

# MINING, BUSINESS AND STOCKS.

## THE WEEK ON THE EXCHANGE.

A Number of Stocks Show Recovery from Recent Declines.

BULLION - BECK STRONGER.

Daily Stumps Today to One Cent - Yankee Con Is Weaker - Lower Mammoth Is Lower.

### TODAY'S METALS:

SILVER 59 1/2  
LEAD, \$4.57 1/2  
CASTING COPPER 15 1/2

The week on the Exchange has not witnessed a marked increase of business, but there has been a fair movement in stocks. The disposition to leave purely speculative stocks alone is apparently as strong as ever, but some good returns have been secured by parties who have invested in several of the better class stocks during the week.

Bullion Beck heads the list with an advance of about 35 cents a share during the week. Rumors of a strike are current, but the management reports no change of any consequence at the mine. Daily-West has dropped back to 11.70 bid since the books were closed. It sold as high as 12.30 before the 14th inst.

Daily's slump is deplorable. Some will hope on to the last, but it looks as if the new mill addition will make the mine more of an elephant on the owners' hands. The stock declined from around 6 cents to 1 cent in the last few days. Besides being a blow to many cents a share this latest turn will prove a serious set-back to the West Dip.

Grand Central closes the week stronger, but Eagle and Blue Bell has dropped from about 1.17 to 99 cents. Mammoth went to 48 during the week as the result of a bear movement, but has since recovered and stands at \$1.25.

Lower Mammoth shows strong declines as does Yankee, which has fallen from 13 to 10. Sunbeam shows a partial recovery from the bear attack which early in the week sent the stock to 20. It sold today up to 30.

The feature of the day on the Exchange was the slump in Daisy, which was traded in as low as 1 cent a share, owing to the almost settled conviction that the new mill addition will not enable the property to regain lost prestige.

Lower Mammoth entered the lists at 42, but rapidly declined to 37 1/2 in spite of the fact that a 2-cent advance was marked this week.

Northern Light shows slight shrinkage today as does Yankee Con, which went to 10.

Copper Ranch was extensively traded in at 9, while Showers Con. was handed out at 21 and Mammoth at \$1.25.

The number of shares sold on the Exchange during the week amounted to 210,737, and the selling value aggregates \$33,339.38.

Quotations were posted as follows:

## THE DIVIDENDS ARE PAID TODAY.

Makes the Aggregate for the Month Amount to \$17,400.

### WEEK'S CYANIDE SHIPMENTS

Developments in the Petro-Gold Ore from De La Mar-The Week in Bingham.

The sum of \$17,400 was distributed among the stockholders of two Utah mines today. The Daily-West of Park City handed out the sum of \$75,000 and the Grand Gulch paid out dividend No. 2 in the sum of \$2,400. With the dividend already paid the total for the month now aggregates \$157,400. The other payments were made on the 10th by the distribution of \$75,000 from the Silver King of Park City and \$5,000 from the Swansea of Tintic.

### UNITED STATES PROPERTY.

Nearly One-half of the Miners Discharged from the Mine.

The letting out of about seventy men at the United States mines this week has caused considerable comment in local and outside mining circles and naturally much anxiety in camp as it is quite generally accepted as an indication that the mines are preparing to shut down altogether. While the superintendents in charge are reticent, having little information which they feel at liberty to make public, we learn sub rosa that the men who were engaged in blocking out one of the mines are all retained, with no prospect that there will be any further reduction, more than half the force being at work.

It seems reasonable to conclude that the management decided to cut down the force by suspending operations on the large amount of new work in progress, until such time as the company's financial affairs assumed definite shape. News is now received from Boston that the deal whereby \$300,000 is to be raised for building a smelter and extending developments is practically consummated. This being the fact, there is very little doubt that work on smelter and machinery will begin as soon as orders can be formulated and placed, or that with work on the smelter begun there will be greater activity at the mines than before.

