Do You Want a Calendar?

The higgest-and best--calendar ever issued by any American railroad is now being distributed by the Burlington

It has twelve sheets, one for each month of the year. On each sheet is a striking illustration of some feature of the Burlington's service or of the territory reached by its lines-the government fast mail running at full speed; a tourist car on its way to California; engine 1591, the largest passenger en-gine in the world; a library car; a compartment sleeper; the Barlington sta-tion at Omaha; a dining car; a mon-ster freight train; Estes Park, Colo.; the plunge bath at Hot Springs, S. Yellowstone Falls, etc. The drawings from which the pictures were made are by Louis Braunhold, Chicago, and cost several hundred dollars

The size of the caleridar is 22x28. The dates are in big type which can be read at a distance of 50 feet. For business offices the Burlington calen-
