if possible. How long they intend to endure this treatment and to feed the lips that slander and misrepresent them, is not for us to say. The choice rests with themselves.

There was never a baser or more cowardly and seditious statement made about a community than that contained in the article from the St. Louis Republican, copied in Tuesday evening's News. Even if it were a fact that the keeper of a house of ill-fame ever uttered the untruth attributed to her—which we do not believe—what is the attitude of an individual claiming to be a gentleman, who repeats the dirty slander for the purpose of having it published concerning the community among whom he dwells and makes his living?

## GROUNDLESS ALARM.

"Colorado's Mormon population has been steadily increasing for the past few years. None of these Latter-day Saints, as far as is known, engage in the abominable and depraved practices of the Utah Church. But that they are body and soul in sympathy with that church cannot be denied, and as such adherents they are a danger to the community. It is a dangerous and a disgraceful thing, and their gradual growth numbers a cause for alarm. No immediate measures are to be taken to the good of the community, but the plant is one which needs careful watch, or

its poisonous seeds will scatter and render its neighborhood a desolate waste of immorality and sin."

The foregoing is from the Denver Tribune. Its fearful editor made it under an apprehension about seeds of immorality being sown by "Mormon" hands in Colorado or elsewhere. He should take a trip to the "Mormon" settlements in that State and note the sobriety, good order, peace, industry and thrift of the people, and if he has any common sense and common justice in his composition he will admit at once that the "Mormon" plant will get along finely without any watching on the part of the Tribune, and that its fruits can only be good for the State of Colorado.

And returning, let him open his eyes to the depravity exhibited in the City of Denver, the "immorality and sin" which flourish there as a most prolific crop, and ask himself the question, who sowed the seeds which brought forth such bitter fruits. He knows what he means. They do not belong to the tree of "Mormonism." They are products of so-called "Christian civilization."

It is admitted that the Latter-day Saints in Colorado do not engage in the practices which the Tribune denounces as "abominable." He refers to plural marriage, or, if he prefers the other term, polygamy. Where, then, is the cause for alarm? Colorado cannot find an equal number of people in any part of the State who are better citizens and freer from vice than the "Mormons" of Conejos County. The only thing to be feared is that the seeds of the corruptions which steam and ferment in the city where the Tribune is published, should be introduced to the quiet settlements of the "Mormons" and be permitted to sprout and propagate themselves. There is far more need for watchfulness on this account than in regard to any plant of "Mormon" growth. If the Tribune wants to pose as a champion of morality, let it begin its labors in the social atmosphere of the city of Denver, and when that is clear from immorality and sin, that pure journal may turn its attention to the quiet and as yet uncorrupted "Mormon" towns of Ephraim and Manassah.

## THE AMSTERDAM EXHIBITION.

The London Post says: We understand that an interesting attraction at the Amsterdam Exhibition is a valuable collection of minerals from the principal mines in Utah, Montana and Idaho, in charge of Mr. A. Zeeland. The collection is representative, among others, of the Ontario, with a total output up to date of \$12,900,000; the Horn silver mine, with \$1,800,000 in dividends in sixteen months (in Utah); the Lexington, paying regular monthly dividends of \$50,000; the Parrot, with \$36,000 monthly clearings, and \$6,000,000 in sight, and other important specimens from Montana.

## MAKE A NOTE OF IT.

The Mr. Lynch referred to in yesterday evening's News as repeating to a St. Louis Republican reporter the false and infamous scandals about the young men and young ladies of Utah, and "Mormon" house influence, is not only the Postmaster, but a partner in the firm of Lynch & Cottrill, of this city, now called the Pacific Wagon and Implement Company, selling wagons and agricultural machinery, and bidding for the patronage of "Mormon" farmers. Make a note of it.

## Condition of the Queen.

NEW YORK, 20.—Truth says: The Queen, for two months, has been in a state of malady which in the course of time, if not relieved, will probably become very difficult to treat. Her condition has naturally caused great anxiety because of the tenderness of her family. Her Majesty and Princess Beatrice will, in the autumn, go to the vicinity of Florence, Italy, where they will remain two months.

Assigned.—The Williamson and Stewart Paper Co. made an assignment to P. Whyte, assets \$162,000, subject to a deed of trust for nearly \$100,000.

## Drowned under and Browned.

PRIORVILLE, Mass., 20.—Mate Dunham and six or eight of the crew of the whaling schooner Ellen J. were lost on a whaler for voyage. The Captain and Mate struck a whale at the same time, and the Mate's line becoming fouled, his boat was dragged under and never seen after.

