

The nature of his alleged wrongdoings he probably understands better than any one else, and it is to be sincerely hoped that he will be able to set himself right by a satisfactory explanation before the matter is brought to an issue by certain city officers who are reported as being engaged upon the case.

If what apparently well founded rumors say is correct, this gentleman is not the only one whose official reputation may be badly shaken in the near future.

#### SUNDAY SCHOOL UNION.

There was a very good attendance at the Sunday School Union meeting last evening. Nearly all the city schools were well represented, also those of Union, North Point and Farmers wards. Stake Superintendent T. C. Griggs presided.

After the opening exercises President Angus M. Cannon delivered an instructive address on the subject of "Duties of Parents to Children." The parents in Zion owe it to their children, he said, to set them a worthy example in keeping all the commandments of God; to observe the Word of Wisdom that their children may be preserved from the destroyer; to observe the Sabbath day as a day of rest, not only for themselves, but as a day of rest to their children and all their hired help; to fulfil the law of tithing in its true spirit; and to teach their children the principles of the Gospel, so that when they arrive at the age of accountability they will be prepared to receive the ordinances of the Gospel, and become useful members in the Church and Kingdom of God.

Superintendent Griggs stated that an inter-Stake missionary work was soon to be inaugurated in all the Stakes of Zion. Within a few weeks missionaries from other stakes would visit the various wards of this Stake, and hold special Sunday schools or Sunday school meetings and labor in the interest of the Sunday school work, and it was suggested that the superintendents make all the necessary arrangements in their wards for the reception and entertainment and the best use of their visiting missionaries.

A request was also made that the superintendents forward the "nickel collections" as early as possible.

Circular letters, often of importance, were frequently sent to the schools, and the superintendent suggested that if when they were received greater attention were paid to them, it would save a great deal of extra labor and avoid delay, and repeated requests for replies.

Benediction by Assistant Superintendent W. C. Burton.

Meeting adjourned for one month. The Thirteenth ward school will furnish the musical exercises at the next meeting.

JOS. HYRUM PARRY, Sec'y.

#### MILLARD COUNTY ITEMS.

MEADOW, Millard Co., Oct. 13.—Our county, like all others, is in a state of commotion and ferment over politics. We have had political "stumpers" of both parties to visit us, and try to convert us to their own views, while local politicians are airing their lungs and booming wool to an extent that would almost lead us to believe it was the only article left in the wide world worthy thinking or talking about.

We have had a surfelt of sheep during the past few weeks for they have been herded on our one solitary creek, and made its water so foul that it has produced among the inhabitants of Meadow an amount of epidemic disease that has alarmed us. First we had diphtheria from which four deaths resulted; then malarial fever and diarrhoea, from which complaint many are now suffering.

No doubt the sheep industry is a most useful and profitable one to the community, but where the owners are so neglectful or so devoid of all feelings of humanity, so intensely selfish as to endanger the lives of their neighbors by persistently fouling our water, they become an unmitigated nuisance, and it is about time something was done to protect us from their cruelty. It is bad enough to have pigs, calves and other animals wallowing in our ditches, corrals, hog pens, and chicken coops in close proximity to our homes, without our drinking water being fouled from its very source.

Fillmore is making great preparation for receiving the Democratic candidate for Congress, Mr. Rawlins, and those who may accompany him. They are expected next week, and as we have just had speakers on the Republican side, we are kept pretty busy getting up receptions. Cleveland and Harrison hats give a somewhat picturesque air to our streets, and it is a novelty to see our sturdy citizens of all ages with tall, grey stovepipes on their heads. The political tide is not only in great demand, but many wearers have also a portrait of the Presidential candidate stuck on the side of their ordinary head gear. All the other towns in the county are equally enthusiastic and earnest in striving to give a welcome to the speakers who come among us. The young especially are beginning to take an interest in politics, to read more, and make themselves acquainted with what is occurring outside their own immediate neighborhood. The present campaign has sent among us many able men, and will be a great educator, both politically and socially.

The fruit and potato crops are partial failures, but the grain harvest has been a bountiful one, and the people generally are cheerful and contented. There is considerable excitement over our local election, especially among those who are aspirants for office.

M. A. Y. G.

NO BETTER proof need be given of the fear and adoration in which Judge Powers is held by the Liberals than the fact that at their Territorial convention yesterday they didn't saddle upon him, *willy nilly*, the nomination to glorious defeat that he has been in the habit of diffusing so generously among them.