It should cause no surprise if there are 250 men at work in United States mines by the 1st of May.—Bingham Bulletin.

### CYANIDE RECEIPTS.

Four Mines Send in Shipments of 1100 Pounds.

The week's receipts of gold cyanides at the rooms of the Consolidated Kansas City Smelter and Refinery Company amount to something over 1,100 pounds. The Wilson Leaching Company sent in a consignment of 550 pounds of the gold dust from its plant at Pine Grove, Nevada. The Chainman of Eureka, Nevada, also reported with 500 pounds which was followed by a batch of 350 pounds from the Sacramento, of Mercur. The last contributor was Daisy, of West Dip, which came forward with 150 pounds.

### WEEK IN BINGHAM.

Developing the Tiewaukee Group—New Ore Chute in the Petro.

It is review of the week the Bingham Bulletin says:  
A car of ore from the Erie reached market first of the week.  
Among shipments early in the week was one car from the Montezuma.  
Several parties are working leases on the Julia Dean and some are meeting with good success.  
The old Tiewaukee, having passed to the ownership of W. S. McCormick, is showing signs of shaking out of lethargy into which it lapsed a year or two ago. John Nelson is this week starting development work with a gang of five men.  
Com Sampson of the Neptune is marketing four carloads of concentrates made at Dewey mill—the lot having gone out yesterday.  
The discovery of a new and probably important ore chute in ground that was supposed to be barren is reported from the Petro.  
Nearly a foot of snow fell Tuesday night and Wednesday. It was much needed for the roads, and should start a number of shipments that have been hanging up.

All visitors to the Fortune's new mill say it will be one of the best of its kind in the West. Manager Hill is hastening construction, and only hindered by tardy arrival of machinery.  
News comes that the Shawmut company has fully decided upon a suitable concentrating plant in connection with Cuba group of mines, and with the money in treasury for its construction, work will begin as soon as material can be put on the ground.  
Important work at West Mountain placer this week is cleaning out the big dump, which had become so foul the working of the pumps was liable to be interfered with. The fourth floor of the main crosscut will be completed in a couple of days, and No. 3 will then be started. No. 5 will give the cutoff a raise of over 35 feet from bedrock.  
Prospecting with diamond drill on Boston. Consolidated property was started at a new point this week, after sinking 200 feet at the starting place. We are assured results obtained from this method of ramping are proving encouraging, and that a big concentrator will soon materialize in connection with the company's low grade copper acreage.

Tramway Operations—A Big Economic Success—Ore Shipments.

General Superintendent C. E. Allen of the famous Centennial-Eureka, reached town last evening from the mine. Mr. Allen reports the new tramway virtually completed. By this means the management will be able to convey 125 tons of ore from the mine to the bins near the railroad track every ten hours. The tests that have been made of this method of conveyance are said to be very satisfactory. The machine for weighing the ore at the bins is not in place and the elevator by which the coal will be conveyed from the railroad to the mine by the tramway is not yet completed, but everything is near enough completed to enable the management to say it is a huge success in the conveyance of ore and mine supplies from an economical point of view. The

Centennial-Eureka.

San Francisco Market.

San Francisco, Feb. 17.—Wheat steady; May 1.00 1/2; Dec. 1.00 1/2; cash 1.00.

Barley steady; May 72 1/2; cash 72 1/2.

Market Is Strong.

New York, Feb. 17.—The undertone of the stock market has been strong through the week, on account of growing conviction in the assurance of confidence in prosperous conditions in the country.

The active business in all departments of the market has been strong, the increased disbursement of profits by corporations and the large demand at high prices for this year's cotton produce, are incidents tending to confirm this conviction. But demand for stocks has been confined to professional speculative circles. The general public seems to have been made discouraged and distrustful by last week's set-back to prices, and has consistently refrained from coming into the market. This public apathy is a serious weakness of a few individual stocks from special causes, unsettled as advance caused some react.

output from the mine for the past week was thirty carloads of ore.

