Blyer of Chicago is a Visitor with Local Capitalists. President Charles E. Blyer of the Hawley Dred-Draft Furnace company of Chicago and New York arrived yesterday afternoon from the east, and is at the Knutsonford for a week. Mr. Blyer is interested in the Boston Consolidated, and is so hopeful of this city's prospects that he is proposing to establish a branch of his eastern manufacturing concern, to cost \$200,000 and employ 30 men, in this city. Mr. Blyer is a local realist, Mr. Blyer is a warm friend of Mr. Newhouse, and is being courted over the city by the Knutsonford General Manager Bancroft and G. S. Holmes. He says one reason for making Chicago the headquarters of the factory in Salt Lake is because it costs \$1.25 per cwt. to send furnaces west from Chicago, which amounts to great losses in the cost of a year. The factory in Salt Lake is being built to manufacture power plant furnaces, copper and silver furnaces, boiler furnaces and purifiers. Blyer holds that Salt Lake should cater to its manufacturing interests, which promise to become the life of the city. REPORT ON SCHOOLS FILED. State Supt. A. C. Nelson Says Growth in All Lines Has Been Rapid. The report of State Supt. of Public Instruction A. C. Nelson was filed with Gov. Egan yesterday, and shows among other things gratifying, that the growth of public educational institutions has been very rapid and substantial during the past two years, the time covered by the report. Supt. Nelson makes a strong recommendation in the matter of expenditures, will better serve the interests of the people. One way of securing some of the surplus cash on hand, which Mr. Nelson recommends, is in the building of new and better school buildings. Higher salaries to teachers is also recommended, especially in districts whose geographical position makes them hard to supply with competent teachers. Many of these, says the report, are hard to get, and the salary of \$100 a month, with an increase of \$100 a year, is not likely to get the best teachers. An increase in the salary of county superintendents is also a further recommendation of the report. Expert Kodak Finishing. Harry Shipley, Commercial Photographer, 151 South Main, second floor. BREWERY WORKERS ENTER PROTEST. They Are Told by A. B. Edler That Prohibition Steals Their Liberty. REFERRED TO FEDERATION. This Body Places Resolution With Its Committee on Legislation—Its Policy Still in Doubt.

Both 100 members of the United Brewery Workers met at Federation hall yesterday afternoon to inaugurate a system of opposition to the prohibition movement. The organization is in three divisions, brewers, bottlers, and drivers, and the majority present were young men. A lengthy argument against prohibition and local option was made by A. B. Edler. He took the ground that for the state to attempt to dictate as to whether or not a man should conduct a saloon was a curtailment of freedom and liberty, and to make it impossible for men to purchase intoxicating liquor if they wanted it was an injustice. Education, he said, would effect what restraint may be needed and prohibition never would. The gist of his two hours' argument was that prohibition would take from large numbers of men remunerative employment. The speaker by the main to secure signatures to a petition and protest adopted at the meeting. The resolution was addressed to the legislature, asking that no laws in violation of the union interests be passed. The resolution was signed by the following: J. Beckel, John Armstrong and Anton Lichter, David Lewis, James Miller and J. W. Smith, Oscar Phirman, W. H. Harrison and A. H. Lavesey. FEDERATION MEETS. At a meeting of the Salt Lake Federation of Labor, held at the society's hall last night, officers were elected for the ensuing year, and various subjects of importance were discussed. The resolution against prohibition, adopted by the United Brewery Workers during the afternoon, was brought to the attention of the federation, and the same was referred to its committee on legislation. Considerable difference of opinion developed among the members as to the stand the federation should take on the prohibition movement. The question will have sympathizers on both sides. Following are the officers and committee chosen last night: President, A. H. Niece; vice president, W. F. Ramsey; secretary, A. H. Hurt; treasurer, M. Shuman; sergeant-at-arms, Ray Hughes; legislative committee, W. D. Robins, P. A. Ebert, J. Beckel, H. E. Currie, A. E. Harvey; organization committee, L. J. Shilley, J. R. Currie, Karl Ostby, H. N. Lieberthal, W. H. Bailey; arbitration committee, Otto Vissel, Karl Ostby, W. H. Bailey. COMMERCIAL CLUB HOLDING ELECTION. William J. Halloran is Spoken of as Sure to Be Returned to Presidency. From 12 o'clock noon today until 8 o'clock p. m., members of the Commercial club who drop in at the club rooms will cast ballots for members of the board of governors. Little interest centers in the election as there is no "rump" ticket in the field opposing that selected by the club's nominating committee. The ticket put up as follows: Directors for three years—A. J. Halloran, William Egan, Samuel W. Harry P. Clark, and Joseph E. Caine. Director for two years—H. L. A. Culmer. Next week the board of governors will assemble to elect officers, and it is believed that those at present serving will be returned to office. Who as the outcome of today's Commercial club election is certain to be chosen for a third term as the club's president. Halloran was first selected president when the club's building plans were being drawn up. His second term commenced when plans were maturing to finance the scheme for the new home. At this time the most important issue ahead is the completion of the structure and arrangement for a big house warming just after "moving day." The presence of only the administration ticket at today's election means the endorsement by the club members at large of the work of the past year. There are now over 700 members of the Commercial club. A total of 1,000 is wished within the year, and Joy H. Johnson, chairman of the membership committee, is confident that this total will be reached. CASTIGATES DAME FASHION. Rabbi Levy of San Francisco Speaks Plainly About Shabby Worship. Rabbi Levy of San Francisco spoke last evening, in the Jewish Temple in this city on "Society's Shabby Goddess, Fashion." In the course of his remarks, the rabbi said: "Society is in greater part dominated by the shabby goddess, Fashion. Many, if not most, of the domestic and moral evils and ills originate in the goddess fashion. All places, from the finest residence districts to the lowest slums, are affected by fashion. We allow ourselves to become honorably corrupted for the sake of outward appearance. We see hundreds of young men looking to this goddess and asking to be permitted to worship at her shrine. They are becoming slaves rather than free men, all because of fashion. The expression, 'It's fashionable,' is the cause of a book becoming popular, of a certain section of the city becoming the select spot, and it is the excuse offered for the infraction of the higher laws. From the besting to a certain end, fashion is only a sham and its depth is only to satisfy a selfish mood.

