Mr. C. W. Penrosets ... Dear Sir. Your note requiring particular information in regard to particular information in regard to the accident and amputation at Plain City, is to hand, and in reply permit me to state that upon arriving at Mr. Raymond's, Plain City, Saturday evening last, I found his son, aged 12 years, suffering from a wound in the right leg, of the following description, viz: A compound comminuted fracture of both tibuis and fibula, just below the patella, necessitating an amputation at the lower third of the femur or the thighbone. I performed the operation with the assistance of one or two of the neighbors, whose names I do not recollect. When I visited him last; on the evening of the 2nd inst., his symptoms were all favorable.

He also received a slight injury, including the tendo achillis of the left leg but not it all dangerous. The wound was made by either a moving or resping machine, I am not positive which. the accident and amputation at

LIBERAL RIOTINGS.

THE "Liberal" partizans, more and more, show their defiance of law and order, and their peace-breaking proclivities. From expressions previously uttered by some of their prominent mouthpieces and from the bearing and animus of numbers of the partizans on the earlier portion of the day of election, it was unmistakable that they were set upon having a disturbance of the peace and a mobocratic display. The spirit manifested by some of those partizans around the City Hall was malignant, feroclous, murierous, fiendish. Some of them professed to be deputy U.S. mar-

shals, but they proved a disgrace to that office, and seemed a great deal more anxious to be breakers than conservators of the peace. In support of such a ridiculous assumption, we have never seen a particle of law or authority. The re-construction or "bayonet' lawof Congress, under which United States Marshals and their deputies are authorized to attend elections specially for representatives or delegates to Congress, and to arrest offenders against United States laws was passed with special reference to the Fifteenth Amendment and the suffrage rights of colored people, and was never intended to abolish local
