

GEN. J. H. SMITH'S MILITARY RECORD.

Rep. Bannon Defended it, Saying
Gen. Wood's Achievements
Were a Vindication.

MORE LIGHT ON WATCH TRUST

Sulzer Makes Plea for Action Putting
A Stop to Destruction of Niagara Falls.

Washington, April 11.—When Speaker Cannon called the house to order today, a senate bill ratifying an agreement with the Lower Brule band of the Sioux tribe of Indians in South Dakota was passed. The postoffice appropriation bill was then taken up.

The military record of Gen. Jacob H. Smith was the subject of a speech by Mr. Bannon (Ohio), who defended the actions of Gen. Smith in the Philippines, stating that Gen. Wood's achievements were a complete vindication of the case of Gen. Smith. Mr. Hayes (Cal.) spoke in favor of an increased salary for postal clerks.

Mr. Gramma (N. D.) favored increased pay for letter carriers.

The watch trust had further illumination through a speech by Mr. Terrell (Mass.), who, in answering the address of Mr. Rainey (Ill.), read a letter from the president of the Watchman Watch company, in which it was emphatically stated that there was no watch trust. He admitted that the Watchman company, in order to compete with the Swiss watchmakers, to compete with the cheap labor of Europe and to establish his trade, was compelled to sell abroad cheaper than at home.

Mr. Williams, the minority leader, asked why they sold the surplus abroad at a less price than at home. He said: "Here at home, with a sheltered market," said Mr. Williams, "sheltered by the tariff, for the planting, growth and consumption of combinations between manufacturers, I will not use the word 'trust' because it is a red flag in the eyes of many people—the moment we undertook to sell the surplus here at less than cost he would break the market price agreed upon by the various factories entering into the combination. The moment he did that, the hope which had been held out by the founders of protection, that it would not ultimately increase the price of living, would be shown to be illusory because each manufacturer would enter into competition with the other members of the trust; then there would be real competition, and prices would be reduced."

Mr. Sulzer (N. Y.) made a strong plea for congressional action in putting a stop to the destruction of Niagara Falls.

"It's a sacrilege," Mr. Sulzer said, "to this generation and an outrage on generations yet unborn, to devastate this wonderful waterfall. We must protect Niagara Falls."

Shortly before 4 o'clock general debate on the bill was concluded and the reading of the bill for amendment begun. Mr. Sulzer of New York took the floor in behalf of Marcus Braun, who, he said, had just resigned from his recent appointment as immigrant inspector. The reason for his resignation, he declared, was that he had not been vindicated properly by the secretary of state. In replying to the Sulzer resolution on all papers in the case, he said the secretary had withheld one letter from Consul Chelostier at Budapest, with no explanation as to why the letter had been suppressed. He criticized the president's dismissal of Ambassador Steyer by cable as an "unprecedented occurrence."

A class of persons, totally ignored by the bill, Mr. Rixey of Virginia remarked were the referees on postmaster in the southern states. He insisted that when the people of his district wanted a certain person as postmaster he had a right to go to the postoffice department and make their wishes known, but he objected, as did his constituents, to the suggestion of the department to see the referee in the particular district.

At 5:30 o'clock the postoffice appropriation bill was laid aside. The following bills were passed: To amend an act entitled "An act to amend and codify the laws relating to municipal corporations in the district of Alaska."

Granting to the city of Durango, Colorado, certain lands for reservoir purposes. The house at 5:05 p. m., adjourned until noon Thursday.

FRICITION BETWEEN RUSSIAN AND CHINESE TROOPS.

Washington, April 11.—Reports of friction between the Russian and Chinese troops in Manchuria have attracted the attention of the state department. No official information has been received on the subject. It was anticipated that the division in the peace treaty of the responsibility for the incident of Manchuria for even a limited term between these nations would result in just such friction as has been reported. At a point on the railroad connecting the Siberian road with Port Arthur and Waiwuy, a little distance below Harbin, the Japanese troops are in charge of the line. Above that point the road is under the double protection of Russian and Chinese troops of railroad guards.

