MINING, BUSINESS AND STOCKS.

BROKERS ARE KEPT QUITE BUSY

Mining Stocks Still Have an Upward Tendency.

DALY-WEST IS CLIMBING.

Stock Sold at $48.75 This Forenoon—California, Lower Mammoth and May Day Make Advances.

Business continues brisk with the brokers on Second South street. Prices of stocks had an upward trend again this morning and investors seemed anxious to buy. Daly-West moved up towards $49.00 but the last sale was recorded at $48.75. On the open board, however a higher bid was made but the holders of the stock maintained that $49.00 was little enough and they refused to offer it under that price. Lower Mammoth reached 68 cents a share in the selling, while May Day advanced to 21½ cents, closing with 21 even bid. Sacramento was unchanged, but California is once more looked upon with a little more favor. Wabash dropped down a few notches.

This was industrial day on 'change, but only one transfer for recorded, 200 shares of Utah Sugar going at $9.92½.

The closing quotations and sales posted were as follows:

BACK FROM TONOPAH.

Frank H. Lathop Has Caught the Fever and is Enthusiastic.

Frank H. Lathrop arrived home from Tonopah last night. Like nearly everyone else who has visited the camp he is enthusiastic over its possibilities. In a business way Mr. Lathrop says the town is overdone, but much activity is being displayed in the mines and if development continues as favorably as it has up to the present time he believes there is no question but that Tonopah will rival the Comstock in the production of precious metals.

RENO CITIZENS ARE BOASTFUL

Donnelly Mountain is a New Nevada Mining Camp.

ATTRACTS MUCH ATTENTION

Very Rich Gold Recently Brought Out—Preparations for a Rush to The District.

The citizens of Reno claim for their town, and perhaps rightfully too, the title of the metropolis of Nevada. They make the boast that it is the mining as well as the commercial center of a vast territory which includes western Nevada, eastern California and southern Oregon and in many respects its geographical position is likened unto Salt Lake City.

Tonopah caused the town to grow on account of the large volume of trade derived from the new camp.

Now Donnelly Mountain is attracting attention and many anticipate that an important camp will come into existence there. Donnelly Mountain is situated north of Reno and last summer and fall it was the scene of the discovery of some very rich gold ore. Specimens brought in from the camp recently have caused intense excitement and outfits are hurriedly being put together in Reno for a journey to the new Eldorado. Others are already on the road and a Nevada paper says that things are shaping into a genuine boom. Speaking further on the subject the paper gives further details concerning the new district, and says:

Donnelly mountain is also known as Division Peak—being thus designated on the maps; but it is more familiarly known to the stockmen of northeastern Nevada as Donnelly mountain.

It was supposed to be on the dividing line between Humboldt and Washoe counties but last season surveyors decided that it is about four miles east of that line and so is situated in Humboldt county.

Locating it from Sunrise valley it is nearly due east from Eagleville and about 75 miles.

The discovery of Donnelly mountain is credited to a Mr. J. H. Murray, who was at the time (about June 20, 1902,) acting as cook for the vaquero outfit of the Gerlach company, under the charge of their foreman, Jas. Raser.

That there was hidden treasure in this mountain has been believed by residents of Sunrise valley for years; for a good many years ago teamsters who were passing that way with barley to the mines east of there picked up float quartz on the flats below the mountain, which showed free gold. Mr. Woods of Cedarville, Cal., has made several trips out there looking for the ledge, but without avail.

The ledge, as discovered by Mr. Murray, did not crop out, but was found only about 18 inches below the surface. The first quartz, showing free gold was plentiful, covering several acres near and below the ledge.

The formation seems to be solid and permanent. There are two distinct granite ledges running about north and south and farther up the mountain, about 600 to 800 feet above the upper granite is a distinct ledge of slate, running parallel with the granites. With such a formation the experienced prospector is ready to begin active operations.

The original strike—the Donnelly ledge—might more particularly be described as follows: It has been uncovered 320 feet and has an average width of 2½ feet so far as explored. Its assays are from $500 to $2,200 per ton.

It lies immediately on top of the second granite ledge and immediately above is a streak of red talc which is continuous and is the lining of the top wall. The ledge has a dip of about 45 degrees.

At the mountain there is not an abundance of water, but there are a good many springs which furnish water for camp purposes. There is not sufficient water for milling purposes, however, on the mountain.

Applied for Patents.

The Halifax-Tonopah Mining Co. (the Keith-Kearns syndicate), has applied for patents to the Halifax claims Nos. 1, 2, 3 and 4, located in the Tonopah mining district.

MINING CONCENTRATES.

Broker E. G. Woolley, Jr., is confined to his home by sickness.

Manager M. M. Johnson of the Boston Con. is at Bingham today.

John T. Hodson of the Lincoln mine, in the Pearl district, Ida., is down from camp. He confirms all that has been said about the recent strike made in that property.

