

Mitchell, and the latter in getting out of his way fell twice. Watching his opportunity, he got in a quick blow, and Sullivan went down. He got up, and closed with Mitchell, and there was close fighting until he was called and the men ordered to break. In his corner Mitchell looked fresh, smiling and confident, while the breathing of Sullivan was ragged, plainly showing want of condition.

The second round was very spirited; Mitchell danced around Sullivan, and then closing suddenly with him drove him back upon the ropes. Sullivan got up and pursued the Englishman with caution, evidently bent upon delivering a knock-down blow. He caught Mitchell square in the face, and the Englishman went down. He got up quickly, and after sharp half-arm wrestling Sullivan threw him half across the ropes; the latter sprang lightly to his feet, was knocked down and got up dazed. Sullivan pressed him and drove him to the ropes again, and threw him clear over them, the Englishman falling head down and his feet sticking straight up in the air.

In the third round the excitement was intense; Mitchell got in some sharp body blows on Sullivan, and later delivered his blows with great directness and force, and the Englishman was twice knocked down. The third time he rose quite dazed, when Captain Williams stepped upon the stage and ordered the fight stopped. There was much confusion for a few minutes, but an order was restored both men removed the gloves, shook hands and were presented with bouquets of flowers, and Sullivan was officially declared the winner of the match. Mitchell was very game and a clean boxer, but too light to cope with Sullivan. The winner took 80 per cent and the loser 40 per cent of the receipts which amounted to \$10,000.

AN ANTONIO, Tex., 15.—Express mail from Garcia, May County, small town on the line of the Mexican National, says: Wickland, heavy railroad contractor on that route, was murdered on Sunday night by two Mexicans. CHICAGO, 15.—A special telegram reports a fight in the Indian Territory last Saturday, 25 miles east of Addo. Three hard characters named Carson, are alleged to have murdered, near the Delaware band about time ago, two white men named Blakenson and Hoddleson, and an old negro named Wiley. Last Saturday Marshal Menchon, of Smith, Ark., and Constable Butler, of Grayson County, Texas, attempted to arrest the Carsons. They showed fight and exchanged dozen shots with the officers. Marshal Menchon was slightly wounded, but in the encounter all the Carsons were killed except their brother who was released. The dead were left on the field unburied.

DUBLIN, 14.—Edmund Leamy, member of Parliament for Waterford City, at a meeting to-day of the Irish National League, at Duncan, County Wexford, 4,000 persons present, denounced the government policy, which sought to induce the nation to withdraw priests from the country.

Eighty emigrants, assisted by the government and the Tukes committee, embarked at Galway, for Boston, Saturday.

Nearly all the tradesmen of Dublin have received a circular which is termed, "Analysis of special juries 18 trials under the crimes act." It closed with the circular was a copy containing the words, "We to advise you have any of the goods of

these jurors, for you, and likewise they, will have the blood and suffering of innocent people upon your heads." The slip was signed "By Hook or Crook." A sensation has been caused by this latest movement on the part of the friends of Irish prisoners.

Limerick, 14.—At a meeting of the National League held here yesterday, resolutions were passed denouncing the government and the arrears of rent and crimes act. Wm. O'Brien, member of Parliament for Mallow, charged the government with pursuing a policy of revenge. He adjured the Irish people to maintain their courage, patience and union, and remarked that there were already signs that their desires would be eventually attained.

Paris, 14.—A dispatch from Rome to the *Journal Catholique* says: The Pope has addressed a strongly worded letter to the Irish bishops, desiring them to forbid the clergy to participate in political meetings or encourage subscriptions in aid of present agitations; also, recommending the use of respectful language towards the State.

Berlin, 14.—Despite neuralgia, Bismarck continues to attend to affairs of State. Published reports of his condition are exaggerated.

The Emperor received Waddington and the Malagasy envoys.

