GENERAL NEWS.

The Union Pacific Investigation Continued.

THE LOUISVILLE TROUBLE.

Parliament and the Irish Crimes Bill.

BULL FIGHT BY ELECTRICITY.

BUFFALO BILL IN LONDON—SHIP BURNED AT SEA—JUDGE HILTON SUED, ETC.

By Telegraph to the NEWS.

The U. P. Investigation.

NEW YORK, April 29.—The Union Pacific had guaranteed the payment of the Oregon Short Line bonds on the advice of Sidney Bartlett, Judge Dillon and other counsel of the road. They maintained and advised that it was legitimate without the consent of Congress.

Governor Patterson said that the act of Congress states "that the road shall not issue or guarantee the issue of bonds without the permission of Congress."

Adams said he knew that, but he obtained the written opinion of counsel; he was not a lawyer and must be guided by them. He was an officer and was aware that if he himself did this he

MUST SUFFER.

The Salina & Southwestern road ran twenty-five miles southwest from Salina into the agricultural districts in Kansas. It has always paid expenses and runs through the best wheat country in Kansas. Adams would as soon think of cutting off his finger as of dropping that branch from the Union Pacific. The Utah & Northern branch ran from Salt Lake and Ogden 468 miles north through Idaho. The Union Pacific bought it in 1875 and it was very profitable for years. When the Northern Pacific was built it was cut in two and has not paid since. This year it will pay running expenses. The road was built on religious principles

BY MORMONS.

The examination of the roads operated by the Union Pacific being concluded, Adams was examined as to mileage. A branch road doing a small business is needed to make a great profit to each item carried, and for freight pick-up or deliveries at the point where the branch is connected with the main line, it is given a constructive mileage. The main road may carry freight 100 miles, and the branch road 50 miles, and yet the branch may be allowed to construct mileage of two miles for every one of actual carriage. This constructive mileage always worked in favor of the branches pro rata against the main line, and therefore by this rule the branches of the Union Pacific took from the general receipts of that road all that was allowed them and constructive mileage. There had been very few complaints of

DISCRIMINATION

by competitors. Adams had never heard any proposition to abandon the Union Pacific to the government except what had been in the newspapers. There were the Utah-Colorado, the Omaha-Montana and the Transcontinental pool. In the pool the Pacific Mail got $80,000 a month. Of this the Union Pacific paid from a quarter to a third. Prior to 1886 the road carried 33 per cent. of the traffic and got for it nearly 26 per cent. less money. The transcontinental business is becoming a less and less important factor of business of the Union Pacific. In 1885 the rate per mile was 1¼ cents, now it is ¾ of a cent per mile. The money paid out in pool settlements never appeared in the reports. It is paid before the reports are made up, and is simply deducted from the gross earnings.

AFTER RECESS

there was an informal talk between the commissioners and President Adams. The legal expenses of the company were about $60,000 a year.

Regarding the receipts which the road should include in its calculations, 25 per cent. of which goes to the government, Judge Dillon said it had been decided that the proceeds of the land were not governed by the government lien. The government mortgage was not extended to the land granted road. The land was granted to the company to build a road, and the act provided that the land must be sold in three years. The percentage comes out of the net income of the road. The net income and net earnings are distinct things. The compilation is made for us, and all we have to do is to pay the amount demanded and then see if we can't get back all that we have paid over what we

SHOULD HAVE PAID.

There was some consultation regarding the future proceedings of the commission.

Mr. Adams stated that the law obliged each of the roads after securing to the Union Pacific to continue a separate organization and thus obliged a complicated system of book keeping. There are forty of those organizations, and Adams supposed he was president of them all. He hoped the report of the commission would provide a plan for relief from the useless and complicated system of accounts.

Adams was obliged to leave for the west and could not be back before May. His examination was interrupted at this point and the commission adjourned till Wednesday next. Who will be put on the stand they did not know.

FALSE ALARM.

There Was No Fighting at Louisville

LOUISVILLE, April 29.—Serious alarm was created throughout the city shortly after twelve noon to-day by reason of the sounding of the "riot alarm" on the fire bells. As it was supposed a riot was in progress, a great crowd rushed toward the jail where the prisoners were. It was afterwards learned that the alarm was sounded for the assembling of all local troops at their armories.

