FORTY-SEVENTH CONGRESS.

EXTRA SESSION.

SENATE.

WASHINGTON, 27.—The judiciary committee was authorized to sit during the recess and examine into the bankruptcy question.

Authority was continued to the committee on public lands, to sit during the recess and inquire into the condition of the Land Office.

The invitation to the Senate from Governor Colquitt to attend the Cotton Exposition was ordered printed.

After a short executive session a recess was taken to allow the committees to consider this morning's nominations. The session lasted until 5.30, and the Senate then adjourned.

The Senate confirmed John W. Seaton, of New York, as Supt. of Census.

AMERICAN.

Satisfaction.

WASHINGTON, 27.—The ready and unanimous confirmation of Judge Folger, by the Senate to day, showed that the nomination inspires general confidence among public men. Rumors connected with Judge Folger at his nomination is a prelude to his transfer to another place are said to be "by friends of President Arthur," entirely gratuitous. It is well known that upon the entrance of Garfield to office, it was the great desire of New York that one of her partizans should succeed Secretary Sherman. Hon. Levi P. Morton was centered upon, and public sentiment in the State was almost unanimously favorable to his appointment, when it was ascertained that his relation to the banking interest was deemed objectionable by the President. The general desire was that Judge Folger should be appointed. He was sent for by Garfield and tendered the Attorney Generalship, but declined for many reasons, and his appointment as Secretary of the Treasury was considered a settled matter. For reasons not publicly known, President Garfield decided upon a Western man, and made a most acceptable selection in the person of Secretary Windom. They say that Judge Folger takes the Treasury portfolio now under the conditions or understanding that it is but temporary, and that it is with a view to transferring him to the Supreme Court, upon the retirement of Justice Hunt. This story is declared to be without any foundation.

Howe.

There was some surprise in the Senate that Howe was not nominated to day for Attorney-General. James was nominated as a precaution to avoid any quibble regarding his future official acts. Howe's friends claim he will be nominated as soon as the President can communicate with him. Others assert the recent Star route complications have convinced the President that MacVeagh ought to remain and conduct the cases, and that he will insist on his doing so, or appoint Solicitor-General Phillips, Attorney-General, *pro tem.*, until Congress meets. Folger's nomination is received with approval, but not with enthusiasm. It is believed he will make an efficient and safe Secretary. One objection urged against Howe by the President's advisers, is his age and infirmity. They say the present administration must be vigorous.

The connection of Howe's son-in-law Totten, with the defense of the Star route cases is the chief reason of Howe's unwillingness to accept the Attorney Generalship, but the President's friends say it does not figure with him. Howe's ultimate appointment is regarded probable.

Scoville's Tactics.

Scoville, Guiteau's counsel, occasioned much surprise to-day when he declined to raise the point of jurisdiction, argument on which had been set for the 30th inst. It is stated, however, that the point is only reserved, so as to be of more service to the accused. Should he be tried and convicted, a writ of *habeas corpus* will be taken, and the plea of want of jurisdiction then raised. Should it then be decided the District Court was without jurisdiction, Scoville is assured on very high legal authority his client could not be tried in New Jersey, as that would be to put him in peril of his life the second time for the same offense. Should the argument be made before the trial, and Judge Cox decided he had no jurisdiction, this chance for the life of Guiteau would be lost.

The Senate

The President has informed the Senators that they can adjourn to-morrow, as he has only a few more nominations.

Nominations.

Stephen Maybell was to-day appointed storekeeper for the First District of California. Among the admissions to practice in the Supreme Court to-day was J. D. Slater, of Legrand, Oregon; John L. Beveridge, Assistant Treasurer, Chicago; Milton C. Elsner, United States Attorney, Louisiana; J. S. Parris, of Louisina, Surveyor General of Montana.

Kilpatrick.

The Chilian Minister has information from San Diego to the 25th, via Paris, of the serious illness of Gen. Kilpatrick, United States Minister, and that his physician feared his case was hopeless. Later news does not mention General Kilpatrick, and it is thought, therefore, he is worse.

Witness.

Judge Lawrence has decided in the Guiteau matter that the court has power to summon witnesses living more than 1,300 miles outside of the jurisdiction of the court, and the expenses must be allowed by the Government.

In the criminal court to-day an order was issued allowing 200 witnesses to be subpoenaed in behalf of Guiteau, fees and cost to be paid by the government.

New Route.

