## MINING, BUSINESS AND STOCKS

## UNCLE SAM CON. HUIST DESTROYED.

Plant Entirely Consumed by Fire Early Today With Loss of Several Thousand Dollars.

### ORIGIN OF BLAZE UNKNOWN

President John Dern Says Company Will Rebuild Without Delay -Mill Saved.

Word reached the city early during the forenoon from Eureka to the effect that fire had destroyed the hoisting plant at the Uncle Sam Consolidated mine. The report was later confirmed at the office of the company in the Dooly blook, soon after President John Dern had hung up the 'phone, after having had a talk with Supt. Griggs.

The origin of the fire is a mystery, It was discovered shortly after 7 o'clock and within a very few minutes the building was in a mass of seething

Supt. Griggs knew that nothing could be done towards saving the building or its contents and directed his men to devote their energies towards savecording, the yentered the Crandall

According the yentered the Crandal innel and succeeded in bulkheading the shaft at the 100-foot point, thus making it safe below that point.

The building was not an expensive one; but the damage to the machinery will be considerable. The boilers, President Deen stated, will not be injured, they being encased in brick, but the changes are the engine will never be fit. chances are the engine will never be fit for commission again. In case it is found to be in repairable shape the loss will probably not exceed \$3,000, but if it is necessary to replace the old equipment with new, the expense will be considerably greater. No insurance

was carried.
The mill, which has been in operation for a number of months past and which was working along with excellent results, is located some distance from the scene of the conflagration and was not endangered. The plant, however, will be forced to close down the mine can be operated again. an be operated again.

President Dern says the rebuilding of the plant will take place at once so that very little delay will result from the disaster. He will leave for campuring to take an inventory of things and to investigate into the cause of the houses and an order can be filled wthin n lew hours efter being authorized.

#### WEEK ON 'CHANGE. More Than \$24,000 Paid Out for the

Stocks Sold. The week's business of the Sait Lake

Stock and Mining Exchange amounted to the sale of 141,075 shares for which was paid the sum of \$24,342.17.

May Day was again one of the most active stocks called and registered some quite heavy transfers, the price advanc-ing several cents. The activity dis-played is due, it is believed, to the filling of a great many shorts. Sacra-mento has held firm notwithstanding the fact that no dividends will come for a month or two. There has been some trading in Columbus Consolidated, a few brokers selling on future at prices ranging from \$1.13 up to \$1.40 n share. Few transfers were reported in the Daly stocks of Pak City. Century was bought at 39 and 40. Uncle Sam Consolidated fell a few points on today's call as a result of the fire early this

CRIPPLE CREEK CONDITIONS. Camp Has Settled Down to Normal After Late Labor War.

Cripple Creek, Cole., Sept. 22.—Four tons of pure gold will be the yield of the mines of Cripple Creek this menth. It has been one of the busicat months the camp has known in years. The ore has come out at a rate greater The ore has come out at a rate greater than was maintained before the labor troubles arose to disturb the output. In dollars the value of the September production will be fully \$2,000,000.

Not only are the mines that were open before the strike was called all yielding at their normal rates, but during the period when mine owners were unable to work on a satisfactory basis and mines were closed either because the men could not be had to take the risk of having their workmen killed or their mines blown up by the federation strikers, the leasing system received an impetus that led to the opening of many new properties and largely added to the ores available for shipment. These are now adding their production to that of the old mines now running full-handed and the result is a greater ton-

named and the result is a greater ton-nage than ever before.

