

MINING, BUSINESS AND STOCKS.

MARKET WAS QUIETER TODAY

Daly-West Sells at \$18.75, but Closes Much Stronger.

MAMMOTH IS FIRMER TODAY

Swansea In Demand—Petro Sells—Northern Light Active—Yankee Con. Takes Slight Advance.

TODAY'S METALS:

SILVER 59%
LEAD \$4.57 1/2
CASTING COPPER 15 1/2

Several stocks that have been on the retired list for some time past made their appearance on the sales sheet today. Notwithstanding this the market was somewhat quieter.

Daly-West let go 50 shares at 18.75, but closed stronger.

Mammoth was traded in at better figures today, bringing 2.10%.

Swansea sold today at 3.70, while Yankee Consolidated was a little stronger. The stock sold up to 13%, but closed weaker. The property is said to be unchanged.

Petro with ore shipments on the market, sold down to 39%, slightly lower than the price that has ruled for the past week.

Dalton was released at 1/4, while Bunker Hill sold at 1/2, but immediately dropped to 1/4. West Morning Glory brought 5-16, Martha Washington sold at 1/4, and Northern Light was handed out at 1/4 to 3/8.

Closing quotations were posted as follows:

MORE TEA POSITIVELY CURES SICK HEADACHE.

Indigestion and constipation. A light, healthy herb drink. Removes all eruptions of the skin, producing a perfect complexion, or money refunded. 25 cts. and 50 cts. Z. C. M. I. Drug Dept.

Are you sick? If so, investigate the merits of HERBINE. It is a concentrated medicine, the dose is small, yet it quickly produces the most gratifying results, digestion improves, the lips and cheeks lose their pallor, the eye becomes bright and the step elastic. Price 50 cents. Z. C. M. I. Drug Dept.

Children often inherit feeble digestive power and often of a more or less severe character results, when food is taken which is at all difficult to digest. WHITE'S CREAM VITAMINIC acts as a general and permanent tonic. Price 25 cents. Z. C. M. I. Drug Dept.

For all pulmonary troubles BAL-LARD'S HOREHOUND SYRUP, taken in the early stages, proves a certain and sure cure specific. It is equally effective in croup and whooping cough, and if used in season prevents the further development of consumption. Price 50 cents. Z. C. M. I. Drug Dept.

No one knows the unbearable torture one undergoes from the tortures of the bowels so afflicted. TABLET'S BUCKEYE PILE OINTMENT is a quick, safe and painless cure. Price 50 cents in bottles, Tube, 75 cents. Z. C. M. I. Drug Dept.

PORK MAKES A BOUND UPWARD.

Dead Hog the Liveliest Thing in Chicago Today.

PRICES ALL TAKE A JUMP.

Wheat Goes Up, and Live Stock Dips—Even Wall Street Rises Rapidly After Depression.

Chicago, March 28.—May pork closed yesterday at 12.02 1/2 and by noon today had advanced 47 1/2 cents. This price, \$12.50, is the highest paid for May delivery since March, 1895. December 1st last, pork for May delivery sold at \$9.55. Since that date and short ribs have each advanced a dollar or over. Finished hogs are scarce. They cost relatively more than their products. Packers are paying about \$5.50 for hogs on the hog and the present price of product is only about 35 cents over that. There is a stiff demand for products for immediate delivery and consequently sales for future delivery are hard to get.

May wheat opened at 63 1/2 cts., and rose to 67.

Corn: Wheat—March 66 1/2; May, 66 1/2; July, 67 1/2; Sept., 68 1/2. Corn—March 35; May, 35 1/2; July, 35 1/2; Sept., 36 1/2.

Pork—March, 12.02 1/2; May, 12 1/2; July, 12 1/2; Sept., 12 1/2. Lard—March, 6.47 1/2; May, 6.52 1/2; July, 6.57 1/2; Sept., 6.62 1/2.

Cash: Wheat—No. 2 red, 62 1/2; No. 3 red, 60 1/2; No. 2 hard winter, 60 1/2; No. 3 hard winter, 59 1/2; No. 1 northern spring, 61 1/2; No. 2 spring, 60 1/2; No. 3 spring, 59 1/2.

