RUSSIA TAKES AMERICAN VIEW.

Will Recall Troops from Pekin, but Not from China.

BRITAIN IS IN LINE, TOO.

Germany Seems to be in Indefinite Form-Crop of Shanghai Ramors.

St. Petersburg, Sept. 1.-The Official Messenger today publishes the text of the circular addressed to the Russian representatives abroad, dated August if the gist of which, as shown by the correspondence issued yesterday at Washington, the Russian charge d'affaires communicated to Acting Secretary Adee on Monday.

The official announcement, after mentioning the unexpectedly rapid turn of military events at the seat of war, in Pe Chi Li, enabling "comparatively in-significant detachments," of the allied s to attain the original main object, the relief of the legations and for-eigners and the dispersal of the rebels at the capital, proceeds:

PROGRAM UNCHANGED.

These favorable circumstances, however change in no way the political program of Russia as previously marked out in the last government comnunique, and in order that no mis-inderstandings, or incorrect interpre-ations regarding the further intentions of Russia, may arise, the emperor has directed the acting foreign minister to address to his representatives abroad, the circular which follows: The immediate objects which the imperial government had to view at the very guiset of the Chinese trouble were First, to protect the Russian lega-

tion at Pekin.
"Second, to assure the safety of Russian subjects against the criminal intentions of the Chinese rebels.
"Third, to render help to the Chinese government in its struggle with these troubles, in the interests of a

"While pursuing no other objects the imperial government will continue to steadastly adhere to its former program of action. When the course of events, such as are to be taken on our ops at New Chwang, and a series of stile acts by the Chinese on our its frontier, as for instance, the mbardment of Blagovetschvensk, induced Russia to occupy New Chwang and march troops into the Manchurian territories, such timely measures, which, exhalvely prompted by the necessity of warding off the aggressive acts of fy to any independent plans which are ly foreign to the policy of the mperial government. INTERNATIONAL RIGHTS INVIO-LATE.

It is manifest that the interest of other foreign powers and interna characteristics and interna-tional companies at the port of New Chwang, occupied by Russia and open to international trade, and also the rational trade, and are fully assured. By the capture of Pekin, which owing to changed circumstances, effected more expeditiously than ted, the first and principal task which the imperial government set it-self, the deliverance of the representa-tive of the powers with all the foreign-ers bezieged, has been accomplished. The second task, namely, assisting in the establishment of a legal central government, which shall co-operate in relations with the powers, appears from the capital of the emperor dowager and the Tsung Under such circumstances there is sufficient reason for the is accredited to the Chinese govto remain longer at Pekin, as for is absent. It is therefore in-to recall the Russian minister the members of the mission to in, whither they will be accomby the Russian troops, whose at Pekin henceforwarde appurposeless, in consequence of the declaration of the firm determination of the government not to de-part from the task originally set forth,

GERMANY IS INDEFINITE. Berlin, Aug. 1.—Semi-officially it is re-affirmed that Germany row as here-tofore, adheres to the program mapped out in the circular of July 3rd, and then approved by all the powers.

BRITAIN IS COMING IN.

London, Sept. 1.—The foreign office here apparently is not yet ready to publiciy declare Great Britain's position in the present Chinese situation, but all indications tend to confirm the belief that Lord Sadsbury favors the principle contained in the American-Russian proposals, though possibly he may have some modification to suggest.

SHANGHAI IS RUMOROUS.

London, Sept. 1,-In the absence of definite, reliable news from China, Shanghai is again distributing a crop of rumors. According to reports from that city. Great Britain has furnished Lieu Ken Yih, the viceroy of Nankin, and Chang Chih Tung, the viceroy of Hankow, with strong guarantees against the reported intention of the dowager empress to supersede them on account of the alleged pro-foreign

on account of the alleged pro-toreign tendencines. The guarantees are also said to include opposition to all attempts to dismember China.

The imperial court is reported at Tai Yuan Fu, capital of the province of Shan Si, afraid to move owing to stories that the Chinese troops are ravaging the country far and wide and are cover moved to the province of the country far and wide and are cover moved to the country far and wide and are cover moved to the country far and wide and are cover moved to the country far and wide and are cover moved to the country far and wide and are cover moved to the country far and wide and country far and wide a are even murdering imperial officials who have been trying to join the fugitive imperial court.

The dispatches further assert that a

German legation will be established at Shanghai, at least pending the arrival in China of Field Marshal Von

WALDERSEE HEARD FROM.

Berlin, Sept. 1 .- Field Marshal Count Von Waldersee has cabled to Emperor William, from Aden, where he arrived yesterday, announcing the pleasing international amenities," which marked his entry into the port. The French troop ship Lachampagne steamed near the vessel on which the field marshal was a passenger, with her band play-ing and het troops cheering. The band of the German ship responded with the "Marsellaise" and the French band replied with the German national anthem. The field marshal was formally received by the British political resident at Aden and afterwards proseeded on his journey to China.