Taylor & Brunton receipted for 17 cars of ore today; 8 from Tintic, 2 from Frisco, 1 from Nevada, and 6 from Bingham.

The directors of the Alaska Mining company have extended the date of sale of the delinquent stock on account of the recent assessment until May 11th.

Manager Ernest Bamberger of the Keystone, Park City, is at that property today.

Walter G. Filer and F. H. Buhl of the Western Exploration Co., departed last night for Idaho to look over conditions at Twin Falls, where they are interested in an irrigation project.

The ½ cent assessment on the stock of the Apex Mining company becomes delinquent today.

Michigan capital is said to have acquired a control of the Ashbrook mine in Park valley.

The ore and bullion settlements made late yesterday afternoon and reported by McCornick & Co., were as follows: Ores, $44,100; base bullion, $47,400; total, $91,500.

John Dern is in Tintic today making an inspection of the Uncle Sam mine.

Dr. P. A. H. Franklin has returned from his eastern trip.

A small concentrating mill is to be erected on the New York property located a few miles west of Ephraim.

The assessment levied recently on the stock of the Madeline Mining company, becomes delinquent tomorrow.

Bodily pain loses its terror if you've a bottle of Dr. Thomas' Electric Oil in the house. Instant relief in cases of burns, cuts, sprains, accidents of any sort.

EDISON'S NEW GOLD MACHINE

Experiments Made With It Said to Have Been Successful.

WAS TRIED IN NEW MEXICO

Gravel Beds Containing Low Values Can be Worked Profitably—Little Labor to Operate Apparatus.

Chicago, April 29.—A dispatch to the Record-Herald from New Yorky says:

Thomas A. Edison has a scheme for extracting the untold billions of dollars worth of gold that lie in the immense low grade gravel beds, in Lower California, New Mexico, Arizona and northern Mexico. They cannot now be worked because the old fashioned placer hydraulic system is lacking and the gold runs in too small a quantity to the ton to make mining profitable under other systems.

The air blast is employed by Mr. Edison in his solution of the problem to separate the gold from the mass.

The system, it is claimed, has now reached a working basis. Experiments on the desert near Santa Fe, by Floyd M. Chapman, one of Mr. Edison's assistants, have enabled Mr. Edison and Mr. Chapman to produce a machine which they declare will reclaim 90 per cent of the gold from the gravel. In hydraulic mining it was thought remarkable it 75 per cent of the gold was washed out.

One man, it is claimed, can run scores of separators. The gravel is first dug out of the ground with a steam shovel; conveyors then carry it to selves that separate it into particles of uniform size. Each separator is designed to handle gravel of a certain size, and the gravel is automatically distributed to the hopper of its proper machine. The gravel falls through a narrow slit before a rotary blower, which drives a full blast of air against the falling gravel. The gold being heavier, falls to the bottom of the machine, but all of the lighter gravel and sand is blown into a separate apartment.

LATHAM MILLING PLANT.

Its Construction at Nevada Property To be Hurried.

Active steps have been taken towards the erection of a 50-ton concentrating mill at the Latham mine in the Spruce Mountain district, Nevada. Manager Moats said this morning that the machinery had been ordered and shipped and that George Forrester, the well known mill man and metallurgist, had taken his departure for camp for the purpose of looking after the construction of the plant.

A letter from the superintendent of the mine, received yesterday, stated that the development of the mine is progressing satisfactorily and that the results being obtained have exceeded his expectations by a whole lot.

A recent test made on the Latham ores showed the concentrates to contain 55 per cent lead, 11 ounces silver and $3.50 gold.

WHEATLAND, WYOMING.

SUGAR FACTORY PROPOSITION.

Million Dollar Plant to be in Operation in 1904.

Special Correspondence.

Wheatland, Laramie Co., Wyo., April 26.—A mass meeting of the farmers of the Wheatland colony and business men of Wheatland was held in Carey hall last evening, and pledges received for the balance of 6,000 acres of beets demanded by the promoters of the sugar factory. At the meeting a week ago over one-half of the desired acreage was pledged and last evening no trouble was experienced in securing the balance. Indeed, an acreage of 10,000 acres could have been secured as easily as 6,000 acres.

It is stated that work on the factory will be commenced at once so as to be in readiness to take care of the beet crop of 1904. The factory will cost approximately $1,000,000.

CHEYENNE, WYOMING.

WATER RIGHT CONTROL.

Title to Greybull River Irrigating Waters Taken Under Advisement.

Special Correspondence.

Cheyenne, Wyo., April 27.—Atty.-Gen. Van Orsdel has returned from Big Horn county, where the water right contest case of The Farmers' Canal et al vs The Big Horn Basin Development company was heard. The case, which involves title to water in the Greybull river, was taken under advisement by Judge Carpenter. The plaintiff's were given 30 days and the defendants 60 days in which to file their briefs.