As it is understood here, both the Russian and the Japanese are looking forward with apprehension to the time when they must evacuate Manchuria proper, and in each case there is a strong desire to insure as large a holding as possible of the material resources of the country. The Japanese military forces are withdrawn. One way of accomplishing this has been to secure concessions of the exploitation of the land, of mines and agricultural lands, and then to require the Chinese government to recognize these holdings, when they regain possession of the country. But the Chinese government has shown a surprising degree of self assertion and independence in dealing with these claims, and it is believed the friction that is being felt by officials in Manchuria results from the attempts being made to induce the Chinese to change their attitude.

The only concern of the American government is that the undertaking of the treaty that Manchuria shall be evacuated by both Russia and Japan shall be lived up to but this, it is held, is not a time to raise the issue. A period of 18 months was allowed for the evacuation and when that time shall have passed, if the evacuation is not accomplished, the fact that the department will renew its interest in the subject.

JAMES A. BAILEY DEAD.

Was Manager of the Barnum and Bailey Shows.

New York, April 11.—James A. Bailey died at his home in Mount Vernon today from erysipelas, aged 69 years. Mr. Bailey's name is familiar throughout America and Europe as a showman, and in his later years he was managing director of the Barnum & Bailey show. Practically his whole life was spent in the circus business as employee and proprietor. He joined P. T. Barnum in 1881, and since that time managed the big circuses of the country have been consolidated with him as director.

FOR SPELLING REFORM.

New York, April 12.—The board of education yesterday adopted the following resolution without comment: "Resolved, That the board of superintendents be and it hereby is requested to investigate the suggestion of the simplified spelling board that certain shorter forms of words already authorized by good usage be used, and to report to the board of education whether in its judgment it would be advisable to permit teachers and pupils to use all or some of such authorized shorter forms specified in the simplified spelling board's announcement of March 21, 1905."

help effect a settlement of the difficulties between the operators and the miners now out in the southwest.

This action was taken just before the close of the morning session of the operators, who represented 90 per cent of the mine owners of the Southwest association, with the exception of Texas. The operators were undecided as to whether they would send a delegation to Washington to personally lay the appeal before President Roosevelt or transmit a message embodying their request.

FEDERAL JUDGE HOLDS CHINESE HAVE RIGHTS.

El Paso, Tex., April 11.—Federal Judge Maxey today held that the secretary of the department of commerce and labor has no authority to order deportation of a Chinaman who has once gained admission to the United States, but that the Chinaman must have a court trial. The ruling was made in the case of Chin Tun, who was arrested here and sent back to Mexico by the secretary because the immigration officers had seen him in Mexico a few days ago. Chin Tun returned after deportation, was re-arrested and got out of writ of habeas corpus.

GERMANY'S DRINK BILL IS ENORMOUS.

Washington, April 11.—Germany's enormous drink bill is explained in letters to the bureau of manufacturers from American Consuls in Berlin and Guenther. Each inhabitant consumes a yearly average of 6 1/2 quarts of wine, 12 1/2 quarts of beer and 9 quarts of brandy. A population of 60,000,000 people, the liquor expenditure is \$672,588,000. The average for male citizens over 15 years would be \$37.36. By contrast, German expenditure for schools were \$29,722,000; for working people's insurance, \$104,244,000, and for the army and navy, \$203,847,000.

REORGANIZES BITTER AGAINST THE "MORMONS."

Kansas City, April 11.—L. M. Smith, son of President Joseph M. Smith of the Reorganized Church of the Latter-day Saints, at the conference of that church in Independence today in a speech made an attack upon the "Mormon" Church of Utah and declared that United States Senator Smoot should be removed from his position as senator. Among the Latter-day Saints the feeling against the "Mormons" is strong, according to statements made at the conference today.

NOT IN CONTEMPT.

Helena, Mont., April 11.—The supreme court today, in a decision written by Chief Justice, set aside the order of Judge Donahoe of Butte, adjudging Peter Breen, former county attorney of Silver county, in contempt of court and fining him \$500 for questioning the manner in which the trial jury was drawn.

