PREST. SNOW APPLAUDED.

Beautiful and Impressive Exercises Today-32 Graduates Flowers # Music, and Orator) .

This morning the Latter-day Saints college had the most successful commencement exercises in its history. Thirty-two students were graduated, receiving diplomas and certificates, There was a large audience present, the lower part of the building being nearly filled, and the gallery being partly occupied. The stand was tastefully decorated with bunting in the college colors; and college flags and flowering plants arranged on the various

stands mimbers on the program, a mos excellent one in every respect, were well appreciated by the audience and en-cores were called for. When President Snow declared that the college would have a beautiful and convenient build-ing for the next year, the college boys and girls almost raised the ceiling with

THE PROGRAM.

The singing was very fine and was highly appreciated. H. S. Goddard, Thos. Ashworth, Geo. D. Pyper, H. S. Ensign, Mrs. Maggie Freeze Bassett, Mrs. Lizzle Thomas Edward, all rendered their pieces in their own mag nificent way, according to the program "News yesterday's Smith, who was to read a paper, was absent, and the names of Will Wetzel in the High school course, and A. C. course in bookkeepin Jensen in the were added to the list as published yesterday

The most inferesting feature of the day was the speech of President Snow, who after expressing his gratification at the progress the college is making announced that it should have a fine ome, centrally located in the near uture. The valedictory by Miss Irvine was a gem of composition ; the speech of Fresident Paul was deep and scholarly; the graduates were numer ous, happy and handsome; the flowers rich, abundant and beautiful. Every body was satisfied with this excellent program, which closed at noon; but any were late and so missed several of the numbers

Elder Heber J. Grant offered the President Angus M. Cannon prayer. conferred the diplomas, and Trustee William B, Dougall pronounced the benediction.

PRESIDENT SNOW SPEAKS.

President Snow said that he had no had the opportunity of visiting the col-lege or of ascertaining what it was doing in the past, but he had quite recently inquired into it. The work of the college he declared to be a grand "I wish to say of your president, Professor Paul.' he remarke

Truth apart from mind is Enthinkable but truth apart from all human minds is a fact. Therefore, the existence of infinite intelligence is also a fact. This proof of the existence of the universal reason, rests upon the fact, that when we pronounce anything to be true, we mean that it is correct according to the principles of universal intelligence-not true according to my view or your merely, for I can think these mistaket or can think of them as non-existent yet the truth of which I am here speak ng would remain-but true in relation of that which cannot be thought awayultimate basis of thought, the real y on which all human intelligences, the wisdom whose thought make ossible all human thought, the source, he measure, the inspiration of all true hinking. This is the brief philosophi-al demonstration of the great truth

The motio of the Latter-day Saints' College is, "The Lord is my light," These were the words of David, when e was surrounded by human foes, and destitute of human ald. Others migh upon their own understanding o seek ald from the wisdom of man; bu he would look into the Lord as hi ulde and unto the Most High as hi ngth and his salvation. "I will look " said David; and why should this be our determination also? If we ook within it may dispirit us, for our carts are troubled with the cares of this world; if we look around it may distract us; for confusion and sorrow abound on every hand: if we look back, it may awaken melancholy regrets and remorse, for our own lives have been very imperfect and our failures numerous; if we look forward, it may arouse oreboding and fear, for to every one t some time, the future, like the gath ering night is ominous and dark; but f we look up-glorious thought --it will preserve the head from swimming, the heart from sinking, the feet from slipoing, the hands from hanging down. Then we shall see how to rise and shall know how to help others up. And in choosing the College motto, it has seemed to us, that whatever else may be true, this much is certain: The word of the Lord is a light to our path, and His light alone shall we see ight. He is the light of the world and n him s no darkness at all.

Not alone for this earthly life do we abor. "O Time! wondrous and fear-al art thou, yet there is in man what Reverence for God, respect for sacred things, belief in prayer, admiration for the true, the beautiful, the good, willngness to defend the right-these are he corner stones of the practical eduhatever knowledge we gain in this will rise with us at the resurreccation which we offer to your sons and laughters. With high ideals of true nanhood and true womanhood, with a engaged in adding line upon line, ccept upon precept until the great y shall come when the Master shall , "Thou has finished thy earthly urse." Then shall we stand face to training that develops the sense of honor and the feeling of responsibility, with teachers who are pure-minded and honoroble and free from even petty vices-we confidently assure you that your children will get here something that they cannot get in purely secular schools. The college alms primarily to make men and women, and to incul-cate the virtues and graces that make true citizens and useful members of the community. Its function is not limited to traning for mere intellectual and mechanical expertness, important and President Paul's speech was made at ndispensable as these are in their

We do not seek to belittle human achievement or to deprecate honest self-reliance when we say to our young r gave utterance to a thought so outiful and sublime that even the friends, "Trust in the Lord with all thy heart and lean not unto thine own un-derstanding." We simply acknowledge thereby the truth of science and revela-tion, that He is the light of the world, and that all our own light of thought

SERVICES AT M. E. CHURCH

Large Audience Listens to Memorial Address-American Soldiers Have Ever Fought for Humanity.

