Carbon County Robbers Are Legally Held in State Prisons.
Judge Armstrong has denied the petition of John P. Waldron and Ezra Davis for a writ of habeas corpus. They were serving a term of 13 years in the state prison, but the supreme court recently granted them a new trial and the case will be heard in June.

Rio Grande's Application for Spur Track Discussed and Report Returned.

NEWHOUSE SAYS HE IS READY.

Appropriation for Work on State Street—Contract for Water—Mains Approved.

There was considerable discussion at the council meeting last night in regard to the franchise of the Rio Grande Western Railway company to build a spur track on Sixth West and South Temple streets to connect its line with the San Pedro, and an attempt was made to pass the ordinance under a suspension of the rules. It was taken out of the hands of the streets committee, upon motion of Fernstrom, and was read the first time in full and the second time by title, when several of the councilmen suggested certain changes and amendments resulting in the franchise being referred back to the committee, with instructions to report tonight at the adjourned session of the council.

COMPENSATION FOR DAMAGE.

Wells wanted some provision requiring the company to make adequate compensation to the property owners for damages to their property because of sold spur. E. H. Davis urged that the company be compelled to take up its other spur track on that corner. He charged the council for postponing action on the matter until his return from the east. A resolution will be introduced by Hartenstein tonight instructing the council to take up the Newhouse franchise on Wednesday evening and so notify him.

NEWHOUSE IS READY.

Samuel Newhouse notified the council by communication that he is now ready to take up the matter of his application for an electric light franchise. He thanked the council for postponing action on the matter until his return from the east. A resolution will be introduced by Hartenstein tonight instructing the council to take up the Newhouse franchise on Wednesday evening and so notify him.

WORK ON STATE STREET.

Upon motion of President Hewlett, who took the floor for that purpose, the communication from the street supervisor asking an appropriation of \$2,000 to commence macadamizing State street was taken from the hands of the streets committee and the amount was placed to the credit of the street department, with instructions to commence work. A strip of macadam 20 feet wide will be laid on the west side of the street for a distance of one mile, running north from the city limits.

NETEES GO OVER.

The vetoes of Mayor Morris of the donation of a building lot to the Women of Woodcraft for the permanent headquarters of their order and of the action of the council in granting permission to the King Hardware & Store company to extend the front of its store were both laid over for one week.

CONTRACT APPROVED.

The board of public works submitted the contract with P. P. Ford for water mains to be laid this year and, after considerable discussion in regard to the valve and hydrant to be used, and an attempt to have the matter referred to the waterworks committee, the contract was ordered approved by a vote of 12 to 8.

TO ENTERTAIN VISITORS.

Mayor Morris submitted a communication from Denver stating that the Denver business men's excursion would arrive in this city on Wednesday, May 3, at 8:20 p. m., and remain until 4 o'clock in the afternoon of the same day. HOME FOR BAD BOYS.

Juvenile Court Commission Will Likely Establish One.

The juvenile court commission met yesterday in the office of Mayor Morris and discussed the proposition of establishing a detention home for delinquents under suspended sentence and on probation by the juvenile court. Judge Brown produced figures to show that it would be much cheaper for the city to keep the boys here in a detention home than to send them to Ogden at a cost of 71 cents per day. The juvenile court bill provides that 30 cents per day may be appropriated by the council for the maintenance of each delinquent in a detention home, but the city could afford to pay twice that amount and then save money.

The directors of the Infants' Home on I street are willing to establish a detention home provided the matter of finances can be arranged. The commission is striving to overcome that obstacle. It is possible that the city board of education may take some action in the matter as it has power to appropriate funds for the maintenance of a "parental school" and such a home would come within that authority.
