ADMINISTRATOR'S NOTICE

HAVING been duly appointed administrator of the estate of Levi Murdock, late deceased, by the Probate Court of Salt Lake County, Utah Territory:

Notice is hereby given to all the creditors of said deceased, and all persons having claims against said deceased or estate, that they are required to exhibit the same with the necessary vouchers to the undersigned, at the office of A. Miner, Esq., Second South Street, Salt Lake City, in said county, within ten months after the first publication of this notice, or the same will be forever barred. And all persons owing said estate are hereby requested to settle their indebtedness with the undersigned without delay.

JOHN W. MURDOCK,
Administrator of said Estate.

Salt Lake City,
Oct. 25th, 1879. d 27, 10 9 to 25, 11 9

WATCHES JEWELRY

ABOUT three months ago all the watchmakers in this city agreed and subscribed to certain prices for work in their line, for the purpose of obtaining uniform and reasonable rates. This agreement, however, has already been broken by several watchmakers, who are undercelling their colleagues and thereby proving themselves untrue to their written word. In consequence of which, the undersigned has withdrawn his name from said agreement and established his own prices, **cheaper than any other Watchmaker's in Salt Lake City.**

CLEANING WATCHES $1.50 A PIECE

And everything else in the line of

WATCHES and JEWELRY

Reduced in the Same Proportion.

Articles and Workmanship Guaranteed to Give Perfect Satisfaction.

Lake City, Sept. 1879. 1-24m

For You, Madam,

Whose complexion betrays some humiliating imperfection, whose mirror tells you that you are Tanned, Sallow and disfigured in countenance, or have Eruptions, Redness, Roughness or unwholesome tints of complexion, we say use Hagan's Magnolia Balm.

A delicate, harmless and delightful article, producing the most natural and entrancing tints, the artificiality of which no observer can detect, and which soon becomes permanent if the Magnolia Balm is judiciously used.

EASTERN.

Report of the Land Office Commissioner.

WASHINGTON, 11.—The annual report of the General Land Office has been handed in to the Secretary of the Interior. It shows that during the fiscal year ended June 30th last, 9,333,853 acres of public lands were disposed of, and 9,484,996 acres were surveyed, in addition to 734,591,236 acres previously surveyed. The total number of acres of public domain still unsurveyed is about 1,081,000,000 acres.

The disposals were mainly as follows: Homestead entries, 5,260,111 acres; timber culture entries, 2,706,574 acres; cash entries, 622,574 acres including 165,996 acres entered under the desert land law; grants to railroads, 278,334 acres; swamp lands patented to States, 75,335 acres; other grants to States, 186,392 acres. The amount of land surveyed the last fiscal year exceeds by 417,769 acres the total area surveyed in the preceding twelve months, and while the report shows a falling off of some 773,000 acres in cash sales, State selections, scrip locations and land patents for railroad grants, the increase in the area taken up by settlers under homestead and timber culture laws has been sufficient not only to counter-balance this falling off, but to make the aggregate disposals for the year greater by 647,204 acres above the total for the previous year. The increase in homestead entries was 841,763 acres, and in timber culture entries 896,139 acres.

Owing to the existing laws for the disposal of public lands for homestead and timber culture, it is shown that during the last fiscal year with a larger disposal of land, there was received from all sources $1,883,113; less by $139,317 than the amount received during the fiscal year ending June 30, 1878.

The Acting Commissioner reports that under various acts of the Forty-fifth Congress and with the aid of an appropriation of $40,000 granted last March for the protection of timber on public lands, efforts have been continued to suppress depredations. But they are yet extensive and the interests of the government and those of the people now residing, or who may desire to settle in the region of public timbered lands, require that they should be still pursued with unremitting earnestness and vigor.

The World Lecturing Buckner.

Representative Buckner, chairman of the committee on currency and banking, is in New York to investigate the affairs of the National Banks doing business there. The *World* reads him a sharp lecture concluding thus: New York, it must be borne in mind, is not a provincial but a metropolitan State. She is the most powerful State in this Union: Her feet cannot be swept from under her by the cry of a "Solid South," or by waving of the "Bloody Shirt," or by any western patent medicine clamor for "a new way to pay old debts." No man will be President without the vote of New York in 1880, and no man will get that vote be he republican or democrat, who lacks a solid record for honest money, and a temper which will make New York feel assured that he cannot be cajoled or bullied by the communists of debt shirkers. If the democratic party of New York had suspected Gov. Robinson of sympathizing with the views which Buckner is reported to have expressed in this city, about 15 minutes would have sufficed to count his ballots one week ago tonight.

The Reception by the Capital.

The committee on the reception of General Grant met last night, Judge McArthur, chairman, who said that in pursuance of the citizens' meeting of the 27th ult., he had selected a committee of 100 to make preparations for the reception of General Grant when he should visit Washington. In selecting this committee he had endeavored to appoint gentlemen who represented the business interests of the city. The chairman was empowered to communicate with the General, inviting him to Washington and requesting that he name the date upon which he may be expected.