### FROM HUMBOLDT COUNTY.

The Gold Vein on De La Mar Property Widens with Depth.

A letter was received today by Alviras E. Snow from Phil Shiley, who is working Mr. Snow's De La Mar claims in Humboldt county, Nevada. The vein, which is white quartz, containing good values in free gold, is reported to have widened out 2 inches in the last 15 feet of shaft work that has been done. The shaft is now down 60 feet, and at that depth the vein is 6 inches wide. The property lies 3 1/2 miles south of Humboldt House, and some assays record gold values into the hundreds of dollars.

Judge W. J. Burton is working some claims out there in Humboldt canyon, and the work that is being done on other claims in the district is said to be of a most encouraging nature.

### NEW INCORPORATION.

The Dunkley Company Will Operate Claims South of Bingham.

Articles of incorporation of the Dunkley Mining & Milling company will be filed in the County Clerk's office on Monday. The capital stock is fixed at \$40,000, divided into 40,000 shares of the par value of 10 cents each. A. R. Carter, president; A. G. Sutherland, vice-president; and A. E. Snow, secretary and treasurer. These, with Alfred Dunkley, John N. Christiansen, Alma R. Dunford and R. G. Stewart, comprise the board of directors. The company will develop the Western Bell group of claims in an unorganized district lying five miles south of the Highland Boy of Bingham. The ore is a sand carbonate, and what is thought to be the capping of the vein proper, carries about \$5 in gold and silver, and closely resembles the ore of the Mayflower, which lies closer to the Dunkley claims in the north fork of West canyon.

### THE PETRO STRIKE.

The Vein Has Widened to 2 1/2 Feet—Ore Appears to Contain Zinc.

Col. S. B. Milner received a package of samples today from the recent strike in the Petro. The vein has widened out to 2 1/2 feet in a distance of 10 feet. Some doubts are expressed by the mine people as to the value of the ore, as it appears to contain zinc. The samples will be assayed on Monday, at which time the value of the new find will be known.

### WIRE GOLD FOUND.

Rich Strike in Claims Adjoining the Red Boy at Baker City.

The wealth of the Baker City gold fields has not been half told, says the Baker City Republican. Every day brings to light some discovery or rich strike in an old mine. The latest is the finding of a body of very rich ore Thursday afternoon in the group of claims belonging to an Ohio company adjoining the Red Boy and May Queen, on one side, and the W. Waugh group on the other. The manager of the property is widely enthusiastic and has good cause for his enthusiasm.

The vein of gold opened up is literally alive with threads of free gold and no glass is needed to see that a fortune lies in the rock now being taken out. No assays have yet been made, but experts say that the vein is the equal of that in the celebrated Golconda. It is presumed to a certainty that this rich vein will be found in the adjoining properties, and the entire camp is wild with excitement.

One mining man said this afternoon that it was hard to tell where this thing would stop. Every property opened seems to increase in richness and all veins are doing so. Letters are being received from the district west of the city and every day new fields are being made east of Baker and in the Cornucopia district.

### Advocate Articles Filed.

Articles of incorporation of the Advocate Mining company were filed yesterday afternoon with the secretary of State. The capital stock is \$50,000, divided into 200,000 shares of the par value of 25 cents each. A. J. Moore is president of the company; H. W. Hawthorne, vice-president and treasurer; N. C. Paulsen, secretary, who with Lars H. Outzen, N. H. Cohen and William Johnson, form the directorate. The object of the company is to acquire and develop mining properties in Gold Mountain mining district.

### MINING NOTES.

Two cars of ore were marketed today from the Sunbeam of Tintic.

A car of Red Wing concentrates was on the market today.

The Ajax of Tintic reported on the market today with two cars of ore.

The Grand Central reported on the market today with four cars of ore.

A car of ore was marketed today from the Horn Silver of Frisco.

A car of ore was on the market today from the West Argent of Stockton.

The annual meeting of the Daily-West Mining company is scheduled for Monday.

