Drear.

weather during the week ending yonday, June 1, is described in a pamalet issued by the local bureau as follws: Abnormally cold weather prealled over all portions of the state during the week, the deficiency in temperure, however, was much greater over the northern than over the southern portion. Frost or freezing temperamres were general over much of the state, and caused some local damage in the northern districts. The highest temperature reported was 90 degrees at St. George, Washington county, the lowest, 26 degrees, at Scipio, Millard

The precipitation was much above The precipitation was much above the normal amount over the northern all of the state, and was very heavy in the vicinity of Great Salt Lake, amounts in excess of 1.00 inch being recorded at stations in all adjacent countles. The amount measured at Salt Lake City was 2.43 inches. Hail and sleet occurred in a few localities, Over the southern half of the state the rainfall was generally below the normal, and none occurred in some sections of the extreme southern portion. Cloudy weather was prevalent over much of weather was prevalent over much of the state during the week. The amount of sunshine was greatly deficient over the northern portion, but was nearly normal over the southern counties. High winds occurred over the south-ern part on several days of the weck OBSERVERS' REMARKS.

OBSERVERS' REMARKS.

Millville, Cache.—The early part of the week was cold and stormy; the latter part quite warm and pleasant.

Meadowville, Rich.—Very cold weather prevailed during the week, and much damage was done by frosts and freezing weather.

Snowville, Boxelder.—Good rains fell during the week in this locality.

Ogden, Weber.—Cold weather prevailed during the week. A good rain scourred on the 26 and 27.

Morgan, Morgan.—Rain fell on four days of the week to the depth of 1.10 inches. The weather was cloudy and cool during the entire week.

Marion, Summit.—Cloudy and cool weather prevailed throughout the week. Hall and sleet fell on the 26 and 27, accompanying a moderate rainfall.

Salt Lake City, Salt Lake.—The mean temperature averaged 11 degres per day below the normal for the week. Cloudy weather was general, and rain fell every day except on the 28.

Government Creek, Tooele.—Low temperatures and an abundant rainfall were the chief features of the weather for the week. Considerable snow fell the adjacent mountains which will as materially to the supply of water

TOASTS FEATURE OF EVENT.

Wit and Eulogy Claim First Place at Banner Occasion of Utah Society-O. F. Whitney Toastmaster.

The Alumni association of the U. of U. gave its annual banquet last night in Odeon hall and the occasion will rank among the most brilliant in the history of the university. The old graduates in attendance reached back from last year to the day of 1873. At 8 o'clock the dancing and reception hall began to fill with peoreception hall began to fill with people, and an hour was spent in dancing before the banquet. This was served in two large rooms in the basement. Nearly 409 participants were seated at the tables. The decorations were chiefly in flags and pennants, combining the national and university colors. When the throng was seated the picture presented a brilliant appearance. The president of the Alumni association, John M. Young, sat at the head of a table sat at the head of a table formed in a big U, and at his right hand was the toastmaster, Mr.

THEODORE N. VAIL-TELEPHON Y'S EXECUTIVE. The Vail party, including Theodore N. Vail, president, Edward J. Hall, vice president of the American Telephone and Telephone an Vail, president, Edward J. Hall, vice president of the American Telephone and Telegraph company, members of their families and others of Boston who are making a western tour, arrived in this city today.

Mr. Vail is one of the original telephone men of this country. With Alexander Graham Bell and Gardiner G. Hubbard he formed the first Bell comknown as the Bell Telephone company. He became its general manager. Later he was prominent in organizing suc-cessively the National Bell Telephone company, the American Bell Telephone company, the American Bell Telephone company and the American Telephone and Telegraph company, of which he was the first president. He retired from the presidency after serving two or three syears, to engage in foreign enterprises, and became president of the company again May 1, 1907. At present he is also president of the New York Telephone company and of the Western Telephone and Telegraph company. After getting the first organizations

ways retained his interests. For about 10 years after 1889 he handled many large enterprises, chiefly electrical, in Europe and South America. He established the electric street railway system of Buenos Ayres, Argentine Republic, and developed power transmission in that neighborhood. Foreign interests, chiefly British, had large holdings in these enterprises and Mr. Vall disposed of his interests to them about a year.

of his interests to them about a year He is about 63 years old, a native of Ohlo, a son of a farmer and is of old colonial stock. He taught school, old colonial stock. He taught school, studied medicine two years and learned telegraphy when a young man, working a year or two as an operator for the Western Union company. Just after the Civil war he was appointed to the railway mail service and had a run from Omaha to Ogden for six years, making his home at Omaha. He assessed in the recognition of the rails. making his home at Omaha. He assisted in the reorganization of the railway mail service, which took him to Washington, where he met Bell and Hubbard and joined them in developing the telephone business.

