DESERET EVENING NEWS FRIDAY JANUARY 29 1909

WAGONS MIRED TO HUBS.

condition of the Streets Is Officially Made Known to the Aldermen During the Evening.

The board of public works, its doings and alleged misdoings, furnished most of the subjects discussed at the meetings of various committees of the city council last evening. The council did not take kindly to the strictures made upon it by the board, through its chairman, H. G. McMillan. The latter, it is said, instead of making known his grievance, if he had any, to the council, went to the editor of a mouning paper, and the result was an at tack upon the mayor and council, more than a column long. The contro versy was as to whether a certain conduit should be constructed by the city engineer, upon authority of the council, or be left to the board of pub-He works.

Another criticism was directed to the board for the bad condition of several paved streets, which have been torn up by public service companies and permitted to remain open and broken permitted to remain open and broken until in some instances they have be-come a menace. On Third South, be-tween Main and State, a milk wagon went down to the hub. Other dan-gerous places are at the corner of Third South and Main, at Second South and West Temple, and on First South, west of Main. The street supervisor complained that these places would have to be repaired out of the ap-propriations made for his department this year, which the board of estimates had eut down from \$146.000 to \$12,000. and cut down from \$146,000 to \$13,000. Superintendent Raleigh also criticized the inspectors in the employ of the board, claiming that they were either entirely incompetent or grossly negligent in their work.

To the city engineer was referred the petition of residents of Aprico the petition of residential of Apricot street and vicinity for grading and sidewalk extensions, the city's portion of the cost to be reported to the city. An oil test will be applied to maca-dam paving on Tenth East, between Second and Third South, the engineer aving an appropriation of \$500 to con-

# duct such tests. Only One "BROMO QUININE."

That is LAXATIVE BROMO Quinine. Look for the signature of E. W. IROVE. Used the world over to Cure a Cold in One day. 200.

## EXTENSIONS ARE GRANTED.

#### Time for Payment of Annual Land Entry Fees Continued.

Extensions of time on annual payments for land entries aggregating \$50,000 were granted by the state land board at its session yesterday. The policy of the board is in line with the policy of the federal government to nake land settlement and reclamation a seasy as possible to the settlers. Yea months additional time at 5 per east interest on deferred payments was followed. The board has been busy the greater part of the week in con-egregation of 200,000 acres of land ly-gregation of 200,000 acres of land ly-ing between the San Rafael and Green

ers. The application for regregation the land was filed by the Green

NO ARGUMENT IS NEEDED

Editor News: Thoughtless people sometimes attach the name of "Liquid Sunshine" to the infoxicating slops which are being gulped down the throats of the people of the Unitod Statos at a cost approximating \$14,000,-000 per annum. Instead of calling the decoction "Liquid Sunshine" I would characterize it "Liquid Damnation," with hell-fire and brimstone for an af-termath, with the battalions of heart-

termath, with the batfallons of heart-less and consciousless creatures who are unceasingly promoting the infernal

are unceasingly promoting the infernal traffic in human souls. Prohibition, I take it, should need no argument pro or con. The wreckage and demorali-zation the saleon is everlastingly de-veloping in the minds of the people need no special advertising, for they are everywhere apparent throughout the land.

It is also believed that the saloon

A. MILTON MUSSER SAYS

The "get acquainted" social function at the Elks' club last night was a huge success, large numbers of those who will be guests on the Elks' excursion to Los Angeles, which leaves here Feb. 6, accepting the invitation extended by the club to attend the "ladies' night" socials. The evening was spent in dancing, social conversation, and other forms of social entertainment, A feature which had been arranged for, consisting of two "turns" from the Orpheum, was not available, for the reason that the manager of the theater insisted that the contracts signed by the vandeville artists did not admit of their

vaudeville artists did not admit of their appearance in public except by per-mission from the New York office. Notwithstanding this, however, the social was a decided success. Exalted Ruler A. J. Davis and Secretary A. W. Raybould have begun the book-ing for the fourteenth car for the ex-cursion. They have received requests from Provo to have a car reserved, and one from Ogden of like purpose. Next Thursday night the lodge room will be decorated for the second "get acquainted" social, with orange and lemon branches, flowers and fruits brought in from California over the rought in from California over the Salt Lake Route for the occasion. ----