A special meeting of the stockholders of the Red Wing Mining company is set for Monday next.

The annual meeting of the Northern Light will take place on Monday at 2 P. M.

The annual meeting of the Daily Mining company is booked for Monday morning.

The Lower Mammoth of Tintic reported on the market today with two cars of ore.

Three cars of crude ore and a car of concentrates were marketed today by the Mammoth of Tintic.

The Conklin sampler reported six cars of ore from Tintic and one from Stockton today.

A nice quality of copper ore is reported in the Brigham City Copper and Slate company's property.

It is reported that a big body of ore has been encountered on the 400-level of the Showers consolidated at Tintic.

The Bunker Hill of Stockton took down the price of a car of ore today. F. E. Wilson says the property is looking fairly well.

It was expected that a meeting of the Daily directors would convene this afternoon to discuss the situation of the company.

The Taylor-Huntton sampler reported eight cars of ore from Tintic, one from Bingham, one from Stockton, one from Frisco and one from Nevada today.

A lease and bond from L. S. Murdoch to the Bazaar Consolidated Mining company was filed for record yesterday afternoon. The company is given the privilege of working the Bazaar claim for one year upon payment of \$100,000. The company also has the option of purchase within the year for \$7,500.

## THE FEDERAL BUILDING PLANS

Architect Supplied with Photos of Salt Lake Buildings.

THEY ARE MUCH ADMIRER.

Plans for the Big Building Will be in Keeping With Best Specimens of Our Architecture.

The supervising architect at Washington, D. C., has been furnished with a number of photographs of the larger buildings in this city. This is following up a suggestion made by officials there to the fact that Salt Lake had several buildings which, from an architectural point of view, were scarcely surpassed by anything of the same class in the country. Attention was called especially to the city and county building, which is admired by architects all over America. The Temple, Doody block, McCormick block, St. Mary's Cathedral, in course of erection, and other buildings were cited to show the type that Salt Lake was building up to, and it was urged that the government building present such architectural features as would be in harmony with the advances already made and yet to come in this city. The suggestion was considered an excellent one, and these photographs will be used for reference, when the plans are drawn. Not a few of the government buildings in various cities—Portland, Oregon, for example—are gloomy, prison like affairs, without architectural beauty. Salt Lake will run no risk of anything of that kind. When the half million is expended, the city will be improved half a million dollars worth.

The architect is now engaged on the plans and if there is no delay in regard to the appropriation, operations will be well under way this year.

### COMMERCIAL STOCKS.

The commercial stock market has been fairly active this week, among the stocks traded being Z. C. M. I. at \$135, Utah Sugar at \$14.55, Cunningham company at \$110, Deseret Savings at \$150.50, Salt Lake City Railroad bonds at \$108, church bonds at \$108. The drop in Oregon Sugar to \$140 a share was one of the surprises of the week, and appears to have been due to the fact that a much larger dividend than it was possible for the company to pay was expected.

Brooker John C. Cutler Jr. gives the following quotations on dividend paying stocks and bonds:  
Deseret National bank... \$329.00  
Z. C. M. I. ... 135.00  
Home Fire Insurance Co. ... 103.00  
Utah Sugar Co. ... 14.55  
Ogden Sugar Co. ... 140.00  
State Bank of Utah... 125.00  
Deseret Savings bank... 150.50  
Co-op Wagon & Machine Co. ... 113.00  
Cunningham & Co. ... 110.00  
Commercial National bank... 100.00  
Clark, Eldredge & Co. ... 80.00  
Utah Com. and Savings bank... 102.00  
Zion's Savings Bank & Trust Co. ... 127.50  
Provo Commercial & Sav. Bank... 110.00  
Lehi Com. & Savings bank... 100.00  
Thatcher Bros. B'nk'g Co., Logan... 102.50  
First National bank, Ogden... 175.00  
Rocky Mtn. Bell Telephone Co. ... 102.00  
Davis County bank, Farmington... 100.00  
Barnes Banking Co., Kaysville... 81.00  
Church bonds... 103.00  
C. L. City R. R. bonds... 103.00

### BUSINESS NOTES.

Salt Lake led 29 of the leading cities of the United States this week in the percentage of increase in clearing shown. Its gain was 10.5 per cent. Twelve important cities showed a decrease.

