### LOCAL AND OTHER MATTERS.

**THEATRICAL.**—Last night "Henry IV." was repeated and played in the same style as on its presentation last week. Our comments on that performance will answer for last night's.

This evening Professor Careless offers for his benefit a most attractive and varied bill, musical and theatrical. One thing that has been specially characteristic of this gentleman's benefits has been the excellent character of the entertainments provided; and the musical talent which will appear to-night gives assurance of the treat that will be enjoyed. Captain Croxall will give a cornet solo, and his brass band will execute some fine selections. Mrs. L. Careless, the popular songstress, will appear in song and dust, in the latter assisted by Mr. Careless; and several gentlemen of high musical ability will assist in the orchestra. A new one-act farce, with Mr. Wilson and a strong cast, will be played for an opening piece; and "The Pride of the Market," with Kate Denin, Mr. Wilson and a good distribution of characters will follow the musical interlude and close the performance. We hope to see the gentlemanly leader of the orchestra greeted with a full house. On Friday night the local ladies of the Company will also receive a benefit, of which more to-morrow.

**THE NORTHERN MAIL ABUSES.**—We are still receiving letters with complaints about the non-arrival of the mail matter for the northern counties of this Territory, and we are informed that the whole country, north, is alive with indignation on account of it. A letter over the signature "Quip," published in the Ogden Junction of Saturday last, gives what we are assured is authentic information as to where some of the fault lies. "Quip" says that on a journey from Ogden to Logan, he inquired into the matter, and he learned that the northern mail matter, which leaves Ogden city at 6:30 p.m., arriving at Bonneville at 7, fails to make the connection, as it should do, and lies there till next morning, because the mail contractor, the postmaster at Brigham city, or his employee, prefers to carry the mail in the day time rather than in the night. It is said that arrangements have now been made to have the northern mail carried in the night, hence we may hope that some of the evils complained of will be abated. "Quip" concludes his remarks on this subject as follows: "The chief blame lies, evidently, with the mail agent of the C.P. line, for I learned at Willard that, lately, the mails for Sanpete and Washington counties have frequently been thrown out at Bonneville and have found their way to Willard; while their mail has gone to Jaricho or some eastern clime." This evil should be remedied; and it might be we think with a little trouble on the part of the special mail agent from Washington; and now that the cause of the trouble is known, it is to be hoped, for the convenience of the public, that it will be seen to and further cause of complaint avoided.

**MORE WILD ANIMALS.**—Yesterday the collection of wild animals at the Deseret Menagerie was enriched by the addition of a beautiful specimen of the Wolverine or Glutton, and of the Cross Fox. Both animals were captured in Parley's Park, and purchased by the proprietor of the menagerie from the party who captured them.

**FAST RIDING.**—Two young men were arrested and fined yesterday for furious riding; and two others guilty of the same offense and of threatening the police are yet to be punished. We wish to give a caution to young men from the country, and those in the city, in addition to Alderman Clinton's monetary one, concerning this practice. In the first place, don't drink "rot gut," nor any other fiery stimulant, and confine your riding to a place indicative of sound sense. It may look brave to an ill-regulated mind, to dash along the streets at a break-neck pace, and to threaten policemen whose business is to stop it; but sensible people view it with anger and contempt; and the law is bound to be vindicated against the offenders.

**A NUISANCE.**—Complaints have been frequently made of late concerning the practice of throwing household refuse, dead dogs, stable manure and similar matter into the water sees in the city. As a great many people depend for their supply of water upon that which comes down from City Creek, this infecting the water with putrid carcasses and impure matter is a public evil which should be stopped, and, we think, would never exist did those who are guilty of it reflect on the condition in which the water is thus sent through the city for use by the people. Bury the carcasses of animals under trees; keep manure in the proper heaps or pits and thus preserve a valuable fertilizer, and let the water course through the city in the same purity in which it comes from the mountains.

**LECTURE ON SPIRITUALISM.**—Mrs. Olive N. Robinson will deliver a lecture on "Modern Spiritualism" and "Spirit Manifestations" on Thursday evening, Feb. 10th, in the 13th Ward Assembly Rooms. Lecture to commence at 7 o'clock precisely. Admittance, (to defray expenses) fifty cents.

**INFORMATION WANTED.**—J. P. White 152 Madison St., Chicago, inquires of Bro. John Nebeker, concerning his brother Robert N. White, who left Bloomington, Illinois, in the Spring of 1850, for California. He has not heard from him directly for three or four years, but has learned of a person answering the description having been living recently in this Territory. Any one who can forward information to Bro. Nebeker, or Mr. White's address, will confer a favor.

**UTAH "NEWS."**—By a letter from General H. S. Eldredge, bearing date "Sherman House, Chicago, February 3rd," we learn a little more of how Utah "news" gets around. General Eldredge had a pleasant time crossing the plains, and when he reached Omaha, he called on Dr. Miller, of the Herald, who seriously told him of an alleged attempt to assassinate a United States official here lately, the Doctor's informant having been one Oliver Durant, "from Utah." Our readers know the facts of the case, as we published them at the time; but unfortunately for Durant—who is so well known, especially on the line of railroad, that nothing need be said about him—an eye-witness to the "attempted assassination" was in Omaha, having traveled down with General Eldredge. From Mr. Salisbury and Mr. White the facts were obtained, Mr. W. having been present when that "bull pup" assaulted the official, with "deadly intent;" and Durant was badly worked up when confronted with a gentleman who was in a position to give so emphatic and plain a contradiction to his statements. Mr. Salisbury also announced that he had always got along well in Utah by minding his own business, and had never sought to raise his reputation by meddling with that of others. Pitty but some folks here would follow his example. General Eldredge says he has heard Mr. S. often contradict false rumors concerning Utah, which shows he is a gentleman. It is very wrong for people to go and circulate such tales as these concerning our Federal officers, for it is calculated to bring them into disrepute. The idea may get around that they give countenance to the reports, and by and bye their veracity might become so doubtful that nobody would believe them.

**POSTED.**—The following extract is from a letter recently received by a gentleman in this city from an acquaintance in San Francisco, who formerly resided for a considerable time in this city. The writer is not nor ever was a "Mormon," and his common sense views are the more refreshing in these times when outsiders, generally, manifest such a rabid desire for the downfall of the work of God. He says: "All the learned men say 'Mormonism' is gone, sure. I am taking bets for ten years hence, even, that Brigham wins. Not but that I think your polygamy question is bound to go out of date sometime in this generation; but it will take time and much more time too, than outsiders can be made to believe. What 'gals' that is about Brigham, not being spiritualistic enough! The foundation of my admiration for the man, always was his practical good sense, that enters into all his movements, religious or otherwise. If some of our blatant preachers had better sense in guiding their flocks temporally, and had less spiritualism, pomatum and kid gloves there would be many better women and men. If you could see what a sinkhole of iniquity San Francisco is, you would never leave the valley." The writer of the foregoing is evidently posted somewhat in regard to "Mormonism;" and he would be justified in "taking bets" to any amount that Brigham or rather "Mormonism," polygamy included, will never lose, but will keep on gaining from this time henceforth and forever.

**FINE WEATHER.**—Unusually so for the season. Since the advent of February, bright sunshine has been the rule; yesterday and to-day the gentlest of thaws has prevailed. But winter is not yet gone; he will bite again before he goes.

**FIRE AT LEHI.**—Bro. J. W. Turner, of Provo, who passed through Lehi on Monday, informs us that on Sunday last the meeting house of Lehi took fire, and before the flames could be extinguished, considerable of the roof and much of the interior had been consumed. The fire originated in the vestry.
