GEORGE Q. CANNON,
BRIGHAM YOUNG,
Editors and Publishers.

Local and Other Matters.

FROM TUESDAY'S DAILY, JULY 19.

Portage Notes.—From "Reporter" we learn that Brother Wm. C. Heaston, of West Portage, recently had his left elbow accidentally thrown out of place. The weather was very hot, no rain having fallen for 6 or 8 weeks. The mountains east of Portage were all afire, much of the best timber being burned. The hay crop would be about one-fourth of the average. Grain left by the hoppers was splendid.

Be More Explicit.—We offer as a kindly suggestion to such of our country contemporaries as may be touched by the observation, that in noticing an event in their local columns, they be kind enough to please their readers by giving the date and place of the occurrence. The simple fact that John Smith had his leg broken, sheds but very little light upon the average comprehension, and even editors are not as omniscient as in time past they have been supposed to be.

"Northern Light."—The last issue of this paper announces the intention of its publishers to print a semi-weekly, the early part of November.

Samuel Miller, a small boy of Hyrum, has had his arm broken while riding a wild horse.

Two young boys, somewhere in Cache County, were riding a horse, some time recently, and on the animal's taking fright, were both thrown to the ground. One of the boys had one of his arms broken.

Accident.—About half-past ten this morning, Mr. Thomas Green, an aged gentleman from Mill Creek, while driving a load of hay to market, met with a severe accident. He was coming up the State Road and when nearly opposite the Colorado House, turned to one side of the road to get in the shade; the wagon here struck a bad place and was tipped over, the aged driver being thrown to the ground underneath the load. He recovered himself and was on his way up town afoot, to procure medical assistance, when he fell down and was carried into a shop near by. Dr. Anderson was summoned and found that the injuries sustained were a bruised hip and sprained back. The patient was doing very well about noon and will be taken home to-day.

Rebuilding.—Brother Robert Price, the Superintendent and Manager of the Paris Co-operative Institution, the burning of whose planing mill we noticed recently, was in the city to-day, on business connected with the institution. He has purchased a turbine wheel, and is making necessary preparations for rebuilding, and the speedy resumption of the work is expected. Bro. Price thinks the mill will be in working order in about four weeks. The loss, which was \$2,000, will fall on the stockholders, and will not cripple the mercantile department. The rebuilding of the mill will be accomplished by increasing the capital stock of the company. The other branches of the institution are in a flourishing condition. Bear Lake cheese, and boots and shoes are acceptable articles in this market, and are creditable to the enterprise and ability of all concerned in their manufacture.

The Juries.—The following are the names composing the Grand

and Petit Juries for the September term of the Third District Court.

GRAND JURY.

132 John Barton	1 L Goldberg
92 Samuel W. Wohley	12 Frederick Gass
173 Thomas Stoker	191 Samuel Greenbaum
99 George Sanford	
112 Asabel L. Fuller	122 Chas. Bagley
125 Alonzo L. Buck	20 David McKenzie
58 Thomas W. Lee	141 E. J. Turner
101 R. D. Clark	114 O. D. Hendrickson
156 David R. Browning	91 J. G. Brown

These are expected to appear on the fourth Thursday in September.

PETIT JURY.

129 A. G. Fell	100 Thomas Higman
83 Joseph Burkett	116 Samuel Heim
171 Thomas Singleton	143 Pierce Quirk
137 W. B. Doddridge	131 E. H. Orth
26 Frederick Lockley	64 Richard Matthews
104 Elzathan Eldridge	58 John Cottam
133 J. S. Lewis	76 Wm. C. Neal
16 James Latham	106 Jacob Gibson
195 Brigham Tibbets	17 Thomas Carter
23 Royal Barney	45 K. M. Powers
42 Jonathan Midgley	73 Geo. H. Cannon
30 Wm. F. Poll	158 Ben. Ch. Farr
135 G. G. Griffith	117 Jonathan F. Wilcox
161 Wm. P. Hart	178 Jonathan D. Wood
200 Geo. Goodrich	170 Joseph Hagan
91 J. B. Kirby	123 Adalbert Burnham
111 James Watson	
115 Geo. H. Steed	85 Alex. Hallen

These will appear on the fourth Monday in October.

