New York, Jan. 20, 1902 .- In a very short time three well known theaters of the metropolis will only be sweet memories to the regular theater goer. The Lyceum, the Madison-Square and the Herald Square theaters are all to be torn down, replaced by new buildings and rebuilt farther up town, Forty-second street and its neighborhood seem to be the favored localities at present, and each season shows a tendency for places of amusement to creep northward. Kirke la Shelle will build his New Colonial on Forty Seventh and Broadway. David Belasco has taken the Republic, and under his management the awkward entrance and ridiculous arrangement of its interior will undergo such marvel ous improvements that its old habitues will never recognize it. In fact all the leading managers are looking for new ground above the Forties.

At the Victoria, Otls Skinner, with his gorgeous production of "Francesca da Rimini," is crowding that beautiful playhouse nights and matinees. Lake will certainly never forge Lawrence Earrett rendition of this fa-mous play. In the original cast were Barrett, Louis James, Marie Wain-wright and Otis Skinner, four stars such as one rarely sees nowadays. The papers are calling Skinner's Lanclotto great-and it is great. Perhaps we were unaccustomed to such fine artistic work as Barrett gave us; that impels a con-trast in the mind-as one thinks of the trast in the mind-as one thinks of the two in certain scenes, but, in truth, Skinner does not possess the magnetism and does not hold his audience in the breathless silence that Barrett seemed to be master of; that he has closely followed his former teacher is evident in many places, and it reflects credit on his judgment and appreciation of great artistic work; especially is it great artistic work; especially is it noticeable in his pronunciation, a quality that so distinguished Lawrence Bar-rett. Wm. Norris as Pepe, the jester, is carrying off some of the honors; a fine actor, he and Skinner are dividing the applause, and altogether it is a magnificent revival.

Anna Held, that disciple of the "Folle Bergere," is still filling the Casino at each performance. It is a mystery how she can do it. She is so utterly and absolutely nothing, and that is the only word that can describe her; so per fectly guiltless of any talent or beaut) that it is wonderful how she can even draw the gallery gods; but she does, and fills the theater and the treasury box nightly.

A pretty little play now run-ning at the Empire "The Wilder-ness," seems to be filling a gap, while waiting for something more in harmony to test the ability of the company. There is but small opportunity for its two stars, Richmond and Margaret Anglin, but they make the most of the three seconds given them. It will rank great attraction with devoted as a greatrons.

Among the many philanthropic peo-ple who crowd this busy city, and among the many schemes devised to help the poor by those who are in posi-tions to do something for them, is one now being formed that, in the humble opinion of many, is worthy of mention. It is an enterprise to benefit the talent-ed poor of the working class who are musically gifted, and it has been

The lady members of J. H. An Eastern contemporary says of him

Mr. Baer has brought the best busines methods into the secretaryship, and these are needed in keeping the records of more than sixty thousand societies, and carrying on correspond-ence with workers all over the world. His counsel is often sought by the officers of state and local unions, and his advice is full of practical wisdom fruit of wide experience. He has fre-quently visited all parts of the United States and Canada, and has crossed the Atlantic several times in the interests of the movement, receiving a most hearty welcome in England, and Ire-land. His ability as a public speaker brings him before many important gatherings of temperance and other reform bodies, the great missic, ary as-semblies, the conferences of the various denominations, and especially into evangelistic mass meetings, where he is notably used of God."