The First M. E. church contained a arge audience last evening to witness the memorial exercises which were of a high patriotic tone. The room was tastily decorated with flags and buntng and on the stand were scated those who participated on the program, also Commander Clark, Col. M. M. Kaighn and Rev. Alfred H. Henry.

The speeches were eloquent and were listened to with close attention. Commander Clark, who presided at the neeting, announced the opening number, the singing of "America," by the audience. Rev. Henry offered the invocation, after which Scott Wells, representing the volunteers of the Philippine war arose and delivered a very entertaining address. He dwelt upon the beneficial results of the observance of Memorial day, when men stay in mid-career and ask what they are doing a deserve the glorious legacy of their fathers-the American Republic,

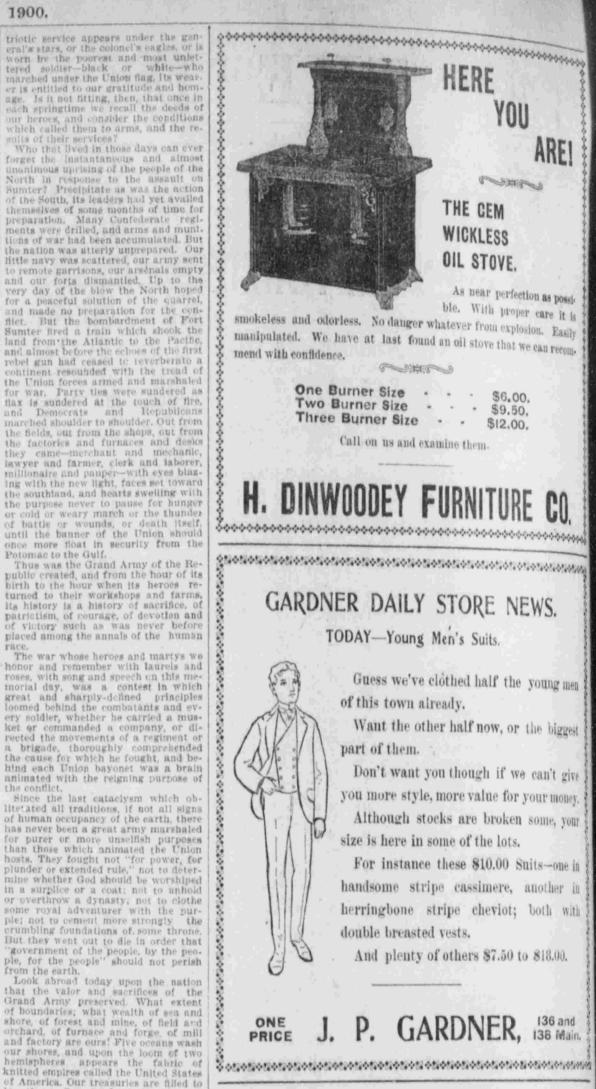

Mr. Wells followed the nation's his-ory through all the vicissitudes of war, and highly eulogized the volunteers in the Spanish-American war who had bravely gone out to fight for humanity. Mrs. Plummer then rendered the solo 'Barbara Frietchie," in a very sweet mannner, after which Miss Munroe devered an address in behalf of the Woman's Relief Corps. Her speech was full of patriotic fervor and evoked rounds of hearty applause. She said in

Once more the widening circle of the evolving years have brought us round the graves of our heroic dead. Once more the nation pauses in its onward rush to reverently bow before the majesty of heroism. To many here the tory of the war is like a dim and misty ale, the shadow of a dream To those of us who saw the shot and shell mow down the ranks of gallant

men whose hearts have worn the sable weeds of mouring through all these bitter years it is a stern reality. The war-rior of ancient times waged war for place and power. The soldier of the Re-public fought not for power, not to enlave, but to set free. Their grand achievements must never

be forgotien. The memory of their hero-sm must never die. May our right hands forget their cunning and ongues be speechless when we forget the debt we owe those gallant men who marched with Sherman, Sheridan, Thomas, Grant into the mouth of hell, Into the jaws of death. (Applaitse),

