SUIT FOR NEARLY HALF A MILLION

Action Commenced in Piute County and Being Heard Here by Judge Chidester.

ABOUT PARTNERSHIP PROFITS.

Four Thousand Shares of Annie Laurie Stock Are Involved - Their Market Value \$400,000.

A case of unusual interest is on before Judge Chidester, of the Sixth judicial district court, in Judge Stewart's courtroom today. The action involves 4,000 shares of Annie Laurie mining stock, valued at about \$400,000. For the convenience of the attorneys, parties to the action and the witnesses, Judge Chidester consented to come to Salt Lake to try the case instead of trying it in Plute county, where the action was brought. In addition to the official court stenographer, each side of the case has a special stenographer present to take an account of the proceedings. The action was brought by Evank C. Rutan and Willard F. Snyder against Louis C. Huck of Chicago to compel an accounting between defendant and plaintiffs in relation to the sale of the Annie Laurle properties. It is alleged by plaintiffs that Rutan and Huck entered into an agreement on Aug. 11, 1898, whereby they were to engage in speculating in mining properties together. The former was to furnish his experience and services as an expert mining engineer and the latter agreed to furnish the necessary funds to carry on the business and they were to share equally the proceeds from the sale of any property in which they might become interested. In pursuance with that agreement it is alleged that plaintiff Rutan inspected

is alleged that plaintiff Rutan inspected and engineered a deal whereby the Annie Laurie property was sold to Huck and a number of other eastern capitalists. Huck, however, failed to divide with Rutan, it is claimed, and this suit was filed to compel an accounting in relation to the stock in the Annie Laurie company, which Huck received in the transaction. Before the commencement of the action Rutan assigned a one-half interest in the agreement to Willard F. Snyder, who is a party plaintiff in the action. The plaintiffs are represented by Attorneys John M. Zane and William A. Vincent of Chicago, C. S. Zane and W. I. Snyder of this city, Pierce Critchlow and Barratt.

MAIMED AND BLINDED. Damage Suit Against April Fool Com-pany for \$50,000 Dismissed.

Upon motion of plaintiff's attorneys, Judge Stewart has dismissed the case of John Corkish against the April Fool Gold Mining company without prejudice. The action was brought to re-cover \$50,000 damages for personal in-juries alleged to have been received by plaintiff while in the employ of de-fendant on June 25, 1900. Corkish was working on the 700-foot level in the mine, when a miner working on an upraise on the 800-foot level fired a blast which broke through the floor of the level on which Corkish was working and injured him so that he lost his right arm and both of his eyes.

The case was called in Judge Stewart's court yesterday and a jury se-cured. Corkish was placed on the stand and partially examined, when his attorneys moved to amend the complaint. The motion was dealed by the court and then the case was dis-missed without prejudice upon motion of plaintiff's attorneys. A new com-plaint will be filed in the case.

ed, according to the contract, to deliver any specified amount of ore except that the tonnage is not to exceed the amount stated during any month. The smelting company agrees to pay the market price for the metals contained in the ores on the day of assay.

This Alta company has in the market today the best shipment of high grade ore it has ever had, as stated elsewhere, the two cars bringing as much as \$1,300 apiece.

Manager Jacobson, accompanied by several eastern and local directors of the company, returned from the mine last night. Mr. Jacobson said today that in the west drift from the main tunnel, where the recent strike was made is a chute of ore \$ feet wide, which will show average values of 160 ounces in silver and other contents.

On either side of this chute is some good shipping ore and a large body of a milling grade.

UTAH COAL MINES TO WORK MONDAY,

Call Issued by President Mitchell For a General Strike Will Not Affect This State.

MEN HAVE NO CRIEVANCES.

Utah Miners Are All Getting Wha The Colorado Men Are Striking For-The Situation.

The coal strike called for next Monday by President Mitchell and the other general officers of the United Workers it is not believed will strike Utah. Although the call is for all miners in Colorado, Utah, New Mexico and southern Wyoming to walk out on Monday it is not anticipated that the Utah mines will be in anywise hampered. The fact is that the miners of Utah are today receiving better pay for eight hours' work than are the miners in some other camps who are working 10 hours. In the past whenever they have had a grievance they have carried it to head-quarters and the matter has been ad-justed. Another feature is the fact that fusited. Another feature is the fact that the men are not organized. There are few Americans working in the coal mines of Utah. In the mines of Sunnyside, Castle Gate, Clear Creek and other properties of the Utah Fuel company the miners are almost all men pany the miners are almost all men from Europe, with Italians, Finns, English and Welsh predominating, while the coul while the coal mines at Sterling, operated by the Sanpete Valley company, are worked by local men who have their homes in the vicinity.

WHAT MR. WILLIAMS SAYS.

Henry G. Williams, general manager of the Utah Fuel company, this afternoon stated that he had no reason to anticipate a strike. He said: "It is usual before a strike is called for the men to serve notice on the mine owners of their intention. We have received no such notice, neither has any been posted. As far as I am informed the men are not organized, and even if they were, we have always in the past been ready to listen to them and do what was equitable and just. We have not been notified of any dissatisfaction among the men. Our men, I believe, are contented; they work eight hours a day and receive better pay for this work than do a number of miners who work in other camps 10 hours a day. It is on this eight-hour proposition that the Colorado miners are proposing to walk out. I take it that the men are not anxious to strike in any case." WHAT MR. WILLIAMS SAYS. not anxious to strike in any case.'

IMMENSE TONNAGE STORED.

The company has an immense ton-nage stored at different points along the system, while there are 12,000 tons in the local yards in this city and in the local yards in this city and more coming in every day. Coal dealers generally do not look for a fuel famine although Rock Springs has practically ceased to ship to Salt Lake, presumably on account of developments in Colorado and the demand which will come from that state as soon as the strike is declared.

OTHER CAMPS.

In Rock Springs and the other mines operated by the Union Pacific in Wyo-ming, it is not thought that there will any strike owing to the fact that there is no organization there either. In Rock Springs, for instance, Chinamen, Japs and almost every nationality are represented, and the men are said to be

THE EMPEROR'S CUP. The Kaiser's Schooner-Yacht Meteor Will Contest for It.

Berlin. Nov. 6.—Emperor William's schooner yacht Meteor will go to the United States in the spring to take part in the ocean yacht race for the Emperor's cup. Several changes have been ordered in the Meteor's rig. the most important of which is a reduction of her sail area, so as to avoid being heavily handicapped. The Meteor was sailed by an all-English crew two seasons ago and by a crew about half English and German in the races last season.

The emperor's views regarding the advantage of the race as they have been outlined to naval officers here, are that yachts of the cruiser type are of greater utility than racing models, and that the strength of construction, discipline of the crews, variations of weather and skill in sailing under what may be called service conditions are best tested in a transoceanic race. The Meteor was constructed partially to that end.

Emperor William is said to have likened a racing yacht to a race horse, as "no good for everyday pleasure."

Gus Berger Identified by Police Chicago, Nov. 6.-Gustave Berger, who was arrested Monday with his brother and sister charged with a num-ber of crimes, is said by the police to have been identified today as the man who, last week shot Locomotive Firewho, last week shot Locomotive Fire-man Louis Ernest of the Chicago and Southwestern railway. Ernest was fireman on the St. Paul limited and was shot while working in the cab not far from Chicago. Next morning a number of sticks of dynamite were found along the track where the shoot-ing occurred. It is believed that an attempt was made to hold up the train.

Baron Sternberg Will Return.