The treaty between Germany and Madagascar is based on the mutual recognition of the most favored national principles. Germany has done or said nothing to offend the sensibilities of France, but the Malagasy envoys consider their mission a complete success.

Rome, 14.—The document sent by the Vatican to the bishops of Ireland in reference to a fund being raised for Parnell, says: "It is intolerable that priests, much more bishops, should promote such an object." The document condemns all collections which may be employed as a means of exciting rebellion against the laws.

Cabul, 14.—The heads of 150 Shirkawarries were brought by the Amer here and exposed on the gates.

Capetown, 14.—During the time the cable lines between here and England have been interrupted, there has been a general rising in Basutoland. Advice from the 10th inst. reported that there was fighting on all sides. Reports of the 12th, however, stated quiet had been fairly restored.

LONDON, 15.—The *Times* says: The particulars of an attempt to destroy a steamer plying between Liverpool and New York, has just leaked out at the former place. It appears that just before the vessel left Liverpool for New York, on her last voyage, having on board a number of immigrants, a man gave the steward a box and requested him to take it to New York. The steward's suspicions were aroused and he consulted the captain, who ordered the box opened. This was done in the presence of the captain and officers. The box was found to contain an infernal machine. The contents of the box were thrown overboard, but the box itself retained and a note made of the address upon it. The fact of this discovery was not made known publicly in New York on the vessel's arrival there, but the British consul general in that city was notified of it. The steamer has just returned to the Mersey from New York.

LONDON, 15.—The mail train from Glasgow came in collision with a train from Carlisle at 9.11 last night. Seven persons were killed; several injured.

The bark *Hugin*, from Galveston, arrived at Bremen, severely damaged by running ashore at Nieuwe.

The steamer *Singapore* is on fire in the Suez Canal; mails and passengers saved.

The *Standard* has advice from Madagascar, stating that the war preparation in the interior is greater than those on the coast. The majority of the Saka Lava have joined the Seras in defense of their independence. The French are apparently loth to begin operations, their forces being inadequate to cope with the natives.

An excursion train from Grimsby on the Northern Railway came in collision with the Midland Railway. On the excursion train many persons were injured.

The *Times* says: In variety and completeness of illustration the United States collection at the

Fisheries Exhibition is not surpassed by any foreign exhibition.

James Younger is dead.

Waddington took dinner with the Emperor yesterday. Waddington has been treated with great distinction during his stay here.

Bismarck suffered greatly yesterday, and almost as severely to-day from neuralgic pains. He objects to going at present to Kissingen.

Rome, 15.—The Pope, in a circular to the Irish bishops, says: "Whatever Parnell's object may be, his followers have often adopted a course openly against the rules of the Pope's letter to Cardinal McCabe, and the instructions sent the bishops, which were accepted at their meeting in Dublin. While it is lawful for the Irish to seek redress for their grievances and strive for their rights, they should at the same time seek God's justice, and remember that wickedness and illegal means in furthering even a just cause will fail. It is the duty of the clergy to curb the excited feelings of the people, and urge justice and moderation. The clergy are not permitted to depart from these rules and join or permit movements inconsistent with them. Subscriptions to relieve distress are permitted; but subscriptions to inflame popular passions are condemned. The clergy must hold aloof when it is plain that by such movements, hatred and dissension are aroused, or distinguished persons insulted, and when crime and murderers go uncensured, and when patriotism is measured by the amount subscribed; for people are thereby intimidated. Therefore, the Parnell fund is disapproved, and no clergyman should recommend subscriptions thereto or promote it."

LONDON, 16.—The head constable at Liverpool maintains that the story of the discovery on the trans-Atlantic steamer of an infernal machine is a hoax, and that the box only contained a brick. The *Times* correspondent at Liverpool, however, insists upon the truth of the story, and declares that the police are anxious to minimize the importance of the affair.

Liverpool, 16.—The *Courier* says it is positive that a dangerous machine was found on the steamer.