Mr. Vall owns a ranch of more than

3,000 acres at Lyndon, Vermont, where he makes experiments in scientific soil culture, dairying, etc., and raises thoroughbred stock. He has more than 500

head of stock on the place.
The American telephone and Tele-graph company and its 36 associated telephone companies, of which the telephone companies, of which the Rocky Mountain Bell is one, had proprecey Mountain Bell is one, had property—real estate and plant (franchises are not appraised by Bell companies)—that appraised \$488,296,000, figuring copper at 15 cents, Jan. 1, 1908. This is not book value, but engineers figures on nettal existing property. The fig. on actual, existing property. The fig-ures show value amounting to \$34,431,-000 in excess of capital stock and all 000 in excess of capital stock and all other outstanding obligations. The Bell system had 3,839,000 telephones in service Jan. 1, an increase of 768,340 for the year 1907. The average number of conversations daily is 18,624,000, making 5,997,000,000 annually. The system has 163,218 miles of toll pole lines, carrying 1,664,081 miles of long distance wires. There are more than 5,000 exchanges in the system, with 3,883,051 miles of underground wire 3,067,138 miles of aerial wire and 6,322 miles of submarine cable. In 1907, \$52,921,400 was spent for construction and \$36,626,667 for maintenance.

windy weather prevailed throughout | Moore, was among the features

the week.
Frisco, Beaver.—Moderately cool weather prevailed throughout the week. No precipitation occurred.
Loa, Wayne.—Weather during the week has been windy and cold.
Parowan, Iron.—Cold and windy weather prevailed during the week. A good shower occurred on the 26.
Modena, Iron.—The week was fair and unseaonably cool, the temperature averaging 5 dergrees per day below the normal. Killing frosts occurred on the 27.

on the 27.

Tropic, Garfield.—High winds and cold nights have been the general features of the weather for the week. Some snow fell in the mountains. Pinto, Washington.—Cloudy and cold weather were the prevailing condi-tions during the week.

## COMMENCEMENT EXERCISES.

The pallbearers were chosen from officials who were personal friends of Mr. Cottle. They were Judge George G. Armstrong, Secretary of State Charles S. Tingey, County Surveyor Joseph Swenson, County Treasurer John A. Groesbeck, Sheriff C. Frank Emery and Assistant District Attorney William McRea. Burial was made in Burial was made in

liam McRea. Burial was made in Mount Olivet.

Those who attended the funeral from out of the city were Ella Cottle, a daughter, of El Paso. Tex.: Mrs. A. C. Reese, a sister of Mrs. Cottle, of Port-land, and Mr. and Mrs. George Cottle of Hooper, Utah.

## THE FIRST TASTE

Learned to Drink Coffee When a Baby.

If parents realized the fact that coffee contains a drug—caffeine—which is especially harmful to children, they would doubtless hesitate before giving the babies coffee to drink.

"When I was a child in my mother's arms and first began to within these."

when I was a child in my mother's arms and first began to nibble things at the table, mother used to give me sips of coffee. As my parents used coffee exclusively at meals I never knew there was anything to drink but coffee and water.

"And so I contracted the coffee habit early." I represent the coffee habit carry.

it early. I remember when quite young, the continual use of coffee so affected my parents that they tried roasting wheat and barley, then ground it in the coffee-mill, as a substitute for coffee.

"But it did not taste right and they

went back to coffee again. That was long before Postum was ever heard of. I continued to use coffee until I was 27, and when I got into office work, I be-gan to have nervous spells. Especially after breakfast I was so nervous I could scarcely attend to my corre-

spondence, "At night, after having coffee for supper, I could hardly sleep, and on rising in the morning would feel weak

"A friend persuaded me to try Pos-tum. My wife and I did not like it at first, but later when boiled good and strong it was fine. Now we would not Postum for the best coffee we

ever tasted.
"I can now get good sleep, am free from nervousness and headaches. I recommend Postum to all coffee

drinkers.
"There's a Reason."
Name given by Postum Co., Battle
Creek, Mich. Read "The Road to Wellville," in pkgs. Ever read the above letter? . A new one appears from time to time. They are genuine, true, and full of human interest.

