SPECIAL BUSINESS NOTICES.

Well Diggers, see the notice for proposals, in another column.

True Economy.

Here we have for our biscuits, cakes, etc., Dr. Price's Cream Baking Powder, which chemists and physicians have decided to be pure and healthful, and yet thousands of pounds of adulterated baking powders are used annually, simply because they are cheaper. Consider the health first—this is true economy.

The New Remedy at Last.

If the methods by which physicians test the soundness of the lungs are reliable, it is certain that when these delicate organs are so diseased that all the ordinary prescriptions for pulmonary complaints are useless, a complete cure can be effected by the persistent use of Hale's Honey of Horehound and Tar. Statistical records of its results show that in two-thirds of the cases of consumptive cough in which it has been given, the lives of the patients have been saved by its operation.

The Cook not to Blame.

Many nice delicacies are spoiled by the abominable flavorings used in them, and generally it is attributed to the cook. Now if *Dr. Price's Fine Flavorings* are used, nice dishes will not be spoiled, as they always impart their delicate fresh fruit flavor in whatever they may be used.

LOCAL AND OTHER MATTERS.

Cremation.—The large iron plate, used in the furnace erected for the cremation of the remains of the late Dr. C. F. Winslow, in this city, has been deposited in the Deseret Museum.

Resigned.—Mark Lindsey, who has been for many years watermaster of the Twentieth Ward ditch, in the Eighteenth, Twentieth and Twenty-first wards, has resigned his position.

Farewell Party.—On the evening of Sunday, April 28th, there will be a farewell party, in the 16th District schoolhouse, complimentary to the missionaries residing in the 16th Ward who were called at the last Conference to go to Europe.

Increasing.—In the Scandinavian Mission, from the 1st of last December till about the middle of March, three and a half months, about three hundred persons were added to the Church by baptism. So we learn by letter from President N. C. Flygare.

Bishop Hunter's Tannery.—This industry, in the hands of the Morris Brothers, is fast becoming one of local importance. Notwithstanding the dull times it is doing a fair business, and up to a short time ago the sales were increasing. The superior articles of linings, brown and white, produced by them now supply our home market and has effectually stopped importation of the same from abroad. Their black grain calf and wax calf leathers are of an excellent quality.

Times of Meeting.—Last night, at the Bishop's meeting, it was decided to re-arrange the time for holding Sunday evening meetings in the Wards of the city, to take effect on and after next Sabbath. Owing to the circumstances of the various Wards differing, it was found inexpedient to fix a uniform hour for the commencement of meetings, each Ward being left to fix on a time most convenient to itself. The time for beginning meetings in the Wards, according to this arrangement, will be stated in connection with the missionary appointments, on the list at the President's office.

The Welsh Fund.—The treasurer for the fund to aid the poor Saints in Wales to emigrate has already on hand about $300, which has been deposited at the National Bank of Deseret.

The concert held recently in the 16th Ward for the furtherance of the benevolent object netted $58.30.

A number of ladies and gentlemen of this city, possessing good musical ability, have consented to lend their aid to the cause in any of the Wards where concerts are held for that object, and will intersperse their performances, in a combined programme, with those of the ward musicians. Those arrangements can be entered upon by consultation with Morris & Evans.

Potato Culture.—Utah is essentially a potato raising region, herewith we have the method of planting adopted by a correspondent of the *Rural New Yorker*:

We have learned a new method of cultivating potatoes. A shallow furrow was plowed, in which the potatoes were dropped, two pieces in a hill, three feet apart. Another furrow covered them nicely. The third furrow from this was planted in a similar manner, and so continued, dropping potatoes in one furrow and leaving three until the field was plowed. They came up rather slowly, but grew finely, and this Fall showed a good crop. Rather like lazy man's method, some may say, but a very judicious one, we think in a dry season. We always have planted, and probably always will plant, our potatoes deep. They do not require as much hilling, and are not as liable to rot.

Spread of the Gospel.—By courtesy of Elder Joseph F. Smith we have been permitted to peruse a letter to him from Elder N. C. Flygare, President of the Scandinavian Mission. The communication was written at Copenhagen under date of March 21st. It states that a letter has been received from Elder A. Tullgren, who said that he had recently baptized twelve persons in the vicinity of Helsingfors, the capital of Finland, and that the prospects for the spread of the gospel in that land were of the most encouraging character. Two Elders who were sent to that land in 1870 located in Jacobstad, in the western portion of it, where they succeeded in establishing a branch of twelve members. During the past winter, however, the brethren laboring there succeeded in pushing their way as far east and south as Helsingfors. The persons baptized at the latter place have also been organized into a branch of the Church.

All of the people who have received the gospel in Finland belong to the Swedish speaking portion of the population, excepting one, who speaks the Finnish language. He is said to be a good, reliable man, and it was the intention of Elder Tullgren to ordain him to the priesthood, and use him as a missionary among the portion of the people speaking the same tongue as himself. It is intended to have the pamphlet, "The Only Way to Be Saved" translated and printed in the Finnish language, as an aid in disseminating the truths of the gospel.

Great wisdom has to be exercised by the Elders laboring in Finland, owing to the intolerant character of the laws in regard to religious matters.

United Order Soap Factory.—This creditable institution is situated in the 19th Ward, near Bishop Hunter's Tannery, and has been in successful operation for three and a half years. Its officers are Henry Arnold president, A. H. Raleigh and Wm. Asper, vice-presidents; Jas. P. Freeze, secretary; R. V. Morris, treasurer; Philip Pugsley and Wm. Woods, directors. The establishment is under the personal supervision of Bros. Joseph Mullett and John South. The "Pale Savon" they manufacture is a good article, generally conceded to be about as good as the imported, and gives general satisfaction wherever used. These facts, with the additional claims of the institution in being a home manufactory, conducted by men well known in our community, who are doing all that can be done to please and satisfy their patrons, should, and do speak in earnest tones for an establishment which should be supported and encouraged by the people throughout the Territory.

To-Night.—F. C. Bangs at the Theatre to-night. Who is F. C. Bangs? He is an actor of national reputation, who has made his mark in the legitimate drama, and who will give a sample of his powers as a tragedian, in several readings, in costume, this evening, assisted by some of the stock company. He has a fine figure, a splendid voice, dramatic experience and a pleasing manner. The entertainment will be well worth attending and be a relief from the sensational and spectacular performances which have become so popular.

D. A. and M. Society.—The directors of the D. A. and M. Society are requested to meet at the City Hall, at 7 p. m. April 20th, 1878.

H. P. FOLSOM, Secretary.

Laborers. We learn from Brother E. Brain that he is in want of some more laborers, to work on the New Tabernacle.
