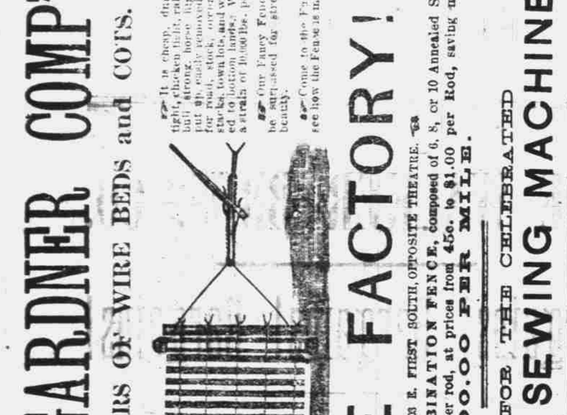
HOUSEHOLD SEWING MACHINE

A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE



CHICAGO, ROCK ISLAND & PACIFIC R'Y

By reason of its central position, close relation to principal lines East of Chicago and continuous terminal points West, Northwest and Southwest—is the only true middle-link in that transcontinental system which invites and facilitates travel and traffic in either direction between the Atlantic and Pacific.

The Rock Island main line and branches include Chicago, Joliet, Ottawa, La Salle, Peoria, Geneseo, Moline and Rock Island, in Illinois; Davenport, Muscatine, Washington, Fairfield, Ottumwa, Oskaloosa, West Liberty, Iowa City, Des Moines, Indianola, Winterset, Atlantic, Knoxville, Audubon, Harlan, Guthrie Centre and Council Bluffs, in Iowa; Gallatin, Trenton, St. Joseph, Cameron and Kansas City, in Missouri; Leavenworth and Atchison, in Kansas; Albert Lea, Minneapolis and St. Paul, in Minnesota; Watertown in Dakota, and hundreds of intermediate cities, towns and villages.

THE GREAT ROCK ISLAND ROUTE

Guarantees Speed, Comfort and Safety to those who travel over it. Its roadbed is thoroughly ballasted. Its track is of heavy steel. Its bridges are solid structures of stone and iron. Its rolling stock is perfect as human skill can make it. It has all the safety appliances that mechanical genius has invented and experience valuable. Its practical operation is conservative and methodical—its discipline strict and exacting. The luxury of its passenger accommodations is unequaled in the West—unsurpassed in the world.

ALL EXPRESS TRAINS between Chicago and the Missouri River consist of comfortable DAY COACHES, magnificent PULLMAN PALACE PARLORS and SLEEPING CARS, elegant DINING CARS providing excellent meals, and between Chicago, St. Joseph, Atchison and Kansas City—restful RECLINING CHAIR CARS.

THE FAMOUS ALBERT LEA ROUTE

Is the direct, favorite line between Chicago and Minneapolis and St. Paul. Over this route solid Fast Express Trains run daily to the summer resorts, picturesque localities and hunting and fishing grounds of Iowa and Minnesota. The rich wheat fields and grazing lands of interior Dakota are reached via Watertown. A short desirable route, via Sioux and Kankakee, offers superior inducements to travelers between Cincinnati, Indianapolis, Lafayette and Council Bluffs, St. Joseph, Atchison, Leavenworth, Kansas City, Minneapolis, St. Paul and intermediate points.

All classes of patrons, especially families, ladies and children, receive from officials and employes of Rock Island trains protection, respectful courtesy and kindly attention.

For Tickets, Maps, Folders—obtainable at all principal Ticket Offices in the United States and Canada—or any desired information, address,

EVENING NEWS.

Saturday, - March 12, 1887.

HEALTH HINTS, ETC.

COMPILED BY MAC.

In consequence of insufficient outdoor exercise, and unwisely close application to mental work, I recently had a severe, but short illness, which caused the suspension of "Health Hints" for several weeks. Being assured that considerable good has hitherto resulted from their publication, I resume compilation of the "Hints" and, apropos of my late unpleasant experience, quote the following from the *Journal of Education*:

HEALTH AND EXERCISE.

"It is a comparatively easy thing to keep well; so easy in fact that hundreds will not see it. We have faith in the doctors, and expect that a drug will effect what we should ourselves do by following the simplest laws of Health. Like the faithless generation of which Christ speaks we demand a sign, and will not follow the clear light which God gives to every man for his guidance. What are, then, some of the simplest rules, the following of which will secure the perfect action of mind and body we so desire?

1st. *Exercise.*—There is nothing equal to a good, brisk walk of two or three miles—more even—in the open air. There are two times in the day when this is especially beneficial—in the morning, after a light breakfast, and before supper or dinner at night.

Indoor life makes us listless; and when that feeling of weariness and languor steals over us we want to stay in the house, curled up in some easy chair perhaps. But this is a dangerous thing to do; this is the time of all times we ought to be out of doors exercising vigorously. What if it does tire us? It will be a healthy weariness from which we may soon recover, and which is far preferable to that nerve weariness which drives all hope of rest far away.

Riding and driving are good exercise, but hardly to be compared with work in the open air, or walking. Practice walking suitably dressed, and with thick-soled boots, beginning with a short distance and gradually increasing it. Even those delicate in body may finally be able to accomplish, very readily, half-a-dozen miles on a stretch, with short and frequent rests. Housewives, bookkeepers, clerks and all other persons whose occupations are indoors, or sedentary, should adopt this health-giving practice, daily. Our English friends are far ahead of us in this respect."