Corn—No. 2, 37 1/2; No. 3, 35 1/2; No. 4, 34 1/2; No. 5, 33 1/2; No. 6, 32 1/2; No. 7, 31 1/2; No. 8, 30 1/2; No. 9, 29 1/2; No. 10, 28 1/2; No. 11, 27 1/2; No. 12, 26 1/2.

LIVE STOCK.

Chicago, March 28.—Cattle—Receipts 11,500. Steers 10 to 15 cents higher; butchers' stock strong to 10 cents higher. Good to prime steers 5.00 to 5.50; poor to medium 4.00 to 4.50; stockers and feeders 3.40 to 4.00; calves 2.50 to 3.00; hogs 4.00 to 4.50; Texas fed steers 5.00 to 5.50; Texas fed steers 5.00 to 5.50.

Hogs—Receipts today 21,000; tomorrow 23,000. Left over 3,250. Market active, 10 cents higher; top 5.50. Mixed and butchers' 5.00 to 5.50; good to choice heavy 5.00 to 5.50; rough heavy 5.00 to 5.50; light 5.00 to 5.50; bulk of sales 5.25 to 5.50.

Sheep—Receipts 12,000. Lambs steady; sheep 1.00 to 1.50; choice wethers 1.50 to 2.00; fair to choice mixed 1.50 to 2.00; western sheep 1.50 to 2.00; yearlings 1.50 to 2.00; native lambs 1.50 to 2.00; western lambs 1.50 to 2.00.

WALL STREET MARKET.

New York, March 28.—Wall street—Price changes were very wide in many stocks during the first half hour, and were in both directions. The downward turn became well defined by 11 o'clock, realizations becoming heavy in all issues. Renewed strength developed in the local group and Metropolitan street railway, and Brooklyn transit advanced 2 points. Despite enormous realizations, Union and Northern Pacific were advanced to record figures, the latter touching 99 1/2. Pressure against the specialties relaxed owing to the strength of the railroads, and there were important rallies. At midday the whole market was changing.

Bonds were active and in the main higher.

SUGAR.—Sugar—raw, steady; fair refining, 33-32; centrifugal 96 test, 4 1/2-32; molasses sugar 35-32. Refined firm.

MONEY AND BONDS.—Money on call steady at 4 1/2 per cent. Prime mercantile paper 4 1/2 per cent. The greenback market is quiet. With the decrease in the phenomenal output of the Grand Central and other mines, those who have been working other claims on the dividends received from these mines find themselves short of funds. And there are other reasons. The market is in such a condition that there is little demand for stock in prospect. But with an improvement in some of the big mines, work on some of the prospects will be pushed again even if a bull should take place during the present summer.

KANSAS CITY LIVE STOCK.—Kansas City, March 28.—Cattle—Receipts 7,000. Market strong to 10 cents higher. Native steers 3.70 to 4.00; Texas steers 3.70 to 4.00; Texas cows 3.70 to 4.00; native cows and heifers 2.00 to 2.50; stockers and feeders 3.00 to 3.50; bulls 2.50 to 3.00.

Hogs—Receipts 10,000. Market 5 to 7 1/2 cents higher. Bulk of sales 5.00 to 5.50; heavy 5.00 to 5.50; packers 5.00 to 5.50; mixed 4.00 to 4.50; light 4.00 to 4.50; yoked 4.00 to 4.50; pigs 4.00 to 4.50; stockers and feeders 3.00 to 3.50; bulls 2.50 to 3.00.

Sheep—Receipts 2,000. Market strong; lambs steady; yearlings 4.50 to 5.00; western steers 4.00 to 4.50; stock sheep 4.00 to 4.50; lambs 3.00 to 3.50.

OMAHA LIVE STOCK.—Omaha, March 28.—Cattle—Receipts 1,200. Steers 10 to 15 cents higher. Native beef steers 4.00 to 4.50; cows and heifers 3.50 to 4.00; calves 2.50 to 3.00; stockers and feeders 3.00 to 3.50; bulls 2.50 to 3.00.

