

legislature to provide for of \$40,099.04; add to this the amount expended by the Utah World's Fair commission, for which no appropriation was made, of \$59,557.25, which leaves a deficit of \$99,656.29 confronting the present Legislature.

Your committee have carefully considered the various items of sundry expenditures necessary to be made, based upon reports received for the ensuing two years, a detailed statement of which is hereto attached, marked exhibit A, and made a part of this report. These items represent the amount necessary, as stated by officers in charge, for the maintenance of the Territorial public institutions and the payment of salaries of officers, jurors, witnesses, interests on territorial bonds, contingent expenses and claims now considered and being considered before the claims committee.

Your committee in this statement have not provided for the appropriation of any sums for erection or repairs of public buildings, university and agricultural supplies, counties, militia, etc. That the revenue from all sources will not exceed for the years 1894 and 1895 the revenue for the two past years seems quite conclusive, unless the general tax should be increased. Estimating from this point of view there will then be a deficit of about \$267,437.39.

Your committee is of the opinion that it would be bad policy or poor financing to meet this deficit by the issuance of bonds or the increasing of the general tax. The current expenses, in our judgment, should not exceed the revenue, a policy contrary to which would in due time lead our Territory into financial ruin.

Your committee after a careful and full consideration of the question recommend that the amount as shown by exhibit B be appropriated to pay the deficits and the current expenses for the ensuing two years.

The reductions here offered from the amounts asked for by the officers of the several public institutions, and the amounts heretofore paid for salaries, are requested on account of the paralyzed condition of business, stringency in the money market and the depression in business in general.

And your committee would further recommend that a law be passed making the territorial tax two and one-half mills on the dollar, and also two and one-half mills on the dollar for territorial school purposes, that the deficiency of \$36,535.14 will be fully provided for.

All of which is respectfully submitted.
ELDREDGE,
Chairman.

DELEGATE RAWLINS AT HOME.

Hon. J. L. Rawlins, Utah's delegate in Congress once more surprised his constituents by unexpectedly returning to their midst February 28. The gentleman came in over the Union Pacific flyer arriving at three o'clock. After a few hours of rest he was seen about the Federal court rooms and legislative halls where his sudden appearance almost caused a sensation. He was warmly welcomed by his many

friends and to a representative of the News he granted a pleasant interview.

When asked as to how he came to return so suddenly Mr. Rawlins stated that it was due to the fact that he had received a telegram from this city on Saturday last, the contents of which were such as to make it necessary for him to temporarily absent himself from the Capital. Within an hour of the receipt of the message he was on the train headed this way.

He was looking and feeling well and stated that he was in better health than for some time past. When questioned concerning the prospects of statehood for Utah, Mr. Rawlins said, "I have the promise that the bill will pass the Senate this session."

"Have you any reason to doubt the correctness of that assurance?" asked the newspaper man.

"Certainly not," was the response uttered in a tone that indicated that Mr. Rawlins would be very much surprised and disappointed in case he should be mistaken in his conclusions.

Regarding the opening of the Uncompahgre and Uintah reservation or settlement the delegate stated that the matter was still under consideration and that he apprehended no opposition whatever. There would be no further delay beyond that entailed by the arrangement of the necessary details.

As to the Ute Indian-removal question he stated that Colorado had, as was well known, been making strong final efforts to secure the approval of the treaty made several years ago. There had been hearings before the Senate committee and sub-committee of the House. He had appeared before both of them and protested against the residents of this Territory being made the victims of the great wrong that the citizens of the Centennial state was so willing to inflict upon them. The sub-committee of the House was to meet yesterday and decide on the report that was to be made to the full committee in the House. He felt certain that the efforts of Colorado would not succeed in this case and that the rights of Utah would be fully guarded.

The business that called Mr. Rawlins home at this particular time is of a legal character, and as soon as that has been attended to, which will be in a few days, he will return to Washington.

RELIEF SOCIETY REPORTS.

The State secretaries of the Relief Society in all the several States of Zion, and in branches of the society in this and other countries where there is no State organized, should send in a yearly report for 1893 as soon as possible to be compiled for the coming April conference, that each society may have equal recognition. All reports to be forwarded to the office of the Woman's Exponent.