Arizona.—We received an agreeable visit yesterday from Brother Charles Crismon, who has come up on a visit from his new home at Salt River, Arizona, twelve miles above Hayden's Ferry, and about 25 miles southeast of the town of Phoenix. Brother Crismon was called to that mission at the April Conference in 1878, and started in the October following. When he arrived there, he found a valley about 75 miles in length and about 20 to 30 miles wide, which showed unmistakable signs of having been cultivated many hundreds of years ago. Brother D. W. Jones was located in that region, and he and his company had made a canal and were farming part of the land. The company that Bro. Crismon was with located and commenced a canal on Salt River, about three miles above this, and after running it three miles in a south-westerly direction, they struck an old canal known as the great Montezuma Ditch, which they utilized for a distance of six miles, which brought them on to a large tract of table land, called in that country a mesa. This tract is about twenty-miles square, and very rich. The ditch above named had originally watered this entire tract by means of branches in various directions. They then laid out a city one mile square, with ten acre blocks, and streets six rods wide, and called it Mesa City. Any of the tropical fruits, and all kinds of cereals can be raised there in abundance. They have no winters nor frosts, consequently the farmers can sow or reap a variety of crops at all seasons of the year. They are located about thirty miles north of the Southern Pacific Railroad, and Brother Crismon made the journey after reaching this line in five days and a half. Consequently the trip can be made from Mesa City, Arizona, in to Salt Lake in six days. Bro. Crismon states that the Indians, who number about ten thousand in that region, and of which the principal tribes are the Pimas, are very friendly, and quite industrious.

FROM WEDNESDAY'S DAILY, JULY 30.

Frost, Drouth and Hoppers.—A correspondent at Meadow, Millard County, writes that for the third year the fruit has been cut off by late frosts, and that the drouth and the grasshoppers have ruined nearly the entire crop.

Georgetown News.—A correspondent writes from Georgetown, Bear Lake County, under date of the 25th inst. The general health of the people was good at the time, though they had had much sickness of late, and four deaths. Meetings were well attended. The hay crop was a total failure, but grain was never more promising. No rain for several months, but plenty of water for all purposes.

Garden City.—A few words for Garden City, Rich County, which one of its residents furnishes under

date of the 26th inst. The place was first settled in the spring of 1877, is situated on Bear Lake, in a sloping valley about a mile in width, from the lake to the base of the mountains. The climate is adapted to the growth of all kinds of vines, such as squash, cucumber and melon, and is also favorable to sugar cane, tomatoes, etc. The wheat crop is average this year.

Williamsburgh Conference.—Brother P. A. French, Secretary of the Williamsburgh branch of the New York Conference, writes under date of the 10th, that their conference, an unusually happy and interesting one, had recently closed, with the general regret of the members that it could not be continued longer. The Saints there had much opposition to meet and needed the moral support that "Mormonism" could alone impart. The Brooklyn Branch had emigrated many hundred members and was preparing to emigrate more. All were alive to duty.

Coal Discovery.—The Dispatch details an account of the discovery in Eastern Nevada of a vein of coal thirteen feet thick, by Mr. J. Gallicher, a former resident of Ogden. The fortunate prospector arrived in Ogden last Saturday with specimens of the coal, which were examined by Mr. R. H. Pratt and other railroad men and are said to have presented a better appearance than the Rock Spring variety. A number of the specimens have been sent to the headquarters of the Central Pacific Company in San Francisco, for a more complete assay. If the result proves successful, it is expected that the company will lay a branch road from Lucin to the mine for transporting purposes.

St. Charles Notes.— "Rural" sends us a communication from the above named place, from which we glean as follows:

President Rich, Presidents Hart and Osmond, Bishops Pugmire and Hunt and twenty others, celebrated the 24th in the mountains at the Logan Temple saw mill.

The weather was hotter and drier than ever, though there was an abundance of water to be had, and the crops generally looked well.

A new school-house was in contemplation, and on its completion, the services of a good teacher would be in demands one who could lead a choir preferred.

Elder N. Wilhelmson left last Saturday for Europe, to take charge of the Scandinavian Mission, the people nobly coming to his assistance with means for the journey.

FROM THURSDAY'S DAILY, JULY 31.