Hogs—Receipts 1,000. Market 5 to 7 1/2 cents higher. Bulk of sales 5.00 to 5.50; heavy 5.00 to 5.50; packers 5.00 to 5.50; mixed 4.00 to 4.50; light 4.00 to 4.50; yoked 4.00 to 4.50; pigs 4.00 to 4.50; stockers and feeders 3.00 to 3.50; bulls 2.50 to 3.00.

Sheep—Receipts 2,500. Market strong; lambs steady; yearlings 4.50 to 5.00; western steers 4.00 to 4.50; stock sheep 4.00 to 4.50; lambs 3.00 to 3.50.

SAN FRANCISCO PRODUCE.—San Francisco, March 28.—Wheat firm. May 98 1/2; Dec. 100 1/2; cash 97 1/2. Barley no sales; cash barley 72 1/2.

BIG DIVIDEND WAS DECLARED.

Directors of Centennial-Eureka Post One of \$100,000.

STOCK SELL AT \$28 A SHARE

Sensational Charges in Montana Mining Suits—R. G. W. Improving—Silver Park May Close Down.

A dispatch received from Boston last evening by James A. Pollock conveyed the information that the directors of the Centennial Eureka met in that city yesterday afternoon according to schedule and declared a quarterly dividend of \$100,000, payable on April 5th. The books close on the 30th inst.

While the above is the largest dividend paid by any mine in the State in one sum, it is not as large as some others pay, nor possibly as large as the Tintic bonanza could pay if it were desirable. The Silver King of Park City is paying \$25,000 quarterly, while the Daly West, another Park City property, is handing out \$112,500 every three months.

The payment of the above dividend by the Centennial Eureka is \$1 a share on the issued stock, and it has had the effect of materially strengthening the stock on the Boston market. Advances received from that city today state that it sold this morning up to \$28 a share.

MONTANA MINING SUITS.—The Boston and Montana Company Files Sensational Affidavits.

Helena, Mont., March 28.—Counsel for the Boston & Montana company just prior to the adjournment of the supreme court yesterday filed affidavits of a sensational nature in support of a motion for an order why the Montana Ore Purchasing company should not be punished for alleged contempt. The Boston & Montana alleges that the Montana Ore Purchasing company has extracted ore from the disputed ground in the Pennsylvania after having been enjoined last January by court not to do so. The disputed ground is among the richest in the Butte copper district.

A. P. Heinze vice president of the Montana company, swore he had issued no orders directing the extraction of ore on the forbidden ground. The sensational motion was made just after court had heard arguments for dismissal of the injunction against the Montana company and was supported by affidavits from miners who claimed to have seen men at work in the disputed ore body who were in the employ of the Heinzes.

Two prominent mining engineers also made affidavits that mining had been conducted contrary to the injunction. The court set April 17th as the date for the hearing of the application.

MAY SHUT DOWN.

The Silver Park Company Considering Adviseability of Doing So.

Word was received from Tintic today that the Silver Park will shut down on April 1st. When seen regarding the matter, L. E. Ritter said that he expected Mr. Loose up from the district today, and upon his arrival in Tintic, the matter will be decided. Though Mr. Ritter did not say positively that such would be the case, it is inferred that the work on the Park property will cease in the near future. The reason is reported to be feeling rather blue over the outlook in that end of the district, as many of them believe that other properties will shut down before long. It is quite probable that the greenback market will not last long. With the decrease in the phenomenal output of the Grand Central and other mines, those who have been working other claims on the dividends received from these mines find themselves short of funds. And there are other reasons. The market is in such a condition that there is little demand for stock in prospect. But with an improvement in some of the big mines, work on some of the prospects will be pushed again even if a bull should take place during the present summer.

ALASKAN LEGISLATION.

Mr. Wolcott's Substitute to Mr. Carter's Amendment is Defeated.

