

THE EVENING NEWS.

Friday, Nov. 17, 1871.

PRICE OF GOLD.

Received Daily by BANK of Denmark,
SALT LAKE CITY, November 17, 1871.
Buying at \$100. Selling at \$111.

LOCAL AND OTHER MATTERS.

Friev.—A nice frost and a pleasant morning after the showery, snowy time of yesterday.

ONLY ONE FAULT.—George Greenwood has only one fault to find with the Salt Lakers, judging by the following:

"Wor it is not for this one's reproach (politically) the Mayor and Common Council or our State, City, or County, and us Salties the folks of Tasmania are so fond of boasting that they rule over a city where among their own people there are no strikes, no meetings, no burglaries, no drinking saloons, no gambling halls, no disorderly and indecent houses, no bad kind, no street beggars, no insidencies, no prize-fighters, a city in which wages are high and taxes low."

Now it is doing pretty well, as men go, in a community to have only one fault, especially when that one fault is really a virtue, a divine institution ordained and sanctioned and blessed by the greatest and best man known to Biblical ages. That is doing pretty well. Anybody can look abroad upon other communities and see hundreds of faults, and very little else too.

SALT LAKE CITY, Nov. 16, 1871.

Our Deseret News. Dear Sirs—"We are men of the world." We partake not of their sins, and copy not their ways. We are ashamed of the world,—therefore, the world hates us. That we are not of them and that they hate us, are propositions, the truth of which, none will deny. If we would be different beings, we could not, for we are composed, with irreconcileable and overwhelming power, to make up what we are. Hence, we are, and have adherents full and numerous, brothers and their brethren. They were no doubt chosen, and became the standard of the spirit of the world. Hence their ready union. But is this any reason why the remaining faithful, however small or despised, should follow the unhappy and disastrous example of their fallen brethren? We do not say, "Interfere with nobody if they conduct themselves with any reasonable degree of propriety. We generally mind our own business, and do not interfere with that of other people.

Naming a horse, should we be asked, "What is he?" Or being an ox, should we be asked, "Is he a sheep?" Or being a sheep, should we be asked, "Because we are not a goat?" If Brigham Young, and all the apostles were to lay down, it would not more affect the fact and circumstances than that of a "Mormon," than the tardily assassinated Presidents Lincoln affected the fundamental principles of our great Republic. Thus we remain unconquered, both hand and foot.

Now, I would ask, does it become a great and noble Ruler to direct or allow his agents to jump upon us, unlawfully, and tear us in pieces like so many ravenous wolves? Will it tend to his popularity, or even to his safety, to change the tone of human affairs; has allowing these should not be responsibility must attend somewhere; and unerring and unfailing justice sooner or later, will reach its righteous sentence? There is, also, an unwise avoidance which seems to be the policy of the oppressor; and though he may really believe that he is "doing God's service," he may be humbled, if in no more direct way, by the uncompromising determination upon the part of the honest sons of the vesting hosts, and of whole hosts being sunk into the bowels of the earth. The end is not yet for "It is the year of the Lord's recompence for the controversy of ZION'S WARNING."

OUR SALESMAN, the periodical business broker of Linforth, Kaling & Co., San Francisco, has come to hand. We copy the following from there:

Commercial pursuits are attractive to the ambitious. They offer the hope of wealth, influence, ease, and a high social standing. Consequently thousands of young men, who ought to remain in the country and assist in the ground, enter the ranks every day to seek their fortune. This is an unnecessary multiplication of those who come between the producer and the consumer, adding nothing to the value of the commodity. It is not too much to say that the present number of cities traders who come to remain in the town and dominate the ground, and the favored remaining quarter who ought to stay in the city and attend to commercial pursuits. There is the rule.

KNOW BEAR LAKE.—Brother James H. Hart called on us last evening. He arrived from Bear Lake Valley on the 13th, via Evanston and Bear River Valley, two days' journey from Bear Lake to Evanston. He gives a surprising account of things about the lake, without the knowledge of most of the valley the past season, so that many of the settlements had nothing but potatoes, yet of this neglect an excellent crop was secured. Many of the settlers went to work at Soda Springs and other places, and now they are well supplied with flour, bacon, salt meat, and other articles, and are moving into other valleys in the Territories. No grasshopper eggs are reported in the valley, and the people are hopeful for the future.

The town is located between Utah and Idaho a few weeks ago, leaves Fishhaven, St. Charles, Bloomington, Paris, Liberty, Coal, Montpelier, Bennington, Franklin, and Georgetown in Idaho, and Lakewood and Minden in Utah.

There has been no population of Bear River valley. He considers it a promising place for those who are seeking homes and who wish to become bona fide settlers. There is abundance of water, timber, coal and grass. Little snow falls, and the rainfall is equal to that of the West, summer and winter. Randolph, thirty miles from Evanston, consists of fifty families, and is becoming a place of considerable interest. Several thousand inhabitants can be obtained there. Within a few miles of Randolph, there is a large deposit of mica, in abundance is found. At the Wyo, coal mines, two and a half or three miles north of Evanston, the body of fuel is very great, some veins being twenty-seven feet thick. The coal is excellent for steam purposes. In general, several hundred men are employed there. Woodruff, twenty miles from Evanston, has good fruit-growing settlement.

Bro. Hart designs to stay in the city a short time, living at a distance, he is naturally anxious to learn the workings of the new dispensation, judicial and political, as exhibited by the "ring" and bureaus.

JUDICAL THEOLOGY.—The address of the Judge Jeffreys to his first victim is referred to by the Chicago Times as "a very learned theology." "He has sent Tom Hawkins in prison," says the Times, "for the term of his natural life, to teach him, and the brethren of the household of his faith, that Divine Providence does not intercede miraculously to shield criminals. That he is in the way the Judge puts it himself, it may be quite true. But the law of the United States Judge has a right to turn his court into a theological seminary, or whether his students will make any con-

siderable progress in divinity under his instructions."—*Sacramento Reporter*.

Special Notices.

Sudden Changes in the Weather are productive of Throat Diseases, Coughs and Colds. There is no more effectual relief to be had, than in the use of "Brown's Bronchial Tonic."

ONE HUNDRED TONS BALED HAY For Sale, South East Corner 14th Ward. E. T. MUMFORD.