Grave Objections to Women.

At a regular meeting of the board of school trustees for the district tonight, the question was settled of the application of Mrs. Belva A. Lockwood and six other women for placing a woman on the school board, which was first sent to the President, and by him referred to the Attorney General, then to the district commissioners, and by them to the school board. The latter adopted to-night a report admitting that there is no legal obstacle to women serving as members of district school boards, but taking the ground that there are grave objections as matters of policy, and that therefore the application should be refused.

Falling Off in the Revenue.

Dispatches say that Gen. Raum repotts that there would have been an alarming falling off in the revenue this year, except from the increased receipts from the taxation of whisky, and gives facts and figures to strengthen his statements.

Big Blaze.

NEW YORK, 11.—A fire broke out shortly before noon to-day in the building No. 414 and 416 Bleecker Street, which extends to Hudson Street and faces Abingdon Square, and is occupied by a number of manufacturers. The flames issuing from the windows of the fourth floor used as a cabinet maker's shop by J. A. Thomas, drew the attention of the people in the street, and an alarm was quickly given. All the fire engines in the district turned out, but the flames spread, despite the efforts made to check them to the floors above and below, and very soon four of the five floors were in flames. As the floors burned they fell into the fiery abyss. On Bleecker street side the fire raged furiously and gradually crept around to Hudson Street and seized upon the upper story. At 1.30 the fire was under control. The losses aggregate $75,000. The occupants of the buildings were, in main, insured.

Sherman's Recommendation.

The *Herald's* Washington special says: It is understood that Sherman will urgently recommend in his annual report the repeal of the law making it mandatory upon the Treasury Department to coin standard silver dollars. He will show that not one-fourth of the amount already coined has gone into circulation and its accumulation is not only becoming a source of annoyance to the Treasury, but currency is being locked up in a most unsatisfactory manner by the provisions of the law requiring a monthly coinage of not less than two millions of standard silver dollars. Besides if this useless tax on the capacity of the mint was discontinued of the coinage of silver, it would enable the mint at Philadelphia to coin a large amount of gold which has accumulated this fall.

Financial.

The *Post* says: That up to noon to-day the assistant treasurer at this city had paid on account of $10,000,000 of United States bonds, bought for sinking funds, $8,246,164. As the whole amount is to be paid in gold and in the ordinary way, it would have to be transferred bodily from the subtreasury vaults. The banks, through the clearing house association have asked the Secretary of the Treasury for permission to store the money in one of the sub-treasury vaults which was built for the accommodation of silver, until such time as the Bank of America can complete arrangements for acting as a storehouse for the gold against which certificates of deposit are to be issued for clearing house settlements.

Gone to Sea.

Nearly 100 vessels, many of them being coasters, left their anchorage off Staten Island yesterday to go to sea.

Courtney's Boat.

The boat which Courtney intended to row against Hanlon, but which was sawed in two the night before the race, is on exhibition in a Broadway store.

Chicago's Greeting.

CHICAGO, 11.—The streets have been thronged to-day with the advance guard of the visitors to the General Grant reception. The weather for the past 24 hours has been showery and disagreeable, and decorations have not progressed very rapidly. The idea of arches having been abandoned, the adornment is chiefly done by private individuals and on a moderate scale. The train will arrive from Galena at 1 p.m., and the General will be immediately taken in charge by the Army of the Tennessee, when the procession will form and wind through the principal streets. In the evening formal speeches will be made.

At midnight rain is falling briskly and the sky is lowering. The prospect for a fine day to-morrow is not very good.

A Tricky Chinaman.

The chief Chinese residents held a meeting to-night and decided to advise the Chinese Six Companies of San Francisco that Wong Chin Foo, who is lecturing here on the doctrine of Confucius, is a bad man, who was driven from China for his crimes, and that he should probably be returned to China, and receive the extreme penalty of the law. Mr. Foo, who is an extremely well educated and talented man, writes a letter to the papers confessing that his intrigues in Chinese official circles caused him to leave the Celestial Empire, and stating that he has little fear of extradition, as he is a naturalized citizen of the United States.

Swill Milk.

The city council, to-night, adopted an ordinance prohibiting the sale in the city of milk obtained from swill fed cows. This has been a crying evil, as cows fed with distillery slops don't give milk fit for use, and yet this is sold largely to poor people.

A Deserted Bark.

PHILADELPHIA, 11. — Captain Flaherty, of the steamer *Zealand*, arrived from Antwerp, to-day, and reports that on Nov. 8th he picked up the bark *Royal Arch*, of Sunderland, which had been abandoned by her crew. The bark, when found by the *Zealand*, was loaded with salt and general merchandise, and her masts and rigging were all in proper shape. She had but two or three inches of water in her hold and her pumps were in good working order. Capt. Flaherty could not tell from what point the bark hailed nor what her destination was, and no reason can be assigned for her abandonment by her own crew. A volunteer crew was put on board of her and Capt. Flaherty directed his officer to take the bark to New York.