Washington, March 28.—The substitute offered yesterday by Mr. Wolcott to Mr. Carter's amendment relating to the mining of gold in the sea off the Alaskan coast was defeated, 21 to 25.

THE R. G. W. GROUP.

Manganese and Iron Encountered in the Drift on the Vein.

A marked improvement is reported in the R. G. W. group in Tintic. A letter received today from the superintendent states that iron and manganese are largely entering the vein matter now being extracted from the face of the drift. The iron is being encountered some time ago but the manganese is new and is considered an excellent indication. The drift on the vein has preceded about 35 feet from the tunnel, which intercepted the vein at a distance of about 45 feet from its mouth. It is thought that less than 25 feet of work will place the drift under the blow out.

THE NORTH MAMMOTH.

Eureka Hill Will Supply Air to Rann Machine Drills.

An arrangement has been made with the Eureka Hill Mining company by the North Mammoth company for air supply from the former's compressors with which to operate two machine drills. The pipe has been ordered and connections will be made as soon as possible. The North Mammoth is considered a promising prospect. The company has started out to run a 1,000-foot tunnel and the installation of machine drills will, it is thought, enable it to reach the objective point in about three months.

CANADIAN STEEL CO.

Plans for its Organization with Capital of \$18,000,000 Now Pending.

The New York Journal of Commerce today (Wednesday March 28) says: Plans for the organization of the Canadian Steel Company, the incorporation of which with \$18,000,000 capital is now pending in the Canadian legislature are rapidly being matured. A meeting of the organizers of the company was held in this city this

week, at which details of the organization were agreed upon, although the formal organization cannot be effected until the charter has been actually issued, which, it is expected, will be done about the 20th of next month. The bill of incorporation has passed its second reading and will come up for a third reading in a few days. The plan of the company will be at Welland, Ontario, where a 1,500 acre site has been obtained. This is at the mouth of the Welland canal, where, it is claimed, Lake Superior ore can be laid down as cheaply as at Cleveland or Buffalo. The company proposes to enter into practically all departments of the iron and steel business. Among those interested are several capitalists from this and other cities of the United States, while Canadian capital is also concerned.

A feature of the company's charter is that it will permit the company to make contracts for electric power with the Hamilton and Lake Erie Power Company specifically or with other power companies. It is claimed that power can be furnished in this way at about one-fifth the cost of steam power in Pittsburgh.

A bill has received its second reading in the Nova Scotia legislative council, the object of which is to amend the act incorporating the Nova Scotia Iron and Steel Company, one of the amendments being to increase the capital stock from the present limit of \$1,000,000 to one of \$2,000,000.

Mr. Armstrong, who introduced the measure, said that the works at Trenton and Fenelon would be continued, and that large coal and iron developments would be carried out in Cape Breton. He added that the company was ready for operation, the old Sydney mines belonging to the General Mining association, and that when this bill went through the legislature and when the Nova Scotia Iron and Steel Company was ready for operation, the old General Mining Association, which has done business in the province for over seventy years, would go out of existence. Its old Sydney colliery and its large important submarine coal areas contiguous will be worked by the Nova Scotia Iron and Steel Company. The areas at Point Aconi and the Island of Boulevarde are also to be opened.

These mines belong to the northern limit of the greatest coal fields in the province.

STRIKE IN MINER'S BASIN.

Thomas King Encounters a Fine Grade of Sulphide Ore.

A rich strike was made last week at Miners basin by Thomas King, who has been carrying on the point mine there all winter, says the Grand Valley Times. Last week while driving a tunnel on an eight-inch vein he broke through into a large cavern. At the opening which appears to be a large ore shoot, the ore splits, showing a foot on the hanging wall and from two to three feet on the foot wall of a fine grade of sulphide ore which shows gold after roasting. Mr. King came down to Camp Valley last week to get help to explore the cave, as one man cannot do it alone.

The tunnel tapped it about twenty-five feet from the top and from forty to fifty feet from the point mine, opening being about seven feet wide. This is the most important strike made in the La Sal mountains and is only a beginning of what will be shown as depth is reached.

Mining Incorporations.