Condolence.—The NEWS desires to extend its sympathy to Brother Brigham Y. Hampton and his family in the death of another little daughter by diphtheria, which sad event occurred to day. Last Thursday the same family lost one of their little ones from the same disease, and the close following of the other death is an unusually heavy affliction.

To be Appealed.—The billiard case of the city versus G. S. Eli, decided in favor of the defendant by Judge Emerson in the District Court a few days ago, will be appealed, within the ten days allowed for that purpose, to the Supreme Court of the Territory. Experienced attorneys say that the decision was so palpably unjust that there is hardly room for doubt that Emerson's ruling will be reversed.

District Court.—Proceeding Thursday morning, July 31st, 1879. Hannah Lapish vs. B. C. and C. F. R. R. Company; argued, and new trial allowed.

Emeline A. Young et al., vs. Geo. Q. Cannon et al.; continued till tomorrow at 10 a. m.

Arthur Brown admitted to the bar as attorney and counselor at law.

Territory of Utah vs. Elias Smith; argued for the defense, and taken under advisement by the Court.

Judge Smith's Contempt.—The hearing in the case of alleged contempt against Judge Elias Smith, for failing some time ago to produce certain County Court records, in

the contempt case against the Executors, etc., when required to do so by the Court, came up this morning in the District Court, before Judge Emerson. The case for the defense was argued, there being no representation on the other side, and the cause was taken under advisement.

Arrival—Convalescent.—The Millennial Star of July 14th has the following:

On Friday afternoon, July 11th, Elder James King, from Utah, arrived by the S. S. Wisconsin. He left the following day for Scotland, for the purpose of visiting relatives and friends, that being the object of his coming to this country.

We are happy to be able to say that Elder David C. Dunbar has regained his health and strength, and will soon be able to be out and about again.

Grantsville Matters.—The 24th at Grantsville was a grand affair, a regular old time patriotic celebration occupying the forenoon, games of different kinds the afternoon, and a grand ball the evening. We are indebted to Brother J. R. Clark for a well written report of the day, but lack of space precludes its publication. The people there were in the midst of harvest. Grain and grass crops were light, but enough would be raised for home consumption, with some to spare. The present was the driest season ever experienced. Many farmers who depended upon surplus water had lost nearly all their crops from the scarcity of that element, but none would suffer who were willing to work.

"Enquirer" Items.—W. H. Huntington, postmaster at Springville, is reported to have fallen down stairs on Monday and dislocated his shoulder. His condition is said to be dangerous.

A semi-weekly stage coach, between Provo and Salt Lake is contemplated, the fare to be nearly 50 per cent below the present railroad fare.

A communication from Sheriff Huntsman of Millard County, dated the 25th inst., announces the examination at Fillmore of the highwaymen Wm. Morgan and J. H. McKinney alias Frank Jones, who were captured in Sevier County a short time ago.

Catarrhal POISON

WEL DE MEYER'S TREATISE ON CATARRH, explains the following important facts:

1. That Catarrhal Colds become a poisonous infection, at first local, and finally constitutional.
2. That, being Constitutional, the infection is beyond the reach of mere local remedies.
3. That whatever impurities exist in the nostrils, are necessarily swallowed into the stomach and inhaled into the lungs, thus poisoning the digestive, the respiratory and the genito-urinary organs.
4. That Catarrhal virus follows the mucous membrane and causes Weak Eyes, Deafness, Dyspepsia, Chronic Diarrhoea, Bronchitis, Leucorrhoea and Consumption.
5. That Smokes, Douches, Inhalations and Insoluble Snuffs, taken into the nostrils and throat, cannot possibly remove infectious inflammation from the organs named.
6. That an antidote for Catarrh must possess an inoculative affinity for, and the capacity of being absorbed by the purulent mucous wherever located.

Acting upon these theories, Dr. Wel De Meyer has found a remedy for Catarrhal diseases, which proves to be infallible. His Treatise, with overwhelming proofs and full explanations of the most important medicinal discovery since vaccination, is sent free and Post-paid to anybody. Wel De Meyer's Catarrh Cure is not yet in the hands of all Druggists. Where not thus procurable, it will be delivered to any address at \$1.50 a package. To Clubs, six packages for \$7.50. To the Trade, liberal terms.

R. B. DEWEY & Co., Agents, 46 Dey St., N.Y.