The mayor late this afternoon issued a proclamation calling on all good citizens to remain at home to-night and avoid all gatherings, adding that he would do all in his power to preserve good order, etc. While the mayor was inditing the proclamation, 500 men gathered in front of the Liederkranz Hall.

THE JANITOR

refused them admittance, and the police were endeavoring to disperse them when Dr. Berry, a well-known physician, mounted a barrel and said since the brutal assault on Miss Bowman, none of our women and children felt any security, and what was there to be done in this case but lynch the negro fiends? The law again and again failed to punish murderers. If this crime was not atoned for a chance would be missed to set a terrible example to hundreds of worthless and thieving negroes who infested the alleys and slums of the city. The doctor was cheered frequently.

The meeting afterwards adjourned to the hall near by where the names of about 100 citizens who, it was believed, would join an

ORGANIZED EFFORT

to lynch the negroes, were selected. Other speeches were made and it was determined to meet at 10 o'clock tomorrow at the court house. Despite the mayor's proclamation the excitement about the jail to night are densely packed with men. Beyond keeping them half a block back, no efforts were made to disperse them. On Market Street about 100 men are marching up and down, each with a piece of rope tied to his arm. The mob appears, so far, to have no leader, but it is waiting for something to turn up. The police are determined to defend the jail, and if an attempt is made in the night or morning, there will be bloodshed.

JENNIE BOWMAN

is still suffering intensely. The physicians say there is no hope for her recovery.

11 p.m.—The soldiers have just been marched from the armory to the jail, and are now stationed there. A gatling gun squad is also there. Ten thousand people are surging to and fro on Jefferson Street, but good order prevails.

At 11:30 a.m. the crowds about the court house square had dwindled down to 300 or 400 people, and these are dispersing gradually. Three hundred and fifty soldiers with a gatling gun and 150 armed police stand guard at the jail.

Hanged.

LOUISA, Ky., April 29.—James H. Marcus was hanged for the murder of his cousin, Fisher Marcus, February 10, 1886. The execution was without special incident.

The Irish Bill.

LONDON, April 29.—In the House of Commons the member from South Roscommon (liberal) moved that the crimes act should not be retrospective.

Mr. Healy, in supporting the motion, said he would advise his countrymen to refuse to answer summonses under the clause if the act was made retrospective.

The attorney-general and solicitor-general both spoke in opposition to the amendment. They said the bill was only intended to detect and punish crime.

Sir Henry James (liberal-unionist) suggested that words be inserted stating that inquiries into past offenses shall be limited to cases of felony and misdemeanor.

Sir William Vernon Harcourt (liberal) congratulated the government upon the assistance it was receiving from one of its principal supporters.

From Honolulu.

DENVER, April 29.—E. W. Light and wife, J. C. Breckley and wife, C. F. Jockets and wife, F. May and wife, S. Noelin, Miss N. Noelin, Mrs. J. J. Dowett and Mr. C. Dowett, comprising a party of tourists from Honolulu, are at the Windsor, but leave this evening for Chicago, and will there await the Queen of the Sandwich Islands, who will not be able to reach there till a day later than they. Most of the gentlemen in the party are of noble blood, while the others are prominent merchants. Some time since they conceived the idea of a trip to the United States and Europe and are at present carrying out their plans.

Novel Pastime Surely.

CITY OF MEXICO, April 29.—The novity of a bull fight by electric light drew an immense crowd to Colon plaze. Among the spectators were President Diaz and several members of his cabinet. The arena was brilliantly light by ten electric lights and the gaudy uniforms of the matadors fairly blazed. The door of the bull pen was thrown open and the first bull made a frantic rush at a picador and in a minute was master of the arena, having killed one horse and gored two others. One matador and picador were laid out, though not killed.

THE FIGHTERS

became very timid and plied the sword from the side, being afraid to face the animal as is usual. Of the five bulls, every one was desperate in the blazing light, and the horses and fighters were rolled over and tossed in a terrible manner. One swordsman attempted to kill the bull as he charged, and was caught on the horns and tossed out of the arena almost lifeless. The result of the fight was that four horses were killed and several torn and crippled. Two matadors were nearly killed and several picadors disabled. The dazzling light seemed to make the animals wild. This was the first time bull fighting had been tried by electric lighting.

