So far as the Commissioner is informed, the books which were adopted are giving Satisfaction. He had investigated the causes producing a scarcity of books, but had not fixed the re-

At least one member of the board of trustees of a school district should be accustomed to keeping accounts. The Commissioner disclaims any intention to critical applicable to county superintendents. cise unkindly the county superinten-dents and speaks in high terms of their dents and speaks in high terms of their services, which are either gratuitous, or peorly paid. The Commissioner is ef epinion that the duties of these officers will never be well done unless provision is made to pay them. The report complains that the last school census

is incorrect, showing as it does, a decrease in the school pepulation. This is attributed to imperfections in the school law. The Commissioner had

The Commissioner is not well acquainted with the class of teachers throughout the Territory, but speaks highly of those in Salt Lake County, praising their energy and disposition to advance in their profession He advocates legislative encouragement of teachers' institutes. He urges, in strong language, the establishment of free schools, using familiar arguments in fayor of his position. He recommends, in addition to the territorial three mill tax, that recommends, in addition to the territorial three mill tax, that counties be required to raise a tax.

The Commissioner reminds the Assembly that no funds have been provided to support his effice, furnish stationery, the expenses of which, including considerable printing, he has borne personally. He also complains that school officers have not been furnished with copies of the school law until he caused it to be printed and circulated among them.

He deals with the duties of the state in educating its children, state in educating its children, and the manner in which the

and the manner in which the duty should be performed, and argues that the giving of an education to the children free of charge is not the bestowal of charity, but a measure adopted for the safety of the state.

The Commissioner admits that he has no knowledge of the inculcation, in the district schools, of religious doctrines, but complains that children are not taught the wrongiulness of polygamy and unlawful co-habitation. He states in effect that this is an offense of omission rather than of commission.

The Commissioner refers to the success and influence of the mission schools, and fears that detriment to the public schools may result, unless a wise policy shall be pursued by the lawmaking power.

A draft of a bill for a new school law accompanies the report, modeled after that of Arizona. The Commissioner refers to the nor-

It is expected that all the survey work on the Rio Grande's extension into Utah will be completed about April I, and that the grading will be in an advanced state early in May. The extension with of course, be completed in detal at the annual meeting of directors, which will be held in May. The projected road is 300 miles in length, and for the most part the country is prepitious to a good grade and very few bridges and big cuts will have to be made. It is a grand scenic country, however, as remarkable as can be seen in any other part of the state, with mountains and canons that rival the already celebrated ones. By natural formations, however, an even system of road-beds is formed and will make the cost of the road average about \$30,000 a mile or less. The Utah people appear as anxious to have the about \$30,000 a mile or less. The Utah people appear as anxious to have the Denver & Rio Grande own a direct line to Sait Lake, and a part of the monecessary to construct and equip the road will be furthcoming from to Territory. It is being whispered in rallway circles that it is not improbable that the Missouri Pscific will make, as attempt to shooth the Rio Grande. an attempt to absorb the Rie Grand. NOTICE TO THE LATTER-DAY SAINTS.

I have made various predictions which I had printed in leastet form and sent forth as purporting to come from Seventy. These have received a a Seventy. These have received a somewhat extensive circulation among the Latter-day Saints. I desire to humbly ask the forgiveness of my brethren and sisters in the Church of Jesus Christ of Latter-day Saints for this wrong which I have done. I can only say, in palliation of my offense, that Satan deceived me and actually caused me to suppose I had a mission to circulate these predictions, and I verily thought I was doing the Lord's service in the matter. I now see my folly and wickedness, and wish my confession to be as public and as widely known as my pretended prophecies have been. And I humbly ask the forgiveness of the Lord for this grievous sin of which I have been guilty, and also my brethren and sisters, whom I have attempted to mislead in this way. rusting that I shall obtain the desired forgiveness, I remain, very humbly, ABINADI PRATT.

A Candid Acknowledgment Extract from a letter of Dr. D. W. Atkinson Siloam Springs, Ark.

"I know that many physicians are very much prejudiced against all proprietary medicines, and I think sometimes foolishly so. I am, however, willing to acknowledge merit wherever it is deserved. I have prescribed Simmons Liver Regulator, and have given it a pretty thorough trial myself, and think it deserves all the praise it receives. I have watched its use for the last five years and do not know of a more popular medicine. My patients praise it very highly and it gives good results wherever it is used."
