Special Correspondence. Levan, Juab Co., Feb. 7.—Yesterday the district schoolhouse was greatly damaged by fire. At about 11:30 smoke was noticed coming up through the small openings in the floor. Upon quick investigation by Phineipal Christensen, it was found that a fire had started in the basement and the pupils were dis-missed in good order. The news spread and soon people were there from all corners of Jown and a bucket brigade was organized to fight the fire which was making its way up through the floor. #### CUP RACES.

#### Reliance Will be Remodelled if Challenge is Received.

lenge is ficceived. New York, Feb. 8.-In discussing the possibilities of a challenge for the Amer-ica's cup from Sir Thomas Lapton or another foreign source, and the probable course of the New York Yacht club on receipt of such a challenge, says today's Times, the astonishing statement was made by a prominent member of the New York club yesterday that the Rellance would be used in all probability as the de-fender of the cup, even though the chal-lenge called for a race with schooners, as has been suggested, and that to meet these conditions she would be converted, it is a perfectly practical suggestion, and meets Bir Thomas' and any other chal-lenger at every point.

meets Bir Thomas' and any other chai-lenger at every point. If 70-foot sloop, as suggested by Sir Thomas, is named as the challenger, the chailenge will be accepted and the Relt-ance be used as the challenge boat in spite of the big allowance she would have to give. If the 10 schooner is nam-ed, Reltance will be converted and will still be the defender. If a 9-foot sloop is named, it will, of course, be Reliance which will cross the line as the defend-er of America's priceless trophy. Under old rule or under new. Reliance is looked upon as capable of successfully defending the cup, and will remain the club's relf-ance. anc