NEW YORK, 27.—An Ottawa dispatch says: There is increased interest here, in the provision to utilize a through route from the heart of North America, from Port Churchill, via Hudson Bay straight to Liverpool. Churchill harbor, which is said to be sufficient to accommodate the largest ocean steamship, is 114 miles nearer to Liverpool than New York, and 64 miles nearer than Montreal. The distance from Churchill to the nearest available point on the Canadian Pacific route is 350 miles. The fact that navigation would not be open sufficiently late to admit of shipment of more than a portion of the vast grain export of the northwest would, it is thought, lead to the erection of extensive flouring mills at Churchill, which could manufacture the grain into flour, and have it in readiness for the opening of navigation in June.

Republicans

The republican county convention in secret session agreed upon the following ticket: District Attorney, State Senator G. H. Forster; Surrogate, Daniel G. Rollins; Judges of Marine Court, Earnest Hall and S. Bartlett Hyatt; Coroner Charles F. Bradish; Aldermen at large, John B. McClare and Frederick Firck.

Protecting Chinese.

Acting on a letter from Mayor Grace, calling attention to the abuse to which Lee Sing, a Chinese laundryman, has been subjected, the police commissioners yesterday directed that all police captains will hold strictly responsible for failure to protect Chinese residents.

Blaine's Letter.

Gen. Santo Domingo Villa, of the Republic of Colombia, said yesterday: I have read carefully the dispatch of Secretary Blaine to Minister Lowell, and if my interpretation of it is correct, I perfectly agree with it, and think my Government will.

Water Famine.

There remains only 19 days' water supply for the city at the present rate of use. Insurance men are nervous at the scarcity, and in printing establishments the fear of water being cut off even for a few hours per day has been decided. The police have been instructed to prevent street sprinkling or waste of Croton water in any way.

Safe.

The steamship *Tringvalla*, of Copenhagen, has arrived. This is the vessel reported lost in the recent terrible gales in the German Ocean.

Murphy.

The republicans of the Ninth District nominated ex-Collector Thomas Murphy for Congress.

The Canal.

The *Tribune* says on the London *Times'* article: While Blaine's declaration is entirely satisfactory to the American people, it is evident that emergencies may arise in which we must be prepared to back up by force or by that compulsion which nations sometimes find sufficient without resorting to war. Our position is in effect not unlike that of Gortschakoff when in 1871 he partly annulled the treaty of Paris. While the powers were restive under the change, they had to acquiesce.

The *World* says: The London *Times* is not of course the organ of the British government, but it is just as well that no time should be lost in making it clearly understood that the United States do not propose to recognize the pretensions of any European power.

Horn vs. Hope.

The *Herald* says of the recent voyage of the ship *Macmillan*, from Antwerp to San Diego, California:

This trip taken by Captain Gray was certainly novel. The experiment suggests an important problem for navigators when making winter passage. The distance from England to California by the Cape of Good Hope is far more than by Cape Horn. But the perils of Cape Horn passage and its notorious uncertainties and attendant delays may, upon mature re-investigation, make the route recently tried by Gray preferable for sailing ships in the southern winter. By the Cape Horn route every mile of longitude a ship makes (about 120 degrees before reaching our Pacific coast) except while crossing the trade winds belts, she must move in the face of adverse westerly winds, whereas by the eastward route these winds are almost ceaselessly in her favor.

Green Pastures for Fast Horses.

CHICAGO, 27.—The *Spirit of the Times* says: "The victories of Foxhall have attracted the attention of the world to the excellence of our soil, pasture and climate for the propagation of thoroughbreds. A partial recognition of this is shown in the recent shipment of a celebrated English stallion, and quite a number of two dozen brood mares to this country by English parties. Their destination is New Mexico, and one of the gentlemen interested has said a bet that the Derby winner will be bred at a New Mexico farm in less than six years. Certain Englishmen will be represented hereafter at the sales of American yearlings, in the blue grass regions, where Foxhall saw the light and his ancestors lived and died.

A Chicago's Beverage.

The *Evening Journal* says: Among President Arthur's nominations to the Senate to-day, is that of ex-Governor John L. Beverage for Assistant United States Treasurer at Chicago, vice Frank Gilbert, who, it seems, is to be removed solely because he is not a stalwart, with Senator Logan and General Grant's endorsement. We have nothing to say detrimental to Governor Beverage, but fail to see the military good reason why Mr. Gilbert, a very efficient public officer, should be retired to make place for another republican.

