

## LOCAL AND OTHER MATTERS.

**HIGH COUNCIL.**—The members of the High Council are requested to meet at the High Council Hall, on Friday, August 19th, at ten o'clock in the forenoon.

**ERRATUM.**—In the report of the speech of Professor Pratt, in the second session of his discussion with Dr. Newman, the following sentence occurs: "This being the case, a faithful, righteous, holy man, who takes, according to the great divine institution of polyandry, a plurality of wives, &c." For "polyandry," read "polygamy." This erratum was typographical.

**DEAD BODY.**—We are informed that the body of a boy, apparently ten or twelve years of age, was seen, two or three days since, floating down the Jordan river, about a mile below the bridge. The body, it is said, was discovered by three boys, who had no means at hand for getting it out of the river. It would probably float as far as the Pettit farm, where we understand there is a wire net-work stretched across, which would probably prevent it from going farther toward Salt Lake.

**THE NORTHERN MAIL.**—By recent orders from the P. O. Department at Washington, the schedule time of the departure of mails from this city to the northern counties was changed, which led to some delay in the delivery of the News and of other mail matter in Cache County. We received numerous complaints on the subject, and on representing the matter to Col. Wickizer, Special Mail Agent, received the assurance that to avoid delay and to prevent dissatisfaction to the public the mails should leave here at the old time. Some days ago Mr. Wickizer forwarded a letter to us on this subject, received by him from S. Smith, Esq., postmaster at Brigham City. Press of business has prevented us from noticing this letter as soon as desirable. Mr. Smith says that under the new arrangement, if the DESERET NEWS can be mailed so as to leave Salt Lake City by the 2 p.m. train on Wednesday, it will reach Logan the next evening at 6 o'clock, which will enable the subscribers to have their papers twenty-four hours sooner than under the old arrangement. Seeing that this is the case Mr. Wickizer questions the propriety of changing to the old time again. We are of Col. Wickizer's opinion, and as the matter rests now with this office, and not with the post office, we shall see that the time of mailing the News for Cache and Rich counties is changed, so as to make the proper connection at Brigham City.

**MUSICAL AND DRAMATIC.**—To-morrow evening a vocal and dramatic entertainment will be given in the Twelfth Ward Meeting House, under the direction of Mr. W. H. Fowler. The vocalization will include many choice anthems, glees and duets, interspersed with recitations. After the performance by the choir, of "Hail, Smiling Morn," at the opening of the second part of the entertainment, a comedietta, entitled "The Drunkard Repented," written expressly for the occasion by Mr. Fowler, will be presented, the whole to conclude with choice vocal compositions. Here is an opportunity to spend an evening pleasantly, and as the price of admission is ten, 50 cents for adults and half price for all under twelve, it should draw a large attendance. Remember to-morrow night at the Twelfth Ward Meeting House.

**THE SWEET CLOVER.**—Mrs. Lucy Smith, of this city, writing of the sweet clover, says: "It is good food for bees, and if we destroy it I do not know what our bees will do for food through the winter, as they are now, more rapidly than ever, making honey from it for their winter's food." "The juice of the sweet clover boiled down and mixed with mutton tallow, rosin and beeswax about equal proportions, makes a good salve, which will cure eruptions on the heads of young children."

**INFORMATION WANTED.**—The *Millennial Star*, of the 26th ult., says: "Any person knowing the whereabouts of David Grundy, who left the Wigan Branch, Wigan, and emigrated to Utah in 1853, will confer a favor by forwarding his address to William Berry, Brook street, Ince, near Wigan, Lancashire, England."

**DEATH BY SUNSTROKE.**—Elder D. Bonnell, writing from St. Thomas, Arizona on the 3rd inst., says:

"The first case of sunstroke known to have occurred in this region happened yesterday. The thermometer stood at 114 in the shade, 145 in the sun, which has been frequently exceeded here, but the atmosphere being cloudy rendered the heat unusually oppressive. Bro. Chas. Danmer son was found dead in the field where he had been irrigating. The coroner's jury render the verdict that the death was caused by sunstroke. He had complained of the oppressiveness of the heat for some days previous. He was 54 years of age, had been a member of the Church of Jesus Christ of Latter-day Saints for twenty-three years and emigrated to this country from England in 1854."

**"CHINAMAN'S PAPOOSE."**—The following is going the round of the papers. We cannot vouch for its truthfulness, but we know the "papooses" can be seen in the Museum: "Mr. John W. Young, of Salt Lake City, has been for the past year making collections for a Territorial Museum, designed especially to designate the animal kingdom, minerals, etc., of Utah. Being in San Francisco a short time since, he purchased a pair of monkeys for his Museum. On his way home, while the cars stopped at Elko for refreshments, seeing considerable number of Indians around the station he called them to the baggage car, and opening the door pointed out to them the chattering occupants. The Indians surveyed the monkeys with characteristic gravity. 'Do you know what they are?' at length said Mr. Young to the Chief of the red men. 'Yes,' said the chief, with some indication of surprise at the simplicity of the question, 'me see 'em, me know 'em; Chinaman's papoose.'"

AS EVIDENCE OF ITS FIRE-PROOF QUALITY, the following extract from a communication is appended:

BAY CITY, MICH., June 22, 1870.

Averill Paint Co.,

Cleveland, Ohio:

We have had a splendid test of the fire proof qualities of your Paint on the Episcopal Church. A heavy fire, adjoining, burned the paint to a black char, but the wood was uninjured, except in spots about the cornice, where the boards were burned off. The carpenters are now at work scraping off the burnt paint and the painters will cover the same boards again with the Averill Paint. Our insurance men are delighted with it, and that has secured us several orders. Even the painters say that it beats everything they ever saw.