Buffalo Bill.

LONDON, April 29.—Col. Hughes-Hallet showed Hon. W. F. Cody (Buffalo Bill) through the House of Commons to-night. The scout was much interested in the proceedings, and conversed with several members.

The Jubilee Race.

LONDON, April 29.—Seventy yachts have been entered for the jubilee race, and it is possible that more will be added to the list of competitors before the entries close in June.

Attending to Business.

LONDON, April 29.—At a meeting of Parnellite members of Parliament today, it was decided to cancel all engagements likely to interfere with Parliamentary work, in order that members may devote their exclusive attention to their legislative duties.

No Senator Yet.

CHARLESTON, W. Va., April 29.—The Senate consumed the day in discussing the motion to adjourn without electing a United States Senator. A letter from Mr. Lucas, Governor Wilson's appointee, informed the legislature that it would be a lawful act to elect a senator, and a contest would result should the legislature elect. A ballot will be taken Tuesday.

Ship Burned.

SAVANNAH, Ga., April, 29.—The British steamship *Benhope* from Vera Cruz for New York, burned thirty miles off Tybee Island yesterday afternoon. The officers and crew were rescued and brought to Savannah.

Chinese Trickery.

SAN FRANCISCO, April 29.—An ingenious scheme, by which the Chinese fraudulently evade the provisions of the Chinese restriction act and obtain a landing in this city was discovered to-day. A Chinese resident called at the dock where the steamer *City of Sidney* on which another Chinaman who holds no return certificate is detained, and asked permission to give his countryman a loaf of bread. The suspicion of the custom inspector was aroused and the loaf was closely examined. It was found to contain a Chinese written document, giving full instructions to the detained Chinaman how to be temporarily landed by a writ of *habeas corpus* and how to answer certain questions regarding his previous residence so as to be permitted to remain in the United States, when taken before the federal judge. The Chinaman who attempted to convey the bread aboard the steamer escaped arrest by flight.

Injunction Violated.

SAN FRANCISCO, April 29.—The *Call's* Marysville (Cal.) special says: L. F. Bassett and H. B. Riggins, Federal officers employed to examine the hydraulic mining district of Plumas county, to secure the information desired by the United States District Attorney, returned here yesterday. They state they were warned to leave there or their lives would be forfeited. There are 113 persons in that district who were enjoined by the federal court from carrying on hydraulic mining. The proprietor of the hotel was warned his place would be burned if he furnished accommodations to Bassett and Riggins. The latter have secured the evidence of a number of miners being operated in violation of the injunction of the federal court.

A Sensation.

NEW YORK, April 29.—The legislative committee which has for some time been investigating the municipal administration of Brooklyn, struck some rather sensational testimony to-day. Henry W. Pope, of the Citizens' Electric Light Company, was on the stand. He testified that Fire Chief Nevins, who had been taken into the Citizens' Electric Light Company, told him it would be necessary to put up some $3,500 in money to get a franchise. Half of this amount was paid to Nevins in checks and notes.

Suit Against Hilton.

NEW YORK, April 29.—In 1881 a man named Alexander Stewart, who lived in Vermont, brought suit against Henry Hilton, the executor of the will of A. T. Stewart, the millionaire. He claimed to be a cousin of the deceased merchant, and in the bill of complaint alleged that Judge Hilton had promised him a large sum of money. The case was finally settled and releases were signed by Alexander Stewart and his son Matthew Stewart. In October, 1886, another suit was brought against Judge Hilton, in the United States Circuit Court by Benj. F. Walton, of the same issue. Walton claimed that Alexander Stewart was insane; that he had been appointed his guardian, and that Stewart had signed releases without being aware of what they related to. The bill of complaint in this suit was so faulty that it was set aside. To day a motion was made before Judge Wallace to amend the bill. The motion was denied and Judge Wallace stated that the only way for counsel for Stewart and Walton to obtain recognition was to commence another suit and filing a bill of complaint that would be specific. Another suit will be commenced.