## Across the Continent.

WASHINGTON, 20.—General Sherman accompanied by Tidwell and his staff, left here this morning for Buffalo, where he will be joined by Chief Justice Waite and Justice Gray. From there the party will start on their trip across the continent, along the northern boundary of the United States, for the inspection of all of the military posts en route. General Sherman would have postponed his departure until after the funeral of Gen. Ewing, but one day's delay in starting would have damaged all his plans throughout the entire trip, which has been carefully mapped out, with the exception of a few points, and escorts provided to meet the party along the route.

## Boiling Regatta.

Chicago, 20.—Sixteen of the noted oarsmen of the country have already arrived to take part in the regatta at Pullman on Friday and Saturday of this week. They comprise the finest field of rowers ever assembled in the United States for such a contest. Hanton, the world's champion, will contest in both single and double races. His companion in the double scull race being Lee. Hanton is in fine condition, but it is asserted that he will have to row with one arm, as some of the fifteen are known to be in most excellent shape and are liable to press him. Oarsmen describe the Lake Calumet course as one of the finest, and with good weather, there is promise of an enormous attendance, as it is really the first great professional race which has ever occurred in the west. The railway companies are preparing to accommodate the large crowds of people attending from this city.

## The Tag at the Car.

NEW LONDON, 20.—The four mile straightaway, eight-oared race between Harvard and Columbia, was rowed this morning, Harvard winning by 13 seconds. The victory was considerably before the start, making a bad choppy sea. Harvard had the west and Columbia the east of the course. Harvard, though splashing a trifling bit, the best and at no time was she headed. At the two mile flag the time was 13.05 with at least three lengths between them. Columbia at this point being twenty seconds behind, the race was virtually over. Here Harvard gradually increased her lead, Columbia showing visible signs of being worn out. At the 2 1/2 mile flag Harvard led by four lengths, pulling 31 strokes to the Columbia's 32. At the 3 mile flag Harvard had a lead of five lengths, which was increased to 23 1/2 mile by seven lengths. Here Harvard made a fine spurt and crossed the line pulling 34 strokes and winning the race by 13 lengths in 24 minutes 48 seconds. The Columbia's time was 25.55. Harvard pulled in splendid form from the start to the finish. The attendance outside the college was not very small. Before the race both ranging from 100 to 80 to even money were made on the Columbia.

LONDON, 20.—The Prince of Wales yesterday read a paper, written by the Duke of Edinburgh, before the fisheries conference, which contained the statement that, in view of the diminution of the fish supply in Europe, the example of the American government, which donated a large quantity of fish to the poor, is well worthy of imitation by European Powers.

## THE STORM AT FILLMORE.

## DETAILS OF ITS APPEARANCE AND DEPREICATION.

Our correspondent "Shamrock," of Fillmore, sends us the following graphic and well-written description of the late storm at and near that place:

On Friday last this city was visited by a phenomenon, storm, which, of the kind, was the most violent and disastrous in the memory of the oldest inhabitant. About 3 p.m. towards the southwest—15 miles distant—a central movement of the clouds was observable, and soon their dark mass was rolled in fury together, producing thundering and lightning. Soon after the central movement of the clouds, in a circular manner, towards the center came, but after traversing the country for a few miles in this direction, the course was changed and the storm, like a hurricane, was advanced upon this place. Nearly thirty minutes before the storm burst upon the city, low muttering sounds could be heard, which increased, as the storm drew near, into deep growls and roarings.

These premonitions of the coming conflict occasioned some little apprehension in the minds of many, fearing a disastrous cyclone. At 4 p.m., the evening still being clear, a quantity of large hail stones measuring at least half an inch in diameter, fell, and in a few moments a furious hail storm was precipitated upon the city. For nearly 20 minutes, without any perceptible cessation, the storm lasted, leaving the ground covered with a coating of hail. Not was the storm confined to this city, but it swept with equal fury over the fields a

miles to the northwest and passed on towards the north, injuring, as I learn, the fields of Holden.

The gardens, orchards and fields in and around this city presented a pitiable appearance after the storm. The trees were partially stripped of their foliage and fruit, and what fruit remained was so bruised that it will rot. The gardens are all destroyed, everything being beaten by the fury of the hail, into a pulp. The lucern is beaten down and stripped of its leaves, and the grain is injured to that degree that it is scarcely worth tending. The people feel keenly this great loss, for many are dependent upon the products of their gardens.
