That stuff was penned expressly for the foreign market, for the purpose of manufacturing political capital abroad. Everybody here knows that, judging from its work, a legislative body with a greater anti-polygamy leaning never existed in Utah at any time. A bill providing for the punishment of the offenses in that regard enumerated in the Edmunds law was introduced by a "Mormon" member of the House and referred to an appropriate committee. Subsequently the same branch of the legislature adepted the following which came before it as a report from the committee to whom the measure was referred:

Whereas, the government of the United Stites has enacted laws prohibiting and punishing bigsmy, polygamy, unlawful cohabitation, adultery, incest and fornication, and said laws are in force and supreme in the Territory of

Whereas, it is the opinion of His Excellency the Governor of Utah, as well as a majority of the members of the present Legislative Assembly, that said laws upon the subjects named are ex-clusive and cannot lawfully be added to, diminished or duplicated, so far as anid punishment is concerned, by Ter-ritorial legislation; and

Whereas, it is the opinion of a majority of the members of said Assembly, that any law passed by said Legislature prohibiting or punishing any or all of said offenses, would not only be in excess of legislative power, in the respect above referred to, but would be unconstitutional in its operations; and if not unconsti-tutional, would be oppressive in that it might subject the citizen to be twice tried for the same offense, and Whereas, a bill has been introduced and is now pending in the House of

Whereas, a bill has been introduced and is now pending in the House of Representatives of said Legislature, by which it is proposed to prenibit and punish each of said offenses already prohibited and punished by the laws of the United States as atoresaid, and Whereas said Assembly for the reasons above named, have rejected and do hereby reject and disapprove of said bill, and in order that their action herein may not be misunderstood or misrepresented, and for the purpose of emphasizing and reiterating in the

There is a wide discrepancy between the dispatcher's fabrication and the closing portion of the foregoing resolution. The tendeney of Hoge's (Non Mormon) marriage law, which was passed and approved during the last session, is against polygamous relationship. The fact is that it is not the existence has that effect. California papers have received a telegram from Washington to the effect that the appellate court in the Crawford case, Chief Justice Bingham presiding, has decided that the statute in question does not apply to the District of Columbia. The necision holds that "the statute was clearly intended to meet the practices of the Mormons in the Territory of Utah," and that "when Congress passed laws for the District it usually included a statement to that effect." The decision is not reported in full, and we can only cite its salient points, as given in the press dispatch. The latter contains a Judge Gresham's Decision in the statement to the effect that "the decision created considerable surprise in the District Attorney's office." The assisting prosecuting officer, who conducted the case against Crawford, de- Tribute of Respect to Emperors clared that the decision left the District without any law prescribing punishment for adultery, fornication and

In view of the circumstances under which it was delivered, Judge Bingham's decision in the Crawford case is a remarkable one. It does not amend the latter law by limiting or in any way changing its jurisdiction. Not a word in the second law refers directly or indirectly to the territornal jurisdiction of the first, and the purpose of the second law. The punative sections of the Edmunds law are in terms made to apply wherever the United States have exclusive jorisdiction, and no intimadon diverse from this occurs in the punative sections of the Edmunds-Tucker law, which are amendatory of and supplementary to the former. True, some of the sections of the Ed-

According to this remarkable decision, so apparent in its conflict with the language of the law, the "Mormons" in Idaho, Arizona and elsewhere outside of Utah are not subject to the operations of the statute. THE storm which burst upon the Atwhich it covers, in the swittness of wind and depth of snow which characterized it, and in the damage done by it, it has not been paralleled in the region where it happened for a generation. The wind reached a velocity of sixty-four miles per hour with the mercury at zero, which means great suffering to seamen along the coast, and great damage to shipping. The snow fell so deep and so fast in the states of New York and Pennsylvania that the moving of trains became impossible, and New York City and Philadelphia were twenty-four hours without the arrival of a train. People in the Rocky Mountain region, so accustomed to snow blockades, will have to reflect a moment before comprehending what such a state of affairs means to the cities named.