Terms of Reconciliation.

VIENNA, April 29.—The *Tagblatt* says the Vatican favors the following conditions for a reconciliation with the Quirinal:

First—The Pope will advise the royal arch-ducal and ducal families of Naples, Tuscany and Modena to renounce all claims to sovereignty in favor of the Holy See.

Second—The Pope will crown Humbert king, granting him and his Catholic descendants the territory of Italy.

Third—The King will govern the whole kingdom with full temporal rights, but will acknowledge the Pope as Suzerain and pledge himself to rule according to the dictates of the church.

Fourth—The King will reside at Rome.

Fifth—The territory including Leonine City and part of the Tiber shore will be allotted permanently to the Pope, with absolute ruling and proprietary rights.

Sixth—A special convention will be concluded, fixing the amount Italy shall pay to maintain the Papal household.

Mail Steamers.

LONDON, April 29.—In the House of Lords to-night the Earl of Harrowby asked for information respecting the decision of the government on the proposal of the Canadian government to establish a line of mail steamers between Vancouver City and China.

The Earl of Onslow, Parliament secretary for the colonial office, replied that the committee to which the matter was referred had declined to recommend the subsidy of £10,000 for the proposed service of a steamer every three weeks.

Blood Indians.

ST. PAUL, April 29.—A Winnipeg special to the *Pioneer Press* says:—A dispatch from Fort McLeod, near the Rocky Mountains, received to-day, confirms the report that Sergeants Spicer and Parry were fired upon by the Blood Indians Wednesday, and adds that yesterday the Bloods fired on the freighters, 40 miles southeast of Lethbridge, and then started for the Blood reserve. Inspector Antrobus started this morning with a party to head them off and arrest them. They are believed to be the Indian tribe lately raiding in Montana.

Railroad Regulations.

NEW YORK April 29.—The passenger committee met to-day. The question of second-class excursion tickets from the Pacific Coast to the Atlantic seaboard was considered, and it was decided to discontinue them. The subject was brought up by request. The transcontinental lines' west-bound fares and their equalization were also considered. The Baltimore & Ohio has not yet come into the association, so far as its tariff arrangement with the Ontario & Western is concerned, and through rates over the two roads above have not been brought under the new law. It is expected that this question will be settled harmoniously at the meeting to be held

NEXT WEDNESDAY.

The Atchison, Topeka & Santa Fe, the Hannibal & St. Joe and the Chicago, Burlington & Quincy have joined the joint association. It was decided to continue the reduced rates in regard to disabled volunteer soldiers traveling to the Volunteer Soldiers Home. Delegates going to important conventions will be allowed concessions.

It was decided to adhere rigidly to the new rule not now to allow commissions and the opinion was generally expressed that it was best for the interests of all concerned that the system had been abolished.

DENVER, April 29.—The people of Laramie City, through the board of trade of that city recently sent a

LENGTHY STATEMENT

of their desires to have the Denver, Utah & Pacific narrow-gauge road extended from its terminus north of Denver to that city, to the Chamber of Commerce here. The statement set forth the advantage of such a road to both cities and the settlers of the intermediate country and the large traffic in stock, wood, lumber and mineral which would accrue to such a road. The board of directors of the chamber met and heartily endorsed the proposition on the grounds that the proposed route would open one of the richest undeveloped sections of the state. Further correspondence and personal conference between the two organizations and the managers of the railways mentioned will follow soon.

After the Politicians.

ST. LOUIS, April 29.—The *Post-Dispatch* this evening gives the following list of men indicted Wednesday by the United States grand jury for committing fraud at the election last fall: State senator H. H. Ketchum, central committeeman James Carroll, deputy sheriff Joseph O'Connor, supervisors John Chamberlin and Robert S. Lee, ex-delegate of the Munchall Assembly Peter R. Morrisey, deputy constable James Conway, and Andrew B. Long, Wm. Bergesch, Fred. J. Siegert, Patrick F. Golden and Henry Mullonsey. It is expected there will be more men arrested to-morrow or who will come forward and give bonds.

Robbing Gamblers.

