ELECTRIC SWITCH LITTLE BABY CURED OF ECZEMA PLANT THE LATEST Parents Applied to Hospitals and Doctors but Could Get No Re-

Eastern Investors Are Here With The Object in View of Locating.

UTAH MARBLE MAY BE USED.

Establishment of a Factory in Salt Lake Would be Great Saving Of Freights.

Eastern investors are coming more and more to consider Salt Lake as a promising center for investment as to manufacturing. Secretary C. O. Harris of the Manufacturers & Merchant's' association has been visited by the Messrs. Louis and Eugene Marcus of Philadelphia, who are here to look over Philadelphia, who are here to look over the field with a view to establishing a \$20,000 plant for the manufacture of electrical switches. The manufacture of electrical devices has reached to such a point of diversification; to such a degree of specialization that entire plants are now devoted to the making of switches and appurtenances, and nothing else; and the establishment of such a factory here would be a great conventience in the saving of freights and in avoidance of delay in filling or-ders.

and in avoidance of delay in hinning of-ders. The Messrs, Marcus have been ex-amining the various marble deposits of the state, and are specially im-pressed with the marbles of Logan and Pelican Point, which will be util-ized in switch panel manufacture. Sec-retary Harris expresses himself as very confident that these Philadelphia gen-tlemen will locate here their proposed plant.

WILL BUILD TO WONDER.

S. P. Has Nearly Completed Survey To New Nevada Camp.

Reno, Nev., April 26 .- It is stated in reliable railroad circles that the South-Reno, Nev., April 25.-11 is stated in reliable rational circles that the South-orn Pacific company has nearly com-pleted the survey of a line from Fal-lon to Wonder, the rich mining camp of Churchill county, Nevada, and that work on the construction of the road will soon commence. It is also stated that the only thing preventing the company from starting construction immediately is some trouble over a right of way near Fallon. According to the survey made by the company, the line would connect with the present branch of the South-ern Pacific running from Hazen to Fallon at Fallon, and would run by way of Stillwater to Wonder. It would not strike Fairview for the present, but would take in Hercules and other small camps.

U. P. IS NOT IDLE.

Line Being Surveyed From Wansmut-

ter, Wyo., to Greeley, Colo.

A dispatch from Greeley, Colo., says: A dispatch from Greeley, Colo., says: A party of Greeley real estate men, who have just returned from Routt county report a large corps of Union Pacific surveyors in the field, running a line from Wamsutter, Wyo., down through a part of Routt county.througn North park and down the Poudre val-ley th Fort Collins and Greeley. This would indicate that the Union Pacific cut-off from Greeley to Hermosa June-tion. Wyo., reported from Omaha a few days ago, would be run from Gree-ley to Wamsutter instead. The rich grazing and stock country

of North park, the mining districts about Hahn's peak, some of the coal lands of Hour? county and the farm-ing country of the Little Snake River valley will thus be opened, besides the Unith Pacific line from Derver to Os-

the foundation of Beatty's greatness and the reason of its selection as the junction of the two roads was because there was a plentiful supply of water at that point, other moisture than aqua pura was in evidence last evening. The festivities are being continued today, and the celebration is being car-ried on in true western, Nevada-like style.

SUPT. MANSON RETURNS.

Finds Conditons on Southern Pacific Much Improved.

(Special to the "News.") Ogden, April 26.—Supt. E. C. Manson of the Salt Lake division of the South-ern Pacific, has returned from a tour of inspection of that portion of the road. He found conditions much im-proved in regard to the congestion of freight along the line west of this place. From a reliable source it is learned that Trainmaster Wrigh of the Salt Lake division was not discharged, but was relieved from that position with the privilege of returning to his form-er position of chief dispatcher, but he has not yet indicated his intention to accept the old position. C. W. Kay, who has been chief dispatcher, was asked to accept the position of assist-ant. Only one man heaving the dis-patching service recently has left other than on his own accord. (Special to the "News.")

SPIKE AND RAIL.

The Union Pacific and Chicago & Northwestern flour train, consisting of 25 cars, arrived in San Francisco sev-eral days ago. The flour was loaded on the government transport Buford, which left for the orient, expecting to reach China about June 1. It is calculated that the famine will at that time be in its worst stage, and the floar will there-fore be of especial benefit to the starv-ing natives.

PEARY MORE HOPEFUL THAN EVER OF REACHING THE POLE

cura Soap and two boxes Cuticura Oint-ment, costing in all \$1.25. Even the poorest man can pay that instead of throwing it into the doctor's lap. I myself only make twelve dollars a week as a teamstei, but I recommend the Cuticura Remedies strongly to all moth-ers whose children suffer from such dis-eases. They are theap, harmless and good. C. F. Kara and Wife, 343 East 65th Street, New York, M. wh 30, 1906." New York, April 25.-Robert E. Pen-ry, more hopeful than ever of reaching the Pole, is rushing his preparations to take the Roosevelt again. He hopes to leave New York by the end of June or in the first week in July. After wintering on the north coast of Grant Land, he will make his dash for the oveted prize in February, and hopes to return triumphant about 14 months mint teaming from New York. Only the lack of absolute certainty that enough money will be forthcoming to finance the expedition is troubling him.

and anoint freely with Cutience Char-ment, and in severe cases spread the Continent on this pieces of old line, or cotton. Wear during the night dia, loose, kid gloves, with the finger ends cut off and holes cut in the palms, or a him

"it is incredbile with so many men in New York who could spare \$100,000 without intesting it, that the expedition should have to be abandoned for lack of funds," said Mr. Peary yesterday. "Honestly, I have no doubt that the money will come from somewhere, though I have no absolute assurance of it as yet." Mr. Peary regrets that a statement was recently made that he had \$200,-000 in hand to finance fis expedition. "Forty thousand is the absolute limit of my resources so far," he said, "and the expedition cannot start until the at is incredbile with so many men

OLD TIMERS' SOCIETY.

The corresponding time indicate of 1955 a total of 1,541. "The matter in detail has been pre-sented to the American Railway asso-clation which is now holding its con-vention in Chicago and it has request-ed that the matter be taken up for dis-cussion and action by the railroad man-agers. It is probable that the conven-tion will go into the causes of the great-ly increased number of breakages and that the matter will be discussed as to the causes and a conference ar-ranged with rail manufacturers with a view of discovering if the alarming number of breakages is due to meth-od of manufacture or metal compo-sition." Roswell, N. M., April 24.--A mass meeting held here last night under the auspices of the Old Timers' society auspices of the Oid Timers' society adopted resolutions condemning as "unwarranted, unjust and untrue" at-tacks made in the press upon George Curry, who it has been announced from Washington, is to be appointed governor of New Mexico to succeed Herbert J. Hagerman. The meeting was called for the purpose of endors-ing the appointment of Curry, but it developed that Goy. Hagerman has not resigned as yet, and the endorse-RAILROAD DAY AT BEATTY. Every mother feels a great dread of the pain and danger attendant upon the most critical period of her life. Becoming

a mother should be a source of joy to all, but the suffering and danger incident to the ordeal makes its anticipation one of misery. Mother's Friend is the only remedy which relieves women of the great pain and danger of maternity ; this hour which is dreaded as woman's severest trial is not only made painless, but all the danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are overcome, the system is made ready for the coming event, and the serious accidents so common to the critical

hour are obviated by the use of Mother's Friend. "It is worth its weight in gold," says many who have used it. \$1.00 per bottle at drug stores. Book containing