O. F. Whitney, while to his right sat Prest. Kingsbury and members of the Prest. Kingsbury and members of the university faculty were seated at various tables. President J. M. Young made the opening address. He emphasized the importance of university training. All are better citizens who go out equipped with its influence and ideals, he said, and no more worthy work can be done by the graduates than the work of preaching the gospel of education. The idea of poverty and limitation in regard to the university must be stricken down, he asversity must be stricken down, he a serted. There cannot be too muse expended for the institution. It h expended for the Institution. It has many needs and it should be the pride and duty of all citizens to make it complete in all its equipment. To the graduates he said that the love of the Alumni association follows them throughout life, and their interests will always be its own. He closed with the introduction of the toast-master, O. F. Whitney, who responded in a witty speech which evoked rounds of laughter and applause.

Mr. Whitney referred to the tact of the dean, Miss Lucy Van Cott, in leaving him no alternative of accepting the present position by convincing hm that he was the one unanimous choice of the committee, and his speech was a play of keen wit upon his qualifications for the position.

sition.

Mr. Frank Holman, winner of the

THE TOSATMASTER'S REIGN.

All. Frank Holman, winner of the Rhoades scholarship, responded to the toast, "Our University of Today," with a clever eulogy upon the institution, but urging it to go on, as there were fields before it still for conquest. He spoke of the aims of California to establish a great western law school, but believed such an institution relations and the stable of the stable as the second of the se

spoke of the aims of California to establish a great western law school, but beleved such an institution rightfully belonged in Utah—an intermountain location being much more appropriate for a
great western law center. There is also a
place for a great medical school and
other special institutions and there is
no reason why Utah should not possess
them, said Mr. Holman.

Miss Rachel Edwards responded to
the toast "Reminiscences," She reviewed the past history of the University with references to Dr. John R.
Park and other well known instructors whose names evoked applause.
Miss Edwards paid a tribute to the efforts and loyalty of those who laid the
foundation of the present University.
She said the present and future prospects of the University show that they
builded better than they knew.

Mr. Harold Goff of Rexburg, Ida., had
for his toast, "An Ounce of taffy is

Mr. Harold Goff of Rexburg, Ida., had for his toast, "An Ounce of taffy is worth a ton of epitaphy" and responded with an original poem in which he reviewed phases of the topic in which the passion for both taffy and epitaphy were illustrated—the final lines summing up the moral of his clever poem.

And the aim of this doggeral is to teach That most of us want quite a little of

each."

One of the hits of the evening was made by Miss Irene Young who had for her toast, "Last Year," She said:
Our grand old poet, Longfellow, says, "For the structure that we raise, "Time is with materials filled; Our todays and yesterdays Are the blocks with which we build."
And so during the past year, we each have used our 365 blocks. Some of them have been so light and airy that we have easily tossed them into place, while others have been so heavy, that it required all our strength to even move them. Some have been just right.

while others have been so heavy, that it required all our strength to even move them. Some have been just right. But one by by one we fitted in our blocks made "last year."

To those whom we welcome tonight as Alumni for the first time, last year marked the completion of the foundation of the structure, they are raising. Now they are ready and no doubt anxiously waiting for the to-morrows to become to-days that they may prove the worth of these yesterdays.

For some of us, that is for those who graduated one year ago, the materials given us last year, put our groundwork to its first test. And we have found wherein those blocks so

have found wherein those easily fitted do make indeed a of real life.

To the other alumni last year may not

have been so important. It was just one more layer nearer the completion or roof of their mansions.

or roof of their mansions.

But whether last year's blocks be near the ground or the sky may they all be firm and solid and able to stand the weight of future ones. And when those future ones come on, when next year and each succeeding becomes in turn last year, and when our structures are completed, may our Alma Mater be proud to say that her children were the builders.

be proud to say that he were the builders.

