

MORE SPINAL MENINGITIS

Three New Cases Reported—Health Board Taking Precautions Against Its Spread.

DIVORCE COMPLICATIONS

Will be Straightened Out by Judge Howell—Olaf Anderson Wants Divorce From Cruel Wife.

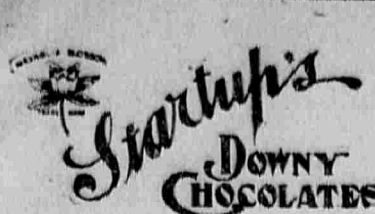

Ogden, Feb. 27.—The dreaded disease, spinal meningitis, that has been causing so many deaths in other parts of the state, has been reported to have made inroads into the homes of Ogden City. Yesterday three cases were reported to the office of Sanitary Inspector Power. The disease does not, however, appear to be of the malignant form that has been causing such sudden deaths elsewhere. Altogether there have been up to last evening seven cases of the disease reported in Ogden since the epidemic started in the state. The three reported yesterday were Miss Smith, Woodmansee block; Miss Ophelia, Harbottle avenue, and Mrs. L. Larson, Eighteenth street. The health officers are using every precaution to prevent the spread of the disease. They especially urge on the people to use every means of keeping their premises cleaned up from refuse and to use some disinfectants in the home as a preventive. If this is done the health officers hope to have but few more cases. The exact cause of the disease and the best methods to pursue in handling it baffle the physician's skill, not alone here, but wherever the disease has broken out.

DIVORCE COMPLICATIONS

Judge Howell will be asked to straighten out some divorce and matrimonial complications which are causing Mrs. Van Jones considerable anxiety. In 1899 Mrs. Jones commenced divorce proceedings in the district court against Van W. Jones, and the defendant failed to appear, hence Mrs. Jones was entitled to a decree, but her attorney neglected to call the matter before the court and get a decree, hence she was never divorced. Being inexperienced in the law she supposed the divorce was granted and subsequently married again, but did not discover her error until now. An attorney has been employed and an effort will be made to have the decree granted and her present marriage declared legal.

ACCUSES WIFE OF CRUELTY

Olaf Anderson has filed suit in the district court against Jennie Anderson, asking for a decree of divorce. They were married according to the allegations of complaint in 1904. Anderson charges that his wife has been cruel to him, and specifies that one day last November while at the Ogden Sanitarium his wife became angry at him and beat him over the head with an umbrella in the presence of other people. One day this month he claims to have returned home and found his wife in company with another woman and two men drinking and making merry, and that although plaintiff has furnished his wife with a good home,

she has been unkind to him and has gone out in the company of other men to various places. A decree of divorce is prayed for.

WOMAN CHARGED WITH ASSAULT

A complaint was prepared by County Attorney Harris against Lella Brown, a colored woman, and sworn to by Chas. A. Howard, charging her with assault with a deadly weapon. According to the information given by Harris, Howard and the woman had a quarrel Sunday night, and as he was leaving her house she pulled a knife and stabbed him, inflicting quite a bad cut on the back of his neck. The woman was placed under arrest.

SUIT TO RECOVER

Suit to recover \$320 alleged to be due from W. B. Wiedel has been commenced in the district court by John H. Egan, administrator of the estate of Nancy Cusick. According to the allegations, Egan sold to defendant a quantity of household goods belonging to Mrs. Cusick for the sum of \$320 which amount, it is alleged, he has never paid for.

The fourth ward meetinghouse was filled yesterday afternoon at the funeral of Mrs. G. J. Knutson, who died Sunday evening, aged 32 years. The wealth of beautiful floral offerings silently told of the love and esteem in which she was held in Ogden. Bishop's counselor Hyrum Belnap had charge of the services. Sweet music was furnished by the Holland choir, and Prof. Leo van den Anker sang "I Know That My Redeemer Lives." The speakers were Prof. Frank M. Briggs, I. Sanders, H. B. Denkers, E. A. Olson, Herman van den Anker, P. J. Lammer, and Hyrum Belnap.

DEATH OF PAUL NOBLE

The sad news was received in Ogden yesterday of the death at Los Angeles of Paul Noble, son of the late J. S. Noble, superintendent of the Salt Lake division of the Southern Pacific, who formerly lived in Ogden and was well known here. He was only about 28 years of age, and was engaged to be married in the near future to a young lady in Los Angeles. He has not been heard of since his last visit to Ogden, when he was on the way of recovery when he was summoned hence. It was only six months ago since his father died in Los Angeles. The funeral will take place in California, where he will be buried by the side of his parents.

BRIERS AND PERSONALS

"The Belle of Japan" is the production at the Grand for tonight. Albert Scofield has returned from an extensive business trip through the east. A petition has been filed in the district court for the probate of the will of the late Thomas Keogh, whose personal property is valued at \$10,000, and real estate at \$20,000. Mr. and Mrs. Clarence McCoy have returned from a pleasure trip to California. After a heavy meal, take a couple of laxatives and give your stomach, liver and bowels the help they need. Regulate brain, easy, regular passages of the bowels.

