NEW YORK PRODUCE.

The general advance and activity in local stocks witnessed last week, con-tinued during the present week. Al-though several in the list are now quoted ex-dividend, the figures are much higher relatively than before the dividend was paid. This is spec-ially true of the sugars, Idaho, Amal-gamated common, and Utah common leading in the activity. The settlement of the Nibley-Eccles controversy has had a specially buoyant effect on the Amalgamated. No one can be found who will give any intimation as to when a dividend on this company's Hot and cold running water in every room. European plan, \$1.00. American plan, \$2.00. amounts to about 800 tons per day. President Dern says matters have progressed to the extent that there is no question in his mind but that the big mill, dressed up with its new adorn-

ments, will prove equally as satisfac-tory as were the preliminary tests. The delays which have been experi-enced in getting the plant started off have been extremely annoyig to the management, yet these are things that can be expected. People who have had experience in mining can understand these things, while the public does not always and brokers take adthe stock. Especially in the installation of a new process, there are numerous alterations and adjustments which can only be made whenever they are met.

Mr. Dern said he would not be pre-pared to give any figures on the re-sults of the extraction for several days: inasmuch as no assays have yet been made, but he is confident that the results will not be in the least disan-

The final consignment of machinery for the Keith-Kearns mill has arrived at Park City and delivered to the mine, excepting one of the crushers.

Lafayette Holbrook of the Grand Central Mining company is quoted as say-ing that the payment of dividends yould likely be resumed next month. Louis Laranger, a well known mining engineer, has been conducting an ex-amination of a well known Utah prop-erty upon who's report the fate of a ponding deal bargs.

pending deal hangs. A strike of some importance is re-ported in the Pittsburg Consolidated at

ta. Two feet of carbonate ore is said have been disclosed in the winze Alta sunk from the tunnel level.

Manager Walter James, of the Black Rock mine in Beaver county, is in the ity.

For a little over 16 tons of ore ship-ped from the Naildriver mine of Park City, Secy. Wightman yesterday re-celpted for \$1,869.71. The net value of the rock was \$112.14 to the ton.

Supt. E. J. Raddatz of the Honerine mine of Stockton, accompanied by F. C. Richmond, will leave for Denver tonight for the purpose of investigating a certain kind of concentrator tables which may be adopted as a part of the equipment for the Honerine's new mill at Bub! at Buhl

A payment of \$40,000 was made on the purchase price of the Sevier Con-solidated yesterday to Charles Lammersdorf. The balance now due him on the property is \$60,000.

Peter H. Cannon, the well known Cherry Creek, Nev., mining man, is in the city.

Samuel Newhouse is scheduled to arrive this afternoon from the east.

J. P. Larson, a well known citizen of Fremont, Nebraska, returned home today. He is an extensive stockholder in the Con. Mercur, and spent a couple of days at that property this week as the guest of President John Dern.

Messrs, Johnson and Beetles returned rom Beaver county this morning. Good headway is reported with the construction of the Wah Wah springs pipe line.

It was necessary for Acting Manager 2. G. Woolley, Jr., to call in a referee oday before selling the two cars of ore which were sampled yesterday. The assays made by the Tetro company and those by the smelting company being too far apart.

ett enjoyed the acquaintance of a large ett enjoyed the acquaintance of a large number of warm friends. He was gen-erally liked by all who knew him and his departure was very much regretted. But he had a distinct fondness for Arizona and often remarked to his friends that he would some day make his permanent home there. While here he was engaged in the operation of mining properties and while he entertained no disike for Utah camps, it so happened that he found a favorable location just far enough over the state line to say that he was in Arizona. He always seemed to radiate in that direction. The colonel was the owner of the Savanic copper mine south of St. George in the no man's" region of the neighboring territory. This property produced some of the richest ore ever shipped to the Salt Lake smelters and this event oc-curred while he was in charge.

GEYSER-MARION MILL.

Old Plant at Mercur Will Soon be in Operation Again.

Early next week the Greene Reduction company, which recently consum-mated a deal for the purchase of the old Geyser-Marion dump at Mercur, will put a force of men to work at the old mill on that property, which has been in idleness for several years. The plant is to be remodeled and equipped with suitable machinery for the successful operation of the Greene chem-ical processes for the extraction of values from gold ores. Col. Wiswall, the local manager of the Greene company, and to the the

the 'Greene company, said today that the capacity of the mill will be in-creased so that it will enable the treatment of no less than 200 tons of tailings per day. The work is to be pushe as rapidly as possible; the intention being to get everything in shape before winter sets in in earnest.

U. S. Tramway Accident.

(Special to the "News,") Bingham, Oct. 3.-An accident oc-urred last night to the United States ramway, and as a result it will prob-tbly be out of commission for several days pending repairs. One of the ropes gave way, causing a general smash-up. The United States company has ex-perienced considerable difficulty with its fram in the past. Fortupately, the Bingham Copper Belt railway is at command; hence the smelter can be kept going on uninterruptedly.

STRENGTH OF SALT LAKE'S BANKS. The solidity of Salt Lake's banking houses has al-

ways been a sure and gratifying indication of the firm basis on which the prosperity of the city rested. During all the recent panies, and rumors of panies on Wall street, and the money stringency which has existed from time to time in New York and other great centers, there has hardly been a day when loans could not be secured from Salt Lake's banking houses. The following compilation of deposits and available cash shows the strong condition of the local concerns, even including the savings institutions, which are not required to keep on hand the same proportion of funds that the commercial banks are.
