Acquisition of Pittsburg and Montana

Figured at 50 Cents on Dollar.

Figured at 50 Cents on Dollar. (Pollock Special Wire.) Eoston, April 23.-By purchase of the Pittsburg and Montana property the East Butte Co. Imediately becomes a producer at the rate of 6,000,000 pounds per annum, and President Gross places the cost of production at aime cents per pound at Butte and 10 cents per pound delivered and sold in New York. President Gross says: "The present output could be increased at any time per as believe it is the bast policy to restrict production somewhat until the present production somewhat until the present of the metal improves. In the meantime we will push development work aggressively. The Pittsburg and Montana property, including its orig-

# WEAK, UNSETTLED

New York, April 21 .- Active opening dealings today carries prices of stocks upward in uniform small fractions. There was a sprinking of decimes including a number of the active stocks.

was a sprinking of declines including a number of the setivo niceks. Exceptional gains were shown by New York, Chienge & St. Louis, which rese 25, and American Locoumouve and American Can preferred. The market showen indeclision for a while, some of the leaders reacting while others held their own for advanced. Sub-sequently the list moved upward, but the principal stocks did not get much away from yestereday's final prices. The industrials were unusually prominent. Profit-taking saices caused prices to say Here and there stocks sold hower than last night. Trading became very duff at that stage. Hocking Coal and Corn Products preferred as al, Distliers Se-curities 14, and Union Bag preferred 1. Crex Carnet dropped 25, and American Beet Sugar. 1. Bonds were stocks.

Bugar

They Carpet prophet of and anternation lives Kagar 1. Honds wore steady. Buying of a few leaders failed to stim-ulate the general market and when Reading and American Smelting began to weaken the list yielded compatheti-cally. Trading increased considerably on the decline. Concerted buying of the metal stock which lifted National Lead its above yesterday's price and wiped out the point loss in American Smeltuge had only a momentary steadying effect on the general market which afterwards is enough watk. Reading and other divi-dend paying railroad stocks were noid freely. The market closed generally weak and unrettled.

# **WESTOCK**.

His Visit to Washington on Tariff Adjustment is Successful.

INVESTMENTS

Major Richard W. Young, who has

been absent in the east for some time, returned to Sait Lake last evening. He was in good health, and reports having had an enjoyable and successful trip. One of the objects of his going east was to represent several Utah manufacturing interests in connection with the new tariff bill, and Major Youn had several interviews with Senate Smool in regard to the matter. That he was eminently successful in the ob-ject of his visit is the belief of those whose interests he represented. Major Young was at his office today taking up the ends of his business again. 14936

## SPEARS GETS A "FLOATER "

Harry F. Spears, charged with the their of a watch and a typewriter, an whose trial a jury disagreed yester-day in Judge Bowman's court, appear-ed on a new complaint today and pleading not guilty, was given a "floate: get out of town.

 The optimized of the second many stalling the smeller, has expended something over \$150,000 in the past new months in putting the new plant in shape. The erection of a smeller was found vecessary to treat communication the silver-lead ores of the region.
 The optimized ones of the region.
 The of the regrest railroad station in to Lodi, the company has trivested in both steam and gasoline traction engines. These, however, have not yet proven satisfactory, and at the present time their work is being supplemented by teamsters. In the neighborhood of a hundred head of horses are now engaged in hauling trom Luning to Lodi.
 The addition to treating the ores of their own inthe the Lodi people will be prepared to do custom work, and yromise to smelt ores at a rate that will make it provint is being supporties at prosent idle. Accordingly prospecting and relocating throughout all the country is the vidently of Lodi is being engaged in with renewed activity.
 The old Lodi property, at present enging operates by Dr. Burt and his associates, has produced hundreds of thousands of dollars in the past.

nal and that the selling has been done with a purpose. Mason Valley has held its own despite

the general depression of the market that has prevailed, but this morning the market and sold on a seller 60 days for \$3.12%. Western Nevada seemed to be in sympathy with the market and sold at 86 cents. The amount that changed hands this morning was \$47,306.80, and the number

of shares of stock that was sold was 63,156.

On the curb market only one sale was registered, and that was Bingham Central Standard at 2612 cents. At the afternoon session Iron Bios-som was again driven lower. The price on the regular board was knowed down in chunks and from \$1.55 the stock was soon down to \$1.42%. Chose to 10.000 shares made their app arance In the market and there was some-

"The placer properties along the iroen river, 12 miles south east of Ver-Saxony, where a number of the olde engineers received their education while students at technical institutions in Germany, will be permanently closed this month. These mines have a history that goes back 1,000 years. These mines are estimated to have produced \$1,500,000,000 in eilver. These mines have a

The Chief Consolidated company which is one of the latest big opera-tors in the Tintic diatrict is cutting a station on the 1.400 level. The official believe that it is better policy to push the work on to the water level hifters stopping. This is expected at 1.700, although the shaft will go to 2,000 feet or better.

It is now believed that the Roston Consolidated is on a paying basis and with the eleventh until in readiness to go into commission as sour as the re-quisite tonnage can be delivered by the

mixite tonnase can be derivered by the rathroad from the company's porphyry mine in Bingham conyon, the com-pany should soon be making a hand-supe profit. This wait will probably start this month. Granting that the company it now producing copper at to conta, it should be making not pro-tits of \$20,000 a year.
