Any Polygamy There?

A clergyman said that he once visited a lady of his parish, who had just lost her husband, in order to offer consolations; and upon her earnest inquiries as to the reunion of families in heaven, he strongly asserted his belief in that fact, and when she asked with anxiety whether any time must elapse before friends would be able to find each other in the next world, he emphatically said, "No! they will be united at once." He was thinking of the relief of such a faith, when she broke in upon his meditations by exclaiming sadly, "Well, his first wife has got him by this time!"
