There are about 500 birds, nearly every standard variety being represented. There is also a fine display of Belgian hares and pigeons.

W. W. Browning of Ogden is acting as the judge and is busy awarding the various classes of the prizes to which they are entitled. So far he has awarded the Plymouth Rock classes as follows:

First pen, tie, between Wilson and Ellis of Ogden and S. O. Day of Salt Lake.

Second pen, was awarded to Wilson and Ellis of Ogden.

Third pen, to J. C. Trump, of Salt Lake City.

## KAMLOOPS, B. C., CANADA.

## ADMIRE "MORMON" INDUSTRY.

## Co-operation and Thrift of Colonies of Saints an Object Lesson.

Thomas Albert Shackleton, residing in Kamloops, B. C., Canada, in a letter to his aunt in the "Mormon" colony in Alberta, Canada, for their industry in cultivating the land there and raising sugar beets.

The letter in part follows:  
"I see by the papers that the best roots raised in Alberta, Canada, by the Mormon colony contain more saccharine than the best raised in Utah; well, there are millions of square miles in Canada waiting for the combined industries and the Mormons are the people who in my opinion are best suited to reclaim, subdue, and make to blossom as the rose the wild lands of our Dominion of Canada. Now you may ask and others may ask, how do I know this when I have never lived among the Mormons; well, here is how I came to this conclusion: In the fall of the West Riding of Yorkshire, where I was formerly a coal-miner, I was employed in a grand success, and in Halifax, ten miles from where I resided, there were great co-operative flour mills, all were pre-eminently successful. The people were not only religious, but were mostly of the one creed. In my reading and studies I have observed the Raskin colony, where all received the same allowances, etc. I note that the Raskin colony after a few years' successful working and giving great promise of happiness, has collapsed, and why? Because with all its good organization it lacked religious cohesion, hence its failure. So, so far as I have been able to observe at a distance, the Mormon Church is a co-operative body of Christian believers, who work in harmony and have success—because they have religious cohesion, and whilst each one labors at that line of usefulness to which each one is best adapted, and all pay their just dues to the common fund on earth, and receive the promised blessing. I note that the Raskin colony has swarmed into Idaho, Minnesota, Alberta, Canada, etc., etc. Now I recognize (or I am open to correction if wrong) that when new hives or stakes are set up anywhere the Church organization must with its colonists, cheering, helping, and sustaining order, and above all, cohesion, which alone can guarantee true and lasting success. This I have truly admired for years, and I have often wished that in Canada our people might be observed and that prejudice and insane bigotry such as we unfortunately see in so many parts of the world, might cease. I shall never forget, as a boy, I was wandering along near the American-Liverpool Eng. and looking across the water, I saw a sign swinging in the breeze—'Latter-day Saints.' I asked a man what was the meaning of that sign, and the description he gave me of the Mormons interested me very much. Well, as the years went by I carefully asked questions and read whatever I could get on the subject; some of the reading was very slanderous, and something within me taught me to distrust such books. My mother, when I happened to be home for a time, did not seem able or else was unwilling to communicate the notions she had. I now know that she, like many others, had been misinformed, and so amid the rolling clouds of darkest ignorance I came to the conclusion that a people who could hang together and be blessed and prosperous amid the vilest slanders and misrepresentation, and persecution must have something on their side that man alone could not give."

"I had long suffered from indigestion," writes G. A. LeDela, Cedar City, Mo. "Like other I tried many preparations but never found anything that did me good until I took Kodol Dyspepsia Cure. One bottle cured me. A friend who had suffered similarly I put on the use of Kodol Dyspepsia Cure. He is gaining fast and will soon be able to work. Before he used Kodol Dyspepsia Cure indigestion had made him a total wreck."—Godde-Pitts Drug Co., corner First South and Main streets.