Duty to the founders and preservers of this Republic. Duty to living and to dead. To the millions yet to be demand bursting. Our land rings with the music of honored, contented and well that we forever honor those who made man's sublimest sacrifice to save the Union. The divine Master has said, "Greater ove hath no man than that he lay down is life for another." If the love is so great which gives if the love is so great which gives life for a friend, how much greater when given for a principle. To such de-votion to principle we build our monu-ments. We build to brave men every-where. We build to write in cold gray stone co ho who runs may read that ments. stone so he who runs may read that far above all other isms of this old world of ours is patriotism. We build to teach the sons of valiant sires that a glorious inheritance is theirs. 'Tis theirs to do, to dare, to die if need be for all and faces lit with the lofty purpose that sanctifies war, and makes of the battle thunder an anthem of angels. this starry emblem means to us. "that he is the right man in the right place. He is a man of the necessary energy and judgment to direct the af-fairs of this college. I noticed in the newspaper that President Paul did not fully answer one of the questions put to him, as to whether the college would be in the Templeton next year, and perhaps I ought to answer the question."

A NEW BUILDING.

President Snow then said that the sixth floor of the Templeton was not a proper or suitable place for the college; that it was even dangerous in case of fire, and that other quarters would have to be provided for next year. He then announced that plans were afoot to provide a new building, i central and suitable location, and that before long the students would have a building they would not be ashamed of, a home that would be an ornament to the city and worthy o fthe pride of the Latter-day Saints. Tremendous plause followed this announcement, and the President went on to speak in the warmest terms of praise for the institution, and the work it is accomplish-ing. He had been especially gratified to learn how many of its students had recently gone on missions, and he ex-pressed his approval of the valedictory address. The work of the past, he said, was an unquestioned success, and now ve must look to the future.

The Latter-day Saints' college, he said, ought to be the most eminent, the largest, and the most successful of the Church schools in the various branches education.

Great applause followed, and the college song was rendered with great spirit, under the lead of H. S. En-

MORE ENCOURAGEMENT.

President Joseph E. Taylor, upon re-quest, made a few remarks. He repeate the words he used at the college com mencoment exercises a year ago, to th effect that the heavens would be dis-pleased if we should permit the college President Taylor ferred feelingly to the work done by the school for our missionaries. He was gratified with the assurances

President Snow, and President non that the college should have a suit. building for the next year. He congratulated the college upon Its work its faculty, and its prospects, and the graduates upon the opportunities they have

GOOD MEN AT WORK.

President Angus M. Cannon referre-briefly to the work done by the collegduring the past. He said that bet another year the school would hav new building, and explained, in pari, plans which were maturing to eff this end. "In a single hour" said Prelent Cannon, "on Tuesday Inst. 57 was raised by eight men," and he felt sure that the future would give us many similar instances.

VALEDICTORY.

Miss Gene Irvine then delivered the aledictory address, given below in full She said

look back now upon the for years that at the beginning stret out to us as years that were to filled with struggles for know We stand again at the commence of an untried life. There have I struggles in the past four years, wi as we now reflect upon them, are r the brightest part of the time. problem over which we bent with zied brow, the lessons that were most difficult, and for which the night lamp has often With a clearer, steadler light the thers, for we do fit from them. They brought out strength that was in us, if we righ fathomed their unknown depths' they were the rounds of the ladder which we must make strong and sure ere we could mount. Those whose graves were decorated today have carried their record with them into the beyond. Only the Om-niscient can comprehend all of each WARRANT FOR COV. TAYLOR be devoted entirely to matters of a news the crowd in reunion hall was life. But it is for us to know so much of their lives as were given to a high and unselfish cause. I see them now with helms high set

Mr. Goebel.

Frankfort, Ky., May 31.-Circuit Clerk Ford received an order from Judge Cantrill today directing him to issue & bench warrant for the arrest of former Gov. W. S. Taylor, The warrant is based on the indictment charging Mr. Taylor with being an accessory to the assassination of William Goebel.

The warrant was issued and placed in the hands of Deputy Sheriff John Suter, who is acting in the absence of the sheriff.

Indianapolis, Ind., May 31 .- W. S. Taylor, who is at Martinsville today, onfirmed the report that a warrant had been issued for his arrest in connection with the Goebel murder, Mr. Taylor said he received private advice to this effect early today. He refused to speak in detail concerning the affair further than to state that the latest developments will have no effect on his future plans.

He will come to this city from Martinsville tomorrow. It is believed an attempt will be made to serve the warrant in this city.

Three Men Killed by Lightning.