Across the Continent in Five Days

The belief that the Pennsylvania Railroad is about to put on a train to run from here to New York on greatly reduced time, comes from a dispatch from a railroad official now in San Francisco, that the agent of the Pennsylvania road there was advertising that after November 1st, passengers by the Pennsylvania road would be carried from San Francisco to New York in five days and forty hours. Any change in time will be made by the Western roads, it is certain the change will be made by the Pennsylvania between here and New York. It is also learned here that this company intends to run its 3:30 train to New York to Chicago so as to reach there by 4 o'clock the next afternoon, instead of 10 o'clock at night. The saving will be six hours, and the running time from San Francisco to New York, which is now six days and six hours, will be decreased by this reach.

Distinguished Visitors.

CINCINNATI, 27.—The Von Steuben party, under charge of Walker Blaine, arrived here this morning. They were received by the citizens' committee and taken to a hotel, where, after breakfast, they held a citizens' reception in the rotunda from ten to eleven o'clock. After eleven o'clock they took carriages and were escorted by the First Regiment of the National Guard to the limits of the city. They proceeded on an excursion to Spring Grove cemetery and returned by the way of Clifton, Mount Auburn and Walnut Hills to Highland House on the edge of Eden Park, where they will lunch and have a reception this afternoon.

$400,000 Fire.

PEORIA, Ill., 27.—The Peoria sugar refinery burned to-day. The fire started in the drying room, a wooden structure. The main building was a seven-story brick, and in an hour the entire pile was a mass of ruins. The loss is estimated at $400,000; insured for $250,000. Two hundred and fifty men are thrown out of employment. The refinery belonged to Hamlins, of Buffalo.

Factory Burned.

OMAHA, 27.—The barb wire fence factory was destroyed by fire to-night. Loss $15,000; insured for $4,500.

The Atlanta Exposition.

ATLANTA, 27.—The governors and thousands of visitors are here.

The visiting governors were welcomed to the Exposition in the afternoon, Gov. Colquitt delivering the address. Several governors responded. The crowd is overwhelming. Great enthusiasm. The feature of the day was making two suits of clothes, one for Gov. Colquitt and one for Bigelow, from seed cotton, picked at 7 this morning. The suits were worn at the reception in the evening. The governors leave for home to-morrow.

FOREIGN.

The League.

DUBLIN, 27.—Every day brings fresh evidence of the breaking up of the League's influence. The League in Tipperary has simply gone to pieces since Archbishop Croke's letter. Seventy farmers of that county have already applied for a revision of their rent under the land act. The government believes that it has scotched the agitation, but it will not desist until it has killed the Ladies' League, which some have thought to keep their movement alive if carried on under the direction of the members of the League executive in England. The government, however, apprehends no danger in that direction. All the government now fears is that the League may be driven back into a secret organization. The officials are certainly in great fear of something. A rising they scout, but incendiarism, assassination and dynamite they affect to fear. They claim now that there are men who have been holding off to kill Mr. Forster.

Hundreds of tenant farmers marched into Tuam to-day to get readjustment of their rent notices completed. Cheers were given for the land act.

Arrangements are making to hold land league meetings in every Catholic chapel in Roscommon, Sunday, and convert the branches into the Tenant's Branch Defense Association. Two more arrests were made in Kilkenny, and the bailiff's son shot in Baltimore.

The last number of the *United Ireland* league organ, was published to-day. Its leader columns will be surrounded with mourning, but will be blank with the words "Freedom of the press, 1881," printed across them.

The statement that Archbishop McCabe had suspended a priest for being a land leaguer, is denied.

At the opening of the Newmarket by the Lord Mayor, groans and hisses, and organized demonstration in revenge for his rejection of Grey's motion to confer the freedom of the city upon Parnell and Dillon prevented him from being heard.

A dispatch says the constabulary are instructed to warn persons against allowing Land League meetings in their houses. Every person attempting to hold a meeting will be immediately arrested.

A rumor that the resignation of Earl Cowper as Lord Lieutenant of Ireland is impending, has been revived.

Manslaughter.

LONDON, 26.—A pugilist named Corney and four others have been arrested on a charge of manslaughter in causing the death of Highland the champion light weight. Highland received fatal injuries in the prize fight near Birmingham.

Gladstone.

Gladstone has arrived at Knowsley. Special precautions were taken for his safety on the journey. His movements were kept secret.

Explosions.

A number of cartridges were discharged in cotton bales in Liverpool just before the cotton was put into the beating machinery. There is considerable excitement.