My object in speaking to you tonight is to impress upon you the necessity of giving some moments to the real problems of life and to put aside the vain and empty concerns of the goddess of fashion. Jewish life is sincere in its objection to modern fashion. Fashion is shown something to be avoided. It made for evil instead of for the uplifting of society. The five senses, sight, hearing, smell, taste and touch all go toward fashion, and the eyes always see the evil of fashion rather than that which should be taken into the soul through the eyes. Fashion is a shabby goddess which should not be worshipped as it is today. When men go wrong, when certain places are permitted to exist when the higher laws are violated, the excuse is always given that it is fashion which was responsible. Jews are slaves to fashion instead of free men. From Alpha to Omega, fashion is invariably a sham, and it is something to be avoided rather than contemplated."

ENTERS HIS NINTH YEAR. "Faron" Simpkin May Look Back Over Eight Years of Good Work. It would not perhaps be a mistake to say that tomorrow is the anniversary of the birthday of Philip's Congregational church in this city. Eight years ago, coming Sunday, that church was re-generated and revitalized when Rev. Peter A. Simpkin became its pastor. He at once won the hearts of his congregation. One of the foremost benefactors is "Faron" Simpkin, a man who is commonly known in the church and out of it. He is always busy in a good cause, has a pleasant smile for the face of his pastor, he has the good will and wishes of every man, woman and child who has his acquaintance.

BIDS FOR BRIDGE RECEIVED. Board of Works Will Probably Award Contract Monday. Both the Midland Bridge company and the Minneapolis Steel & Machine company want the contract to be awarded Monday, for the construction of the Jordan river bridge, and according to the other bids received at closing time yesterday, the board of works will in all probability award it. The bids received are mostly for the construction of steel structures, but one or two bids for concrete work made their appearance, but it is believed the price for this construction will be too high for consideration, the lowest bid being \$5,587. The bid of the Minneapolis Steel & Machine company for a steel bridge, with two sidewalks, calls for \$4,486. That of the Minneapolis Steel & Machine company of Minneapolis, is for \$4,975. Numerous other bids for the bridge, but all were considerably higher than the two quoted. In the Midland Bridge company, through a clerical error in copying the bids, a mistake was made in the figures for a bridge with no sidewalk and for a bridge with two sidewalks, its bid for this last structure being \$3,790. The Minneapolis Steel bid for the same sort of bridge was \$3,590.

AUDITORIUM OPENS MONDAY. The Investigating sport of roller skating will again be among the local attractions when the Auditorium rink on Richards street will be opened for the season on Monday evening, under the management of the "Ogdon" rink. Since Thursday morning there has been a large force of men and women at the rink, and the building is ready for the first session of the popular pastime. Mr. Ogdon closed the Ogdon rink and opened the Auditorium at the request of a large number of prominent Salt Lake people. The rink will be open until Decoration day.