### UNIVERSITY NEWS

Almost every member of the art de artindit as well as 40 or 50 visitors attend with much interest to the talk n Whistler, given by Miss Mary Teasdel at the university yesterday. Miss Teasdel is a Utah artist who has spent considerable time studying abroad. She related many very interesting incidents that transpired in the life of James Mc-

# Nell Whistler, and concluded by read-ing a selection from his noted work, "Ten o'clock."

The fee of five dollars for each stu-dent for the purpose of athletics and other incidental expense was unani-mously endorsed at the meeting of the junior class. The matter was first taken up and endorsed by the sopho-mores and will be discussed by each class at the institution. It is the inten-tion to charge this fee to every stu-dent upon registration, and the student is thereafter admitted to all functions and contests free.

The diningroom at the dormitory is to be reopened, after a thorough clean-ing and overhauling. Miss Candland as-sumes active charge of the dormitory Monday morning, and she will at once proceed to make the place homelike.

Dr. John Sundvall delivered the last of his series of lectures on tuberculosis during the chapel hour this morning. Dr. Sundvall's lectures are exceedingly interesting and instructive and many townspeople as well as students have attended them.

It is also believed that the saloon fosters and promotes gambling and every other species of wirekedness list-ed in the devil's official blue book. Is it true that saloon walls are hung about with pictures of nude women and other purient and demoralizing images? What are these but vile ob-ject lessons to promote lechery and the social evil in the midet of the com-The girls of the "gym" are to give a "barn dance" in the near future. The affair will be one of the most unique ever given at the "U." Nothing but barn dance music will be furnished, cider will be served and all the accessories to the old time rustic dance will be in evidence. Stops itching instantly. Cures piles, eczema, salt rheum. tettet, itch, hives, herpes, scables-Doan's Ointment. At any drug store,

Prohibition Arguments Pro and Con.

den be called? All three of these "industries" are, as a role, patronized by the very same unclean, leprous creatures, and the saloon is ever ready WITH SENATOR J. Y. SMITH to ald and abet the other two weaker In re the statement of John Y. Smith n the "News" of Jan, 27, in which How many virtues can the apologist credit up to the saloons? Is there a single necessity in any community for the saloon? Does the saloon offer any read ar meadful thing to says your he states as a reason for opposing the nactment of a prohibition law for the "A great majority of the leading business men of Salt Lake and other barge eities of the state are today op-posed to state-wide prohibition. They do not view with approval the practi-cal confiscation of \$5,000,000 or \$10,000,-000 worth of property owned by the people engaged in the liquor traffic." Attention might here be called to the case of Beer Co. vs Mass., 07 U. S., 33, in the finul decision of which the fol-lowing occurs: . the saloon? Does the saloon offer any good or needful thing to any man, woman or child in the United States? Is there one saving and exalting ele-ment among its fruitages? And yet the saloons and their foster sisters com-mand and control measureless treasure and influence. Why bestate for one moment to forever, especially as far as Utah is concerned, abate this death and damantion dealing heartiess and pittless monster! Still, men will insist that there are two sides to the question of prohibition.

KOB

KOB

Still, men will insist that there are two sides to the question of prohibition. Largely the good alcohol does in medicine is tentative and conjectural, while the terrible and universal curve it entails on mankind as a beverage is palpable, unmistakable and onmi-present. Nothing problematical about this last conclusion. The patent facts only need to be stated to rivet con-victum. How infinitely better it would be for the brotherhood of man if all the treas-

by any incidental incorrenience which individuals or corporatons, may suffer." If the public safety or public morals ever required anything in this world they require the abolition of the ilquor traffic. If a public menace has \$10,000 of capital actively engaged in demor-alizing the people it needs to be dona away with just ten time's more than it it only had \$1,000 so invested. The more powerful the evil the greater the need of overcoming it. How infinitely better it would be for the brotherhood of man if all the treas-ure the saloons of the Lutted States, directly and indirectly, control, wore cast into the sea than put to the us-of destroying the bodles and some of God's children, as at present? Hence prohibition now and forever for dear and law-abiding Utah' Legis-lators, awake from your slumbers! Let me beg of you to come to the rescue of the wounded, bleeding and terribly afflicted and outraged mothers and children of our grand commonwealth The it only had \$1,000 so invested. The more powerful the evil the greater the need of overcoming it. That the public sagfety and public morals do require the abolishment of the liquor traffic, there can be no ques-tion. Chief Jastice Feid, in the case of Crowley vs. Christensen, 137 U. S., 86; 11 Supt, CL, 13, said: "The statistics of every state show a greater amount of erime and misery attributable to the use of ardent spirits obtained at these retail liquor valoons than to any other source. . . . There is no inherent right in a citizen to sell intoxicating liquors at retail. It is not a privilege of a citizen of the states. As it is a business attended with danger to the community, it may, as already said, be prohibited." It is the view, therefore, of Chief Justice Field, that no citizen is be-ing deprived of any right which he may possess by abolishing the saloon, for the reason that no right to conduct a saleon exists, or can exist, M. IUSSELL.