Acting Gov. Chatterton has issued a proclamation declaring May 1 Arbor day. The day will be observed in the public schools throughout the state and by general tree planting.

"Strike while the iron is hot." The iron is always hot for the man who knows how to advertise. He hits so hard and so often in the same place that he keeps the iron hot. He doesn't hit one big blow and then sit down to wait for the iron to cool off in order to feel the dent. He knows that what he says today will be forgotten tomorrow unless he says it again.—Jed Scarboro.

60 and 272 Main St. Tel. 428.

A BETTER TONE IN STOCK MARKET

Prices at Opening Made Good Advances.

BUYING FOR LONG ACCOUNT.

Eries Offered in Large Blocks, but Readily Absorbed—Fell Some, Then Rallied Sharply.

New York, April 29.—Opening prices advanced in continuation of the upward movement in progress late yesterday. The market was without animation and dealings were small. Sugar rose 1⅛ and Amalgamated Copper ¾. Rubber Goods preferred dropped 2. Buying for the long account was stimulated by the opening show of firmness and the subsequent absorption of the Eries and local tractions. New York Central fell off a point at one time, which caused a momentary check to the rise, but that stock soon rallied and the general list went up again. Railroad stocks moved within narrow limits, but the firmness of the transcontinental group helped the market's tone. Erie moved up 1 on yesterday's good earnings statement. Delaware & Hudson, St. Paul, Canadian Pacific, Amalgamated Copper, Metropolitan Street railway and Manhattan were also a point better. Prices eased off during the second hour for lack of demand rather than for any pressure to sell. Reactions reached a point only in St. Louis & San Francisco and Sugar.

The bond market at noon was quite broad but dealings were small and changes irregular.

Fresh buying orders occurred in the Eries on the decline and they rallied well above their morning prices. A block of 5,500 shares of the common stock was met at 35, which was readily absorbed and the price went a fraction higher. The second preferred made the largest gain, touching 55¾, a rise of nearly 3 points. Good rallies were made elsewhere and Louisville rose 1½ and Leather preferred 1.

While the demand for stocks was light there was a steady appreciation in value which reached substantial proportions in a number of cases. The persistent strength of the Eries acted as a tonic. Some of the more important afternoon advances included a point or more in Northwestern, O. & W., Wabash preferred, Illinois Central and National Railway of Mexico preferred.

New York, April 29.—Copper, 14.50@14.75. Lead quiet, 4.37½.

ASSESSMENT NOTICE.

The New State Gun Club, a corporation organized under the laws of the State of Utah.

Location of principal place of business, Salt Lake City, State of Utah.

NOTICE is hereby given that at a meeting of the Trustees, held on the 27th day of March, 1903, an assessment of $10.00 per share was levied on the capital stock of the corporation, payable on or before the 15th day of May, 1903, to the President, at Salt Lake City, Utah, 40 Main St.

Any stock upon which this assessment may remain unpaid on the said 15th day of May, 1903, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on the 10th day of June, 1903, to pay the delinquent assessment, together with the cost of advertising and expenses of sale.

O. C. BEEBE, Secretary, 126 G St.

NOTICE.

Notice is hereby given, that there will be a meeting of the members of "The Corporation of the Members of the Church of Jesus Christ of Latter-day Saints, residing in the Eighteenth Ecclesiastical Ward of the Salt Lake Stake of Zion," in the County of Salt Lake and State of Utah, at the Meeting House of said Ward, on Tuesday, the 12th day of May, 1903, at 7:30 o'clock p. m., for the purpose of authorizing the Board of Directors of said Corporation to transfer the legal title to all the real property belonging to said Corporation to Orson F. Whitney, as Bishop of the Eighteenth Ward of the Church of Jesus Christ of Latter-day Saints, in the County of Salt Lake, and State of Utah.

Dated April 22nd, 1903.

ORSON F. WHITNEY, President of said Corporation.
John A. Evans, Secretary.

ASSESSMENT NOTICE.

Notice is hereby given that at a meeting of the Board of Directors of the Riverside Canal Company, held at the office of the Company Friday, March 27, 1903, an assessment of one dollar and fifty cents ($1.50) per share was levied upon the outstanding capital stock of the Company, payable immediately to the Treasurer, John L. Nebeker, No. 14 north Main street, Salt Lake City, Utah. Any stock upon which this assessment shall remain unpaid on the 1st day of May, 1903, shall be declared delinquent, and if not paid before will be sold on the 15th day of June, at public auction, at 1 o'clock p. m. of said day, to pay said delinquent assessment, together with the cost of advertising and the expense of sale.

JOHN L. NEBEKER, Secretary Riverside Canal Company.
Date of first publication, March 31, 1903.