It helps to show the greatness of the CrippleCreek field when after yield-ing more than \$170,000,000 in gold in the 14 years since the discovery of the deposits, it can quickly recover from the most bitter labor war in the history of agitation and make a record yield of gold on the very heel of such a contest. It goes to prove the state-ment often made but seldom given such unquestionable proof, that the work of opening mines in the district has only begun and that the life of greatness for the camp will last beyond the

Since law and order gained the ascendency over lawlessness and disor-der, Cripple Creek has presented an entirely different aspect from that the outside world is still in the main believing to exist. A more peaceful, bet-ter ordered community it would be difficult to find anywhere in our land. People are contented and prosperous: blaze. Fortunately everything that will be needed to make repairs, even to the much money is being made by mine building of an entirely new plant, is awners and lessees alike; laboring men are enjoying high wages and comfortaare enjoying high wages and comforta-ble hours. The jails are empty of all but the federation criminals left over from the period of disorder from which the camp has emerged, there is less need for policemen than there has eve

heen in the history of the activity of the section and in every way the camp is

prospering and the people happy and

contented. Not a vestige of the old trouble re-mains in camp. Echoes of it come now and then from afar and the disturbers who forced the labor fight upon the district at a time when they believed they had such perfect control of the legal and peace machinery that they could make any demand and do what they would to secure complete control of the labor market, are from a safe distance doing what they may conceive to be calculated to break up the exist-ing condition but their efforts are fruitless, and in the camp itself there are no results apparent from their work. The 4,000 men working in the mines are all non-union and of the American class that is looking ahead to advance-

## NEVADA HUMBOLDT.

Secretary Ed Copley Returns from an Inspection Trlp.

Ed Copley, secretary of the Nevada-Humboldt Mining company, operating in Humboldt county, Nevada, returned from a trip to camp today and re-ports the strike of a nice looking vein of carbonate-lead ore. The find was made in ressecut run across the conthat on the north side of Florida can-

## LIKES GOLDFIELD.

C. C. Parsons Has Returned from Making Inspection of Nevada Camp

Hon, C. C. Parsons of Denver, counsel for and associated with Samuel New-haum, is in Salt Lake. Mr. Pursons has just been at Goldfield, Nev., and prenounces it a wonder. Inasmuch as he was a pioneer of Leadville, and is fa-miliar with every mining camp in the west, his judgment ought to be good, and what he says about it will adver-

## President Evans' Statement.

President R. D. Evans of the United States Mining company has issued the tollowing statement concerning the relocated in Shasta county, California:
"The syndicate did not ask the

United States company to buy the Mammoth, but on the contrary it was only after repeated conferences and the use of all the influences which I could bring to bear that I persuaded them to let the United States company have the stock at all. The members of the syndicate took no part in the meeting of the directors and the purchase was made upon the vote of the directors who were not in the syndicate and the holders of a fnajority of the stock were consulted before the purchase was made. It was the directors who bought not the directors who sold must alone be criticized if there is to be any criticism and I believe that within one year all of the directors will be praised for this action.

## COLUMBUS CON. EQUIPMENT HERE.

Supt. A. O. Jacobson Says New Mill Will be in Operation Very Soon.

### WITHIN THE NEXT TWO WEEKS

All of the Delayed Electrical Devices Now Eu Route-Con. Alta Activity.

Supt. A. O. Jacobson of the Columbus Consolidated mine of Alta arrived in the city last night and reports that, with the exception of the delayed transformer and motors, all the equipment of the new mill is on the ground and today word was received that the latter had been shipped, so it is figured that the plant can be placed in commission within the next two weeks.

The electric coils, which burned out during a late storm in Little Cottonwood canyon, and which put the power plant out of comission, have arrived, and are now on the road between the city and the canyon. The coils will be installed tonight, and everything will be in running order by tomerest. be in running order by tomorrow.

On the way down, Mr. Jacobson saw On the way down, Mr. Jacobson saw a corps of surveyors running a route for the Continental-Alta aerial tram-way, to operate between the mine and mill, now under construction at Tan-ner's flat. He says the Continental-Alta company is pushing work right along, and is employing a large force of men.

### HYDRO-CARBON MINING.

Interesting Developments Being Made at Soldler Monument.

Special Correspondence.

Provo, Sept. 23 .- Considerable attention is now directed to the mining of ozokerite in the neighborhood of Soldier Summit, where the Summit Placer company has been conducting extensive operations for the past year. Other deposits of the valuable hydro-carbon have been discovered at Colton, few miles east, and several deeds have been recorded with the county recorder here transferring the right to hydro-carbons and other minerals under Col-ton real estate to Mark P. Branet of Scoffeld, the owners retaining the right to the surface accounts.

to the surface property.