children of our grand commerce and children of our grand commerce all Let humanity and the Great God pre-val over this meaumental and infam-ous evil and defant octopust It is urged that millions will be lost to the city if prohibition becomes a law. This is an illogical sateen out-our because say the the sate for the

aw, This is an inogram sation out-cry, because, say they, the capitalists will not invest where the gin mills and their kindred death traps have been routed. Capitalists are not sap-ients, they are well united that their ivestments are safest where law investments are safest where law an order are maintained, and where it criminal classes do not cost the gov enuments millions every decade. If the saloon has not a single virtu-and I challenge its apologists to nam

even one, and its direct and conse-quential cost to the people is so meas-ureless in money and sufferings, i there any reason, logic, justlee or ex-cuse whatever in permitting it to con-tinue the sale of the liquid damnation in the dimension to work, minded

time the sale of the liquid dumnation It is dispensing to weak-minded peo-ple. It is hard for me to believe that any same person would favor such a course. What a heartless proposition to pit the sufferings of women and children against possible financial de-pression that it is claimed might fol-low prohibition! The apologists never cease asserting that the revenues from the liquor traf-

The apologists never cease asserting that the revenues from the liquor traf-fic are needed to meet the expenses of government. What idioey! When it is well known that the direct and consequential eriminality, which the traffic creates and promotes, far ex-ceeds the revenues derived from liquor licenses, etc.

traffic creates and promotes. far ex-ceeds the revenues derived from liquor licenses, etc. Is there one or a coalition of agen-cles so destructive of human life and happiness like unto the saloon, and yet it is said, that some of our law-makers invite it to continue in its aw-ful mission of death and destruction! The Savior says: "Fear not them which is able to destroy both soil and body in hell." Is there a combination of agents on God's earth as absolutely en-gaged in destroying both the souls and bodies of men in hell, and that, too, in countless numbers, as the saloons are daily doing year in and out? Verily, "man's inbumanity to man makes countless thousands mourn." Personally I have no quarrel with saloon men as citizens, but let there be unreleating war to a finish waged against their damnable commerce in the human flesh and souls of their weakest of weak fellowmen. I in-sist that every right thinking man and under the moust oblications to

ject lessons to promote lechery and the social evil in the midst of the com-munity by inflaming the beastly pas-slots of the men who patronize these pitfalls. Some of their apologists claim that saloon men are a liberal, open-handed brotherhood. With equal co-gency the harlots and gamblers are rated in the same category. These tripartite people-triplets of the same parentage in works and symmathy-are parentage in works and sympathy-are said to be very free in distributing their ill-gotten increments. If the sist that every right thinking man and said to be very free in distributing woman is under moral obligations to increments. If the Standard Oil money is tainted, what should the income of the saloon, the disorderly house and the gambling Salt Lake City, Jan. 28, 1903.

### COUNTY AUDITORS TO MEET.

#### Plan is Advanced for Convention to Adopt Uniform System,

A convention of county auditors and assessore is to be called if the plan of County Auditor Heginbotham works out as per schedule. So many complicated questions come up before the auditor and assessor in every county in the state, which must be answered by these officers, that the benefits to be derived from such a convention are

obvious. It is believed by Mr. Higinbotham that every auditor and assessor in the state will be in favor of the propo-sition, and the only thing remaining to be done is to receive permission

to be done is to receive permission from the county commissioners from each county to attend such a gather-ing. Such conventions are held to many other states. Idaho for instance, has jut sent her county officers to their homes after attending is con-vention of county assessors and au-ditors at Bolze, has week. Many of the officers of the outlying countles are now visiting the offices in this city, and each of them have signified their intention of creating interest in the convention. onvention.
