### DEATH AT THE LAKE.

Dr. R. H. Elam, of Pioche, Dies While Bathing.

About six o'clock last evening coniderable excitement was caused at Garfield Beach by the death of Dr. R H. Elam, of Pioche, Nevada. The doctor was bathing, and was endeavoring to float, when some of the other bathers observed that he acted as if he had been sefzed by a fit. Several of them hastened to him, he was removed to the beach, where Drs. Richards and Bowers and others rolled him on a barrel, rubbed his hands and feet, etc., but without being able to resuscitate him. In fact he had been stricken with death while in the water. While the efforts to revive him were being made, no water came from his stomach, so that it was apparent he has swallowed little, if any, and that

it was not a case of drowning. When it was ascertained beyond all doubt that Dr. Elam was dead, the body was properly taken care of, and the coroner sent for. In a cople of hours Justice of the Peace Joseph Griffiths. of Mill Precinct, came and summoned H. J. Faust, T. S. Gardner and T. J. Wilcox as jurors, and an inquest was preceded with.

### L. D. Watson's Escape.

Deputy Cannon returned from the south yesterday, feeling rather crestfallen, the cause being that Lorenzo D. Watson, whom he had in custody, and was taking to Beaver, had escaped from him at Deseret. They had been riding about eight hours in the train, and during that time Mr. Watson had several times gone to the water tank of Plain City, Utah. E. F. Martin, of felt uneasy at being presented before Judge Boreman, who, he said, was so vindictive that he would be unsparing, as Mr. Watson

was a "Mormon," and was accused of having lived with his plural wife. He said he was not particular about the single charge of unlawful cohabitation, but did not want the charges doubled up on him, as he expected would be the case.

Mr. Watson gave the officer no as surance that he would not endeavor to get away. When he asked permission to get a drink, Deputy Cannon, who was but five or six feet away, kept an eye on him. The train was going at about fifteen miles per hour, and as it was dark, being nearly midnight, the officer did not think a jump from the train would

cup down, he sprang through the car door, closing it after him, and leaped gone, at the same time drawing his pistol. He was stopped for an instant by the closed door, but opened it and jumped from the train, not more than two seconds after his prisoner had made the leap. The officer was thrown to the ground with great force, and dropped his revolver. He get up, but could see no trace of Mr. Watson. He then groped around for his weapon and succeeded in finding

### ARM CRUSHED.

Meets with an Accident.

Yesterday Mr. B. B. VanDeusen, mining engineer, who resides in this city, met with a serious mishap at Alta, Little Cottonwood Cshon. He had been engaged in superintending the construction of concentrating works for the Emma mine, and had got everything in order and was about to start for Salt Lake. He was going about taking a final glance at the machinery, when he placed his right hand in close proximity to the wheels. His fingers were caught by the cogs, his hand drawn in, then his arm the engineer to stop, and at the same time held back with all his strength to prevent his body being drawn into

arm could be liberated. A telegram was sent to Dr. Pinkerton to come down on the B. & R. G W. with a special. Mr. VanDeusen then left Alta and came by rail to Saudy, where the surgeon had arrived. Mr. VanDeusen was given such attention as could be at that place, and was then brought on to this city and taken to the hospital, where his right arm was amputated just below the elbow. He was doing as well as could be expected today, and it is anticipated that in a few days he will be able to be

removed to his residence.

"She." Tomorrow evening at the Theatre, the Webster-Brady Company open a two nights and a matinee, with the strong military drama "Lynwood, or the Blue and the Gray," founded on indidents in the late civil war. The same play will be repeated on Saturday afternoon, and on Saturday evening the company will render the original version, by Wm.A. Brady, of "She." The company carry scenery, calcium lights, etc., and give a fine presentation of this remarkable spectacular piece. Mr. Brady is the author of the spectacular version of "Faust," presented

in this city about a year ago, which was very favorably received.

This company promise a presentation of "She" greatly superior to that given at the Theatre a few weeks ago.

### Accidents.

Byron Doolin, son of John P. Doolin, of this city, met with an accident on Sanday last which resulted in the loss of his left hand. He and a number

slipped and he fell across the saw, his hand resting in front of the saw, which severed the hand almost entirely from the wrist, the hand being held only by the skin. The party came at once into town, to Dr. Simmons, who sent for Dr. Pike and it was found necessary to remove the hand. The boy is doing as well as could be expected.

boy is doing as well as could be expected.

Two accidents occurred a couple of days previous to the one above reported, at a tie camp at the head of Provo river, about sixty miles from here. A twelve-year old boy was with his father, Robert Jennings of Spring-ville, engaged in cutting ties. While Mr. Jennings was sliding the ties down the mountain, the boy, unknown to his father, got in the way of the rolling logs, one at which struck the little fellow on the leg, breaking the small bone. The father heard the boy's cries, came down the mountain and at once got his team for the purpose of bringing the boy to Provo. They traveled the sixty miles, getting here the following morning. Dr. Simmons set the boy's leg.

The other accident occurring at that place was in the case of James York, Jr., a young man residing in Provo, and engaged also in tie cutting. While splitting a log the ax glanced and struck his right foot, almost severing his big toe. He came to town at ence, traveling all night, and got here on the morning of the lith. Dr. Simmons dressed the foot, and has some hopes that the toe will not necessarily have to be amputated.—Provo Enquirer.

### IDEAL BROILING.

Broiling can be done in the oven of the Charter Oak Range or Stove with the Wire Gauze Oven Door, more perfectly than over the live coals. Lay the steak, chops, ham or fish on a wire broiler or meat rack, placing it in an ordinary bake pan to catch the drippings.

Allow it to remain in the oven with the door closed 15 or 20 minutes. No turning is required. At the end of this time it will be found nicely cooked ready to serve.

THIS IS THE IDEAL WAY TO BROIL MEATS. There is no taint of coal-gas or smoke and the meats are more tender and better in flavor than those broiled over the coals. The convenience of broiling in the oven will be appreciated by every house-keeper, and adds another to the many reasons why the Charter Oak Range or Stove with the Wire Gauze Oven Door should be preferred to all others how in the market.