The order is set aside because there is no showing that the lower court had jurisdiction.

ATTEMPT TO WRECK A TRAIN.

Pittsburg, Kan., April 11.—An unsuccessful attempt to wreck the south-bound train, known as the "Motor," was made last night at a point between Turk and Scammon, south of Pittsburg. Dynamite had been placed on the track. The train, running nearly 60 miles an hour, struck the explosive and caused an explosion that tore out three feet of the track. The high rate of speed at which the train was moving carried it over the break without damage to the cars or injury to any one. No cause for the attempt to wreck the train is known, and there is no clue to the perpetrators.

MUTINY ON PORTUGUESE SHIP.

Lisbon, April 11.—A mutiny took place here yesterday on board the Portuguese vessel Don Carlos I. Admiral Ferreira, commander of the navy forces, proceeded in person to the mutinous vessel and put the mutineers ashore. Over 250 men were landed under guard and confined in the naval barracks.

LESSON FROM THE JAPS.

Washington, April 11.—As a result of observation made by American army officers in the far east during the Russo-Japanese war, a change is to be made by the department in connection with the field subsistence. Heretofore the quartermaster's department has had charge of all equipment pertaining to the cooking and eating of the troops in the field, but under the new arrangement the commissary officials will have charge of such equipment, as well as the matter of the preparation of food for the soldiers.

BOATMAN DASHED TO DEATH.

San Diego, Cal., April 11.—Tony Barbieri, an Austrian, lost his life at La Jolla today in an accident, in which the lives of two other men and eight women were imperiled. Barbieri and the party, which was composed of tourists, were in a glass-bottomed boat, making a trip along the shore. When off the Devil's slide, just as Barbieri was turning the boat he broke a oar. At the same time a big wave struck the boat, and Barbieri, in attempting to save the party, was thrown overboard, and he was unable to reach a safe landing and drag the boat away from the rocks. He was dashed upon them, however, and sustained injuries from which he soon died. One of the men, remaining in the boat got the boat ashore, rescuing the

party. He refused to give his name. He is from Philadelphia. Mr. and Mrs. Wm. Pitzer of Chicago and Miss Emma M. Hayden were among those on board. The dead boatman was about 40 years of age, and has a brother in Seattle.

CASTRO RETIRES AS PRESIDENT OF VENEZUELA.

New York, April 11.—Gen. Cipriano Castro has retired temporarily from the presidency of Venezuela. Gen. Juan Vicente Gomez, first vice president of the republic, is the present executive head. This information was contained in an official cable dispatch received today from Caracas by Carlos Benito Figueroa, Venezuelan consul-general in this city. Mr. Figueroa sent the following letter to the press:

"I have just received a cable from Caracas in which I am advised that on Monday, the 9th inst., Juan Vicente Gomez, vice president of Venezuela, took charge of the presidency. Gen. Castro, president of the republic, has resigned his position temporarily, and desires to retire to restful private life for some time, owing to the strenuous work his position exacts and which he has so successfully carried on for the past year."

"His proclamation made by Gen. Castro can be briefly summarized as follows:

"Peace is assured in the entire republic. The international situation of the government is clear, and all pending questions will be either amicably arranged or settled by arbitration. Gen. Castro charges all Venezuelans to support the government presided over by Gen. Gomez, and should his temporary separation bring harmony and good will to the country he would willingly make his retirement permanent."

The ministers and governors have presented the resignations as is usual, so as to leave the new president at liberty to select his collaborators."

VON BUELOW'S HEALTH.

It is Such That a Long Rest is Absolutely Necessary.

Berlin, April 11.—Herr von Radowitz, the German ambassador to Madrid, who is now on the way from Madrid to Berlin, is now spoken of in the official world as the probable acting chancellor during the long holiday which it seems will be necessary to complete the recovery of Prince von Buelow. Although all of Prof. Remond's statements concerning the progress of the chancellor are phrased most hopefully, yet the latter's condition is such that three months' rest appears to be essential to his restoration to health. It is generally considered necessary that Chancellor von Buelow shall be represented during this period.