John D. Spencer's toast was "U Actors," and he commenced with a reminiscence of Toastmaster Whitney as an actor back in the remote days when the posed as an Indian who shoots a waterfall in a cance. The performance was in Gibbs' barn, and the waterfall was a board balanced from the loft above to the ground floor. Before the cue for the Indian's entrance a storm outside, and the owner of the brought in his cow, which had obligingly removed for the per-lace, and tied it to the waterfull. Mr. Whitney appeared at the the board in the improvised caterfall and ran with it and the Indian igh the audience, scattering terror confusion and breaking up the play, a narration that brought down the

From this Mr. Spencer went into a more serious vein, taking the students as actors in the wings of life waiting for the cue to their entrance on the real drama of life. He said a good name for this play was "Saints and Sinners," and he skatched a wisting of both kinds. and he sketched varieties of both kinds, men and women, and showed that there are other aims in life than to make names and places in the front ranks; the daily life with its possibilities of heroic action was the real test, and while one might even go down to de-feat, this does not matter if the fight has been nobly fought. The speech was an admirable one and had a great round The exercises closed with a short ad-

The exercises closed with a short address by the toastmaster, which dismissed the throngs in laughter with its humorous allusions. He bade the graduates "Godspeed" and the affair ended, the banner event of the association.

An orchestra stationed in a corper furnished a program of delightful music

An orchestra stationed in a corner furnished a program of delightful music throughout the banquet.

Great credit reflects upon the president and various committees of the alumni who arranged the program and banquet, and especially to the former and to Miss Van Cott, dean of the women to whose energy and tact title. omen, to whose energy and tact trioutes were paid by the various speak-ers during the evening. Among the guests of the evening were Judge Straup and Atty.-Gen.

## NO MISSIONARIES EATEN.

Conditions in Africa Are Rapidly Changing, Says Rev. Dr. Nye.

Rev. Dr. Nve. an African mission-

ary, lectured last night in the Central Christian church. He said that since Stanley's time no missionaries had been eaten by African cannibals, but dark continent on other errands had suffered a gustatory fate. One Bolenge chieftain, who was both a can-nibal and a polygamist, fought Chris-tianity as hard as he could, breaking nibal and a polygamist, fought Christianity as hard as he could, breaking up meetings with a tom-tom. But finally gave up and became a convert. Another chief whose wife had embraced the Christian faith tied her to a pole in the glare of the sun, telling her she could stay there until the new God she worshiped descended from heaven to release her. The chief died of pneumonia in two days and the wife was rescued without injury. The lecturer is endeavoring to raise \$350,000 with which to send 50 missionaries to Africa. He showed that while this country spends annually \$11,000,000 for chewing gum, only \$7,500,000 is contributed for missionary work. For millinery \$80,000,000 is expended each year, \$178,000,000 for candy, \$700,000,000 for jewelery \$750,000,00 for tobacco, and \$1,243,000,000 for strong drink. Dr. Nye will lecture again this evening with stereopticon illustrations.

## PASSENGERS AVERT ACCIDENT.

Conductor Signals "Go Ahead" When Freight Train is Approaching.

According to the stories told by passengers on street car No. 416, going to the Rio Grande Western depot at 5:30 yesterday afternoon, a most serious accident was narrowly averted by the presence of mind of passengers riding on the front plat-

passengers riding on the front platform.

They claim that when the car reached Third West street, the conductor neglected to leave the car to see if any trains were coming, and that he gave the motorman the signal to go ahead. The latter started the car, it is said, oblivious to the fact that a freight train was backing down the track. The car would have gone directly in front of the train but for the interference of passengers on the platform. The car was stopped just in time to avoid a collision. One child was knocked down, and trampled upon, and two women were frightened into hysteries. The car was in charge of conductor No. 263 and motorman No. 484.

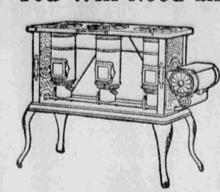

## CHORUS ON STRIKE.

Surprise Sprung on Harold Orlob at Seventeenth Ward Amusement Hall.

the Seventeenth ward amusement hall last night which was not down on the program during the rehearsal of "The program during the rehearsal of "The Merry Grafters." After the first act had been negotiated the company, consisting of 35 well known young amateurs apparently went on strike and left the hall, leaving Mr. and Mrs. Harold Orlob, Miss Edna Evans, Hugh Dougall and some of the principals wondering what had been done to hurt any feelings. While they were still cogtiating, the chorus returned, bearing mysterious packages, cases of soda water and a large and assorted commissary. They circled twice around the hall, singing a parody on one of the songs of the opera "Mr. Newhouse," substituting "Mr. Orlob" for the chorus refrain. From that time on the company decided to make merry. Volunpany decided to make merry.

teers took turns at the piane and dang-ing and refreshments were in order. The occasion for the break in discipline teers took turns at the piano and danging and refreshments were in order.