MONTE CARLO, April 29.—A colossal system of robbery by means of prepared packs of cards has just been discovered at the Casino here. The proprietor's tables have lost £15,000. The police are investigating the matter.

The Dominion Parliament.

OTTAWA, Ont., April 29.—A lively debate arose in the Canadian House of Commons this afternoon out of the government bill giving two representatives in the senate to the northwest territory. The liberals were a unit in demanding the abolition of the present nominative principle, but were divided on the substitute for it, some advocating a direct election by the people and others wanting an election by the provincial legislature. A curious fact was developed by the debate when Sir John McDonald acknowledged that the territories could be given any number of senators while in the old provinces the union act limits the number. The liberals said in this there were possibilities of future trouble. The debate was then adjourned.

Opinion of a Leading Editor.
Almost all the diseases that afflict us from infancy to old age have their origin in a disordered liver. A really good liver medicine is the most important in the whole range of pharmacy. We believe Simmons Liver Regulator to be the best among them all. We pin our faith upon the Regulator, and if we could persuade every reader who is ill health to buy it, we would willingly vouch for the benefit each would receive.—*Ed. Cincinnati Gazette.* d&ew

The Verdict Unanimous.
W D Salt, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles, and was cured of Rheumatism of 10 years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my 20 years' experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the Liver, Kidneys or Blood. Only a half dollar a bottle at Z. C. M. I. Drug Store. 1

Excitement in Texas.
Great excitement has been caused in the vicinity of Paris, Tex., by the remarkable recovery of Mr. J. E. Corley, who was so helpless he could not turn in bed, or raise his head, everybody said he was dying of Consumption. A trial bottle of Dr King's New Discovery was sent him. Finding relief, he bought a large bottle and a box of Dr. King's New Life Pills by the time he had taken two boxes of Pills and two bottles of the Discovery he was well and had gained in flesh thirty-six pounds.
Trial Bottles of this Great Discovery for Consumption free at Z. C. M. I. Drug Store.

A Grand Record.
We call your attention to the advertisement of a remedy which has stood the test of more than a half century with increasing popularity and is universally admitted to have no equal as a remedy for the cure of diseases originating in a disordered Liver, such as Dyspepsia, Biliousness, Constipation, Headache, Colic, etc. Simmons Liver Regulator is simple and harmless, purely vegetable, and can be safely and advantageously used under any circumstances. It acts mildly and effectually and is especially valuable as a Family Medicine, which position it holds in so many homes. We do not know another preparation which can bring forward such indorsements from heads of families and those holding the highest official and social positions. Keep Simmons Liver Regulator in your house, it will reduce your doctor's bill and insure for your families health and happiness. dsw&w

The "Exposition Universelle de l'art Culinaire" awarded the highest honors to Angostura Bitters as the most efficacious stimulant to excite the appetite and to keep the digestive organs in good order. Ask for the genuine article, manufactured by Dr. J. G. B. Siegert & Sons, and beware of imitations.

REDEMPTION OF BONDS.

To whom it may concern:

IN PURSUANCE OF LAW, AND BY VIRTUE of authority vested in me by resolution of the City Council of Salt Lake City, adopted April 20th, 1887, I, Francis Armstrong Mayor of said city, do hereby notify and inform all persons owning or holding any of the COUPON BONDS OF SALT LAKE CITY CORPORATION OF SERIES "B," BEARING DATE OF JUNE 1ST, 1880, NUMBERED FROM 1 TO 50 INCLUSIVE, AND BEING OF THE DENOMINATION OF FIVE HUNDRED DOLLARS ($500) EACH, that each and all of said bonds have been CALLED AND REQUIRED FOR REDEMPTION by the City Council of said city, and that the principal thereof will be paid in full on or after the FIRST DAY OF JUNE, A. D. 1887, upon presentation at the DESERET NATIONAL BANK, Salt Lake City, Utah, and notice is hereby given to all persons interested that all interest upon the bonds above described will cease, and the coupons attached thereto (except Coupon Number Fourteen, for interest for six months ending June 1st, 1887,) will become void and of no value from and after said date.

Witness my hand and the corporate seal of said city, this twenty-seventh day of April, A. D. 1887.
[SEAL.] FRANCIS ARMSTRONG, Mayor.