Jas. A. O'Brien of Eureka has transferred to John T. O'Brien for a consideration of \$1, an undivided one-eighth interest in the Grant Nos. 1 to 5, mining claims in Tintle mining district.

### THE GOLDFIELD RUSH.

Travelers Must be Satisfied With Such Accommodations as They Can Get.

The rush to Goldfield has been so great for the past six weeks that travelers have to engage their stage passage for days ahead, even with the increased number of stages on the route, says the Tonopah Sun. It is very difficult even to hire livery teams to secure accommodations of any

Sleeping accommodations at Goldfield are very hard to secure. Lodging house people are ready to build but have been handicapped by lack of lumber. That commodity is commencing to be purchasable at last and building is starting once more. The result is that a large number of carpenters are now getting employment, though as many or probably more are

#### TINTIC ORE SHIPMENTS. Mines of Camp Sent Out 102 Car Loads During the Week.

Special Correspondence, Eureka, Sept. 24,-The ore shipments from Tintic district for the week end-ing Sept. 23, amounted to 102 cars, disributed among the following produc-ers: Mammoth, 10: Grand Central, 5: Bullton-Beck, 7: Gemini, 31: Centen-nial-Eureka, 21: Eagle & Blue Bell, 8; Star. Con., 3: South Swansea, 1; Godiva, 6: Yankee Con, 6: Uncle Sam Con., 3; May Day, 1; total, 102.

Three cars of concentrates were ship-ped from he Uncle Sam mill.

## SUIT OVER STOCK.

Golden Star Company Named as Defendant in Action Filed Today. Edward McGurrin filed suit in the

district court today against the Golden Star Mining & Milling company to compel defendant to issue to him a cerificate for 500 shares of its stock sold by Fred T. McGurrin to the plaintiff. It is alteged that plaintiff purchased the stock on Nov. 9, 1903, and on numerous occasions requested that a new certificate be issued to him in lieu of the one made out in the name of of the one made out in the name of Fred T. McGurrin, but that the defendant has refused to do so and has removed its certificate book and seal from the state and they are now in defend-ant's custody in Chicago, Ili. Judg-ment is asked that the company be compelled to return said books and seal to this state and that it be compelled to issue a certificate to plaintiff for the 500 shares o stock and that plaintiff be awarded \$1,000 as damages,

## MINES OF BINGHAM.

Important Developments Made on the Valentine Group.

Manager J. W. Cairnes of the Valentine C. & G. Co. is quite elated over developments at the company's claim, opposite and near the Bingham hotel. He has a carload of ore out, which will go to market as soon as it can be hauled There were various opinions as to the

character of the ore, which deceived a number of good judges. Mr. Cairnes had a picked sample tested a few days ago and it was found to be gray copper carrying 32 per cent copper, \$15.20 gold, 18 ounces silver and 48 per cent fron-value \$84 per ton. The Valentine vein is about 11 feet ebtween walls and has an ore streak that varies from 14 inches to 2 feet wide. It is blieved product from development work will pay all expenses from this time.

As the Valentine is a most promising proposition the Bulletin is proud of having suggested the name of its adoption, and would treasure a smal block of the stock should one happen to drop

Cottonwood gulch. Work has begun on a twostory board-nghouse, dimensions 20x14 feet, for the Utah-Apex company, at the mouth of Audy tunnel. This means that the

Andy turnel. This means that the mine intends increasing its winter operations, and incidentally that its road is to be kept open for ore haulers.

A great and important undertaking will be the proposed Utah-Apex tunnel, to be run 3,000 feet and open up the company's group of mines at great depth besides effording drainage and hands outlet for products. Such a tunhands outlet for products. Such a tun-nel would cut a number of fissure and bedded veins that upper workings have proved to be rich with ore.-Bulletin.