The Boston Gold Mining and Milling Company filed articles of incorporation in the office of the county clerk yesterday afternoon. The capital stock is placed at \$4,000, divided into 400,000 shares of the par value of 1 cent each. Joseph E. Edmunds is president and treasurer of the company; George L. Chowning, vice president; C. W. L. Stevens, secretary, who, with J. B. Hamilton and Stephen M. G. form the board of directors. The company owns the Ohio Bat and five other mining claims in Tooele county.

An amendment to the articles of incorporation of the Shoshone Bonanza Mining Company empowering the directors to file assessments not exceeding 1 cent a share in any one month on the capital stock of the company was also filed in the office of the county clerk yesterday afternoon.

ACTIVITY IN THE LA SALS.

Extracting Copper Ore—Prospecting on Grand River.

The following items from the La Sal district, which a number of Utah miners will be engaged this summer, are taken from the Grand Valley Times:

F. B. Hammond has commenced taking out a carload of ore from his copper property near Camp Valley. A shipment from this property last season netted the owners about \$20 a ton. They have twenty or more tons of the same grade of ore now on the dump.

The usually early opening of the spring here has already set miners and prospectors in motion toward the La Sals. The season is fully a month earlier than usual. The forks of Mill creek are now covered with a pack outfit, and with a little shoveling of snow a team and load can get in. As most of those who have been working in the La Sals the past season have been expected to commence earlier and advance more rapidly than any previous season.

R. Darcy came down from Mill creek this week for prospecting mail, etc. He shows some fine looking ore taken from the tunnel they have been driving on all winter. He says that it will take about forty feet more to get to the bottom of the vein they started to reach last fall.

Messrs. Melroy, Price and Pacaboo returned this week from a two months' prospecting trip down the Grand river. They went as far as the junction with the Green river, and although prospecting all the bars, but do not report any rich finds but had an enjoyable time. They are now preparing for claims on the La Sal.

Messrs. Wilson and Miller, who have been working the greater part of the winter, sinking on mining property, in which they and John H. Shafer are interested, have between Salt Lake and Court House rock, were in this week for supplies. They have a shaft down at one place over fifty feet and all in a good quality of copper-silver ore. They will be able to mine about 400 tons of ore from this ground within a month.

MINING NOTES.

Dan Clays was in the city today from Bingham.

The Conklin sampler reported 11 cars of ore from Tintic today.

The last shipment from the Geyser-Marion returned about \$4,000.

The Galena of Fish Springs has a car of ore on the way to market.

Two cars of ore were on the market today from the Mammoth of Tintic.

A car of ore reached the city today from the Shoebright-Bonanza in Tintic.

The Ajax of Tintic disposed of three cars of copper ore on the market today.

Two cars of ore from the Horn Silver of Frisco were on the market today.

The Swansea of Tintic took down the price of six cars of ore sold on today's market.

The Centennial Eureka of Tintic reported on the market today with 11 cars of ore.

The Taylor-Bruntin sampler reported 11 cars of ore from Tintic and two from Frisco today.

The Petro of Bingham reached the

WANTED!

\$1.25 to \$2.50.

ROBINSON BROS. CO.

SHOE BUILDERS. 124 Main St.

side tracks at the sampler today with four cars of ore.

It was expected that contracts would be let today by the Bingham Copper and Gold company for electric motors and motive power.

Joseph H. Dean is in the city from Mancos, Colo., and predicts a gold mining boom for that district in the near future.

The Carbonate Hill mine in Morgan county is said to be looking well. The management is contemplating starting another tunnel 400 feet lower than the present workings.

The car of ore reported yesterday as coming from the Sharp mine at Stockton, was shipped from Stockton, but was taken out of a promising prospect near Vernon, Utah valley, in which Dave Sharp is largely interested.

Butte Inter Mountain: Alex Tarbet, the Salt Lake mining man, who is largely interested in Montana mining properties, is in the city. Mr. Tarbet is the financial backer of the syndicate which is prosecuting work on the Smokehouse lode, in the business section of Butte.