Mrs. J. H. Russell, 25 Horton Ave., Detroit, Mich., writes:

"Peruna certainly did wonders for our little son, Arthur, as he has been the picture of health all summer. He has taken four bottles of Peruna, and I have followed your directions as carefully as I could. I am very happy with the results. I thank you very much for your interest in his case."

G. H. Farmer, New Martinsville, W. Va., writes:

"Our little son is well and healthy now, and we think if we do as you directed he will keep his health and grow strong. We know that our little son's life was saved by your wonderful medicine, Peruna, and we shall always praise Peruna and use it in our family when needed."

He tried to extinguish the fire, but it got out of control before much damage was done.

TEACHERS' CONVENTION.

Education Progressing in Colonies—Prehistoric Relics Unearthed. Special Correspondence.

Colonia Garcia, Chihuahua, Mexico, Feb. 15.—The teachers' convention which came to a close on the 9th inst., marks an epoch in the educational progress of the colonies, and is bound to exert an influence for good that will be far-reaching in its effects. The crowds which gathered from the sister colonies taxed the local resources quite severely, but all were cared for in that hearty and cordial manner for which Garcia is famous. Notable among the addresses were those of Principal Guy C. Wilson of the Juarez Stake academy, and head of the church school system in Mexico, and Principal Newel K. Young of the Pachuca seminary. Other excellent addresses were those given by Principal F. L. Johnson of Chihuahua, Principal Martinson of Garcia, Miss Hawkins and Miss Nell Spilsbury of Chihuahua. One of the most pleasing features of the convention was the fine singing of the Garcia school choir, and the many fine musical numbers on the program. Few small towns can boast of more talented singers than Garcia, a fact which was demonstrated upon this occasion, while the selections rendered by Mr. Pratt and Misses Hulsh and Whiting of the J. S. A. were, indeed, a most enjoyable treat.

Never Anything Like This Before!

Again yesterday were we given further examples of the unqualified success of the Special Exploitation Display and Demonstration that is being conducted in our Corset Section under the personal supervision of Mme. Farrisee, expert corsetier, the personal representative of the Makers of

Gossard and Corsets.

"They Lace In Front"

Never has an artistic innovation in dress received a warmer, more cordial welcome from well-gowned women, than has these Corsets. Said one of our best known club women: "I must have one of those. It gives one a really queenly presence."

"A queenly presence!" What woman does not aspire to that state of being—for it is a state of being, not mere stature or proportion of physique! The aspiration is achieved by the wearer of "The Gossard" Corset, for it gives the consciousness of appearing at one's best; it gives the perfect poise of figure, the feeling of security, the unruffled composure and the happy peace of mind, which, radiating to encompass all beholders, marks the serene, the queenly presence.

"Clothes do not make the man." Maybe not. But assuredly "Figure makes the woman," and the "Gossard" Corset makes the figure.

The best dressmakers concede this by refusing to fit a dress over any other corset.

Beauty of face counts but little if combined with an ill-proportioned figure and awkward carriage.

We claim, without fear of dispute, for the "Gossard" Corset, that it gives the "sculptured back;" reduces and molds abnormal hips, raises and supports the abdomen; reduces the waist measure; gives length to the waist line; leaves the stomach free and beautifully rounds the bust and "it laces in front."

In short, it means beauty, health and comfort to the woman who wears it.

Only a few days remain of this Special Exploitation Display and Demonstration, and we sincerely trust that you will take advantage of your present opportunity.

PAVING PROPOSITION CARRIES

Council Decides on Laying Fifteen Miles of Sidewalks.

Special Correspondence. Provo, Feb. 27.—At the meeting of the council Monday evening, Councilman Evans for the committee to investigate the legal status of the suggested sidewalk paving bond issue the opportunities for sale, etc., reported unfavorably to issuing bonds for paving and recommended the issuance of a scrip under the law of 1905, as has been done in Salt Lake City. The scrip is payable in 10 annual installments and is a lien upon the property abutting on the sidewalk paved, and will bear interest not to exceed 6 per cent before it becomes delinquent and 8 per cent after it becomes delinquent. The council discussed paving and the scrip proposition in committee of the whole. The committee on arising recommended that paving districts be created and that the funds to defray the expenses of the paving be raised under the provisions of chapter 77, session laws of 1905. The report was adopted and the city attorney was instructed to draft the necessary resolutions to create the paving districts, and the city engineer was instructed to give specifications and costs.

The districts will contain about 15 miles of paved sidewalks; the sidewalks proposed vary in width from four to eight feet.

Fifty dollars in labor was appropriated to each of the Little Dry Creek and the Port Field Irrigation companies to assist in preventing the overflow of the river.

Taylor of the library committee, in which the great benefit of the library and the greater benefits to be derived when the library is provided with its own fine building were portrayed. The ladies were deservedly complimented for their earnest successful work in the good cause.
