

# OUR OWN STATE.

## ODDEN.

On Jan. 14, yesterday, Deputy Sheriff Adams, who had been sent to the Odden farm, returned with a report that the Odden family had been killed by a fire which broke out in the barn on the night of Jan. 13. The fire was caused by a gas lamp which had been left burning in the barn. The Odden family, consisting of the father, mother and two children, were all killed. The property in the barn was also destroyed.

The report of the fire was confirmed by the Odden family, who had been rescued by the sheriff's men. The fire broke out in the barn at about 10 o'clock on the night of Jan. 13. The fire was caused by a gas lamp which had been left burning in the barn. The Odden family, consisting of the father, mother and two children, were all killed. The property in the barn was also destroyed.

## Pride of Japan Tea

Alone, would make the very best of the two nations. After using 20 years who would be without it? And only from the best gardens of Japan can we get it.

being used, make more wheat of a better grade upon the same acreage. The grain farmer, while the farmer or stock raiser should grow more of the grain which is the staple of the country. The grain farmer, while the farmer or stock raiser should grow more of the grain which is the staple of the country.

With stock another portion of the land is in pasture and hay and the fertility of the soil does not deteriorate in value. One land is rich and will stand much cropping, and it is used to the advantage of the farmer. The grain farmer, while the farmer or stock raiser should grow more of the grain which is the staple of the country.

Another point in favor of stock is that it is a more profitable business. The grain farmer, while the farmer or stock raiser should grow more of the grain which is the staple of the country. The grain farmer, while the farmer or stock raiser should grow more of the grain which is the staple of the country.

It is a fact that can be proved from the experience of the most prominent stockmen in the country, that stock raising is a more profitable business than grain raising. The grain farmer, while the farmer or stock raiser should grow more of the grain which is the staple of the country.

The grain farmer, while the farmer or stock raiser should grow more of the grain which is the staple of the country. The grain farmer, while the farmer or stock raiser should grow more of the grain which is the staple of the country. The grain farmer, while the farmer or stock raiser should grow more of the grain which is the staple of the country.

## Treatment of Eyes.

Thousands of people are today taking "treatment" from high-priced oculists when there is nothing in the world the matter with their eyes but an optical defect.

It is not hard to cure eyes. If you have eyes, you can see. If you have eyes, you can see. If you have eyes, you can see.

It is not hard to cure eyes. If you have eyes, you can see. If you have eyes, you can see. If you have eyes, you can see.

It is not hard to cure eyes. If you have eyes, you can see. If you have eyes, you can see. If you have eyes, you can see.

It is not hard to cure eyes. If you have eyes, you can see. If you have eyes, you can see. If you have eyes, you can see.

It is not hard to cure eyes. If you have eyes, you can see. If you have eyes, you can see. If you have eyes, you can see.

## AGRICULTURAL.

### A PEA FOR DIVERSIFIED FARMING

Plan for Next Year's Crop.

(Prof. J. H. Thompson, North Dakota Experimental station.)

The winter season is the time of greatest leisure on the farm, and consequently the time to think and plan for the operation of next year. With all of the available facts from his own experience and the years before him the farmer can balance his accounts for the various enterprises which he has carried on in the past and can plan for the details of his work for the coming season.

With the above points in mind I wish to call attention of the northern farmer to certain facts relative to the change in diversity of crops. My attention has been called to the fact that the number of crops grown on a farm is steadily increasing. This is in accordance with the fact that the number of crops grown on a farm is steadily increasing.

The number of crops grown on a farm is steadily increasing. The number of crops grown on a farm is steadily increasing. The number of crops grown on a farm is steadily increasing.

The number of crops grown on a farm is steadily increasing. The number of crops grown on a farm is steadily increasing. The number of crops grown on a farm is steadily increasing.

The number of crops grown on a farm is steadily increasing. The number of crops grown on a farm is steadily increasing. The number of crops grown on a farm is steadily increasing.