DIPLOMATS IN CONFERENCE.

Washington, Sept. 1.-The status of Washington, Sept. 1.—The status of the Chinese negotiations today is still a waiting one, as far as the United States is concerned. The powers are indulging in a rapid exchange of views by telegraph and cable, respecting the Russia-American propositions. As the American note was designed to call out a straight expression of policy from the various powers respecting the proposed withdrawal from Pekin, it is understood that its effect has been to bring about three consultations

perial government, therefore, proposed been to bring about three consultations the following fundamental principles with the view of gaining strength by combined action in their responses.

Important developments are not expected within the next day or two, at least that period of time being regarded as necessary in order that the various elements may merge,

PRESS DISCUSSION TOO PREVIOUS. Meanwhile it is declared positively by the state department that there will be no further authorized publications of any of the notes now in process of exchange, until a complete accord has been reached, or at least until the subject under consideration has been finally disposed of. This attitude has been assumed because free discussions in the press, based in some instances, according to the state department officials, upon erroneous conceptions neaning of certain notes officially published, and on misleading conjecture to the future of other notes unpubment of the negotiations.

ALL POWERS WILLING.

The question of Li Hung Chang's credentials is now said to be ancient history. It is pointed out that all of the governments involved in the Chirese trouble are a unit, according their official declarations, in their will-ingness to negotiate with the Chinese government as soon as some responsible representatives can be found. representatives can be loudd. When such a government is installed it can itself dispose of the question of Li Hung Chang's credentials, and it is said to be idle to raise objections now to their sufplenipotentiaties. The other matter, relative to Li Hung

Chang's threatened detention by the foreign admirals, also lost significance and point. The state department, and point. The state department, which never doubted that Li Hung Chang was at Shanghai, is confirmed in this belief by a press dispatch of apparent authenticity, published this morning. It is not believed that Earl Li will go to Taku or Tien Tsin, where the foreign a imirals may be, if there is the least danger in his opinion of interference on their part with his per-

NEEDED AT AMOY.

The Castine arrived at Amoy this morning. She started from Shanghal on the 28th ult. for that port, in answer to the appeal of Consul Johnson to safeguard American interests. The voluntary action of the Japanese offi-cials in withdrawing their forces from Amoy undoubtedly has relieved the in-ternational situation. But that very withdrawal may necessitate the reten-tion of the Castine at Amoy for some time to prevent rioting by the Chinese.

The navy department has given no instructions to Commander Wilde, of the Oregon, relative to the destination of his big ship, since Secretary Long's cablegram of two months ago, authorright to resume his interrupted voyage to Taku. It is said at the department that this project, however, is not likely to be carried out, but that the Oregon will be assigned to a post by the commander-in-chief of the station, Admiral Remey, and in all likelihood that post will not be Taku.

Owing to her draft, the Oregon would be required to lie about 14 miles off shore at that place on a poor anchorage, not a desirable position for a low free board of battleship.

THE OREGON'S DESTINATION. It is believed that the big ship prob-ably will go to Shanghai or rather that she will be sent to the mouth of the Yang Tse to carry out the engagement of the United States to contribute to-ward the protection of the transport

service.

No messages were received from Minister Conger or any of the United States officials in China this morning.

Washington, Sept. 1,-So far as the war department has made any plans for the return of the volunteer troops from the Philippines, it is intended to commence the homeward movement

about the middle of November. The Ottawa government is expected to dissolve the house of commons in a short time, and it is under-stood Premier Emmerson resigns in or der to strengthen the liberals in the fed eral contest. His return at this time is, of course, for the purpose of re-entering the political field in Utah. He will be a candidate for re-election to the United States Senate and will take the rostrum throughout Utah, While I shall not presume to precisely define the senator's position as to party, I feel at liberty to say that he deems a principle to be of more importance than is any party; and as his financial belief is well known to the people of Utah it is scarcely necessary to announce that his and western records. GOING OUT OF BUSINESS. Utah Loan and Trust Bank Directors So Decide.

The Mountain Summer Resort company filed an injunction suit against Salt Lake City in the Third district court today, to prevent the defendant from interioring with the plaintiff's right to the continuous flow of three cublo feet per second, or 2,000,000 gallens per every 24 hours, of certain waters in Parley's canyon.

The complaint sets forth that plaintiff." is owner of 223.7 acres of land in Parley's canyon, together with a certain water right, both of which are valued at \$25,000. The water is diverted from Paricy's creek by a lateral known as the Hardy ditch, which joins Parley's crock at a point about half a mile east of the eastern boundary line of plaintiff's premises. The eHardy ditch, it is further alleged, was first constructed in 1858, and has been in continuous use ever since for the purposes named.
It is then set out that on August 2 the defendant wilfully and unlawfully tore out and destroyed plaintiff's headgates and dams at the junction of the jateral and deprived plaintiff of its wa-