SENSIBLE ADVICE.

Take the open air,
The more you take the better;
Follow Nature's laws
To the very letter.
Let the doctors go
To the Bay of Biscay;
Let pills alone,
The brandy and the whisky.
Freely exercise—
Keep your spirits cheerful,
Let no dread of sickness
Ever make you fearful.
Eat of simple food,
Drink of pure cold water,
Then you will be well—
Or at least you ought'er."

What key will best unlock the door of hell?—*Whis-key.*

Mamma.—Why, Nellie, how pale you look! Have you been sick?

Nellie.—(just returned from an unusually complicated supper). Yes, but I unswallowed myself and I'm better.

It is claimed that the statistics of life insurance companies go to show that the young man of twenty years of age who abstains entirely from intoxicating drinks, has a good prospect of living to be sixty-four; while the moderate drinker at twenty can only expect to live to be thirty-five and one-half years old.

An apt reply.—A gentleman offered a little girl wine at a great dinner where wine was being freely drank. She very properly refused it.

Said the man, "Did not Paul tell Timothy to take a little wine for his stomach's sake?" "Yes," replied the little girl, "but my stomach doesn't ache."

How to Cure a Cold.—"About an hour before bed-time, take a hot or steam bath; then, after dressing, go out on the street and run nearly as fast as you can. Swing your arms freely. When out of breath, walk awhile, then run again, until you have run between a half and three-quarters of a mile, according to your strength. Then go to bed. The room must be well ventilated. If it is cold, put on more covers. In the morning you will notice a great change for the better."—*Good Health.*

FLOUR AND BREAD.

Some time ago I published a receipe for making good bread without yeast or baking powder, and I have so frequently had occasion to write it since, for the benefit of enquiring friends, that I think it advisable to republish it. In connection with the subject, it may be well to say a little about the flour recommended, although I may thereby repeat some things stated before.

The "whole wheat flour" contains all there is in the wheat grain, except the indigestible woody fibre of the bran; it includes the gluten flour that adheres to the bran, also the shorts and middlings; the whole is repeatedly and thoroughly cleaned, bolted, and mixed, producing a superfine white flour. "Graham flour" is the whole wheat coarsely ground and unbolted; it includes the bran, and it would be more appropriate to designate it whole-wheat meal.

When "Graham" is made from *good* wheat that has been thoroughly cleaned, and it is used within a month from the time it is ground, there is no flour more nutritious or more wholesome. It sometimes happens, however, that it is made from inferior or dirty wheat, and quite often the flour becomes stale or musty before it is used; these things have, naturally, created a prejudice against it; it is certainly then not a whit better than the poor white stuff that goes by the name of XXXX, or any number of X's. I call such white flour "poor" because it is nothing but the starchy interior of the wheat, deprived of the bone and muscle making and nerve nourishing elements, which are in the discarded parts. If it were not for the fruits, vegetables, milk and other natural foods, eaten by children and adults, they would positively starve to death on ordinary white bread.

In localities where it is difficult to obtain good, fresh ground, Graham flour, I strongly recommend each household to procure a plantation mill, resembling a large coffee mill, and grind the wheat themselves, after thoroughly cleaning it.

The Pioneer Roller Mills, of this city, in addition to making the superfine whole-wheat flour, are now giving special attention to the manufacture of a superior quality of Graham. The bran is ground extra fine, and, as they make just enough at a time for one week's demand, it can generally be obtained in fresh condition from the dealers whom they supply.

Bread made from such flour as this, when not spoiled by too much fermentation, is as much superior to that made from ordinary white flour, in health and strength giving qualities, as wholesome mutton is to measly pork.

Fermenting, or "rising" the dough from which it is intended to make bread, is a process that needs careful watching. When fermentation is allowed to continue too long the dough begins to rot, and bread made from it when it reaches that condition is unfit to eat. Bread made with baking powder is unwholesome.

Following is the recipe alluded to, which tells how to make splendid, wholesome bread

WITHOUT YEAST OR BAKING POWDER:

"Take one quart of whole-wheat flour, or Graham flour, and stir into it, in a deep earthen bowl, about the same measure of sweet milk, making a batter somewhat thicker than for pancakes. Beat with a wooden spoon, from the bottom upward, with quick, sharp strokes, so as to incorporate as much air as possible, and small bubbles appear; the beating must be thoroughly well done. The gem pans, having about sixteen cups for this quantity of flour and milk, should be first placed upon the stove, so that by the time the mixture is ready the pans will be blazing hot. Then, after greasing each pan with sweet butter, pour in the mixture and put at once into a quick, hot oven. In about twenty minutes you will have a lot of little golden-browned loaves, puffed high up in the middle and running over at the side like well-made cakes. This is the most delicious bread ever eaten, in comparison with which the ordinary white bread is tasteless and insipid. It keeps sweet a long time, and can be freshened in a few minutes in a hot oven so as to taste as good as new. Those who can afford pure cream instead of milk, will have bread as rich and light as cakes. Two or three eggs added to the mixture will make it still richer and lighter, but it is then not so good for persons inclined to be dyspeptic."

25 Tracts on Health topics, for 10cts. A book about what and how to cook and eat, for health, 10cts. Mailed by D. M. McAllister, 66 Centre St., Salt Lake City.

An invincible pair—Red Star Cough Cure and St. Jacobs Oil.

DISEASE IMPOSSIBLE.