Wool Market.

Wool is firm and buoyant, and the supply light. Oregon is firmer, 25 @ 35; medium, 35 @ 37; coarse, 33 @ 35; California fine, 28 @ 36; medium, 33 @ 38; coarse, 30 @ 37; New Mexico and Colorado, 28 @ 30; medium, 28 @ 32.

The Collision.

An official inquiry will be instituted to-morrow by the acting British Consul, George Crump, into the causes of the collision of the steamship *Champion* with the *Lady Octavia*.

An examination of the bark *Lady Octavia* shows that she was only slightly damaged by her collision with the steamer *Champion*.

The Peace Commission.

LOS PINOS AGENCY, Col., 9.—General Adams, a member of the Peace Commission, has just arrived. Colonel Patch is expected to-morrow. The Commission will be ready to take testimony on the 12th inst. If the Utes had been consulted on their choice, they would have selected General Crook from the military. Shavinaw, a chief, says: "Crooks have no map to fight Indians. He no tell lie. We like him." This is the universal sentiment among the Utes. As to the result of the Commission it is idle to conjecture. A month will not see the end of their labors. A majority of the White River Utes are camped about seventy miles from here. They are afraid to accept the invitation of Secretary Schurz and the assurances of Chief Ouray to come.

A Cyclone.

LITTLE ROCK, 11.—A terrific storm passed over a portion of Crawford County on Saturday last, at about 3 o'clock. At Van Buren, hail fell in unprecedented quantity; hail stones were found in the streets two by three inches in dimensions. The centre of the force passed to the east Natural Dell, 16 miles north. The track was half a mile wide and a clean sweep was made of everything in its path. Trees were twirled like straws, houses unroofed and overturned, and in places not even a sapling was left standing. One house was lifted and transported out of sight. John Newton was killed by a falling house and quite a number had legs or arms broken.

Grain Inspector's Report.

SPRINGFIELD, Ills., 11.—The report of Chief Grain Inspector Reynolds and Railroad and Warehouse Commissioner for October shows that the amount of grain received at Chicago during the month is larger than for any corresponding month of any previous year; and that 8,918 cars more were used than in October, 1878. During the last month there were 33,405 cars of grain inspected in, and 1,030,750 bushels received by canal and lake, while the Ontario inspection amounted to 10,977,790 bushels. The amount of grain received at Chicago during the year ending October 11th, 1879, was several million bushels more than that received during the previous year.

An Embezzler Arrested.

NEW ORLEANS, 11.—Edward C. Palmer, late president of the Louisiana Savings Bank, was arrested to-day upon two indictments by the grand jury, one charging him with the embezzlement in June, 1879, of $47,437 of money belonging to the bank or deposited therein; the other with publishing false reports and wilfully concealing facts as to deceive the public. He is imprisoned in default of $40,000 bonds. Palmer declares his arrest an outrage, caused by hatred, jealousy and spite, and is glad that it is now impossible to prevent an impartial investigation whereby the other side will be shown up.

Mexicans and Indians.

EL PASO, Texas, 11.—A desperate fight took place yesterday in Caldelovia mountain, 50 miles south of here, in the State of Chihuahua, Mexico, between a large band of Indians, about 200, and a party of 50 men from Cariza, New Mexico, 32 of whom were killed and 18 escaped wounded. The Indians were the same party that Major Morrow was after. They came from the Florida mountains to the Candelovia mountains, where the party after them was ambushed by the Indians behind rocks. The fight lasted all day. The operations of this gang are directed by a wealthy business man in Michigan.

A Dead Millionaire.

HENRY, Ill., 11.—Robert Davis, the millionaire, died at San Antonio, Texas, this afternoon, of consumption. He was the wealthiest man in Marshall County, owing to a large landed estate, which he leaves to his wife, son and two daughters. The remains will arrive here on the first of next week.

The Arkansas Hurricane.

ST. LOUIS, 11.—Advices from northwestern Arkansas say: A tornado passed through a part of Crawford County, last Saturday, destroying nearly everything in its course and killing several persons.

WESTERN.

The O'Brien Estate.

SAN FRANCISCO, 11.—The distribution of the estate of W. S. O'Brien, deceased, amounting to $9,000,000, which was to have taken place August 29th last, has, by a decision of the Probate Court rendered yesterday, been indefinitely postponed, the estate being dependent in four suits brought by John H. Burke against J. C. Flood and others, amounting to $36,944,000. Burke filed an opposition to the distribution, together with copies of complaints in all actions pending, and which were demurred to by the executors and legatees of the estate. Judge Myrick, of the Probate Court, in overruling the demurrer, says: Sufficient appears in opposition to show that partial distribution should not be made until the controversy as to the rights of Burke is disposed of.

FOUND.

A WHIP. The owner can get it by calling at this office.