Aropeen and Leetham claims, at head

#### CONCENTRATES.

George Z, Edwards has gone to Deep Creek on mining business

Manager Whitley of the American Smelting and Refining company is ex-pected to return from New York early next week

James J. Chambers, who is interested in the promotion of several electric power enterprises in this state, has arrived from New York.

Work has been resumed at the Mel-cher mine in Cassia county, Idaho. This company is driving a long tunnel to top the ore hodies at depth.

The Utah Copper company received settlement yesterday for a car of concentrates and for another today; controls showing 35 per cent copper. J. A. Jacobson, manager of the South Columbus mine at Alta, will leave to-night on a trip to Tenopah and Gola-field. He expects to be absent two

months. It has long been runnied that there were a number of desperate men at the new camp. The words of the detective tend to corroborate that report.—Tono-

The parties who held a lease on the Manning mill and tailings dump, belonging to the Con. Mercur company. have thrown up the sponge and Man-ager George Dern is operating the plant on the company's account.

Datective Thacker, of the Wells Fargo Express company, was at Goldfield this week and stopped here on his way He never forgets faces and declares that he recognized that num-ber of former bad men on his brief

A copy of the articles of incorpora-tion of the Utahna-Goldfield Mining company of Ogden was filed in the of-fice of Secretary of State Hammond today. Its capital stock is \$2,500, divided into shares of the par value of \$50 each. O. A. Kennody, secretary and treasur-

Word has been received from Dr. Franklin that the affairs of the Gold Development company and the Log Cabin company have been satisfactor-ily arranged and that he will soon be out here with plenty of money to re-new active operations on the properties,-Richfield Reaper,

Capt. H. C. Lowrence of the Seyler mine is spending a few days in Rich-field this week. Richard Williams, one of the old-timers at the Sevier and an employe of Capt, Lawrence 30 years ago in Colorado, is with him. The captain says that he expects to make Richfield a sort of headquarters from now on.—Richfield Reaper.

S. L. Butler, manager of the Carazal Gold Mining company, operating on the west coast of Old Mexico has placed an order for equipment with Fred C. Richmond, general sales agent of the Salt Lake Hardware company The order included a powerful hoisting engine together with sinking and stapumps A thirty horse shipped yesterday. A thirty horse power hoist was sent out to the Columbus Consolidated mine at Alta during

Though Tonopah subscribed \$2,500 to help pay for the Nevada exhibit at the world's fair and other cities made guarantees in proprtion, none of the money has been paid in and the state building is being kept open from the private purse of Commissioner James A. Yerington. How long he will con-tinue to pay the expenses is not learned but it is not likely to be much longer. These facts were given to The Sun last evening by E. B. Yerington, who arrived in the city yesterday morning. E. B. Yerington is general passenger agent for the Virginia & Truckee rallway .- Tonopah Sun.

## BUSINESS NOTES.

A very healthy feeling has been evident in local stock effices during the week, on account of the dividend records made by several leaders in the list. The principal event of the week was the announcement of the regular dividend of 4 per cent, and an extra 2 per cent on Z. C. M. I. stock, payable Oct. 15. This is the seventieth disbursement the institution has made to its stockholders, and the amount is over \$60,000. The Deseret Savings special dividend of 5 per cent was another factor which contributed to strengthen the situation. The transfer books for The Utah Sugar company's preferred stock close tonight, after which time the stock will be quoted ex-dividend. Nearly all the stocks disburse regular divi-dends either at the end of this month or the beginning of next. Utah com-mon is in good demand at 33.20, but brokers report the stock as being some-

The sugar factories at Lehl, Ogden and Logan are now running to their capacity, and the others will start up within the next week or 10 days. All the intermountain country is now sup-plied with the product of the local and Idaho factories, and much of it is sent to the Missouri river.