A special meeting of the stockholders of the Salt Lake Ranch company has been called to be held at the President's office on the forenoon of March 7th. The meeting is for the purpose of electing directors and transacting such business as may properly come before the meeting for consideration.

In the Thirteenth ward on Friday evening a farewell entertainment and reception were given in honor of Mr. Jos. Pratt, who will soon leave for a mission in Germany. The program was made up of much enjoyed songs, recitations, humorous readings, etc., and the delivery of short addresses by the bishopric of the ward and a reply from the mission missionary, Mr. Pratt was the recipient of some good advice from the ward officials and was kept busy shaking hands with interested friends.

Permits aggregating in amounts the sum of \$2,800 were issued by Building Inspector Ulmer during the week, as follows:

W. B. McCartney, Fifth South between Eighth and Ninth East, brick cottage... \$1,000  
A. McDonald, Pearl avenue, two brick cottages... 1,400  
W. B. Wood, 535 South West Temple, improvements... 50  
Catherine Kirk, 1052 Wilson avenue, brick addition... 200  
C. Christensen, 573 South Seventh West, frame cottage... 150  
Total... \$2,800

### CLEARING HOUSE REPORT.

February 17, 1900.  
Today's clearings... \$ 230,485.40  
Same day last year... 286,007.10  
Week's clearings... 2,036,642.32  
Same week last year... 1,805,549.10

### ORE AND BULLION REPORTS.

MCCORMICK & CO.  
Mingo bullion... \$ 4,300  
Silver and lead ore... 16,400  
RAMBERGER & McMillan.  
Bullion... 12,200

**TABLER'S PILE BUCK EYE OINTMENT**  
CURES NOTHING BUT PILES.  
A SURE AND CERTAIN CURE known for 15 years as the BEST REMEDY for PILES.  
SOLD BY ALL DRUGGISTS.  
Prepared by H. H. TABLER, M.D., ST. LOUIS.

**Dr. Williams' Pink Pills For Pale People**  
Lives are saved by Dr. Williams' Pink Pills for Pale People.  
Mr. G. H. Snyder, 1210 Louisiana St., Lawrence, Kansas, tells how he was cured by Dr. Williams' Pink Pills for Pale People. He says: "I am now seventy years of age. About three years ago I experienced a coldness of numbness in the feet, then creeping up my legs until it reached my body. I grew very thin in flesh, my appetite was very poor and I did not relish my food. At last I became so bad I was unable to move about. I consulted several distinguished physicians, one telling me that I had locomotor ataxia, another that I had creeping paralysis. I took their medicines but they did me no good and I continued to grow worse."  
"One day nearly a year ago, a friend advised me to try Dr. Williams' Pink Pills for Pale People. I immediately commenced their use, throwing all other medicines away. Before I had finished my first box I found that they were benefiting me. I used twelve boxes in all and was perfectly cured. Although it is over six months since I used my last pill there has been no recurrence of the disease. My appetite is now good and my general health is better than it has been for many years."

To save a life when medical science fails is a miracle. To restore good health when hope has been abandoned is a miracle. To conquer disease long supposed incurable is a miracle. All this, and more, is accomplished by Dr. Williams' Pink Pills for Pale People. If everybody understood the potent power of this wonderful remedy, much needless suffering would be prevented, many lives would be saved.

Dr. Williams' Pink Pills for Pale People are sold by all druggists. Prepared only by Dr. Williams Medicine Co., Schenectady, N. Y.

**J. H. LEYSON CO.**  
No. 154 Main Street.  
Watchmakers, Opticians and Jewelers