Herr von Radowitz is a friend of Prince Philip zu Eulenburg, who is a near private adviser of the emperor. His diplomatic service has been the longest and he had the rank of minister early in the seventies when working in the foreign office with Prince Bismarck. Subsequently he was ambassador to Constantinople and has been located at Madrid since 1882. He is the same Herr von Radowitz who in 1875, presumably at Prince Bismarck's suggestion, told Count Gontaut-Diron, then French ambassador to Berlin, that there was danger of war between France and Germany if the former power continued her immense military development. The delivery of that message produced the so-called Dreyfus affair in 1875. Herr von Radowitz has a predilection for France, but is reputed not to care much for British friendship. His wife is a Russian.

Stops Any Itching

Doan's Ointment Cures Eczema and Itching Piles.—Salt Lake City People Recommend It.

One application of Doan's Ointment stops any itching. Short treatment cures eczema, itching piles, salt rheum—any skin eruption or skin itching. It is the cheapest remedy to use, because so little of it is required to bring relief and a cure. Here is Salt Lake City testimony to prove it:

James L. Hutchinson, retired, of 357 West Fifth South, says: "I have had attacks of itching hemorrhoids, commonly known as piles, for seven years. In that time I can safely say I have used more than fifty different kinds of salves and ointments and I can also say that any benefit received from them was not permanent. Like a great many other preparations which I noticed advertised I came across Doan's Ointment and with every expectation that it would turn out as all others I had used I went to the F. J. Hill Drug Co's store for a box. Now it is over four months since I stopped using Doan's Ointment and there has not been a return of the old annoyance."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

IN the above eight words is summed up the great work for women which is accomplished by Dr. Pierce's Favorite Prescription.

The record of cures effected by this remedy is without a parallel. Thousands of testimonials received from patients and from physicians who have tested it in the more aggravated and obstinate cases which had baffled their skill, prove it to be the most wonderful remedy ever devised for the relief and cure of suffering women.

It is composed wholly of medicinal principles extracted from the roots of native, American forest plants, pure triple-refined glycerine of proper strength, being used instead of harmful alcohol both in extracting and preserving these medicinal principles.

AS A SOOTHING AND STRENGTHENING NERVE,

To relieve the distress arising from over-eating, nothing equals one of these little "Pellets." They're tiny, sugar-coated, anti-bilious granules, scarcely larger than mustard seeds.

OLD SORES OFTEN LEAD TO CANCER

Whenever a sore or ulcer does not heal and shows signs of becoming chronic, it should arouse suspicion, because many of these places lead to Cancer. It may appear as an ordinary sore at first, and is given treatment as such, with some simple salve, wash or plaster, with the hope that the place will heal, but the real seat of the trouble is in the blood and cannot be reached by external remedies, and soon the sore will return. After awhile the deadly poison begins to eat into the surrounding flesh and the ulcer spreads rapidly, becoming more offensive and alarming until at last the sufferer finds he is afflicted with Cancer. Cancerous ulcers often start from a boil, wart, mole or pimple, which has been bruised or roughly handled, showing that the taint is in the blood, perhaps inherited. Another cause for non-healing ulcers and sores is the remains of some constitutional disease or the effects of a long spell of sickness. S. S. S. goes down to the very root of the trouble and cures so thoroughly that there is never any sign of the trouble in after years. As soon as the system gets under the influence of S. S. S. the place begins to improve, the discharge gradually grows less, the inflammation leaves, the flesh resumes its healthy color, and soon the sore is well, because every vestige of the cause has been removed from the blood. Book on sores and ulcers and medical advice without charge.

I was suffering greatly from a cancerous ulcer on my left breast, which had begun to eat, and at times would discharge a very offensive matter. I knew the trouble was hereditary as an only sister, my mother and two brothers died of Cancer. I am fully satisfied I would have gone the same way had I not used S. S. S. I am now well. Bolton, Mo.