#### LOGAN FACTORY STARTS. Amalgemated Co's Plant Opens With Good Prospects Ahead.

(Special to the "News.") Logan, Sept. 24.—The Logan sugar factory began operations this morning. There has been a delay of several days in starting owing to the slowness of the farmers in digging beets and to a scarcity of cars. The factory has on hand 500 tons of beets and it is expected that the receipts will increase daily until the factory will be able to run to its full capacity. The crop is a very good one and the farmers so far are well pleased with the outlook, and are preparing to increase the acreage

next season.

There has been a number of improvements about the factory this season and everything is in good shape for a long season's run. Three cottages have been erected for the convenience of officers at the factory. F. G. Taylor is superat the factory. F. G. Taylor is super-intendent, James Geddes and Mr. Mc-Farlane foremen, while Joseph Quin-nsy and Bert Robinson will have charge of the clerical department. There are 150 men employed and the payroll will be nearly \$8,000 per month. The run last year began Sept. 17 and ended Jan. 1, and it is now expected that the run this season and the output will be longer and larger than they were last

Z. C. M. I.

Bryan to Stump Montana.

Tapestry Curtains at Cost.

Butte, Mont., Sept. 23.—William J. Bryan will make a speaking tour through Montana in the interest of the Democratic national ticket before the end of the campaign. National Committeeman C. W. Hoffman today received a letter from Tromas Taggard, chairman of the national committee to that effect. The date of Mr. Bryan's visit is not given. When Senator Clark went east a short time ago he promised to make every effort to get Mr. Bryan to speak in Montana and the promised visit is understood to be largely due to his efforts.

## EXCITED TRADING IN UNION PACIFIC.

## U. S. STEEL IN BIG DEMAND

Prices Held Well Until Appearance of Bank Statement, When They Vielded.

New York, Sept. 24-The trading in Union Pacific and United States Steel preferred teday was somewhat excited but the interest in the general stock market was languid. There were generally small gains of little dealings. A hundred shares of United States Steel preferred sold at 67%, followed by 4,000 shares on quotations of from 68 to 68%. Last night's final price was 67%. There were also 4, 

day's closing.

Lat a buying was discontinued but prices were well held, until the appearance of the bank statement when they yielded slightly. There were gains of 1 to 1½ for Rock Island preferred, Toledo, St. Louis & West preferred General Electric, Consolidated Gas, Pump and Pacific Mail. Metropolitan Securities lost 2% and Metropolitan Street Rallway 1%. In the general list gains were about wiped out and Union Pacific declined a large fraction. The closing was slightly irregular.

large fraction. The closing was slightly irregular.

# TRADE EXPANDS AS CONFIDENCE GROWS

Harvesting Has a Good Effect While Mercantile Collections Are Much Better.

IMPROVEMENT IS CENERAL

All Departments of Manufacture Are Included-Railway Earnings For September Larger.

New York, Sept. 23.—R. G. Dun & Co,'s review tomorrow will say; "frac; expands as confidence increases with the harvesting of the crops and mercantile collections are less tardily mer Lower temperature stimulates the de mand for fall and winter wearing ap. parel, and there is more disposition prepare for the future rather than t confine operations within the limit immediate requirements. This improve ment is extended to all departments of manufacture, and in the aggregate there is less idle machinery than at any recent date. Settlements of labor dis putes have helped in the development

of this favorable condition. "Railway earnings for September were 5.7 per cent larger than a year ago, and foreign commerce at this por for the last week shows a gain of \$2.92 for the last week shows a gain of \$2.92. 687 in exports, as compared with 169, although imports decreased \$714,750. The is erracic in response to London quotations rather than any domestic influence, but copper is strong because of heavy exports. Increased activity at the mills has helped to su tain the eastern markets for wool and brisk competition at the London auxilion sale was also a factor of importance. was also a factor of importance. "Firmness continues

hides, independent tanners making the eral purchases. Large sales of branded and Colorado hides are recorded and there is the usual concession on hides taken off during the strike by inexpenenced men. Country hides are wesker, but receipts of foreign dry hides are quietly absorbed. "Failures this week aggregated 23 in the United States, against 232 last year and 30 in Canada, as compared with 19 a year ago."
